All ten of the oval brushes sport a unique “toothbrush” design that not only looks great but helps optimize your makeup routine by curving to the shape of your face for a more precise, consistent application. And because the brushes feature tightly packed synthetic bristles, you won’t have to worry about streaks.

Even better? More fibers mean less of your favorite product trapped in the bristles, making applying makeup (and cleaning the brushes) a cinch. Add that this multipurpose set is designed with durability in mind, and you have yourself a match made in blending heaven.

# Taking Care

To keep your Vanity Planet Blend Party in optimum condition, do not use abrasive cleaners or chemicals to clean any part of the brushes. Check out the tips below.

## Cleaning Your Brushes

1. Rinse the bristles under lukewarm water. Avoid getting the handle very wet if possible. Keep bristles pointed at a downward angle to let the water and makeup residue drain through.
2. Swirl bristles onto an unscented bar of white soap until nicely lathered. Or, use baby shampoo, putting a small amount into your hand, lathering in the same fashion until sudsy.
3. Rinse the soap or shampoo out of the bristles with lukewarm water.
4. Gently squeeze out any excess water and reshape the bristles to their previous shape.
5. Let the brush sit overnight on a towel to dry. Repeat process every few weeks.

**NOTE:** If you find that the bristles are thick and firm with makeup residue, try swirling them in a small amount of olive or almond oil, working the oils into the brush fibers. Rinse, and begin the cleaning process above.
