

Date Prepared: **July 2016**

Revised Date: **January 2019**

LiveMoor White Beeswax Pellets (LM102)

MATERIAL SAFETY DATA SHEET

IDENTIFICATION OF THE SUBSTANCE / PREPERATION & COMPANY

1.1 Product Identification

Product Name: White Beeswax Pellets (LM102)

REACH Reg Name: Exempt Annex V

REACH Reg No: Exempt Annex V

CAS No: 8012-89-3

EC No: 232-383-7

1.2 Use of substance

Intended uses: Chemical industry, Industrial, Arts & Crafts, as raw material for further processing, cosmetics, candle making.

Uses advised against: Not recommended for human consumption.

1.3 Supplier Details

Name: LiveMoor Natural Living

Address: Unit 9a, Forresters Business Park
Estover Close, Plymouth, Devon, PL6 7PL

Phone Number: +44 (0)1752 695220

Email: info@livemoor.co.uk

1.4 Emergency Number: +44 (0)1752 695202

HAZARDS IDENTIFICATION

2.1 Classifications of the Substance of Mixture:

Does not contain any components which are hazardous according to CLP Regulation 1272/2008/EC.

2.2 Label Elements:

Does not require a hazard warning label in accordance with CLP Regulation 1272/2008/EC.

For news and updates please visit our website at www.livemoor.co.uk

2.3 Other Hazards:

PBT: This product is not identified as a PBT / vPvB Substance according to REACH Annex XIII.
Hot liquids may cause thermal burns.

COMPOSITION / INFORMATION ON THE COMPOSITION

3.1 Substances

Substance Name	CAS Number	EC Number	REACH Reg No
Cera Alba	8012-89-3	232-383-7	Exempt Annex V

3.2 Mixtures

Not Applicable.

FIRST AID MEASURES

4.1 Description of First Aid Measures

General Information: Remove contaminated / saturated clothing. In case of accident or illness, seek medical advice immediately.

Inhalation: Remove the affected individual to an area of fresh air, keep warm and allow them to rest. If recovery is not rapid, seek medical advice immediately.

Skin Contact: Wash the affected parts of the body with soap and water. No emergency measures are necessary but if adverse skin effects follow, seek medical advice at once.

Eye Contact: Flush eyes immediately with fresh clean water, for at least 5 minutes whilst holding the eyelids open. No emergency measures are necessary, but if adverse eye effects follow, seek medical advice right away.

Ingestion: Do not induce vomiting. No emergency measures are necessary but if adverse health effects follow, or if large amounts are swallowed, seek medical advice.

4.2 Most important symptoms & effects, both acute and delayed

Inhalation: High concentration of vapours may induce: Headache, nausea, dizziness. May also include irritation to the respiratory tract.

Skin Contact: May cause slight irritation to the skin. Heated product may cause burns.

For news and updates please visit our website at www.livemoor.co.uk

Eye Contact: May cause slight irritation to the eyes.
Ingestion: May cause nausea.

4.3 Indication of any immediate medical attention & special treatment needed

In contact with or splashed by melted product, quickly cool the area with water.

FIRE-FIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media: Foam, Dry Chemical Powder, Carbon Dioxide.
Unsuitable extinguishing media: Water.

5.2 Special hazards arising from the substance or mixture

Slight flammability hazard when exposed to heat or flame. During a fire, toxic gases (carbon monoxide, nitrous gases) may be generated by thermal decomposition or combustion.

5.3 Advice for firefighters

Only suitably trained personnel should attempt to tackle fires. Breathing apparatus and protective clothing should be worn. Do not remain in the immediate vicinity without respiratory protective equipment and protective clothing.

ACCIDENTAL RELEASE

6.1 Personal precautions, protective equipment & emergency procedures

For non-emergency personnel: Wear suitable protective clothing. See section 8. Stop leak if safe to do so. Remove sources of ignition.

For emergency responders: Wear suitable protective clothing and breathing apparatus. See section 8. Stop leak if safe to do so. Remove sources of ignition.

