SHOP ORGANICS!

Certified by MOFGA, the Maine Organic Farmers and Gardeners Association. Both conventional and organic varieties are available throughout the catalog.

19101G. ASTRO (32 DAYS)
Quick growth for clipping smooth leaf baby greens in 3 weeks, slightly mild flavor than other varieties, then maturing into a strapped leaf with deep lobes for bunching. Slower bolting and strong ability to grow in cooler temperatures for year round harvest.
500 seeds - $2.50

1406G. ROMA II (58 DAYS)
An improved Italian romano bush bean. Flat 4-5” stringless pods are delicious freshly picked and explode with flavor. Dependable and high yielding, excellent for canning or freezing.
1 oz (approx. 60-80 seeds) - $2.50

1509G. JACOB'S CATTLE (83 DAYS)
GERM 4-10 DAYS Heirloom - Ancient
This is the most popular traditional soup and baking bean here in Maine. Also known as Trout or Dalmatian bean, it is one of the earliest beans to dry even in our too short summers. An attractive combination of white and deep maroon, it can also be used earlier as a shell bean. Similar in appearance to a Native American bean called Anasazi. Bush type.
1 oz (80-90 Seeds) - $2.95

1903G. GOLD MARIE (75 DAYS)
GERM 4-10 DAYS
Flattened, radiant yellow romano type pods are crisp and fleshy in texture. Our Ikarus sunflowers, growing underneath a teepee style trellis, provided great support for this pleasing variety. Best harvested at 6 inches. Said to be a selection from an old Italian heirloom.
50 seeds - $1.95

3102G. TOUCHSTONE GOLD (55 DAYS)
GERM 5-10 DAYS
Slice open the pale orange spherical roots to sunshine golden flesh. Delectable sweet taste, raw or cooked. Keeps its marvelous color during cooking. Touchstone performs well in the garden and is more reliable than other golden type beets.
100 seeds - $2.25

41. BELSTAR (F1 HYBRID 60 DAYS)
GERM 3-10 DAYS
Everyone was impressed with this hybrid in our trials. Maturity was exceptionally early with very tight light green heads, 5-6” across. At maturity it holds its head for over a week which can be a real virtue. Good flavor.
30 seeds - $2.25

4901. PURPLE PEACOCK (70 DAYS)
GERM 3-10 DAYS
Open-pollinated variety is a cross between broccoli and two kales, beautiful either in the garden or edible landscape. Young leaves are tender, great for salads, older, serrated leaves are used like kale. Loose heads of purple florets with excellent taste. Plant also produces generous side shoots. Bred by Frank Morton.
30 seeds - $1.95

7601G. CULINARY BLEND (60-70 DAYS)
GERM 6-14 DAYS
A colorful mix of yellow, white and orange carrots. Harvest for baby roots or grow to maturity for roasting, steaming or sautéing. Delightful flavors.
300 seeds - $3.25

7108G. YELLOWSTONE (75 DAYS)
GERM 6-14 DAYS
Deep yellow roots perform well in almost every soil type. Broad shouldered imperator type grows to 8-9” and offers a sweet and mild flavor. Yellowstone is one hefty carrot; it was the largest and longest carrot we have ever grown, with some reaching over 12”.
300 seeds - $3.25

8801G. TANGO (80 DAYS)
GERM 14-21 DAYS
Outstanding performance in a short season. Handles heat and drought stress better than most celery, very forgiving for the weekend gardener. Tender, non-stringy stalks on self-blanching, vigorous plants. Resistant to fusarium.
100 seeds - $2.95

11205G. GLASS GEM (100 DAYS)
GERM 7-14 DAYS
Extraordinary kernels! Bred from native varieties, kernels are an endless array of colors and placement on the cob. Vibrant, translucent kernels are used for flour, popcorn and decoration. Demand has been high for this rare variety the past few years, we are excited to offer this. Grows 7-9 feet with 3-8” ears.
50 seeds - $3.50

11603G. ALLURE (F1 HYBRID 75 DAYS) SY
GERM 7-14 DAYS
The first certified organic synergistic variety available to home gardeners. Fairly quick to mature the 8” long, 16-18 row bi-colored ears have a sweet taste with plump kernels and a long harvest window with good post-harvest shelf life. Stalks grow to 6-7 feet. High resistance to common rust.
150 seeds - $6.95

142G. H-19 LITTLE LEAF (57 DAYS)
GERM 6-10 DAYS
Fresh for slicing or pickling, this reliable variety has multi branching compact vines, small foliage for ease of picking and needs no pollination, making it a good choice for protecting against insects when growing under row cover. Utilize this cuke in the garden, containers or greenhouse. Yields even under stress and has some resistance to mosaic virus, downy and powdery mildew.
20 seeds - $2.25

Our seeds are always and forever Non GMO. We are signers of the Safe Seed Pledge and work to support efforts to maintain biodiversity and sustainable agriculture.

**GREENS**

**9005G. MAGENTASPREEN - LAMBSQUARES (30 DAYS)**
Giant relative of Lambsquaters grown for its glowing magenta young leaf tips. Easy to grow in heat or cold, it can be harvested at 8” in 30 days or left to continue upward to 8’. A taste similar to spinach, each tip is magenta coated with powdery iridescence. Spectacular in a salad mix or use any way you would many greens. Cultivated in the other parts of the world and first introduced here in the early 1980’s. Will self seed if left to grow. 500 seeds - $2.95

**19202G. WILD GARDEN MILD MUSTARD MIX (START HARVESTING AT 45 DAYS)**
A wonderfully diverse blend of colors and textures. Use fresh, young leaves to enhance salads and mellow the zestier mature leaves by sautéing, wilting, or steaming. Either way these greens are packed full of healthy nutrients. Grow for spring and fall crops. 500 Seeds - $3.95

**599. AUNT MOLLY’S (70 DAYS)**
Germ 7-14 Days / Physalis pruinosa
Polish Heirloom 1837
Smooth, marble sized fruits are indigenous to the high altitudes of South America, eventually finding their way to Europe in the 18th century. Have a sweet, tangy, citrus flavor ending with a hint of vanilla- plus after an employee taste test, Julie claimed that it tasted like a pina colada. Abundant harvests of golden fruit are enclosed in papery husks turning green to yellow/brown, dropping to the ground when ripe, continuing to sweeten while waiting to be harvested. Sweet or savory uses: add these to salads, smoothies, preserves, pies, and even dry like raisins. When stored with the husk on they can last a month. Grows to 2’ high x 4’ wide. 40 seeds - $2.25

**19005G. DAZZLING BLUE (50-60 DAYS)**
Germ 3-10 Days
We just had to trial this new variety simply because of it name. As we watched it grow and mature into impressive, upright, lightly wrinkled, strap leafed lacinato type plants, we fell in love with it. The leaves really do have a blueish cast to them and pinkish-purple colored mid-ribs branching out into the veins. Hearty, and like other kales, will sweeten after a frost. 30 seeds - $2.25

**19801G. KORIST (F1 HYBRID 42 DAYS)**
Germ 7-10 Days
The taste and texture is similar to a broccoli stem, crisp with a mild sweetness. White skinned with a 4” flat globe shape. Harvest from baby sized to full sized. Bulbs hold well and remain tender in the garden without becoming woody. Good resistance to downy mildew. 40 seeds - $3.75

**212G. CRACOVIENSIS (50 DAYS)**
Germ 4-10 Days
French Heirloom 1885
Lightly savoyed elongated leaves have lovely purple tips that form a loose rosette and have a sweet buttery flavor. An attractive dual purpose heirloom lettuce used for a cut n come again type, and for “Celtuce”; the bolted stems harvested before the seed head emerges which is then peeled exposing a crunchy celery and asparagus-like center. 300 seeds - $2.25

**20307G. WILD GARDEN LETTUCE MIX (F10 DAYS)**
Our growers most popular mix. An extremely diverse array of colors and textures. Over a dozen varieties are included, some only seen in this mix. Harvest mini heads or let them grow to maturity, either way growing this mix will delight the lettuce lover in you. 500 seeds - $3.50

**23302. NOIR DE CARMES (80 DAYS)**
Germ 4-10 Days
A rare Heirloom preserved by the Carmelite monks of France. Has deep smooth ribs and skin so dark green that it is almost black but ripens to a mottled orange. Aromatic flesh that is gently sweet. Grows 2-3 lb fruits. 15 seeds - $2.25

**24707G. CORTLAND (F1 HYBRID 105 DAYS)**
Germ 5-10 Days / Long Day
Uniform globe shaped bulbs have thick copper colored skin and slender necks for easy drying and long storage. Developed by the breeders of some of the best storage onions available. High resistance to Fusarium basal rot and pink root. 150 seeds - $3.25

**27605G. RAINBOW BLEND (60-90 DAYS)**
Germ 10-14 Days
A five color blend of sweet, thick walled bell peppers. Red, yellow, orange, purple and green. Grow all the colors in your garden from just one packet. 30 seeds - $4.25

**27901G. CARMEN (F1 HYBRID 60-80 DAYS)**
Germ 10-14 Days
An award-winning Corno di Toro/bulls horn type with early maturity and deliciously sweet flavor. Productive and reliable, flowering and setting fruits over a wide temperature range, perfect for shorter growing season. Harvest these elongated peppers at 6-8”, green or red. 15 seeds - $3.95

**29704G. KAKAI HULLESS (100 DAYS)**
Germ 7-10 Days/ Cucurbita pepo
Do you love raw or roasted pumpkin seeds and want to be able to supply your family with more of your own homegrown healthy snacks? Then this “naked” hulless pumpkin is a perfect selection. Semi bush habit and 5-8lb fruit. Slightly ribbed skin has dark green mottled strips laid over the orange skin. 15 seeds - $2.50

### Quinoa

- **30001G. BRIGHTEST BRILLIANT RAINBOW BLEND** *(90-120 DAYS)*
  - **GERM 3-7 DAYS**
  - High protein, nutritious grain, produces large seed heads and young, edible leaves. A cool weather crop, grows best in northern areas where daytime temperatures do not exceed 90-95° above this can prevent seed heads. Should be sown in cool soil, at 45-60°. Sow in straight rows, keep well weeded, and thin 8-18” apart when the seedlings are 6” high. Grows 4-6’ tall, in well drained, rich soil.
  - 500 seeds - $2.95

