

Exposure Control, Done Right!

Specializing in high-quality Pharmaceutical grade equipment used in Healthcare, Pharmaceutical and Biotech facilities. Our goal is to help you keep exposure under control.

User/ Environment Protection

- Neg. Pressure Workstations
- Task Specific Powder Hoods
- Nano-Material Enclosures
- Class I BSC's
- Fume Hoods
- Pathology Workstations
- Rigid Isolators
- Flexible/Disposable Isolators
- Custom Designed Systems

Dual Protection

- Class II, A2 and B2 BSC's
- Clean Rooms
- Class III BSC's
- NSF Certified BSC's
- Cytotoxic Safety Cabinets
- Pass Boxes
- Isolators
- Flexible Isolators
- Custom Designed Systems

Product/Sample Protection

- Positive Pressure Workstations
- Laminar Flow Cabinets
- Double sided Laminar Flow
- Clean Rooms
- PCR Workstations
- Down Flow Booths
- Rigid Isolators
- Flexible Isolators & Rooms
- Custom Designed Systems

Kalyx Scientific can help you save time and money on all your exposure control needs! Kalyx is a Massachusetts based value-add supplier that specializes in providing cutting-edge, high-quality products for the pharmaceutical, biotech and healthcare industries. Having the ideal containment system increases user efficiency. There is no one choice that is right for every laboratory, so choosing the right solutions for your laboratory is very important. Let Kalyx Scientific take the guess work out of it!

5 Reasons to Choose Kalyx Scientific:

One-Stop Shop: We carry all major types of containment systems. Our consultative approach will help you understand your challenges and limitations, and deliver the best solutions to overcome them.

Extensive Expertise: We have over 20 years of industry experience helping laboratories implement optimal exposure control systems. We will bring together all the key pieces from facilities and safety personnel to user requirements, to help make the best decisions.

Project Management: We will partner with you to ensure the project is completed on time and within budget. We will manage every step of the project from selection, to procurement, to installation and testing. We will also provide user training.

Cost-Effective: We will provide you the highest quality, task specific containment solution at the best value- guaranteed!

Custom Solution: Every laboratory has specific requirements. We will deliver a system that best fits your needs rather than squeezing you into one type.

Call us today for your free consultation: 1 844 525 9963!
