

## *Watertight Inline System!*

## **Wet Location, Low-Voltage System for Hard to Light Areas**

When you have a location on your worksite that requires low-voltage lighting AND a product that can handle a wet environment, you're looking for the **DWVPLEDIL50-12V** inline system. The DWVPLEDIL150 is **weatherproof, tough and grounded**. It's also one of the easiest lights to service and repair. WorkSite Lighting can turn this lighting system around fast, and get it on your job site quickly.

**Watertight:** The DWVPLEDIL150 is ideal for offshore, marine and wet locations, with its quality, watertight construction. Holds up in virtually any wet weather condition.

**Rugged:** One piece housing with rubber handle and grounded guard. Tempered glass globe and zinc-plated steel cage protects against shatter.

**Smart:** Inline transformer reduces 120v current to 12v, allowing access to difficult areas.

**Customizable:** WorkSite Lighting can provide cord lengths of 50, 75 and 100 feet.

# DWVPLEDIL50-12V