### Radishes

- **30705G. SORA** *(22 DAYS)*
  - **GERM 5-7 DAYS**
  - Classic, reliable radish for organic growers. High quality round roots have red skin and white flesh. Tolerates heat and resists pithiness better than most radishes.
  - 300 seeds - $3.25

### Rutabaga

- **312G. GILFEATHER** *(85 DAYS)*
  - **GERM 7-14 DAYS**
  - Cross between a rutabaga and turnip. Developed in the late 19th century by John Gilfeather of Wardsboro. Large, oblong shaped roots have green shoulders, white flesh and edible greens. Flavor and texture is excellent, sweet and smooth, improving after a frost. A good storage crop for a root cellar.
  - 100 seeds - $2.25

### Swiss Chard

- **313G. HELENOR** *(100 DAYS)*
  - **GERM 7-14 DAYS**
  - Uniform, productive yields of globe shaped roots with sweet creamy golden flesh and purple tops that crest from the soil. A cross of a turnip and a wild cabbage, first showing up in the 1600’s, known as Swedes in other parts of the world.
  - 100 seeds - $2.95

### Spinach

- **336G. STRAWBERRY SPINACH** *(32 DAYS)*
  - **GERM 14-21 DAYS**
  - Heirloom
  - This ancient plant was re-discovered growing at old monasteries and is popular in Europe. Bite-sized, saw-toothed leaves, have a spinach flavor and are great in salads. Let it flower and it produces slightly sweet, minute strawberry-like fruit at every leaf axle that adds a bright, unique decoration to salads. This plant is a real heat lover making it a supreme choice for greens in the middle of the summer season. An early planting from the 6”, 12-16 ounce fruit come in shades of dusty rose to purple, sometimes with greenish shoulders. While it is a heat lover, it is known for its sweet aftertaste – almost like candy with heavy yields.
  - 100 seeds - $2.25

### Tomatoes

- **33305G. ACADIA** *(F1 HYBRID 27 DAYS)*
  - **GERM 7-14 DAYS**
  - Adaptable for spring or fall plantings with active regrowth for cut and come again harvests. Deep green semi-savoy leaves overwinter well, slow to bolt in all seasons. High resistance to downy mildew.
  - 75 seeds - $2.25
  - 1000 seeds - $4.95

- **34505G. GREEN MACHINE** *(F1 HYBRID 45 DAYS)*
  - **GERM 7-10 DAYS**
  - Cucurbita pepo
  - The most disease resistant zucchini we offer. All of the gourds in this machine are smooth-running with productive, healthy plants all season long. Growers will enjoy harvest friendly plants with reduced stem spines. Intermediate resistance to cucumber mosaic virus, powdery mildew, watermelon mosaic virus, and zucchini yellow mosaic virus.
  - 10 seeds - $4.25

- **9305G. RAINBOW BLEND** *(55 DAYS)*
  - **GERM 5-10 DAYS**
  - A brilliant blend of colors decorative enough to grow in a flower garden. Yellow, red, orange, white and pink stems have dark green savoy leaves. Use all season: the baby greens can be added to salad mixes while the large leaves can be filled with veggies and grains and used as a carb free wrap. When cooked the colors hold and brighten your dishes.
  - 75 seeds - $3.25

- **424G. BRANDYWINE** *(80 DAYS)*
  - **GERM 7-14 DAYS / INDETERMINATE**
  - Heirloom 1885
  - Legendary for its delicious taste and one of the most popular heirloom tomatoes grown. This is the “Quisenberry” strain, considered to be among the best, a potato leaf plant with big, 10-24 oz pink-reddish fruit.
  - 25 seeds - $2.95

- **42503G. GREEN ZEBRA** *(75 DAYS)*
  - **GERM 7-14 DAYS / INDETERMINATE**
  - Olive green and yellow striped fruits are full of flavor; tangy and tart with sweetness arriving the longer left on the vine to ripen. Smooth, globe shaped, 3-5 oz fruit rarely crack.
  - 25 seeds - $2.25

- **40304G. VALENTINE** *(F1 HYBRID 55 DAYS)*
  - **GERM 7-14 DAYS**
  - Indeterminate
  - Tremendous yields of early maturing fire red colored grape-type tomatoes. An AAS winner that is rich and flavorful, firm in texture with meaty Roma-like flesh. Crack-resistant fruits are about the size of an extra-large grape, 1 ½” long by ¾” wide, weigh ½ oz each, and have an extended shelf life after harvest. Intermediate resistance to early blight.
  - 10 seeds - $4.95

- **425. CHEROKEE PURPLE** *(80 DAYS)*
  - **GERM 7-14 DAYS / INDETERMINATE**
  - Heirloom 19th Century
  - Many heirloom tomatoes get the accolade “best tasting” from their fans, and this is certainly one of them. Originally grown in Tennessee by the Cherokee tribe, the 6”, 12-16 ounce fruit come in shades of dusty rose to purple, sometimes with greenish shoulders. While it is a beefsteak type, it is known for its sweet aftertaste – almost like candy with heavy yields.
  - 25 seeds - $1.95

- **42907G. PORK CHOP** *(80 DAYS)*
  - **GERM 7-14 DAYS / INDETERMINATE**
  - Large 8-12 oz, bright yellow fruits start out with shiny green streaks with the skin fully ripening into a radiating golden color. A true beauty with a flavor that is low in acid with a hint of citrus.
  - 20 seeds - $2.75
**41405G. BLUE BEECH**  
*(80-85 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Heirloom  
Origin is said to be from the Amish communities in Wisconsin, but discovered among the Amish of Lancaster County, Pennsylvania. Sweeter than other paste tomatoes, the shape can vary from large plum to teardrop. Juicy, 8-12 oz fruits with meaty flesh and few seeds; useful in sauces, for slicing or canning.  
20 seeds - $2.95

**40501G. STRIPED GERMAN**  
*(80 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Heirloom  
Massive fruits, our first one coming in at 1.3 pounds; with yellow orange skin, a red starburst bottom streaking upward and inward into the silky, fruity tasting flesh. An incredible tomato!  
25 seeds - $2.25

**42911G. GREEN BERKELEY TIE DYE**  
*(75 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
An entanglement of flavors, a hint of sweetness at the beginning of a bite, moving through to a lightly tart, savory side with a salty edge. The exterior is a burnt orange shade with metallic green stripes that encompasses the round to oblate, 8-16 oz fruit. The tricolored interior is succulent and meaty with green, red, and a little creamy yellow swirling shades.  
25 seeds - $2.75

**42909G. PINK BERKELEY TIE DYE**  
*(75 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Trying this one for the first time is a true flavor experience. Extremely robust flavors; complex and hard to describe: sweet, rich, tart, salty with a hint of smokey and a dripping juicy texture. Fruits are 8-12 oz, round to oblate with green metallic stripes over pink skin.  
25 seeds - $2.75

**42601G. AMISH PASTE**  
*(85 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Heirloom 1870  
Origin is said to be from the Amish communities in Wisconsin, but discovered among the Amish of Lancaster County, Pennsylvania. Sweeter than other paste tomatoes, the shape can vary from large plum to teardrop. Juicy, 8-12 oz fruits with meaty flesh and few seeds; useful in sauces, for slicing or canning.  
20 seeds - $2.50

**40101G. CHERRY BOMB**  
*(F1 HYBRID 64 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Classically full flavored, sweet but balanced, cherry tomatoes with late blight protection. Produced high yields of uniform fruits that were easy to harvest and extremely vigorous; still growing strong at the end of September and would keep going if it weren't for the frost. A hybrid with quality flavor, and a solid tomato to grow for a successful crop. Bred by our neighbors Johnny Selected Seeds.  
10 seeds - $3.95

**42908G. LARGE BARRED BOAR**  
*(65-75 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Ample amounts of large, flattened pink-brown fruits with lustrous green stripes range from 8-12 oz, with bigger ones possible. Rich, delicious flesh is meaty and full of flavor.  
20 seeds - $2.75

**BUMBLE BEE SERIES**  
*(70 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
A movement to create tomatoes with the complex flavor, texture and beauty of heirlooms is on the rise, giving us stellar new varieties each season. Here we have the Bumblebee Series, from Artisan Seeds®. Three different colors, these traditional spherical cherry types, 1 ½”, with their own delicious distinctive flavor, all are very productive, and hold up well to cracking. Try one or all varieties, we couldn't decide which one we like best so we thought we would offer them all to you!  
10 seeds - $2.75

**42806G. PINK**  
Pink orange marbled together, balance of sweet n' tart.

**42807G. PURPLE**  
Purple red with metallic green striping, straight up tomato flavor.

**42808G. SUNRISE**  
Bright yellow and red streaks, sweetest of the three

**435G. SCARLET OHNO REVIVAL**  
*(50 DAYS)*  
*GERM 7-14 DAYS*  
A specialty Japanese variety improved and reintroduced by breeder Frank Morton. Scarlet to Fuchsia bulbs with a white interior feathered with the vivid color of the skin. Harvest at baby or full sized and don't forget to make use of the healthful leafy greens.  
100 seeds - $1.95

**44401G. CRIMSON SWEET**  
*(85 DAYS)*  
*GERM 4-10 DAYS*  
AAS winner from the 1960’s. Classic light and dark green striped rind and deep red flesh with the perfect amount of sweetness. Almost round fruits can reach 15-25 lbs. Vines spread 8 feet and are resitant to anthracnose and fusarium wilt.  
20 seeds - $2.95

**374G. BUTTERSCHOTCH**  
*(F1 HYBRID 100 DAYS)*  
*GERM 7-10 DAYS / Cucurbita moschata*  
Abundantly sweet flavored mini personal sized, 1-2 lb fruits are 6” by 3” and grow on compact space saving vines; producing 3-4 per plant. Resists powdery mildew. 2015 AAS winner. Bred by our neighbors, Johnny’s Selected Seeds.  
15 seeds - $3.75

**384G. BLUE HUBBARD**  
*(102 DAYS)*  
*GERM 7-10 DAYS / Cucurbita maxima*  
This New England favorite is not for those with limited space. Long vines produce good yields of powderly blue, oval squash with a hard shell and firm, dry, yellow flesh, some an excess of 20lbs. Storage qualities are exceptional, and one squash will provide a number of meals.  
15 seeds - $2.75

CANADIAN ORDERS:
It is with regret that we have made the difficult decision to suspend shipping to Canada at this time. While we deeply value your support, due to significant increases in shipping costs, unacceptable postal service delivery delays, and with limited staff and resources in the face of the ongoing pandemic we are no longer able to offer any international shipping. We hope to resume shipping to Canada sometime in the future once more efficient and timely processing can be assured.

