- Sun hat
- Toothbrush & toothpaste
- Toilet paper

- Trash bags
- Personal medication
- First aid kit
- ID
- Credit card or cash
- Cell phone & charger
- Book

## HOW TO START YOUR COWBOY CAMPING

---

You will only use a tent, hammock, or even a tarp if you want to experience real cowboy camping. How detailed you enjoy your experience to be is entirely up to you. Check out this step-by-step guide for cowboy camping to get started on your journey.

### **STEP 1: Pick A Camping Site**

First of all, choosing the right location can help prevent condensation. You can lessen the condensation on your sleeping bag in the morning if you camp far from any bodies of water and under a tree. In any case, you should pick a campsite with a private restroom; ensure it will conceal you while getting dressed. Even if you're part of a big gathering, you can still locate enough coverage to do whatever you need, like change clothes.

The best method to keep animals out of your camp is to keep it clean and manage your food intake. Bears and mountain lions stay away from your camp because they don't like humans. Insects and reptiles are as hostile to humans as bears and mountain lions. When choosing your camping location, be mindful of your environment; everything will leave you alone.

### **STEP 2: Check The Forecast**

It's essential to regularly check the weather for your campsite as you prepare for your big journey to determine whether there will be any precipitation there. Overall, the most crucial

factor is protection. Therefore, consider rescheduling your trip if you have less than a day until it and all you can see in the forecast are thunderstorms. We all know how fast the weather can change, even if it appears favorable. Just make sure to have a fallback strategy.

### **STEP 3: Have A Backup Plan**

Making a backup plan in case bad weather strikes is a fantastic idea before you leave for your weekend camping trip. Even though tarps aren't typically used during authentic cowboy camping, you can still carry one as a last resort. When it comes to weather safety, tarps can be incredibly helpful. Additionally, if something unforeseen occurred, you could bring a portable power station to power your devices.

### **STEP 4: Make A Fire**

When you have a fire, you have access to clean water, warmth, protection, and the ability to prepare sustenance. By studying and perhaps even practicing if you have access to a safe area, you should prepare to start a fire. Finally, be careful to research the fire restrictions at your campsite. Some places have rules on camping, including possible fire prohibitions. A lighter would have been preferable at that time.

### **STEP 5: Take Protection Tools**

Any well-equipped cowboy is aware of the importance of always carrying safety. In the good old days, a rifle might have been a part of that. Average campers like you don't have to be relatively well-armed. Most campers choose to carry a knife for defense while out in nature. Multiple blades are suitable for camping.

Unlike conventional camping, cowboy camping involves much less protection than in a cabin, an RV, or a tent. You could be a target for curious and hostile animals in addition to being open to the elements of rain, snow, wind, and heat. Should the worst happen, having a knife is an excellent method to keep yourself safe.

### **STEP 6: Keep Hydrated**

In addition to being crucial in everyday life, you were staying hydrated while camping is particularly essential. Because camping, hiking, and other outdoor pursuits are physically taxing, you should continue to drink more water than ever. Since there isn't an RV or a sink close when you're cowboy camping, getting access to water can be challenging. However, you can take steps to ensure that you're adequately moisturized.

### **STEP 7: Learn First Aid Knowledge**

Since many ranchers camped out in the desert, they had some knowledge of snakes. To the greatest extent possible, many people seeking the authentic cowboy experience choose to camp in hot, arid regions. Keeping snakes out of your campsite should be easy since there will be few things. Many cowboy hikers store their sleeping bags and blankets when they wake up.

## **JACKERY POWER STATIONS FOR COWBOY CAMPING**

---

Although cowboy camping should keep everything simple and take as few things as possible, a portable power station could be a backup plan when you get in trouble or face something dangerous. Jackery is the top solar brand, which takes sustainability and green in the first place. They can keep your equipment charged, including lights, cellphones, laptops, CPAP machines, and appliances. They also have AC outlets, DC carports, and USB charging connections.

There are over 12 Jackery power stations, which vary in dimensions and capacities. As for cowboy camping, Jackery Explorer 240 and Explorer 150 are highly recommended.

### **Jackery Explorer 240**

The Jackery Explorer 240 has a 240Wh (16.8Ah, 14.4V) lithium-ion battery pack. It features 1\* AC outlet (110V 200W, 400W peak), 2\* USB-A ports, and 1\* DC carport. This power station contains a pure sine wave inverter that can power various devices, including a phone,

notebook, light, fan, mini cooler, etc. The sturdy handle on the compact Jackery Explorer 240 makes it simple to carry. No matter where you go, it is straightforward to use due to its push-button operation.

Series	Capacity	Recharging Time	Ports	Outdoorsy
Jackery Explorer 240	240Wh	SolarSaga 60W <b>9.5H</b>	1* AC outlet	Drone(60W) <b>4Charges,</b>
		Wall Outlet <b>3.5H</b>	2*USB-A ports	Laptop <b>3.5Charges,</b>
		Car Outlet <b>5H</b>	1*DC carport	Fan(15W) <b>15H,</b> Camera(10W) <b>11Charges,</b> TV(60W) <b>3H,</b> Light(5W) <b>40H</b>

### Jackery Explorer 160

The Jackery Explorer 160 offers the most affordable, lightweight, portable power station with USB Type-C, USB-A, and an AC outlet. Its rechargeable lithium-ion batteries provide 167Wh of energy capacity. Pack light for your cowboy camping with a Jackery portable power station, and keep powering your devices in case of an emergency. The Explorer 160 is suitable for recharging cell phones, tablets, laptops, GoPros, and other small appliances.

Series	Capacity	Recharging Time	Ports	Outdoorsy
Jackery Explorer 160	167Wh	SolarSaga 60W <b>4.5H</b>	1*200W AC outlet	Drone(60W) <b>3Charges,</b>
		Wall Outlet <b>5H</b>	1*12V DC outlet	Laptop <b>10H,</b> USB Fan(5W) <b>30H,</b> Camera(10W)
		Car Outlet <b>5H</b>	1*USB-C 1*USB-A	<b>6.5Charges,</b> Light(5W) <b>29H</b>

## ABOUT JACKERY

---

Jackery is the world's leading portable power solutions provider. We design, develop and manufacture portable power products for phones, laptops, cameras, drones, and more. We are dedicated to providing our customers with sustainable and reliable power solutions. Our products are designed to be safe, easy to use, and environmentally friendly. With over 100 patents and industry-leading technology, we constantly innovate to bring you the best portable power solutions. Jackery products are available in over 100 countries and have been recognized by Forbes, Time, GQ, Esquire, and more.