6.2 Environmental precautions

Water may be used to flush spills away from sources of ignition. Prevent spreading by damming. Do not allow the product to enter public drainage systems or an open water course. Avoid release to the environment.

6.3 Methods & material for containment and clean up

Containment: Stop leak if safe to do so. Use damming system to prevent spreading.

For news and updates please visit our website at www.livemoor.co.uk

Cleaning up: Use sand or active clay to absorb spilled substance and remove to containers for disposal. When in liquid state, cool and allow to solidify.

6.4 Reference to other sections

See sections 8 and 13

HANDLING & STORAGE

7.1 Precautions for safe handling

Recommendations: Handle in accordance with GMP and safety procedures. The molten product can cause severe burns. Use molten product in well ventilated areas. Use personal protective equipment (PPE) as required.

General advice: Do not eat or drink in immediate vicinity. Wash hands after use. Remove any contaminated clothing before eating or drinking.

7.2 Conditions for safe storage including any incompatibilities

Keep material sealed, dry and out of direct sunlight. Avoid heat and ignition sources. Store in original containers or other high-density polyethylene containers which are sealable and clearly labelled. Clean up spilled material immediately.

7.3 Specific end use(s)

No data available

EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control Parameters

TWA TLV (ACGIH):	No data available
DNEL:	No data available
PNEC:	No data available
PEL:	No data available
REL:	No data available

8.2 Exposure Controls

Appropriate engineering measures: Facilities storing or utilising this material should be equipped with an eyewash facility.

For news and updates please visit our website at www.livemoor.co.uk

Eye protection:	Wear appropriate eye protection with side shields (EN166)
Skin protection:	Use impervious gloves (EN374). PVC is suitable for casual contact. If direct contact for more than 2 hours, then Neoprene or Nitrile gloves recommended.
Respiratory protection:	Inhalation of the vapour, fumes or mists should be avoided by safe working practices and good ventilation.
Thermal hazards:	Thermal hazards only applicable when material is heated. Use appropriate heat resistant gloves.
Environmental Exposure Controls:	See sections 6, 7, 12 and 13.

PHYSICAL & CHEMICAL PROPERTIES

9.1 Information on basic chemical and physical properties

Appearance:	Liquid (at elevated temperature) Solid (at ambient temperature)
Odour:	Typical
Odour Threshold:	No data available
pH:	No data available
Melting point/Congelation point:	50-70°C
Initial boiling point / range:	No data available
Flash point:	>150°C
Evaporation rate:	No data available
Flammability (solid, gas)	No data available
Explosion Limited:	No data available
Vapour pressure:	No data available
Vapour density:	No data available
Relative density (at 20°C)	~0.97 g/cm ³
Solubility in water:	Insoluble
Solubility in other solvents:	No data available
Partition coefficient n-octanol/water:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Viscosity (Kinematic, at 120°C):	<50mPas
Explosive properties:	No data available
Oxidising properties:	No data available

For news and updates please visit our website at www.livemoor.co.uk

STABILITY AND REACTIVITY

10.1 Reactivity

Not reactive under normal storage and handling conditions (see section 7). May react with strong oxidising agents, especially at high temperatures.

10.2 Chemical stability

Stable under normal storage and handling conditions.

10.3 Possibility of hazardous reactions

No hazardous reactions are expected to occur under normal storage and handling conditions.

10.4 Conditions to avoid

Extremes of temperature (preferably, store between 5 and 39°C). The product is combustible when heated >300°C.

10.5 Incompatible materials

May react with strong oxidants (e.g. chlorates, peroxides).

10.6 Hazardous decomposition products

Thermal decomposition or incomplete combustion may produce carbon monoxide, nitrous gases and irritating fumes.

TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

This mixture does not meet the criteria for classification in accordance with Regulation No: 1272/2008/EC.

Acute toxicity

Oral: LD50 > 2000mg/kg

Inhalation: No data available

Skin Corrosion/irritation

Not classified as corrosive/irritant to skin – based on available data, the classification criteria are not met.

Serious eye damage/eye irritation

Can cause slight to moderate irritation.