SALES TAX:
Please see page 129 for information regarding the required collection of sales tax in many states.

ALASKA/HAWAII ORDERS:
Additional shipping charges of $9.95 will apply for orders over $29.99.

PLEASE NOTE:
Paying by check may delay your order as it requires additional processing and clearing time.

Live plants, Tubers, and bulbs have moved to their own section! Check them out starting on page 88

Greetings from the Pinetree Crew!
Together, this small but mighty group is responsible for everything it takes to get you and your garden growing strong. We love to hear your success stories, troubleshoot challenges, and answer questions. Thank you for being our customers!
Pinetree began as a vegetable seed company and as we enter our 43rd year, this remains our primary focus. We spend the majority of our space and time in trials evaluating vegetable varieties; flavor, space efficiency, beauty, and uniqueness are our priorities, rather than worrying about the needs of the large scale farmer. We are here for you, the backyard or small scale grower. Providing reliable, high quality seeds in just the right amounts. Something healthy, delicious and fun to share with your friends and family!

HEIRLOOM SEED VARIETIES

Heirloom seeds are a wonderful addition to any garden. The plants have diverse characteristics, unique appearance, and superior flavor. Heirlooms have been saved for generations throughout the world and often have interesting stories behind them. Although opinions vary on how old a variety should be to qualify as heirloom, most consider seeds grown prior to 1950 as heirlooms.

Open Pollinated - The seed produced from these plants will be genetically identical to the parent plant.

Heirloom - Open pollinated seed varieties that have been passed down for generations through families or communities.

Hybrid - Has two different parents of the same species that have been selected for their certain traits in a controlled environment. The seed produced will not be genetically identical to the parent plants. Please note that hybrids are not genetically modified (GMO), simply bred to exhibit certain traits.

Number of days listed after a variety name refers to the length of time for each crop to reach maturity, based on our experience in our trial gardens here in Maine. For crops started indoors (e.g., tomatoes), calculations are made from day of transplanting into the garden. These “Days to Maturity” are most useful as relative indicators, to compare varieties within our catalog, and may not reflect the actual days to maturity you experience in your particular garden under different conditions. Our figures will be different from other seed vendors’ figures for the same reason.

ARTICHOKE

Indoors - 8-12 weeks before last frost 1/4” deep in 4” pots with soil temperatures 65-75 degrees. Before transplanting outside, a vernalization is required for growing in the north (zone 6 and below) to induce first year bud formation. Set the seedlings out for 10 days at temperatures of 45-50*. Sow seeds in the fall if you live in zone 7 and above. Transplant at 3-4’ apart, after danger of frost has passed, into rows amended with lots of compost or aged manure.

Harvest - Just below the bud when they are firm and still closed.

Tips - Artichokes are heavy feeders so fertilize well from the early stages of growth.

5. GREEN GLOBE (85 DAYS)

GERM 10-18 DAYS Heirloom - 1863

For a century and a half this choke has been the standard variety in the west. It produces an abundance of “chokes” over a number of years given the right environmental factors. Plants are dark green, of medium height, and buds are an elongated oval with somewhat spiny scales. Perennial in zone 7 and above.

25 seeds - $1.95

10005. COLORADO STAR

(75 DAYS)

GERM 10-18 DAYS

An early maturing artichoke bred specifically for areas with cold winters where overwintering is not possible. Produces 2-3 ½ ” purple to greenish-purple buds with some variation from plant to plant. Developed by the same breeder as Imperial Star. Perennial in zone 7 and above.

15 seeds - $3.95

1. MARY WASHINGTON

GERM 10-30 DAYS Heirloom - 1900

The Mary and Martha Washington varieties of asparagus were developed around 1900 for greater disease resistance. From the 1930 DM Ferry seed catalog: “A vigorous growing and productive asparagus bred to resist the disease known as Asparagus Rust. Mary is a selection from Martha and is earlier and more robust.” Zone 3-8.

25 seeds - $2.25

2. SWEET PURPLE

GERM 10-30 DAYS

Just as the name implies this deep purple variety has 20% more sweetness than green asparagus. The large sturdy spears are almost stringless making it delicious both cooked and raw. The sizable spears are tender right to the base allowing less waste. The mild, nutty flavor is a must have for the gourmet gardener. Zone 3-9.

25 seeds - $2.25

FOR LIVE ASPARAGUS PLANTS, SEE PAGE 88
BEANS

PLANTING:
Outside - After last frost with soil temperatures above 60 degrees. Planting in soil under 60 degrees results in poor germination. Bush/Drying: 1” deep and 4-6” apart. Pole: 1” deep, 3-4” apart for trellis/pole growth. Soybean: 1” deep, 4-6” apart, soil temperature above 70 degrees. Yard Long: 1” deep 4-6” apart. Lima type: 1” deep and 3-4” apart when soil temperatures reach 75 degrees. 150 seeds plant apx. 25’.

Tips - Water well during hot dry period and do not over fertilize which results in a small harvest.

- Before the seeds bulge and beans snap easily. Pick continually to prolong production.
- After last frost with soil temperatures above 60 degrees. Planting in soil under 60 degrees results in poor germination.

1102. JADE (57 DAYS)
GERM 4-10 DAYS
Like the gem it is named for, this exquisite bean is a lush green. The plants are strong and erect and typically do not need staking. Beans can be harvested at any point in development without sacrificing color or flavor. We always plant some Jades as an interesting counterpoint to the lighter shaded beans.

1oz (approx. 100-120 seeds) - $1.95

1201. MASAI (47 DAYS)
GERM 4-10 DAYS
Small 11 plants produce huge yields of thin, smooth, flavorful 4” beans. Several plants will provide a meal for two and due to the growth habit the harvest is quick and easy. One of the best beans for container growing. Wonderful late summer harvest. Reportedly Masai is now “the standard” bean in Europe.

1oz (approx. 180-200 seeds) - $1.95

13. TENDERGREEN IMPROVED (53 DAYS)
GERM 4-10 DAYS  Heirloom 1922
A longtime favorite, this bean’s round pods are 6” long. Yield is heavy and prolonged. Flavor and texture are excellent, particularly when picked at a modest size. Equally good for freezing or eating fresh. Stringless.

1oz (approx. 80-100 seeds) - $1.95

1301. STRIKE (45 DAYS)
GERM 4-10 DAYS
Strike is a heavy yielding 5” bean with great flavor. While it is very popular with commercial growers it is also ideal for home gardeners because of its earliness, its productivity, its flavor, and the fact that plants yield over a remarkably long period of time. Stringless.

1oz (approx. 100-120 seeds) - $1.95

1302. BLUE LAKE 274 (53 DAYS)
GERM 4-10 DAYS
This variety was introduced in 1962 and was considered quite a breakthrough as it combined the exceptional flavor of the renowned Blue Lake pole bean with a bush habit. Today, over 25% of bush green bean sales are this one variety. Pods are 6” long & straight with small white seeds. Plants are 18” tall & yields are dependably heavy.

1oz (approx. 70-90 seeds) - $1.95

1406G. ROMA II (58 DAYS)
GERM 4-10 DAYS
An improved Italian romano bush bean. Flat 4-5” stringless pods are delicious freshly picked and explode with flavor. Dependable and high yielding, excellent for canning or freezing.

1 oz (approx. 60-80 seeds) - $2.50

1403. STRINGLESS GREEN POD (50 DAYS)
GERM 4-10 DAYS  Heirloom 1894
The 1930 Ferry catalog refers to this bean as the primary bush bean grown by market gardeners, but it is also a great choice for the home. Produces loads of meaty, juicy, and round 6” green beans that stay totally stringless and tender even at a large size. Excellent bean for canning, freezing, or market.

1oz (approx. 70-90 seeds) - $1.95

12. PROVIDER (50 DAYS)
GERM 4-10 DAYS
This is a popular stringless bean in New England. It is reasonably early on plants that are quite compact. Size is 5-6” and yield is good. Disease resistance is a strong point. This is our bean of choice for making Dilly Beans.

1oz (approx. 90-110 seeds) - $1.95

1001. DRAGON LANGERIE (57 DAYS)
GERM 4-10 DAYS
This Dutch wax bean has very pretty purple stripes mottled over creamy yellow pods. Both the yield and flavor of the flat, 5” long bean are remarkably good. Few varieties in the catalog produce more compliments than this one. Stringless.

1oz (approx. 60-80 seeds) - $1.95

9. GOLDEN BUTTER WAX (50 DAYS)
GERM 4-10 DAYS
5-6” stringless straight yellow beans with green tips held high on an upright bush. Plentiful pod clusters make Gold Rush a favorite of home gardeners. This variety holds well on the bush, is an excellent choice for pickling and has a great flavor when cooked for a side dish.

1oz (approx. 115-125 seeds) - $1.95

10. PENCIL POD (52 DAYS)
GERM 4-10 DAYS  Heirloom 1900
Pencil Pod is nicely rounded, slim, and elongated. It is a heavy producer which yields over a long period. The flavor is sweet and juicy. The contrast of yellow pods and green leaves is an attractive feature in the mid-summer garden. Seeds are black. Stringless.

1oz (approx. 80-100 seeds) - $1.95

1107. SERENGETI (55 DAYS)
GERM 4-10 DAYS
Outstanding, high yielding fancy french filet bean. Long and lean, smooth medium green colored beans are 6” long on strong upright plants. Uniform and attractive pods make a great meal and present beautifully on a plate. Stringless.

1oz (approx. 145-165 seeds) - $1.95

W125. MAXIBEL (59 DAYS)
GERM 4-10 DAYS
Full sized haricot vert, 7” long. Thin, elegant green pods are borne in a concentrated set for ease of picking. A high yielding variety with a good, rich bean flavor. Back by popular demand. Stringless.

