HYDRO POWER™ CONCRETE CLEANER

Prepares Concrete for
Etching and Sealing

- REMOVES SOIL STAINS
- POWERED BY HIGH pH HYDROGEN PEROXIDE
- BIODEGRADABLE

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: One Gallon (128 fl. oz.)

Manufactured By: Total Solutions® • 1-800-743-6417
PO Box 240014 • Milwaukee, WI 53224 • athea.com

DESCRIPTION

This cleaner removes the toughest stains from concrete. Oil stains that have been in concrete for years are lifted towards the surface and easily rinsed away with water.

Using the power of hydrogen peroxide, this product is the next generation in cleaning. Specifically formulated at a higher pH than other cleaners, the hydrogen peroxide is more active, which provides better cleaning and stain removing properties. This higher pH also allows the surfactants to be more effective, ultimately giving you better cleaning performance.

DIRECTIONS

FOR LIGHT SOILS AND STAINS: Dilute with 5 parts water, allow solution to penetrate for 5-10 minutes until deposits are loosened, then rinse with clean water.

FOR HEAVY OIL STAINS AND GREASE: Use product undiluted and pour or spray directly onto stain. Allow to penetrate for 5-10 minutes until deposits are loosened, then rinse with clean water.

DISPOSAL

Offer empty container for recycling. If recycling is not available, discard container in trash.

Please Recycle.
