**Warranty**

The product is covered by a limited warranty from Jackery for the original purchase, covering the product from defects in workmanship and materials for 24 months from the date of purchase. Damage from natural wear and tear, alteration, misuse, neglect, accident, service by anyone other than an authorized service center, or act of God are not included.

During the warranty period and upon verification of defects, this product will be replaced when returned with proper proof of purchase.

**Frequently Asked Questions**

1. What kind of battery can be charged by these solar modules?
   - Jackery Explorer series
   - 12-Volt lead-acid battery
   - 12-Volt lithium batteries
   - 4-Volt lead-acid batteries

2. How to dust the solar surface?
   - Dust and dirt on the surface should be first removed using a soft brush. Use a dry cloth to wipe the surface of the solar modules to remove any remaining dust or dirt. Any glues or other adhesive should be removed as soon as possible from the solar surface to avoid a reduction in performance.

3. Are the solar panels watertight?
   - To minimize the risk of water into the module, it should not get wet.
