

ANTIQUÉ MIRROR INFORMATION

BRADLEY Antiqued Mirror panels are annealed plate glass mirror panels that have been artistically enhanced to produce an aged appearance ('antiqued') in various colors and intensities. Mirror backing has been coated with an opaque paint to preserve the antiqued surface during handling and mounting.

AVAILABLE FINISHES

- Standard – available in light, medium, or heavy black patina
- Burnished Gold – available in light, medium, or heavy gold patina
- Snow – available in light, medium, or heavy white patina

DIMENSION

- Thickness: 0.25" (6.25mm) tolerance: +/- .04" (1mm)
- Panel size: any size up to 72"L x 130"L (1829mm x 3300mm)
- Cut tolerance: +/- 0.5" (12.7mm)
- NOTE: For a custom fitted paneled wall installation, it is recommended that perimeter panels are ordered oversized and cut to fit on site by a professional glazier. Field templated dimensions are not guaranteed for fit.

WEIGHT

- 3.5 lbs/sqft (17.1 kg/m²) [frameless un-backed mirror only]

STORAGE/SHIPPING

- Storage temperature: 0° to 125°F (-18° to 52°C) Conditions: humidity 20% to 80% RH

MOUNTING OPTIONS

- Mirrors can have iron or wood frames custom fabricated to fit any size or shape
- Panels can be backed with a plywood substrate for added structural support and cleat mounting
- Frameless and non-backed panels can be attached directly to sheet rock, plaster, or masonry walls with a suitable mirror mastic adhesive such as CRL Gunther Premier Mirror Mastic or equivalent.

WARNING

- Always consult with your professional glazier contractor and adhesive manufacturer before attaching Antique Mirror panels to any surface.
- Mounting Antique Mirror panels directly to ceilings is not recommended.
- Mounting Antique Mirror panels directly to walls or other surfaces with double-sided adhesive tape only is not recommended