1oz (approx. 100-120 seeds) - $2.75
FRENCH BEANS

1108. CALIMA (55 DAYS)
GERM 4-10 DAYS
Excellent flavor with a crunchy, nutty taste. Slender, dark green French filet-type pods grow at the top of the bush. The 7-8” long beans dangle straight downward, making picking easy. Keep pods harvested at pencil size and the bush will reward you with high yields for a long harvest window, about 4 weeks. Stringless.
1oz (approx. 145-165 seeds) - $1.95

1109. VELOUR (55 DAYS)
GERM 4-10 DAYS
Bring purple power to your garden with these beautiful and delicious French filet-type bush beans. Slender, stringless, medium-sized pods are set off from attractive, green bushes by a gorgeous, deep purple color. High yielding and disease resistant, will transform to green when cooked.
1oz (approx. 150-170 seeds) - $2.75

1501. KENTUCKY BLUE (62 DAYS)
GERM 4-10 DAYS
This bean combines the positive characteristics of Kentucky Wonder and Blue Lake beans in a symbiosis wherein the child is an improvement upon both parents. The vigorous vines produce an abundance of exceptionally flavorful nearly straight, stringless pods. Beans are best harvested at 7”.
50 seeds - $1.95

1903G. GOLD MARIE (75 DAYS)
GERM 4-10 DAYS
Flattened, radiant yellow romano type pods are crisp and fleshy in texture. Our Ikarus sunflowers, growing underneath a trellis, provided great support for this pleasing variety. Best harvested at 6 inches. Said to be a selection from an old Italian heirloom. Stringless.
50 seeds - $1.95

15. KENTUCKY WONDER (66 DAYS)
GERM 4-10 DAYS  Heirloom 1873
Dual purpose bean can be used for eating fresh or as a shell bean. A real heirloom, it came from a woman named Nancy Davis in Kentucky. Pods grow to 9” in length and yield is continuous. Picked young, they are among the tastiest green beans. Stringless.
50 seeds - $1.95

1503. STATE 1/2 RUNNER (60 DAYS)
GERM 4-10 DAYS  Heirloom 1800’s
To stake or not to stake – that is the question for State. By definition half runner beans are halfway between bush and pole types. Vines grow to 3’ and will climb but staking is not essential. Beans are relatively short – 4” – but yields are heavy and last over a long period.
50 seeds - $1.95

1602. RATTLESNAKE (65 DAYS)
GERM 4-10 DAYS  Heirloom
Very flavorful pole bean, popular in the west for some time. Vigorous vines yield for the entire season as long as you keep them picked. Beans are quite long, 8-10”, color is an attractive green with purple stripes.
50 seeds - $1.95

1508G. NORTHEASTER (56 DAYS)
GERM 4-10 DAYS
Our earliest pole bean. The 7-8 inch flattened, stringless pods stay tender between pickings. It’s ability to mature quickly makes it possible for second plantings. The name of this variety might chill those of us who live in the northeast but this nor’ easter will give you shovels of beans not snow!
50 seeds - $3.95

1901. PURPLE POD (70 DAYS)
GERM 4-10 DAYS  Heirloom
Vivid purple pods will beckon you to pluck for a quick nibble. Discover why this heirloom, found in an 1930’s Ozark garden, was saved and maintained and is still available to us. Richly flavored and stringless, it is an attractive plant with purple vines and pretty bi colored flowers.
50 seeds - $1.95

1505. CARMINAT (62 DAYS)
GERM 4-10 DAYS
Slender, round, 7-8” deep purple pods are top-notch for a haricot vert (filet) pole bean. Forget some on the vine or not enough time to pick everyday; it’s not a problem, the larger beans still have excellent quality. In flavor, “down home beany” and slightly sweet and texture, snappy and crisp. Stringless.
50 seeds - $3.95

1506. MONTE GUSTO (58 DAYS)
GERM 4-10 DAYS
Harvests of golden-yellow beans are possible all season with this variety. Harvest at 6-7” for thin, smooth filet beans or let them plump up to maturity at 8-9”. Picking them either way, they burst with flavor. Stringless.
50 seeds - $3.95

20. ROYAL BURGUNDY (51 DAYS)
GERM 4-10 DAYS
Grows very well under cool conditions with strong, tall, purple-stemmed plants producing an abundance of pretty lavender flowers and clusters of round, straight 6” beans. Eaten raw, they are dark purple, very juicy, crunchy, and great flavor. Acquire a deep green color when cooked, more dramatic than most green varieties.
1oz (approx. 90-110 seeds) - $1.95

17. HENDERSON BUSH LIMA (68 DAYS)
GERM 7-18 DAYS  Heirloom 1889
The most common bush Lima, this is also the earliest and most prolific. It requires more space than bush green beans, but is still remarkably compact. Yield is continuous until frost. Pods and beans are relatively small. Can be dried as well as shelled.
100 seeds - $1.95

18. SPECKLED CALICO POLE (80 DAYS)
GERM 7-18 DAYS  Heirloom
A pole lima bean in a new color scheme, Speckled Calico features large red and white beans, about the size of a quarter. The delicious buttery flavor is retained after freezing, so you’ll want a large crop of this one.
50 seeds - $1.95

19. KING OF THE GARDEN POLE LIMA (85 DAYS)
GERM 7-18 DAYS  Heirloom 1883
Bred as an improvement for both earliness and size. The vigorous climber has 4-6 large, creamy limas per pod. Produces over a long period—until frost. The 1936 James Vicks catalog states, “this standard pole bean is as popular as ever today”. Even then it was considered an old timer.
30 seeds - $1.95

2901. YARD LONG MOSAIC (65 DAYS)
GERM 4-10 DAYS  Chinese Heirloom
Lavender, pink, and mint colors blend together on these gorgeous long pods. They have a more dense texture and intense bean flavor than green beans An excellent choice to use in an edible ornamental garden on a trellis, where you can watch the beautiful flowers grow before your eyes into pods. Begin harvesting at 10-12”, before pods plump up; if you do miss some the mature beans can be shelled then cooked like peas.
50 seeds - $2.50

W414. YARD LONG (90 DAYS)
GERM 4-10 DAYS  Heirloom
Also known as asparagus bean, the longest we got were close to 2’. 4” vines are very heavy and need a strong support. Pretty pink flowers, like a small sweet pea, produce the long very slender beans. Tasty is a mix between the flavor of a bean and asparagus. Best picked at about 1’ in length for tenderness.
50 seeds - $2.50
Dried beans can be stored in a cool, dry place up to a year.

To harvest, allow the plants to dry on the ground or pull the plants and finish drying inside. They will continue to dry after they are picked. Shell the dried pods by hand or use a burlap sack to thresh the beans out of their shells. A single row planted 10' will yield approximately 1 lb. of dried beans.

To test for dryness, bite down on a bean and when the coat barely gives to indentation the bean is dry. If fall weather is wet or frost threatens the harvest, you can pull the plants and finish drying inside. With late planting, especially in regions with mild winters, 30-40 seeds (due to their size) are needed.
Indoors - 1/2” deep, 4-6 weeks before the last heavy frost. Sow individual cells, transplant out as soon as possible (when first true leaves appear.) 3” apart in early spring, as soon as soil can be worked.

Outdoors - Early spring 1/2” deep, 1-2” apart, soil temperatures at 50 degrees. Soaking seed overnight aids in germination. Thin seedlings to 3-4” apart.

Harvest - Begin picking at 1” for baby beets and up to 3” across for the most tender and best tasting. For best storage cut off greens 2” above the top of the beet.

Tip - Use the thinnings for beet greens or plant a heavily seeded row for baby beet tender and best tasting. For best storage cut off greens 2” above the top of the beet.

Soaking seed overnight aids in germination. Thin seedlings to 3-4” apart.

3001. DETROIT WHITE (55 DAYS)
GERM 5-10 DAYS
You get the delightful, distinctive taste of beets without the sometimes inconvenient red stain. The flavorful roots are a dusky white and a great counterpoint in salads.
100 seeds - $1.95

31. DETROIT (63 DAYS) Heirloom 1892
Leading crop beet for the last 20 years, but has been grown for over 100 years. Crimson of the flesh also shows in the leaves. Large, smooth roots produced but it is also good for greens at an earlier stage. Freeze & cans well with exceptional flavor.
300 seeds - $1.95

3601. RED CLOUD (F1 HYBRID 50 DAYS) GERM 5-10 DAYS
A dark red, vigorous growing beet with a well attached top of good color. Very resistant to bolting and a single planting can be harvested over a long season. Exceptionally sweet flavor and fine texture. It is also a good choice for greens.
100 seeds - $1.95

37. RED ACE (F1 HYBRID 51 DAYS) GERM 5-10 DAYS
Ideal combination of early maturity and standing in the field for a long period without bolting or toughening up. We picked beets from the same planting for a period of 2 months and the last ones harvested were nearly as good as the first. Tops are fairly short, 12”. Smooth roots with excellent flavor.
100 seeds - $1.95

490. BULLS BLOOD (50 DAYS) Heirloom 1840’s
Brilliant red burgundy leaves are visually appealing in the garden and on the plate. Roots have deep red and white concentric rings. Great tasting leaves are excellent as greens or as an attractive contrasting addition to salad mixes. Uproot beets when they are 2-3” for tender, sweet, and delicious roots.
100 seeds - $1.95

W239. CHIOGGIA (55 DAYS) Heirloom
This Italian heirloom comes to us from the romantic fishing town, Chioggia, on the Adriatic coast. This beet is lovely and unique, alternating rings of white and bright pink. The exterior skin is a bright candy red. The tops are small, all green and have a particularly fine flavor. Fairly early and flavor is exceptionally sweet.
100 seeds - $1.95

32. EARLY WONDER TALL TOP (50 DAYS) Heirloom 1911
Somewhat earlier than the other full-sized beets. The tops are medium to tall and excellent for greens. Root is globular with a relatively small taproot. Dark red color and good flavor.
300 seeds - $1.95

3101. SUGAR BEET (100 DAYS) GERM 5-10 DAYS
Large gangly roots produce a natural source of sugar. Roots can be used fresh to add intense sweetness to dishes. Can also be made into sugar, syrup, molasses, and wine. Fun to grow!
100 seeds - $1.95

30. CYLINDRA (58 DAYS) Heirloom 1880
Shaped more like a fat carrot or a thin rutabaga than a traditional beet, 6-8” long and 1 1/2-2” in diameter. The dark red roots taste great and are ideal for slicing, either fresh or for pickling.
300 seeds - $1.95

3102G. TOUCHSTONE GOLD (55 DAYS) GERM 5-10 DAYS
Pale orange spherical roots with sunshine golden flesh. Delectable sweet taste, raw or cooked. Keeps marvelous color during cooking. Performs well in the garden, notably more reliable than other golden type beets.
100 seeds - $2.25

34. GOLDEN (55 DAYS) Heirloom 1828
3”, round, golden bulbs are renowned for their quite exceptional sweetness. The unique color dresses up many a dish and has the added advantage that it doesn’t bleed as do the red varieties.
100 seeds - $1.95

33. CROSBY EGYPTIAN (45 DAYS) Heirloom 1880
Originated in Germany and is reputed to be the most widely grown beet in the world. Large, flattened beets are grown primarily above the soil but skins don’t get the toughness of the upper portions of some beets. Beets are sweet and early without any “earthy” taste.
300 seeds - $1.95

35. RUBY QUEEN (60 DAYS) GERM 5-10 DAYS
Sweet flavored, deep red, globe shaped variety, with short dark green tops. A popular variety in the northeast, this 1957 AAS Winner was rated by a panel of garden writers as one of the dozen top all-time vegetable varieties.
300 seeds - $1.95

38. LUTZ WINTER KEEPER (80 DAYS) Heirloom 1880’s
Old time variety remains the best for both storage and greens harvested at any time. Roots are half long, deep purple and will retain sweetness if properly stored throughout the winter.
300 seeds - $1.95

39. PINETREE BEET MIX - 1 OZ. PKT. GERM 5-10 DAYS
A mixture of the beets we sell along with a few other varieties that we favor.
APPROX. 2200 seeds - $3.95
Indoors - 4-6 weeks before last frost and 1/4” deep with soil temperature at 65-75 degrees. Liquid fertilize seedlings every 7-10 days. Transplant out just before last frost.

