PEAK COOLING, INTELLIGENT CONTROL

Come with Us on A Journey Towards a Cooler, Sustainable and more connected Future.

Welcome to the new Portacool Apex series, where technology, innovation and simplicity converge to shape the environment and breathe sustainable cooling into every space-be it your home, the workplace, the sports field, or any place where life unfolds.

Why Portacool?

We're not just a manufacturer. We're your partner in ensuring that every moment you spend, whether, working hard, relaxing at home, or hitting a ball, is embraced by optimal, sustainable cooling.

Making Thriving Accessible

Our mission is a straightforward yet profound commitment: To make thriving at work, at home, and at play a fundamental right, not a luxury. And it's not just words; it's an honest pledge to engineer solutions that can empower every individual, every family, and every community to experience the best, most sustainable cooling, irrespective of geographical and financial means.

PEAK COOLING, INTELLIGENT CONTROL

PORTACOOOL

COOLSYNC™

COOLSYNC™ TECHNOLOGY

Sync your cooler to your smartphone, take total control from anywhere.

Convenience

No more manual adjustments and constant monitoring. Control your cooling system with the CoolSync™ app on your phone.

Personalized

Tailor your environment, adjust fan speed and temperature guaranteeing the ideal atmosphere.

Total Peace of Mind

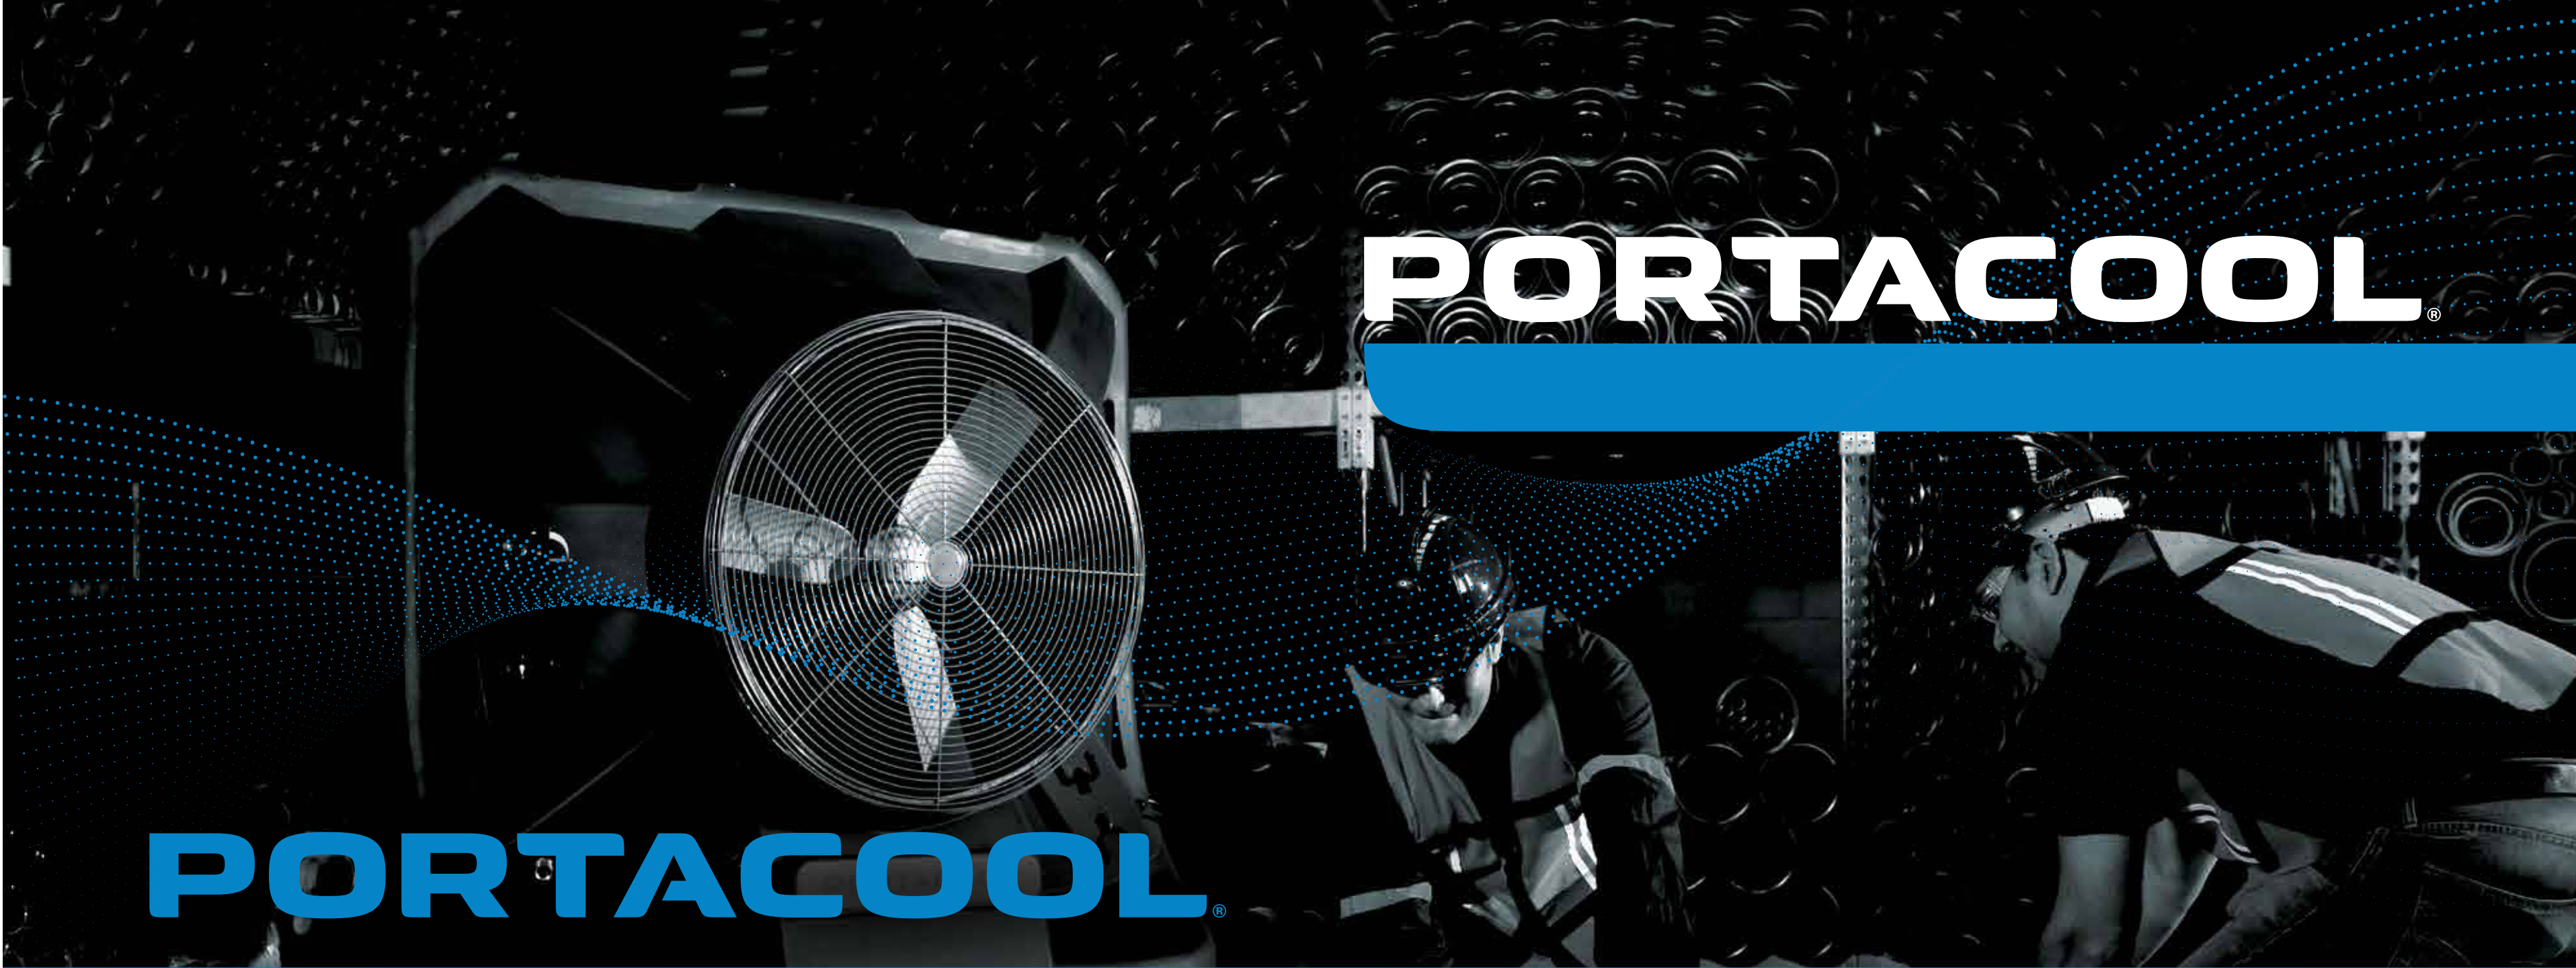

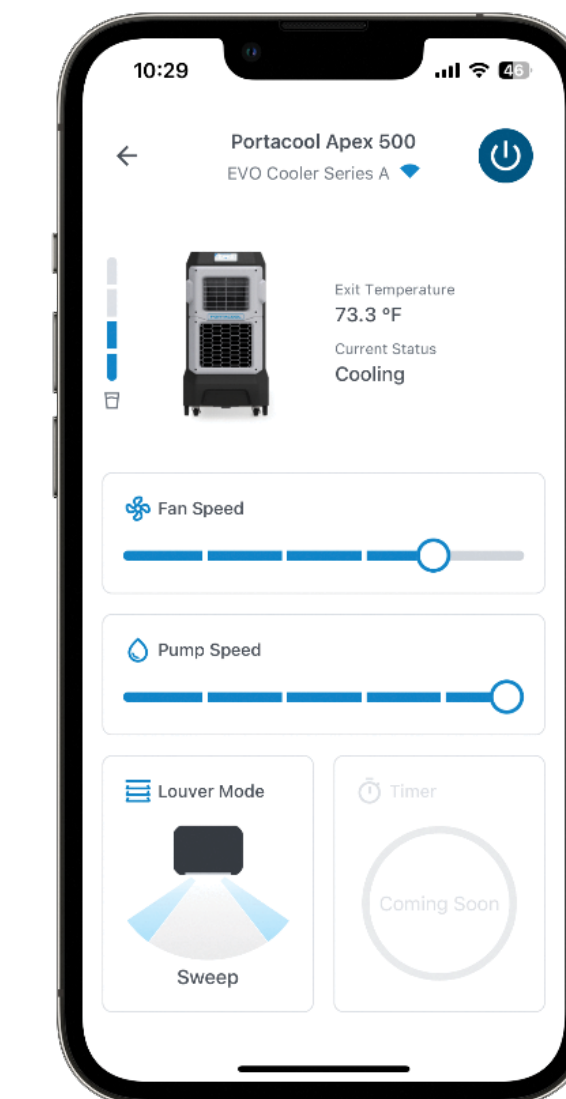

Water level monitoring. Real-time updates and alerts.

Multi-Unit Control

Manage any number of units in the same app.

Efficiency & Savings

Optimize performance, monitor water levels, and cut energy costs.

