Manufactured By: Total Solutions® • 1-800-743-6417  
PO Box 240014 • Milwaukee, WI 53224 • [athea.com](http://athea.com)

**DESCRIPTION**

Powerful cleaning formula capable of removing the toughest graffiti, including enamel. It does not contain amyl acetate or methylene chloride, making this product safer to use compared to other products. Use on almost any hard and non-porous surface including bathroom partitions, phone booths, brick walls, bus stops and seats, desks, wall tile, trains, aluminum siding, road signs, billboards, lockers, lamp posts, concrete, and stainless steel.

Ideal for various businesses and municipal departments such as street and sign crews, rec and park departments, school districts, sports facilities, transportation authorities, and utility and power crews.

**DIRECTIONS**

Shake well before using. Gloves are recommended to protect hands from paint and ink residue. Spray onto surface and lightly scrub in a circular motion to begin dissolving paint and graffiti. Continue to use a clean part of the cleaning rag for best results. Repeat as necessary.

When using on a pre-painted surface, initially test in an inconspicuous area to make sure paint is not removed along with the graffiti. This graffiti remover may attack certain plastics.

**DISPOSAL**

Offer empty container for recycling. If recycling is not available, discard container in trash.

Please Recycle.
