RoHS REACH

- RoHS compliant.
- REACH compliant.

Warranty

Jackery Inc. warrants to the original consumer purchaser that the Jackery product will be free from defects in workmanship and material. We will not assume, nor authorize any person to assume for us, any other liability in connection with the sale of our products. The warranty period is 24 months. In each case, the warranty period is measured starting on the date of purchase by the original order to establish the start date of the warranty period.

Due to defect in workmanship or material. If a valid claim is made during the applicable period, Jackery, at its option, will either (1) replace the product, or (2) exchange the product with a product that is of equal value. A replacement product assumes the remaining warranty of the original product or ninety (90) days from the date of replacement, whichever is greater. Customer is responsible for the return shipping costs.

ATTENTION

- Not permitted as checked-in luggage.
- To preserve the battery lifespan, please use and recharge at least once every 3 months.
- Avoid extreme temperature.
- Avoid dropping.
- Do not disassemble.
- Please dispose of batteries and electronic goods in accordance with local regulations.

Notice

- This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
  - (1) This device may not cause harmful interference, and
  - this device must accept any interference received, including interference that may cause undesired operation.

How to Charge

Connect HPC 9000 to device via USB output port. Press the Power Button to start charging your device.

The HPC 9000 is compatible with most USB powered peripherals.

NOTE: Cable not included for other devices. Please use your original charging cable.

Portable Game Player Digital Camera Smartphone Tablet

Charge via any 5V / 2A USB adapter for optimal charging (adapter not included)

Alternate method:

Charge via computer

Recharge your HPC 9000

Using the LED Flashlight:

Press the Power Button TWICE to switch ON/OFF the flashlight.

Using the compass:

For optimal compass accuracy, put the compass flat and keep it stable. Any tilt will affect its direction.