For news and updates please visit our website at www.livemoor.co.uk

**Respiratory or skin sensitisation**

Not classified as a respiratory or skin sensitiser – based on available data, the classification criteria are not met.

Germ cell mutagenicity

Not classified as a germ cell mutagenic or carcinogenic – based on available data, the classification criteria are not met.

Reproductive toxicity

Not classified as a reproductive Toxicant – based on available data, the classification criteria are not met.

- **Specific target organ toxicity – single exposure**

Not classified as a specific target organ toxicant (single exposure)

- **Specific target organ toxicity – repeated exposure**

Not classified as a specific target organ toxicant (repeated exposure)

Aspiration hazard

Not classified as presenting an aspiration hazard – based on available data, the classification criteria are not met

Likely routes of exposure

Skin / eye exposure – no adverse health effects expected.

Symptoms related to the physical, chemical and toxicological characteristics

- **If swallowed**

Diarrhoea, gastrointestinal complaints

- **If Inhaled**

No data available

- **If on skin**

No data available

Delayed and chronic effects from short and long-term exposure

No data available

Other information

No data available

ECOLOGICAL INFORMATION**12.1 Toxicity**

Not classified as hazardous to the aquatic environment according to 1272/2008/EC

12.2 Persistence and degradability

Insoluble in water – can be separated from water in suitable effluent treatment plants.

For news and updates please visit our website at www.livemoor.co.uk

12.3 Bioaccumulation Potential

No data available

12.4 Mobility in soil

Non-volatile and absorption into soil solid phase not expected.

12.5 Results of PBT & vPvB assessment

Not identified as a PBT/vPvB Substance according to REACH Annex XIII.

12.6 Other adverse effects

No data available

DISPOSAL CONDITIONS

13.1 Waste treatment methods

Treat in accordance with EU directive 2008/98/EC. Transport to authorised waste location or incinerate under controlled conditions (EU Directives 2008/76/EC and 1999/31/EX apply). Do not dispose to drains or sewerage systems.

TRANSPORT INFORMATION

14.1 UN number

Not classified

14.2 UN Proper shipper name

Not classified

14.3 Transport Hazard Class(es)

Not classified

14.4 Packing Group

Not classified

14.5 Environmental Hazards

None

14.6 Special Precautions for user

None

For news and updates please visit our website at www.livemoor.co.uk

- 14.7 Transport in bulk according to Annex II of MARPOL73/78 and the code**
Not classified

REGULATORY INFORMATION

- 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

EU Regulations: Regulation [EC] 1272/2008 including amendments
Regulation [EC] 1907/2006 including amendments (EC 2015/830)

- 15.2 Chemical Safety Assessment**

The supplier has not performed a chemical safety assessment of this substance.

OTHER INFORMATION

Indication of changes: All sections revised according to regulation [EC] No. 1272-2008 [CLP] in preparation for the 1st June 2015 deadline.

Revision No. 2 – Additional product names added in (section 1)

Abbreviations & Acronyms:

ACGIH:	American Conference of Governmental Industrial Hygienists
CAS No:	Chemical Abstract Service Number
CLP:	Classification Labelling and Packaging Regulation
DNEL:	Derived No Effect Level
EC:	European Commission
EC No:	European Chemical Number – EINECS – ELINCS
ECHA:	European Chemical Agency
EINECS:	European Inventory of Existing Commercial Chemical Substances
ELINCS:	European List of Notified Chemical Substances
ES:	Exposure Scenario
LD50/LC50:	Median Lethal Dose/Medial Lethal Concentration (respectively)
PEL:	Permissible Exposure Limit
PNEC:	Predicted No Effect Level
REACH:	Registration, Evaluation, Authorisation & Restriction of Chemicals
REL:	Recommended Exposure Limit
TLV:	Threshold Limit Value
TWA:	Time Weighted Average

For news and updates please visit our website at www.livemoor.co.uk

Hazard Statements/Precautionary Statements:

None

The information contained herein is for health and safety guidance only and does not constitute a product specification. It is, to the best of our knowledge and belief as accurate as possible.

However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by use of this material.

It is the responsibility of the user to comply with all applicable laws and regulations.
