## **Machine Dish Detergent**

**Product # 664** 

Powdered detergent with 1% chlorine

This heavy-duty dishwashing powder features a low-foaming, biodegradable formula designed for use in large industrial dish washing machines. It combines a powerful blend of cleaning agents and 1% chlorine to guickly cut through heavy grease, food deposits and protein soils. Additional sequestering agents assure thorough cleaning of a wide variety of dishware including glass, porcelain, plastic, stainless steel, copper and earthenware.

#### Effective Against:

Grease and oil Heavy food buildup Proteins and fats Soils and stains

#### Features and Benefits

- Cuts through heavy food build-up, dried-on deposits and stubborn grease and oil.
- Cleans glass, porcelain, metal, plastic and earthenware, even in hard water.
- Meets the chlorine residual needed in the food service industry.
