

INTRODUCING THE GUIDE TO

FURNITURE FOR TECHNOLOGY

Innovative furnishings to create inspirational spaces

POWER, STORAGE + AV SOLUTIONS

PLUTO POWER POD

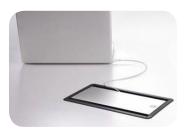

The PLUTO satisfies a demand for power and data connectivity, in informal spaces, in a way that no other module has done before.

PIXEL

The PIXEL design has been driven by the demand for small accessible but discreet unit requirements. Fitting neatly into a standard 80mm cut-out, the PIXEL takes up almost no room at all.

FUEL POWER BOX

Makes power accessible from your desk top, with a seamlessly integrated box.

PEGASUS

The compact and sleek PEGASUS is perfect for a minimalist approach to workstation design and connectivity within the classroom or office.

POWER TOWER

The Power Tower through desk unit provides access at the work surface for power, USB charging and data in a stowaway unit.

When not in use the Power Tower can be lowered out of sight. To use, simply pull up. Available in black and white.

Q1 COMPATIBLE WIRELESS CHARGING

Sits in 80mm cable port, or requires additional 80mm diameter cut out. Links to cable basket, adjoining rail, wall starter or power pole kit.

The PANDORA is a stylish, new solution providing in-desk power and super-fast USB charging to multiple users at any given time.

POWER, STORAGE + AV SOLUTIONS

GRATNELLS POWER TROLLEY

For added security, store in the lockable and compact GRATNELLS POWER TROLLEY that holds 3 x deep power trays or 2 x extra deep power trays. Trolley available in white, silver, blue, pink or yellow.

GRATNELLS SMARTCASE

The SmartCase is everything you'd expect from a Gratnells tray. It's built for heavy duty educational handling and fits into the same runners used on all frames and trolley.

GRATNELLS POWER TRAY

Stores and charges up to 10 devices per tray with USB charging system. Available in 2 systems, charge only or the sync and charge, which has built-in digital device recognition technology with firmware updates to ensure compatibality with future devices.

PUTNAM 16 CHARGING STATION

Designed to charge, store and secure 16 iPad devices. The Putnam Charging Station features colour coded LED displays so you know when your devices are charged. Comes pre-wired with MFi approved lightning cables.

FUYL TOWER

The FUYL Tower takes device charging and security to the next level. It's an intelligent station with 15 individually lockable compartments that can store and charge any mobile device. Suitable for secondary, tertiary and TAFE environments.

CARRIER 30 CART

The Carrier 30 Cart is an extremely versatile cart for all types of mobile devices. It can charge, store, secure and transport Chromebooks, Laptops, iPads and Tablets.

IQ 10 CHARGING STATION

The iQ 10 can charge, store and secure up to 10 iPad, iPad Air, iPad mini or any other compatible Tablet devices. Featuring the 5-slot Baskets by PC Locs, the iQ 10 Charging Station provides portability compared to a traditional cabinet.

HITACHI INTERACTIVE PROJECTORS

Ultra-short throw design delivers an interactive experience on any flat surface. With a rich feature set that meets any specific interactive needs of K-12, higher education, and corporate users.

SAMSUNG FLIP

Transform any space into a meeting room, featuring navigate touch-driven communication and versatile connectivity.

LAPTOP + MONITOR ACCESSORIES

LEVEL 2 SIT/STAND DESK

Allows the desk operator to ergonomically set their working position to sit or stand operation. Easy to change on a daily basis to suit working and ergonomic preferences.

EDUFLEX SINGLE DESK T LEG WITH TRAY

Adjustable desk manufactured using sturdy materials relevant to heavy duty use. Featuring height adjustable legs and storage tray.

HEIGHT ADJUSTABLE MONITOR MOUNT

Easy gas lever height adjustment for your screens and accessories to convert your workstation into sit stand workspace. Available in dual or single monitor options. With 460mm of vertical height adjustment, can cater to all user heights. Keyboard tray allows for both full size keyboard and mouse, compact footprint to maximise usable space on your desk, rear cable management to keep cables organised and out of view.

HORIZON SIT STAND DESK - GAS LIFT

The teachers hub is mobile and adaptable to any environment.
Teachers are no longer restricted to teaching from the front of the class, encouraging modern learning. The gas lift handle allows you to easily adjust the working height from sitting to standing and anywhere in between.

The Teacher Pod is a teachers best friend, providing a mobile storage unit with hinged top extensions for compact storage.

DESK MONITOR ARMS

Single or dual monitor arms simply clamp to desk or cable port or fix through desk hole. Features fully adjustable arm and tilt functionality, plus USB and audio jacks in base.

LAPTOP + MONITOR ACCESSORIES

EN FLOOR CHAIR

The EN Floor Chair is the perfect chair for the modern seating environment, manufactured to a high specification to meet the needs of a high use chair. Ergonomic shell support is provided to the lower back, flexing naturally with the user's movement. A perfect solution to on-floor seating.

ZED CHAIR

The Zed Chair is a fully moulded polypropylene chair providing strength and comfort, featuring a folding table with 45kg weigh rating. Features a flip up seat and simple stacking/nesting functionality.

ACADEMY TABLE

The Academy Table is a dynamic folding table that offers great adaptability and efficiency. Its multiple features and mobility meets the needs of modern work spaces that are always changing.

ZURICH DESK

The Zurich Desk allows quick + easy one hand gas height adjustment. Features a strong one piece cast base, large twin wheel castors and device storage suitable for Tablet or Phone.

ROVER CHAIR

The Rover enables educators to provide a modern and effective learning arena for learning. Designed to be mobile and adaptable in limited spaces and dense classrooms. A room can be transformed from theatre setting to U-shaped setting effortlessly by moving the chairs around, increasing interaction between student and teacher.

LAPTOP TABLE

The Laptop Table is designed to fit alongside our soft furnishings for a casual work space, ideal for a laptop or notebook.

WHY WE BELIEVE EMBRACING TECHNOLOGY IS AN IMPORTANT ELEMENT IN YOUR ENVIRONMENT

Innovation and technology is at the cornerstone of every childs' future. Teachers are continuously looking for new and improved methods and innovative developmental tools to engage their students and optimise their learning platforms. Whilst we understand subjects such as history are an important element in a student's education, so too is the ability to look to tackle problems of the future by incorporating new technologies that could potentially solve them and encourage curious and inventive minds to think outside the box.

Every space, whether it be a library, office area, science laboratory or staffroom, requires technology to enhance individual engagement and motivation. In an ever-evolving world where change is inevitable, we are seeing education leaders leveraging technology to encourage imagination, innovation and digital creativity. Organisations are looking to upgrade from such items as your traditional whiteboards to interactive whiteboards, from pen and paper to digital paperless workflow systems, and from traditional closed offices to collaborative spaces, to encourage creativity and learning.

Advances in technology are exciting, however can come with some challenges such as providing sufficient power supplies for mobile devices, securing valuable items in public spaces and creating comfortable, ergonomic desk and seating options to support the use of laptops/tablets and other such devices.

The team at Office Line have scanned the world to bring you this exciting range of innovative products developed with the modern school in mind. We have provided suggestions for numerous areas including: office and administrative areas, staff rooms, boardrooms, libraries, computer laboratories and STEM areas.

Our Innovative Furniture for Technology Guide is designed to enhance the learning experience and grow bright minds of tomorrow.
