

fitmix pro

Portable Mixer

A portable solution to your active lifestyle, Fitmix Pro mixes your protein and supplement shakes with the touch of a button. Turbo-blades, driven by the 8,000 rpm motor, evenly mix a lump-free shake that tastes as good as it looks. BPA free, Fitmix Pro holds up to 600 ml to keep you hydrated and fueled. Simply fill the cup with your liquid of choice, add a protein or supplement powder, and press the button for a better tasting shake—without the hassle of large blenders or manual shakers. To charge, use the included USB cord and give your mixer a power boost at home, the office, or in the car. The leak-proof Fitmix Pro produces smoother shakes on-the-go, so you can stay strong and keep moving.

How to use:

1. Fill your Fitmix Pro with water or liquid of choice
2. Add protein or supplement powder to the liquid
3. Screw on the top
4. Press the button to initiate mixing
5. Drink up

How to charge:

1. Pull back rubber tab on the back of the unit to reveal charging port
2. Attach the charging cord to the bottle and plug the USB into a power source
3. The light on the USB cord will glow red when charging
4. Once fully charged, the light will turn green (90 minutes)

Cleaning + Maintenance:

- Once your drink has been properly mixed, turn off the blender to preserve battery life
- Remove bottom motor unit prior to washing. Only the acrylic cup and top is meant to be washed
- Do not use an abrasive sponge on your bottle
