0 cm

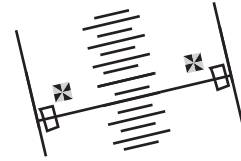

To join the two pages of this chart:

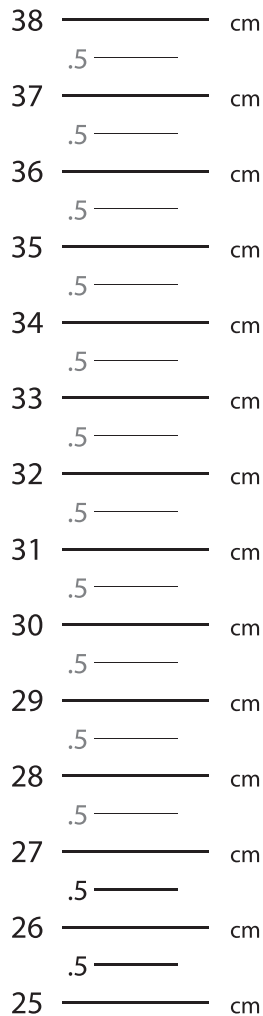

Print Both Pages at FULL SIZE (100%) on THIN 8.5"x11" Printer Paper. Do not shrink to fit the page. Test your prints by measuring the side chart with a ruler.

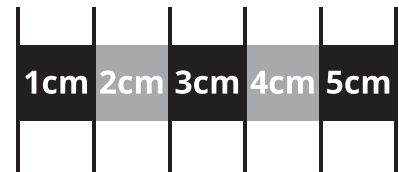

Align the first and second page using the guide shapes. If paper is too thick, use a window to see better. The 25cm marks should line up.

Trim the paper if necessary. Tape the sheets together while the shapes are aligned.

Test Your Print by measuring this with a ruler:

Don't Sweat!
