Instructions for Setup

In this packet, you will find:

- Directions for 6 different card games
- 126 game cards (double-sided)
 - 24 Landforms word game cards (red)
 - 24 Landforms picture game cards (yellow)
 - 24 Landforms definition game cards (green)
 - 24 Landforms fill-in-the-blank game cards (blue)
 - 8 Skip cards (2 in each color)
 - 8 Reverse cards (2 in each color)
 - 8 Draw Two cards (2 in each color)
 - 3 Wild cards
 - 3 Wild Draw Four cards

Each landforms card matches in four ways!

Other materials you will need:

- Envelope or bag to store the game cards

Printing and laminating:

1. Print the game card pages double-sided. Printing the cards on card stock or on thicker paper will make the cards last longer.
 - I recommend that you test your printer settings with a few pages to ensure that the front and back of each card line up correctly.
2. Cut out all of the printed double-sided game cards. You may want to laminate the game cards so that they will last you for years to come.
3. Place the game cards in an envelope or bag for storage.

Game #1: The Power of One (like UNO)

Number of players: 2-10 players

Which cards to use: All of the game cards, including all Skip, Reverse, Draw Two, Wild, and Wild Draw Four cards.

Object of the game: To be the first player to run out of all of the cards in his or her hand.

Getting ready to play:

1. The dealer shuffles all of the cards and deals 7 cards facedown to each player. Each player can pick up his or her own cards to view them, but should not show them to anyone else.
2. The dealer places the remaining cards facedown in a pile in the middle of the table.
3. The dealer flips over the top card to start a discard pile beside the pile of facedown cards.
