

# LOOME RAINBOW LOOM HOW-TO

FOR HOW-TO VIDEO: [YOUTUBE.COM/THELOOME](https://www.youtube.com/theloome)

## STEP 1: WARP THE LOOM (5-10 mins)

1. Thread a 2<sup>7</sup>/<sub>5</sub> cm tail of the warp through the hole from back to front. Make a tie then pull the end away to tighten the tie around the hole. TIP: Once the tie is made, use a piece of tape to further secure down.
2. Pull the long end of the warp yarn taut to the opposite notch. NOTE: If the tie moves, simply hold it down with your finger as you complete 2 and 3.
3. Pull the warp yarn around the back of notch 1 and 2 on the inner side of the rainbow/arch (as pictured in the diagram above 3).

4. Pull taut to the direct opposite notch.
5. Pull the warp yarn around the back notch 2 and 3 on the outer side of the rainbow/arch (as pictured in the diagram 5). Then pull taut to the opposite notch.
6. Proceed with these repetitive steps from 6-94.
95. Pull the warp towards the hole and cut a 5<sup>7</sup>/<sub>13</sub> cm tail.
96. Thread the tail through the hole from front to back then loop the tail to the front to make a tie. Pull to tighten. TIP: Once the tie is made, use a piece of tape to further secure down.

**CHECK OUT OUR HOW-TO VIDEO!**

## STEP 2: WEAVE THE RAINBOW

1. Thread a needle with 4<sup>7</sup>/<sub>13</sub> m of yarn and start a tabby stitch (alternating over-under-over-under) following the rainbow/arch shape. NOTE: We recommend watching our video.
2. Use the weaving comb to push the yarn into place and to stack up against each other nicely.
3. Continue stitching and switching yarn colors until the cut-out area is completely filled in.

## STEP 3: FINISH & REMOVE FROM THE LOOM

**NOTE: Alternatively, leave the weaving on the loom, add pom poms/tassels & display.**

1. With the tip of a needle, loosen then undo the tie around the first hole (left side).
2. With the tip of a needle, pull the warp off the first two notches on the inner side. Gently lay your fingers on the weaving while slowly pulling the tail so the loop is flush to the weaving.
3. Pull the warp off the next notches on the outer side and the next notches on the inner side. With the tip of the needle, pull the loop from the inner side to pull in the loops of the outer side flush to the weaving.
4. From this step onwards, the actions will be repetitive and alternating. Pull the warp off the next notches on the outer side and pull the loop on the inner side flush to the weaving.
5. When you reach the end, cut the warp leaving 4<sup>7</sup>/<sub>10</sub> cm tail. Then flip the loom and stitch/weave in all loose tails and cut excess.
6. OPTIONAL: To turn the weaving into a badge, you can secure a felt backing on with glue.

### WHAT YOU'LL NEED:

- |                     |                 |             |
|---------------------|-----------------|-------------|
| 1. Cotton Warp Yarn | 3. Needle       | 5. Scissors |
| 2. Yarn             | 4. Weaving Comb |             |
