

Liberty Pumps®

Pro-Series Accessories

Passes 10' stack test when installed
with a 370-380XL system

X8, X8-D

8" Basin Extension

Sealed basin extension increases PRO-Series height by 8", allowing longer pitched pipe runs to the inlet connection.

Model X8 Fits both PRO370 and PRO380-Series Simplex Systems

Model X8-D Fits PRO680 Duplex Systems

Basin extensions include gasket, stainless steel hardware, longer QuickTree® for float mounting, and discharge pipe extension.

To order the extension factory assembled to a PRO-Series system, add "X8" or "X8D" to model number

Examples: P382X8LE41, P682X8DXPRG101

ARC18 Access Riser

For below grade burial of pipes and electrical connections

Fits both PRO370 and PRO380-Series Systems

ARC18 Access riser and Cover

AR18 Access riser only (no cover)

AC18 Cover only

Installation Kits

Provides all the necessary components for a professional installation inside the riser. Kits include: JB-series wiring box and hardware, 2" check valve with disconnect union feature, coupling and elbow. (2" PVC piping not included.) Kits available in 2" pipe size only.
