DESCRIPTION

This product contains a special blend of Bacillus bacteria strands, both anaerobic and aerobic. They are chosen for their ability to digest and liquefy organic waste quickly, efficiently and without odors.

The Lipase enzymes instantly break down proteins, starch, carbohydrates, animal fats, vegetable oils, and cellulose (paper), making it an extremely powerful and effective grease trap digestant.

This product is specifically formulated to rid drains, pipes and plumbing of clogs and grease accumulations without any harsh, corrosive chemicals.

DIRECTIONS**For Clogged Grease Traps**

- Dissolve 1 pound of this product in 2 gallons of warm water (85° to 100°F) prior to use.
- Let mixture stand for 1 hour.
- If trap is filled with hot water, flush with cold water first.
- Pour solution into the grease trap or nearest drain.
- Repeat every 3 days until water flows smoothly.
- Large, commercial traps may require 2 pounds of digestant.

To Maintain Clear Grease Traps

- Dissolve 1/2 pound of this product in 2 gallons of warm water (85° to 100° F) prior to use.
- Let mixture stand for 1 hour.
- Pour into grease trap or nearest drain once per week

Please Recycle.

For industrial and commercial use only.