Outdoors - Early spring until mid summer for fall crops. Plant 1/2” deep and 6” apart. Thin seedlings to 18” apart.

Harvest - Pick when heads are tight before flower buds starts to open. For varieties that produce side shoots keep picked for a longer production.

Tips - A heavy feeder; transplant/direct seed into well composted soil and side dress when buds begin to form.

---

41. BELSTAR (F1 HYBRID 60 DAYS)
GERM 3-10 DAYS
Everyone was impressed with this hybrid in our trials. Maturity was exceptionally early with very tight light green heads, 5-6” across. At maturity it holds its head for over a week which can be a real virtue. Good flavor. Disease resistance: Downy Mildew, Fusarium Yellows. Heat Stress.
30 seeds - $2.25

49. WALTHAM 29 (85 DAYS)
GERM 3-10 DAYS
The standard open-pollinated broccoli. Nicely formed stocky plants 20” in height yield dark blue-green mid-sized heads. Produces a large number of side shoots after harvest. A fine choice for a late fall/winter harvest.
30 seeds - $1.95

43. DI CICCO (55-70 DAYS)
GERM 3-10 DAYS Italian Heirloom – 1890
Numerous side shoots of varying size may be harvested over a long period after the 3-5” central head is picked. Don’t restrict yourself from eating just the blue – green florets, the stalks and leaves are tender, tasty, and edible, as well.
30 seeds - $1.95

4401. ASPABROC (F1 HYBRID 50 DAYS)
GERM 3-10 DAYS
Capture the savory taste of broccoli and asparagus in one plant. Entire plant is edible with extremely tender, long slender stems with asparagus like texture and florets that have a sweet, milder flavor with a slight peppery undertone. Performs well with little space in a spring or fall planting. Harvest the small 3-4” main stalk head first, smaller florets will continue for over a month.
30 seeds - $2.75

4302. EASTERN MAGIC (F1 HYBRID 62 DAYS)
GERM 3-10 DAYS
Produces quality heads under fluctuating conditions with exceptional performance in the northeast. Heat tolerant plants produce high domed, 6-8” blue-green heads. For summer and fall harvests.
30 seeds - $2.25

4802. CALABRESE (55 DAYS)
GERM 3-10 DAYS Italian Heirloom pre-1880
Dark green plants are 18-30” in height and produce 3-6” central heads followed by abundance of side shoots. Flavor is pronounced, a more basic taste than the more modern varieties.
30 seeds - $2.25

W246. SESSANTINA GROSSA (34 DAYS)
GERM 3-10 DAYS
A 12-14” raab with a strong broccoli flavor that mellows with cooking. Hardy enough for early spring or fall planting. Forms more of a head than its cousins; stems, shoots, buds, and leaves are all edible.
100 seeds - $1.95

---

4503. GREEN MAGIC (F1 HYBRID 60 DAYS) GERM 3-10 DAYS
A reliable producer for an early to mid summer harvest or for a fall crop with a mid summer planting. Smooth, attractive, blue green heads are tightly packed. After the main head is cut it will show off with a high amount of side shoots. Disease resistance: Downy Mildew, Heat Stress.
30 seeds - $2.25

4402. MIRANDA (90-100 DAYS)
GERM 3-10 DAYS
Sprouting broccoli with violet colored heads and side shoots. Grew tall, initially producing a good sized, main head for us, 8” and followed with colorful sprouts.
30 seeds - $1.95

4504. IMPERIAL (F1 HYBRID 70 DAYS) GERM 3-10 DAYS
Variety for mid to late summer harvest, performs best with long day length, accompanied by moderate heat. Dependable choice for northeastern summers. Domed heads are dark green with small heads and have a excellent post harvest shelf life. Handles Heat Stress well.
30 seeds - $2.25

4901. PURPLE PEACOCK (70 DAYS)
GERM 3-10 DAYS
Open-pollinated variety is a cross between broccoli and two kales, beautiful either in the garden or edible landscape. Young leaves are tender, great for salads, older, serrated leaves are used like kale. Loose heads of purple florets are not too large, taste excellent. Plant also produces generous side shoots.
30 seeds - $1.95

47. PINETREE BROCCOLI MIX GERM 3-10 DAYS
The biggest advantage to the broccoli mix is that it gives you a variety of different maturities from early to late in the season. The mix includes most of the varieties that we sell and a few other recommended varieties.
100 seeds - $3.50

45. GYPSY (F1 HYBRID 57 DAYS)
GERM 3-10 DAYS
Heat tolerance sets Gypsy apart from other broccoli varieties. Good choice for the South and for later plantings in the North, maturing in the heat of August. Plants are vigorous with a strong stalk and energetic root system. Color is a paler green. Resists downy mildew and heat stress. Tastes good, with a strong broccoli flavor.
30 seeds - $2.25

W245. BROCCOLI DI RAPA - NOVANTINA (30 DAYS)
GERM 3-10 DAYS
Called Broccoli Raab or Rapini, a non-heading broccoli. Top 6-8” of so of leaves and unopened flowers are usually harvested. Makes a good fall crop or early spring. No resemblance to the mild broccoli flavor you may be used to, this green is quite pungent. Try it steamed with lemon, salt, and pepper.
100 seeds - $1.95

W247. EARLY PURPLE SPROUTING (120-200 DAYS)
GERM 3-10 DAYS
An old english type of broccoli planted out mid to late summer and requires overwintering to produce florets the following spring. Does best in mild climates and will need protection in those that fall below 15 degrees. High in vitamins with a tangy flavor.
100 seeds - $1.95
Indoors - 4-6 weeks before last frost, 1/4" deep with soil temps 65-75 degrees. Seed into cell trays or small pots. Liquid fertilize seedlings every 7-10 days. Transplant out 18-24" apart.

Outdoors - Mid to late spring 1/4" deep and 18-24" apart.

Harvest - Start picking from bottom up, when they are firm and 1" across, cutting off the leaf below the sprout. To harvest all the sprouts at once, cut off the top of the stalk 4-8 weeks before you want to harvest or when lower sprouts reach 1/2" in size.

Tips - A heavy feeder- transplant/direct seed into well composted soil and side dress a few times during the season. The best and sweetest Brussels sprouts are harvested after going through a few frosts.

50. JADE CROSS (F1 HYBRID 107 DAYS)
GERM 3-10 DAYS
1959 AAS Winner, about 2 1/2' tall at maturity. Sprouts are borne all the way up the stalk and are good sized. Flavor is excellent and yield very abundant. Rated one of the dozen top vegetable introductions by a panel of experts.

30 seeds - $2.25

51. CATSKILL (100 DAYS)
GERM 3-10 DAYS
Introduction from New York State, 1941. A dwarf variety with a dense compact growth habit, 20-24" with strong stalks and 2" round sprouts.

100 seeds - $1.95

52. LONG ISLAND IMPROVED (85 DAYS)
GERM 3-10 DAYS Heirloom 1890’s
A semi-dwarf plant, no more than 2' tall with good yields of 1-2" sprouts. Can set 50-100 sprouts on a plant. Until the recent development of hybrids, this was the chief commercial variety.

100 seeds - $1.95

5301. RED BULL (120 DAYS)
GERM 3-10 DAYS
Produces 1-2" red-purple sprouts that deepen in color late after a frost. A variety from Europe that is milder than green sprouts with a more nutty flavor. Grows to 3 feet. Beautiful color remains after cooking. Attractive plant, perfect for the home gardener.

25 seeds - $2.25

Outdoors - Early spring 1/2" deep, 2" apart in rich, well drained, deep, loose soil promotes big and long roots. Thin to 4" apart.

Harvest - Fall and spring. Gently dig deep around the roots. Young roots, leaves, and stalks can be eaten raw or cooked. Mature older roots are cooked.

W416. TAKINOGAWA LONG (120 DAYS)
GERM 3-10 DAYS Asian Heirloom
The roots do take a long time to develop but eventually grow to a length in excess of a foot. The flavor is delicious – sort of bittersweet. Burdock is also thought to have medicinal properties.

25 seeds - $1.95

Indoors - 4-6 weeks before last frost and 1/4" deep with soil temperature at 65-75 degrees. Liquid fertilize seedlings every 7-10 days. Transplant out just before last frost.

Outdoors - Early spring until mid summer for fall crops. Plant 1/2" deep, 12-15" apart for small headed varieties and 20-30" for large headed varieties

Harvest - if the heads feel solid by pushing on them lightly they are ready to harvest. Harvest as soon as possible for early varieties to prevent splitting. Later maturing varieties will hold longer.

Tips - Mulch, provide fertilizer, and adequate moisture for optimum growth.

5801. MAMMOTH RED ROCK (90-100 DAYS)
GERM 7-12 DAYS Heirloom 1906
According to F.B. Mills 1936 catalog: “The largest of the Red Cabbages and the most sure heading, also the best for pickling”. Those good storing cabbages produce 5-8lb flattened round heads. The color of the leaves is a reddish purple on the outside and right to the core.

