

CONFINED SPACE VENTILATOR FANS

High Performance in Small Spaces

X-8
8" Diameter Air Outlet

X-12
12" Diameter Air Outlet

XPOWER's Confined Space Fans can handle any narrow space with 8" or 12" diameter flex hoses ducting air up to 125 ft. Like all XPOWER products, the X-8 and X-12 are exceptionally lightweight and compact. Their low amp and powerful, sealed motors can efficiently deliver dry air to ventilate, create negative air pressure or simply to help complete any drying process for a wide variety of construction applications.

- Can be used without hoses to create high volume air circulation in gyms, hallways and other large areas
- Deliver continuous flow of fresh air to oxygen-starved areas such as manholes and sewers
- Complete control of both air velocity and air volume with a variable speed control switch
- Constructed from durable ABS for years of reliable performance under challenging conditions