INTRODUCING THE NEW **PORTACOOOL**

APEX

SERIES

THE ULTIMATE COOLING MACHINES ARE HERE!

Connectivity

Powered by Portacool CoolSync™ digital display with Wi-Fi.

Extended Cooling Reach

Our high-velocity cooler reaches up to 60 feet.

Whisper-Quiet

Redesigned motor reduces noise.

Smart Water Management

Automatic shut-off, and alerts.

Efficient Media Absorbency

Saving water and reducing costs with eco-friendly media.

Tough-Coat Textured Housing

Extending the cooler & it's lifespan.

Total Portability

Built-in handle, lightweight housing, and durable casters.

APEX 500 & 700

Introducing the future of advanced cooling with the **Portacool Apex Series**. Made with pride in the USA, these devices are more than just coolers – they stand as symbols of state-of-the-art engineering. Whether you're considering the **Apex 500**, perfectly cooling 500 sq ft spaces, or the more expansive **Apex 700** for 700 sq ft areas, both come with sleek designs that promise effortless cooling. Delivering robust high-velocity breezes up to 60 ft and equipped with automatic oscillating louvers, every nook corner is assured a refreshing touch. Enhancing their modern appeal, both models incorporate the **CoolSync Technology** and a user-friendly smartphone app, elevating your comfort and productivity to new heights. Dive into a refreshed, connected, and cutting-edge cooling experience with the **Portacool Apex Series**.

APEX 1200 & 2000