100 seeds - $1.95

5802. PRIMERO (F1 HYBRID 72 DAYS)
GERM 7-12 DAYS
An early, compact cabbage with a deep ruby red color that has a sweet taste, tender texture and is perfect for a single meal. A very productive variety, great for light space plantings with an average head weight of 2-3lbs.

30 seeds - $1.95

59. RUBY PERFECTION (F1 HYBRID 75 DAYS)
GERM 7-12 DAYS
This is the breeder’s replacement for Ruby Ball. Performs almost identically. Plants were so hardy for us that even when deer came snacking early in the season, those plants affected still produced nice looking cabbages, although a bit smaller than those which were not nibbled. 3 lbs. Deep purple head.

30 seeds - $1.95

5901. RED EXPRESS (60 DAYS)
GERM 7-12 DAYS
One of the earliest open pollinated red cabbages available, bred especially for northern climates. Uniform, dense heads are a lovely purple color, medium sized, 2-4 lbs. and have a crunchy texture, perfect for garden fresh colesaw. Can be planted close together in a compact space.

30 seeds - $1.95

5904. KALIBOS (85 DAYS)
GERM 7-12 DAYS Heirloom
This Eastern European heirloom is not your typical cabbage. It has brilliant amethyst heads with a conical shape and is single dish sized, producing well in a small space. We found that if the plants are grown tightly they grow upward and rise out of the garden. Heads are dense and sweet, having a high sugar content, crunchy and perfect raw, for coleslaw and salads. Good keeper.

30 seeds - $1.95

61. QUICK START (F1 HYBRID 55 DAYS)
GERM 7-12 DAYS
This extra early maturing ball head type cabbage grows vigorously. You will notice the changes each day as it begins to head up and create a 3 lb ball. The heads are held close to the ground on a short stalk and can be planted densely. Quick Start is highly resistant to yellows and tastes great.

30 seeds - $1.95

6104. KATARINA (F1 HYBRID 45 DAYS)
GERM 7-12 DAYS
Early season, 4-5” compact heads are ideal for tight spaces. Katarina will grow well in the ground, raised beds, or containers. Excellent eating quality, tender and crunchy, perfect for fresh salads. An award-winning replacement for the popular but discontinued Mini Gonzales variety. AAS winner.

30 seeds - $2.50

62. POINT ONE (F1 HYBRID 48 DAYS)
GERM 7-12 DAYS
A pointed head cabbage. We were very impressed with the earliness and holding capacity of this unique variety. Point One is bred for resistance to a number of diseases. Plants are a yellowish green and very attractive. A great addition to any garden.

30 seeds - $1.95

5701. EARLY JERSEY WAKEFIELD (60-75 DAYS)
GERM 7-12 DAYS Heirloom 1840
After 170 years, still one of the best picks for a small, early cabbage. The 2-4 lb, pale green, pointed heads have a delicious flavor, few outer leaves and can be planted close together. Resists yellows and splitting.

100 seeds - $1.95
CABBAGE - CARROTS

**6201. CHARLESTON WAKEFIELD**
(70 DAYS)
GERM 7-12 DAYS  Heirloom 1892
A heat tolerant cabbage that does well in just about any climate in the US. Forms conical shaped heads, similar to Early Jersey Wakefield but larger, weighing 4-6 lbs. Stores well.
30 seeds - $1.95

**63. GOLDEN ACRE** (55 DAYS)
GERM 7-12 DAYS
A very early round headed cabbage often used for pack sales and for forcing. Heads are ball shaped and can grow close to 5 lbs. so size isn't sacrificed for earliness. Short stemmed with few outer leaves, the flavor of Golden Acre is excellent.
30 seeds - $1.95

**60. ALCOSA** (F1 HYBRID 72 DAYS)
GERM 7-12 DAYS
We think this is the best choice in a savoy cabbage for home gardeners because the head is relatively small, 2-4 lb. heads are blue-green on the outside with tightly packed, crinkly, yellowish leaves on the inside. As with all of our hybrid cabbage, Alcosa doesn’t mind being planted close to its neighbors. Fine flavor which improves with cooler weather. Disease resistance: Fusarium Yellow and Tip Burn.
30 seeds - $1.95

**6001. PERFECTION SAVOY**
(95 DAYS)
GERM 7-12 DAYS  Heirloom – pre 1885
According to the 1936 James Vicks catalog “Savoy varieties are almost as tasty as cauliflowers and as this fact becomes known, the demand for seed is increasing year by year.” Originated in France. Produces a large, coarsely crumpled head on a 6-8” stem. There are numerous delicious outer leaves, so give it some space.
100 seeds - $1.95

**55. EXCALIBUR** (F1 HYBRID 78 DAYS)
GERM 7-12 DAYS
Our replacement for discontinued Krautman. A processing type with medium to large heads perfect for sauerkraut and coleslaw. Fusarium yellow resistant, black rot, and thrip tolerant.
30 seeds - $1.95

**56. DANISH BALLHEAD** (90 DAYS)
GERM 7-12 DAYS  Heirloom 1887
Late fall, storage variety with medium-size heads of blue-green. Exceptionally good keeper with a pleasing flavor and texture. Introduced in 1887 by Burpee and remains a standard storage favorite today. Great sauerkraut variety.
30 seeds - $1.95

**6501. TRONCHUDA CABBAGE**
(85 DAYS) GERM 7-12 DAYS
Also known as Portuguese kale. Loose head cabbage grows bulky, wide, spreading jade green leaves with fleshy white ribs. Sweeter and milder flavor than heading cabbage and can be used throughout the whole season by picking outside leaves. Not commonly found in stores and would be great opportunity for a market gardener looking to attract customers with something new. Tolerates heat spells, withstands frost well and may be over-wintered in temperate regions. Leaves are great for stuffing and ribs can be used like swiss chard.
30 seeds - $1.95

**65. PINETREE CABBAGE MIX**
GERM 7-12 DAYS
If you don’t grow cabbage because you can’t use them all when they mature, this mixture may solve the problem. You’ll get early ones, late ones, (and all maturities in between), red ones, green ones, little ones, big ones, domed ones, smooth ones and savoyed ones.
100 seeds - $3.50

**6505. MERLOT** (F1 HYBRID 60 DAYS)
GERM 7-12 DAYS
An improved replacement for Red Dragon but with deeper lavender-colored leaves inside and out. Picture-esque bicolor heads look just as beautiful in your garden as they do on your plate. The mosaic of deep lavender, green and white colored leaves are striking in kimchis, stir-fries, and salads. This Napa type grows to 10 inches and is the quintessential ingredient in Chinese and Korean Cuisine. A great fall crop as well.
30 seeds - $2.95

**W417. OPTIKO** (F1 HYBRID 65 DAYS)
GERM 7-12 DAYS
This compact, barrel shaped Chinese cabbage held the longest in the field and retained its flavor better than others we trialed. It was the first to begin heading, though its zesty, mustardy flavor didn’t develop until the heads were large and firm. Uniform size and growth was remarkable as was its ability to stand in the heat of summer. Well suited for succession planting. Disease resistance: Fusarium Yellow and Tip Burn.
50 seeds - $1.95

**W419. GREEN ROCKET**
(F1 HYBRID 70 DAYS)
GERM 7-12 DAYS
This refined Michili type is long, narrow, pointed, and tubular – just like a 1 1/2” carrot. Flavor is milder and more tender than that of its western cousins in the brassica family. Great in salads and slaws, boiled, steamed, braised, and stir fried. Also stores for quite a long period of time in the refrigerator.
50 seeds - $1.95

**6801. MINICORE** (55 DAYS)
GERM 6-14 DAYS
A Nantes-type, a tender baby carrot packed full of sweet flavor. Sow into containers, raised beds, or straight up in the garden. Harvest the roots at 3-5” and not tapered much at all, like a Nantes. Plant quite densely, 20-25 seeds per square foot. Also does great in containers.
300 seeds - $1.95

**826. BAMINO** (61 DAYS)
GERM 6-14 DAYS
The petite and tender gourmet carrots grow perfectly in containers. Harvest the slender carrots starting at 4” and sow a few plantings throughout the season for an extended harvest.
150 seeds - $1.95

**73. LITTLE FINGER** (60 DAYS)
GERM 6-14 DAYS
An excellent choice for succession plantings. Carrots are about the size of your index finger (about 3 1/2” long) and not tapered much at all, like a Nantes. Plant quite densely, 20-25 seeds per square foot. Also does great in containers.
300 seeds - $1.95

**69. MOKUM** (F1 HYBRID 54 DAYS)
GERM 6-14 DAYS
Relatively early with fine color, a small core, and is very juicy and sweet. An Amsterdam type, roots are about 6” long. Makes a good “baby” carrot due to its high sugar content and rapid coloring, but is fine for harvesting throughout the season as well. One of the best flavored varieties with a rich sweetness that is especially good raw and for juicing. Resistant to Alternaria Leaf Blight.
200 seeds - $1.95

**Tips**
- Using a row cover helps to maintain moisture for germination. Carrots prefer a loose soil, free of rubble. If your soil is heavy with clay, use the shorter varieties.
- Regularly water until germination, up to 3 weeks. The soil moisture should be maintained for quite a long period of time in the refrigerator.
- Keep well weeded and cover any exposed carrot with soil to prevent greening.
76. **RAINBOW** (F1 HYBRID 57 DAYS)
GERM 6-14 DAYS
One of the more unique vegetables that we sell. This carrot produces an amazing selection of possible colors; a white, 2 yellows, 2 oranges and a beautiful soft coral. Flavors for each shade are all slightly different. This is not a mixture; the same hybrid seed produces all.
300 seeds - $2.25

7002. **IMPERATOR** (70 DAYS)
GERM 6-14 DAYS  Heirloom 1928
According to the 1936 Henry A. Dreer catalog: “This carrot represents a more desirable combination of choice eating qualities and splendid appearance. The roots grow 7-8” long. They have a broad shoulder and gradually taper to a fine tap root. Due to their form they are easy to harvest.” AAS winner.
300 seeds - $1.95

68. **NAPOli** (F1 HYBRID 66 DAYS)
GERM 6-14 DAYS
While the earliness for a nantes type is exceptional, we are even more impressed with the quality of the roots and particularly with the good, not-too-sweet flavor. Length is about 7” and will tolerate thick sowing.
300 seeds - $1.95

