TOTAL SOLUTIONS®

POOL CARE

ALKALINE pH UP ADJUSTMENT

Concentrated Liquid
Raises pH Without
Clouding Water

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions® • 1-800-743-6417
PO Box 240014 • Milwaukee, WI 53224 • athea.com

DESCRIPTION

This alkaline “pH-up” adjustment is the convenient liquid approach to raising the pH of pool water or neutralizing acidity. It works faster and more effectively than lime or soda ash without clouding pool or spa water.

DIRECTIONS

The amount of this product required to raise the pH depends on the water’s natural buffering capacity. Add 1 to 2 quarts directly to the pool at a point of strong agitation. Do not add to the skimmer or vacuum. Allow 15 to 20 minutes for thorough mixing, then retest the pH. Repeat addition if required.

DISPOSAL

Dispose of contents/container to comply with local/regional/national/international regulations.

Please Recycle.