Step into the future of sophisticated cooling with the **Portacool Apex Series**. Proudly designed and manufactured in the USA, these aren't just your average coolers; they symbolize advanced design and lasting durability. With their aerodynamically crafted bodies and textured finishes, they pledge enduring resilience. Whether you opt for the **Apex 1200**, cooling a spacious 1200 sq ft, or the **Apex 2000**, impressively covering a 2000 sq ft area, you're ensured an effortless cooling experience with breezes reaching up to 60 ft. Further enhancing the experience, their revamped motors promise quieter moments, forging a serene environment. Both models are equipped with the state-of-the-art **CoolSync Technology** and a user-friendly smartphone app, elevating your comfort and productivity to new heights. Dive into a refreshed, connected, and cutting-edge cooling experience with the **Portacool Apex Series**.

APEX 4000 & 6500

Discover the pinnacle of modern cooling with the **Portacool Apex Series**. Crafted with pride in the USA, these coolers are more than just temperature-regulating devices – they epitomize advanced design paired with unparalleled durability. Both models, whether the **Apex 4000** catering to 4000 sq ft or the expansive **Apex 6500** for a 6500 sq ft area, come with aerodynamically shaped bodies and textured finishes, ensuring longevity and resilience. Cooling vast spaces becomes a breeze, literally, as they project a rejuvenating gust up to 50 ft. Their newly enhanced motors guarantee those moments of tranquility, paving the way for a serene ambiance. The innovative **CoolSync Technology**, paired with a user-friendly smartphone app, enhances your cooling journey, ensuring optimal comfort and productivity. With the **Portacool Apex Series**, stay cool, refreshed, and seamlessly connected to a future-ready cooling experience.