7107. **ATLAS** (70 DAYS)
GERM 6-14 DAYS
Parisian market type for the gourmet gardener. Improved variety of the 19th century Parisian Heirloom. Rounded roots flourish in heavy or shallow soils. Grows well in containers. Keep well irrigated as drought stress can cause elongated roots. Steam or roast whole.
300 seeds - $2.25

70. **DANVERS HALF LONG** (75 DAYS)
GERM 6-14 DAYS  Heirloom 1871
Roots are 6-8” long with a blunt point. Good choice for those with heavy soil. Skin is a distinctive reddish orange color. Flavor is excellent and roots store well.
300 seeds - $1.95

7001. **ST. VALERY** (60-80 DAYS)
GERM 6-14 DAYS  Heirloom 1885
According to the 1924 James Vicks catalog, “The best and most handsome main crop carrot. Enormously productive, very desirable for private gardens as well as for markets.” This is an improvement on the very old “Long Orange.” 10” roots are sweet, tender, & delicious. Store well.
300 seeds - $2.25

7003. **TENDERSWEET** (70 DAYS)
GERM 6-14 DAYS  Heirloom pre-1936
According to the 1936 James Vick catalog, “Many of our customers who do not care much for carrots are enthusiastic about Tendersweet. Roots are long, tapering down to a blunt end and are reddish orange in color, and very uniform in size and shape. Popular with market growers because of the attractive bunch it makes.”
300 seeds - $1.95

6701. **LUNAR WHITE** (55 DAYS)
GERM 6-14 DAYS
A creamy white carrot with green shoulders. Lunar White is mild and sweet. The tender roots grow to 6-8”. White carrots are making a comeback. When Henry VIII sat down for lunch, the carrots on the table were white. White carrots remained popular through the 19th century but faded from view in the 20th. This improved variety is sweet and crunchy.
300 seeds - $1.95

7103. **AMARILLO** (70 DAYS)
GERM 6-14 DAYS
Named for the Spanish word for yellow, these lovely, bright lemon-yellow roots are very sweet and juicy. Yellow carrots have been around forever and are the favorites of a few folks here at Pinetree. Roots will grow to eight inches and the size is variable. Makes an interesting addition to crudites and retains its sweet flavor when cooked.
300 seeds - $1.95

7105. **DRAGON** (85 DAYS)
GERM 6-14 DAYS
Besides the appealing purple red color what stood out to us was the crunch and flavor of this carrot, not over saturated with sweetness, it has a mild, earthy side. Colorful inside and out, the interior is bright orange with a yellow core. A darner type, growing to 7” and producing consistent shaped roots.
300 seeds - $1.95

7106. **BLACK NEBULA** (70 DAYS)
GERM 6-14 DAYS
Before orange carrots existed (16th cent.) purple carrots were the most commonly cultivated, along with yellow. Skin is deeply colored, midnight purple shade goes all the way through to the core. Foliage is tinted purple and roots can be used as a natural coloring. Roots are tapered, 6-8”, and flavor is pure carrot. This carrot has a naturally lower germination rate than other carrots.
300 seeds - $1.95

7601G. **CULINARY BLEND** (60-70 DAYS)
GERM 6-14 DAYS
A colorful mix of yellow, white and orange carrots. Harvest for baby roots or grow to maturity for roasting, steaming or sautéing. The flavors will not disappoint you.
300 seeds - $3.25

7201. **SUGARSNAX** (F1 HYBRID 63 DAYS)
GERM 6-14 DAYS
A cross of Nantes and Imperator strains, close to ten inches long and with appealing shiny orange color and smooth skin. Flavor is sweet and crunchy, surprisingly so for an imperator type. Great for eating fresh but also versatile enough to use in a variety of other ways.
300 seeds - $1.95

74. **RED CORED CHANTENAY** (75 DAYS)
GERM 6-14 DAYS  Heirloom 1850’s
Short, fat carrot with attractive smooth orange skin. About 5 1/2" long, rarely splits or forks, even in heavy soil. We like it’s hard, crunchy, dense texture, and full-bodied flavor which is sweet and complex. An improvement on the original French import, this variety was introduced by Ferry Morse in 1930.
300 seeds - $1.95

75. **NANTES** (72 DAYS)
GERM 6-14 DAYS  Heirloom 1850’s 
FRENCH
Roots are 1 1/2” x 6". Color is reddish. A blunt ended, crisp carrot with a delectable flavor. Introduced into the US by the French company Vilmorin in the 1870’s. Names like Carentan and Touchon represent slightly different strains of Nantes favored in the area of these French towns.
300 seeds - $1.95

7108G. **YELLOWSTONE** (75 DAYS)
GERM 6-14 DAYS
Deep yellow roots perform well in almost every soil type. Broad shouldered imperator type grows to 8-9” and offers a sweet and mild flavor. Yellowstone is one hefty carrot; it was the largest and longest carrot we have ever grown, with some reaching over 12”.
300 seeds - $3.25

7205. **REDSUN** (F1 HYBRID 70 DAYS)
GERM 6-14 DAYS
A nantes type with attractive red roots all the way to the core. Grows to 7-8” with improved uniformity over other red colored carrots. Works best when harvested in the fall.
300 seeds - $2.50

71. **OXHEART** (90 DAYS)
GERM 6-14 DAYS  French Heirloom 1870’s
Squat, chubby chantenay type, with shoulders reaching 5” across and 3-4” long with a full carrot flavor. One of the most different carrots we offer, showing the diversity of carrot shapes and sizes. Tolerates heavy soil and excellent for storage.
300 seeds - $1.95
CARROTS - CAULIFLOWER - CELERIAC

7901. KURODA (110 DAYS)
GERM 6-14 DAYS
A smooth, uniform conical carrot with a deep orange red color. Use as a main crop for enormous yields of 6” carrots that mature late in the growing season. Keeps well in cold storage.
300 seeds - $1.95

After germination, grow in cool conditions 57-68 degrees for best results. Liquid fertilize seedlings every 7-10 days. Transplant out when there is little chance of frost. Indoors - 4-5 weeks before last frost. 1/4” deep with soil temperature at 65-75 degrees. Outdoors - Early spring until mid summer for fall crops. Plant 1/2 “deep and 18” apart. Harvest - Tie leaves around heads to blanch. Watch closely and pick before the curds begin to loosen.

Tips - A heavy feeder. Add compost to planting area then fertilize regularly, mulch and keep moist.

8001. AMAZING (71 DAYS)
GERM 6-14 DAYS
Classic, non-hybrid cauliflower from a Dutch grower. Large, uniform plants produce a big, crisp, dense head with both the texture and flavor that gardeners and cooks love. Plenty of wrapper leaves: to maximum whiteness, tie them up. Self-blanches well. Flavorful heads are produced over a long season.
30 seeds - $1.95

8103. FIORETTO (F1 HYBRID 60 DAYS)
GERM 6-14 DAYS
A sprouting type also known as a ‘stick cauliflower’- Plant along with Aspabroc (#4401), they are the perfect pair for pickling, grilling, sautéing, roasting, or just eating raw. Small florets with long slender stems offer a more flavorful experience with a deep nutty taste and more tender texture than traditional cauliflower. Works well in smaller garden spaces.
30 seeds - $3.25

81. SNOW CROWN (F1 HYBRID 53 DAYS)
GERM 6-14 DAYS
Heads are medium large with many exceeding two pounds in weight. Reasonably early. This All-America selection winner produces dependably even under adverse conditions.
30 seeds - $1.95

82. ROMANESCO (80 DAYS)
GERM 6-14 DAYS
Cultivated in Italy since the 16th century, this unique variety is still an unknown to many gardeners. Distinctive heads are a work of art; chartreuse colored buds grow in a tight upward spiral, ending in multiple pointed head of florets. Unbelievably tasty, with a crunchy texture and more delicate, sweet, nuttier flavor than regular dome headed type cauliflower.
30 seeds - $1.95

8301. CAULIFLOWER MIX (53-80 DAYS)
GERM 6-14 DAYS
A mix of our varieties that will help extend the harvest season.
100 seeds - $3.95

8107. BABY (F1 HYBRID 40 DAYS)
GERM 6-14 DAYS
Novelty mini cauliflower producing 3-4” baby-sized heads. Entire plant is usable in meals, both curd and leaves are tender raw or cooked. Developed to grow in small containers or in high-density plantings, needing less than a square foot of space per plant. Quick to mature, easy and fun to grow.
30 seeds - $4.25

80. EARLY SNOWBALL (55 DAYS)
GERM 6-14 DAYS Heirloom 1888
Heads are 5-6” across and erect, top is smooth and an attractive creamy shade. Introduced in the mid-1800’s.
30 seeds - $1.95

8801G. TANGO (80 DAYS)
GERM 14-21 DAYS
Outstanding performance in a short season. Handles heat and drought stress better than most celery, very forgiving for the weekend gardener. Tender, non-stringy stalks on self-blanching, vigorous plants. Resistant to fusarium.
100 seeds - $2.95

8501. GOLDEN PASCAL (101 DAYS)
GERM 14-21 DAYS French Heirloom pre-1930
In 1930 D. M Ferry wrote, “We recommend it as being the very best quality for fall and early winter use. It blanches to a beautiful yellowish white color, is very solid and crisp, and of a fine, nutty flavor. The stalks are of medium height, very thick, the upper portion nearly round but broadening and flattening near the base”.
100 seeds - $1.95

85. GOLDEN SELF BLANCHING (105 DAYS)
GERM 14-21 DAYS Heirloom - pre 1885
This is the type that blanches to a yellowish gold by fall. Stalks are close to 2’ tall. Flavor and texture are excellent, however this variety does require quite a long growing season.
100 seeds - $1.95

86. UTAH 52-70 (100 DAYS)
GERM 14-21 DAYS
Taller and greener than the previous selections, the bottom portion of the stalk can run close to a foot in length. A better choice for short season areas. While it may be a bit stringy, the flavor will be fine and it can be harvested at various stages of maturity.
100 seeds - $1.95

18806. CUTTING (45 DAYS)
GERM 14-21 DAYS
This hardy annual can be used in place of celery and is easier to grow. The fine green leaves and thin hollow stems are especially good to flavor soups and stews. Both stocks and leaves are cut at a younger, more tender stage than regular celery. Grows to 18”.
50 seeds - $1.95

8W312. CELERIAC - LARGE PRAGUE (112 DAYS)
GERM 10-21 DAYS Heirloom 1871
A cousin of celery that is grown in the same manner, but is harvested for the unsightly root. Less popular in the US, it is considered an estimable vegetable throughout Europe. Makes for a wonderful earthy addition to mash potatoes. Perfect for fall dishes or with braised meats.
500 seeds - $1.95

W250. VIOLETTA ITALIA (62 DAYS)
GERM 6-14 DAYS Italian Heirloom
This brassica blurs the line between broccoli and cauliflower. Heads are large by broccoli standards, smallish for a cauliflower. Color is lovely light purple for an interesting contrast in crudite, when cooked, as with beans, the color turns green. Flavor is tasty and side shoots develop after the central head is harvested.
30 seeds - $1.95

Shop online at www.superseeds.com!
1101. **COUNTRY GENTLEMAN** (90 DAYS)  
*Germ 7-14 days*  
*Heirloom 1890*

According to the 1936 James Vicks catalog: “Of all the white varieties this is surely the sweetest and most delicious corn to eat and it remains in an edible condition longer than any other variety after picking retaining its sweet flavor for a long time. Plants are 6-7’ tall often bearing 3 ears to a stalk. Cob is unusually small, and is covered with long, slender, shoe-peg like grains irregularly set.”

