- ECONOMICAL
- CLEAN AND SAFE
- VERSATILE

### KEEP OUT OF REACH OF CHILDREN

**NET CONTENTS:** One Gallon (128 fl. oz.)

Manufactured By: Total Solutions® • 1-800-743-6417  
PO Box 240014 • Milwaukee, WI 53224 • athea.com

### DESCRIPTION

This product is an asphalt release that encapsulates dump beds, rollers, tools and equipment with a molecular film that prevents sticking and adhesion of asphalt.

**USES:** Developed as an effective alternative to diesel fuel, now banned for this use by the E.P.A. Provides a thin uniform emulsion that acts like millions of ball bearings between equipment surface and the hot sticky asphalt. May be sprayed to form a heat-resistant shield that will not run off, reducing the chance of soil contamination.

**SNOW:** The product's molecular film also encapsulates snow plows and dump beds to prevent snow from sticking and causing expensive down time.

**APPLICATION 1:** May be applied manually by mixing one quart of product with 2 to 2-1/2 gallons of water and applying with a 3 gallon sprayer. Must agitate briskly to ensure good mixture.

**APPLICATION 2:** For large volume usage, use with a proportioning device diluting one part release agent with 20 parts of water.

### DISPOSAL

Dispose of contents/container to comply with local/regional/national/international regulations.

Please Recycle.

For industrial and commercial use only.
