"When your home is a collage of your travels, every day feels like vacation."  
—Designer Dan Mazzarini on this bohemian living room in Connecticut

### Cork Tiles

Why settle for a bulletin board when you could have a bulletin wall? Available in tiles or rolls, cork transforms a blank wall (or half wall) into an art gallery, souvenir display, photo collage, or anything else your kids dream up. To protect the wall behind it, mount cork on a plywood backing.
