Scallop Side Table

Mally Skok
for
DOWEL

22 years ago, a friend sent me to a big warehouse out in the sticks that sold paint your own wooden furniture. I fell in love with this little scalloped table, painted it green, and it turned out to be the best money I ever spent. It is such an unusual height. The lamp sheds perfect illumination down on your book. It has a little lower shelf for books and bowls or whatever. - Mally Skok
