

OSHA-Compliant Heavy-Duty Circulation Fans

Schaefer's safety yellow fixed and oscillating 2-speed circulation fans have the versatility to be mounted on a wall or pedestal. These portable circulation fans deliver quiet, powerful, efficient, and long-lasting air movement that make them an ideal cooling solution for any commercial, industrial, or agricultural facility.

Ideal locations are in warehouses, work areas, loading docks, farms, and greenhouses—places where quality matters.

Features and Benefits

- Pedestal adjustable to 72" tall with 25# metal weighted base, meets OSHA tip-over requirements
- Matched direct-drive motors and blades for the highest achievable levels of airflow, rated up to 12,000+ CFM
- Thermally protected, heavy-duty, maintenance-free, 2-speed motors for long life
- Powder-coated steel guards for durability and corrosion resistance
- Assembled in the USA, 2-year warranty, safety yellow blades designating caution
