

Floating Lift Station Degreaser

#381

Degreases and Covers Odors with 100% d-Limonene

A highly-effective and all-natural solution for covering offensive odors and eliminating grease accumulation in lift stations. Made with 100% d-Limonene, this product uses a non-emulsifying formula so that it floats on the surface of water to block offensive odors. As water levels rise and fall, it coats all lift station surfaces and removes heavy grease deposits from lift station walls. Dye indicates when additional product should be added. Biodegradable formula will not disrupt biological treatment processes.

Features and Benefits

- Contains 100% natural d-Limonene to dissolve greases and deposits
- Floating formula acts as an "odor barrier" to lift stations to block offensive odors
- Dye indicates when additional product should be added to maintain efficacy
- Will not harm bacterial action in sewage treatment plants

Properties

Appearance:	Red liquid
Fragrance:	Citrus
Flash Point:	115° F
Storage (at 70° F)	Indefinite
Solubility:	Insoluble in water
VOC Content:	>90%
Petroleum Solvents:	None
Biodegradable:	Yes
d-Limonene Content:	>99%

Directions Complete directions on product label

Pour approximately ½ gallon for each square foot of water surface directly into lift station.

For circular lift stations, calculate the square feet of water surface using this formula:
 $3.1415 \times r^2 = \text{surface area}$
 $r = \text{radius in feet.}$

Ingredients

d-Limonene:
Red Dye:

CAS Number

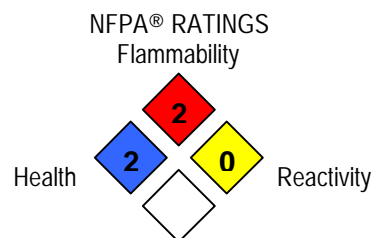

5989-27-5
85-83-6

Safety

DANGER: Flammable liquid and vapor. May be fatal if swallowed and enters airways. Causes skin irritation. May cause an allergic skin reaction.
