## The World's Most Advanced LED Area Light!

No other LED area light on the planet delivers the combination of safety, performance, and durability as WorkSite Lighting's new PetroPro EXtra Safe LED Area Light. No explosion-proof light in the world is rated for more hazardous locations than the PetroPro. With next-generation LED technology, the PetroPro Extra Safe LED Area Light delivers bright, natural light to any space, at level of efficiency unmatched by any other unit.

**Bright:** The PetroPro delivers 12,500 lumens to your work area, at only 75 watts. The PetroPro casts true to color light, similar to natural sunlight, with no tint or hue discoloration, bringing a new level of brightness and safety to your work space.

**Durable:** Think about it. A light milled from a single piece of solid aluminum. There's no breaking the PetroPro. It's virtually indestructible. No plastic internal parts. The perfect light for the world's harshest environments.

**Versatile:** Use the PetroPro almost anywhere on your job site: confined spaces, open areas, hazardous locations. No more headaches about what light can be used in which location - the PetroPro MAX can be used in more spaces than any other light. Check out the full ratings for the PetroPro MAX on the next page.
