## Heated Bat Box

SKU:B1BBHzzZZ

- Options:** Available as Heated Large Colony Bat Box (B1BBHLCZZ) or Heated Roost-Maternity Bat Box (B1BBHRMZ).
- Usage:** Mitigation for loss of roosts for crevice dwelling bats. Particularly suitable for maternity roosts of Soprano and Common Pipistrelles.
- Construction:** External grade FSC® Certified Plywood with ceramic inserts. Panels stapled together with surface sunk staples.
- Heating System:** Plug and Play operation (does not require specialist installation). Bat box fitted with temperature sensor & 40-50W pad heater. 10m long control/power cable. Temperature control unit (located inside building) enables user setting of operating temperature and includes RCD protection. 2m mains cord & plug.
- Installation:** Bat box to be mounted on walls, trees & buildings. Ideally positioned as high as possible in sheltered place.
- Access:** Removable roof (secured with 1 or 2 screws).
- Weight:** Approx. 8.1kg (Roost Maternity) or 16.2kg (Large Colony).
