## DESCRIPTION

This premium silicone emulsion protects all types of rubber tires against checking, dulling, fading, cracking, hardening, deterioration and aging.

This water based formula is easy to apply - no smudges or runs. It renews the original finish and restores the "like new" luster to rubber tires and whitewalls, and resists wash off to keep tires looking great longer. Odorless, non-toxic, non-corrosive and contains no solvents.

Also shines, renews and protects rubber and plastic bumpers, side moldings, mud flaps, and air dams.

## DIRECTIONS

Spray onto surface to be treated, and allow it to penetrate for several minutes. On higher gloss finishes, buff with a clean cloth to give the maximum luster.

## DISPOSAL

Dispose of contents/container to comply with local/regional/national/international regulations.

Please Recycle.
