

Nephra-Zyme™

For Healthcare Professionals Only

Nephra-Zyme™ supplies vitamins, minerals and botanical components with Glutathione, providing support for healthy renal function.

Nephra-Zyme™ is a vegetarian product containing vitamins, minerals, anti-oxidants, and botanical herbs that are known to support kidney functions. The kidneys are responsible for the excretion of most metabolic end products, maintaining concentrations of the constituents of bodily fluids, and maintaining pH balance. Each kidney contains approximately 1.2 million nephrons (the functional units of the kidneys) and together are capable of filtering approximately 200 quarts of blood and producing approximately 2 quarts of urine on a daily basis. The contents of concentrated urine include metabolic waste, such as urea, uric acid, creatinine, insulin, glucose, electrolytes and water. In addition to removing metabolic waste, the kidneys release three important hormones: (1) erythropoietin which stimulates bone marrow to produce red blood cells; (2) rennin which regulates blood pressure; and (3) 1,25-dihydroxycholecalciferol, the active form of vitamin D. Kidney disease may be caused by trauma, infections, toxins, and drug use, which may or may not include some over-the-counter medications. Products that contain aspirin, acetaminophen, and other medicines such as ibuprofen have been found to be among the most damaging.

Nephra-Zyme™

Nephra-Zyme™ is non-glandular kidney support. It is designed to feed, cleanse and reduce the onslaught of free radical damage that kidneys are exposed to. By reducing oxidative stress and assisting the body to clean and drain many of the zenobiotics which are present in our chemicalized society, we can improve and maintain healthy kidney function..

Recommended dosage is two (2) tablets taken three (3) times each day with food as a dietary supplement or as otherwise directed by a healthcare professional.

Product #: 3037

NDC: 55146-03037

Supplement Facts

	Servings Per Container: 90	
	Amount Per Serving	% Daily Value
Vitamin A (as palmitate)	1,000 IU	20%
Vitamin C (as ascorbic acid)	120 mg	200%
Vitamin B6 (as pyridoxal-5-phosphate)	3 mg	150%
Magnesium (as magnesium aspartate, gluconate and glycinate)	50 mg	13%
Proprietary blend	355 mg	
Vegetable Culture †		*
Citrus Bioflavonoids (citrus fruit)		*
Uva Ursi (Arctostaphaphylos uva-ursi) (leaf)		*
Buchu (Barosoma betulina) (4:1 extract) (leaf)		*
Echinacea angustifolia (root)		*
Spanish Moss (Tillandsia usneoides) (whole plant)		*
Glutathione (reduced)		*
Cranberry Extract (Vaccinium macrocarpon) (fruit)		*

* Daily Value not established

Other ingredients: Cellulose, stearic acid (vegetable source), modified cellulose gum, and magnesium stearate (vegetable source).

† Specially grown, biologically active containing naturally associated phytochemicals including polyphenolic compounds with SOD and catalase, dehydrated at low temperature to preserve associated enzyme factors.

WARNING: Not recommended for pregnant or lactating women.
