GENERAL INFORMATION SHEET
EURO-RAPESEED CONTAINER WAX
(PHC 3429)

Euro-Rapeseed Container Wax is a pure white 100% rapeseed wax, blended entirely from hydrogenated rapeseed wax with no additive whatsoever. Euro-Rapeseed Wax has excellent glass adhesion characteristics and can be used as a standalone container wax or as a blend component. It mixes well with other waxes, has excellent cold and hot scent throw and is very easy to work with.

- 1.Melt the Euro-Rapeseed to 10-15°C above melting point (see product info for melting point)**
- 2.It is important to check that the wax is completely melted and transparent**
- 3.After the melting, cool down to about 45°C (+- 5°C)**
- 4.Pour the wax into the glass, tin or other container. One or two pours may be required**

Drop Melt Point	45 - 52°C
Congeaing Point	32 - 38°C
Penetration @ 25°	approx. 50 0,1mm

Supplied in solid blocks of 25 Kilos in a poly bag and carton
