**Germ Away Foaming Hand Soap - Kid Friendly**

1 tablespoon Unscented Castile Soap  
3 drops of Lemon Essential Oil  
3 drops Melaleuca (tea tree) Essential Oil  
1 teaspoon Fractionated Coconut Oil  
Distilled or filtered water  
Mini Handheld Foamer Bottle (50 ml)

1) Add castile soap, essential oils and fractionated coconut oil into mini foam pump bottle, swirl to blend together.

2) Add water to fill rest of bottle, leaving enough space at top to fit foaming pump on. Shake well to mix. Label bottle with contents.

3) To use, push pump down to dispense soap and wash hand, rinse well.

**Essential Oil Tips For Recipe:**

-Cut out the picture on this recipe sheet and use for a bottle label. Attach to bottle by placing a slightly larger layer of clear contact paper over it.

-When using essential oils on skin, be sure to use only high quality, therapeutic essential oils that are safe to use topically.

-Lemon & tea tree essential oil are great for germs, but you can try different essential oils like orange, rosemary or juniper berry.

-I usually buy the unscented castile soap but you can buy scented if you so choose. Click the link below for our favorite brand to buy.