**75 seeds - $2.75**

111. **GOLDEN BANTAM 8 ROW** (78 DAYS)  
*Germ 7-14 Days*  
*Heirloom 1902*

Prior to its introduction, most corn varieties were white. In 1902 Burpee introduced Golden Bantam and it changed the color preference of the entire country within a decade. Ears are 6-7” and have 8 rows filled with large, flavorful kernels.

**150 seeds - $2.75**

11104. **STOWELL’S EVERGREEN** (90-100 DAYS)  
*Germ 7-14 Days*  
*Heirloom 1848*

There is an interesting story about this variety in the Seed Savers Exchange catalog. Nathaniel Stowell worked for decades to develop the variety. He sold 2 ears to a friend for $4 and the friend agreed that it was just for private use. The “friend” sold the seed for $20,000 and it was introduced to the seed trade. The 1930 D. M. Ferry catalog: “The standard main crop variety—it is hardy and productive, very tender and sugary—the ears about 7-8” long, 14-20 rowed, with very white grain. The stalks are about 7 1/2’ high.”

**75 seeds - $2.75**

118. **ARGENT** (F1 Hybrid 86 Days) SE  
*Germ 7-14 Days*

Large, thick, reasonably early white sweet corn. This sugary enhanced variety has ears 8.5” long and 2” wide. Ears begin at a height of 23” on the 77” plants, and there are 16 rows of delicious creamy white kernels.

**150 seeds - $2.75**

11801. **SILVER QUEEN** (F1 Hybrid 90 Days) SU  
*Germ 7-14 Days*

Royally among white corn with exceptional eating quality. A late season variety with 8-9” tender ears, 14-16 rows, can grow to over 8’.

**150 seeds - $2.75**

11205G. **GLASS GEM - ORGANIC** (100 DAYS)  
*Germ 7-14 Days*

Nothing like picking fresh corn from your garden and this variety is home grown corn magic. Sweet and tender ears are fantastic for fresh eating or home processing. 8-9” Ears are 8-9” on 6-7’ stalks.

**150 seeds $2.75**

11301. **SUGAR BUNS** (F1 Hybrid 72 Days) SE  
*Germ 7-14 Days*

A superb, early sugar enhanced hybrid with 7” ears and 14 rows of luscious kernels that pop in your mouth. With a great eating quality and long harvest period, this corn is a top choice variety for your garden. Stalks are 5-6’ tall.

**130 seeds - $2.75**

113. **INCREDIBLE** (F1 Hybrid 84 Days) SE  
*Germ 7-14 Days*

Our choice as the best main crop yellow corn for the home gardener. Ear length is a full 9.5” with a diameter of 2”. Stalks are 8’ tall. Eating quality is definitely first rate due to the presence of the sugary enhancer gene. We get more compliments on this “sugary enhanced” variety than most anything in the catalog.

**150 seeds - $2.75**

12101. **HONEY SELECT** (F1 Hybrid 79 Days) SY  
*Germ 7-14 Days*

An All-American Selection winner for 2001. The breeding lines in hybrid sweet corns are becoming blurred, this one is 75% SE and 25% SH (supersweet). The practical effect of this is that Honey Select does not have to be isolated from other sweet corns and mature ears may be harvested over a longer period. The 8’ ears have an 18-20 row count and the flavor is sweet & long lasting.

**150 seeds - $2.75**

11603G. **ALLURE** (F1 Hybrid 75 Days) SY  
*Germ 7-14 Days*

The first certified organic synergistic variety available to home gardeners. Fairly quick to mature the 8’ long, 16-18 row bi-colored ears have a sweet taste with plump kernels and a long harvest window with good post-harvest shelf life. Stalks grow to 6-7’ feet. High resistance to common rust.

**150 seeds - $6.95**

115. **HONEY & CREAM** (F1 Hybrid 77 Days) SU  
*Germ 7-14 Days*

This long time favorite bicolor corn produces excellent flavor and appearance. Stalks are 7.5’ tall and produce 7” ears with 12-14 rows per ear. Superior flavor for a normal sugary variety is the main attraction.

**150 seeds - $2.75**

11502. **DELECTABLE** (F1 Hybrid 80 Days) SE  
*Germ 7-14 Days*

Extraordinary kernels! Bred from native varieties, kernels have an endless array of colors and placement on the cob. Vibrant, translucent kernels are used for flour, popcorn and decoration. Demand has been high for this rare variety the past few years, we are excited to offer this. Grows 7-9 feet with 3-8” ears.

**50 seeds $3.50**
112. BLOODY BUTCHER (120 DAYS)
GERM 7-14 DAYS Heirloom 1845
A stunning, decorative and useful corn variety growing 12’ tall with 8-12” reddish maroon ears. Intensely colorful kernels can be ground into flour and cornmeal while still being edible when young and eaten like a sweet corn.
100 seeds - $2.50

11201. GREEN OAXACAN (95 DAYS)
GERM 7-14 DAYS Heirloom
This unusual variety with forest green kernels originated in Mexico and has been grown for hundreds of years. May be used to make tortillas and unique decorations for the autumn season. Grows to 7’.
100 seeds - $2.50

11203. EARTH TONES (100 DAYS)
GERM 7-14 DAYS
Cobs are wrapped with multi colored opaque kernels in shades of gold, bronze, blue, green and mauve. Used for corn meal and decorations. Ears are 8-10” and stalks grow 7-9 feet.
100 seeds $2.50

11202. EARLY PINK (100 DAYS)
GERM 7-14 DAYS
Baby, mauve pink ears are 3-5” long with stalks growing up to 7’. Fun, uncommon variety and the kernels when popped are delicious, with a bit of a nutty taste. Can also be used creatively in crafts and arrangements.
50 seeds - $2.50

98701. BLACK AMBER BROOM (105 DAYS)
GERM 7-14 DAYS Heirloom
Closely related to corn, this heirloom sorghum is from Waco, Texas, also known as Texas Black Amber Molasses. Stalks were used for forage, silage and sorghum syrup, due to a high sugar content and were used to replace sugar cane. Seed heads are similar to corn tassels but, consist of shiny black hulls encasing amber colored seeds. Use for fall decoration or for bird seed. Grow 8-12’.
100 seeds - $2.50

994. MINI-COLORED POPCORN (100 DAYS)
GERM 7-14 DAYS
Red, yellow, orange, burgundy - some ears all one color and some are mixed. Many of the reds and burgundies have colored husks. Create exceptional harvest displays and centerpieces with this unique ornamental popcorn. 6’ stalks bear 5-5 ½” ears, 3/4” in diameter. Mature kernels pop slightly smaller kernels of popcorn.
50 seeds - $2.50

11102. HOPI BLUE DENT (100 DAYS)
GERM 7-14 DAYS Heirloom
A royal blue colored heirloom flint corn that can be eaten as sweet corn when picked young, ground into meal for tortillas and bread after being dried, or used ornamentally for fall decoration. Bushy, 5’ tall stalks with 8-10” ears.
100 seeds - $2.95

Indoors - 3-4 weeks before last frost, 1/2” deep, with soil temperature 70 degrees. Transplant after last frost without disturbing the roots (we use individual biodegradable peat/cowpots) Space 18-36” apart.
Outdoors - 1/2” deep after last frost in warm soil at least 70 degrees.
Harvest - Pick daily to keep the harvest flowing.
Tips - Plant in fertile soil amended with compost. Mulch and keep well watered. Trellising the vines allows for good air circulation and takes less space than hills and provides shade for heat sensitive crops like lettuce.

13301. SUMMER DANCE (F1 HYBRID 70 DAYS)
GERM 6-10 DAYS
An elongated Japanese type cucumber, Summer Dance is notable in that every one of the fruit seems perfect. It is 10” long, 1” wide with a deep green color and smooth skin. Very vigorous grower, setting many lateral vines for high productivity. Resistant to both powdery and downy mildew. Flavor is sweet, mild, and refreshing, no need to peel.
25 seeds - $3.95

W611. POONA KHEERA (53 DAYS)
GERM 6-10 DAYS Middle Eastern Heirloom
This is a white cuke from India that eventually turns a soft fruit with a nutty taste. Can be eaten at any stage and will always be crisp and sweet. The best thing about Poona Keera is that it is never, ever bitter.
20 seeds - $2.25

131. BOOTHBY’S BLONDE (63 DAYS)
GERM 6-10 DAYS Heirloom
Maine is famous for its potatoes and lobsters and not so much for its cucumbers - but here is a wonderful heirloom from the Boothby family in Livermore, Maine, passed on to us by Will Bonsall through the Seed Savers Exchange. Crisp, medium sized slicer, 6-8” long, with a very pleasant flavor and texture; even more appealing is its rich yellowy cream color with contrasting black spines. Shape is longer and broader than the short oval “lemon” cucumbers and its color is deeper and richer than the European white cucumbers.
25 seeds - $1.95

14601. LONG GREEN IMPROVED (70 DAYS)
GERM 6-10 DAYS Heirloom 1842
According to the 1936 James Vicks Seeds catalog: “Of the black spine type, growing 12-13” long and 3” in diameter. Very popular for slicing and salting when mature, and when small, much esteemed for pickling.”
25 seeds - $1.95

14603. BLACK AMBER BROOM (105 DAYS)
GERM 7-14 DAYS Heirloom
Waco, Texas, also known as Texas Black Amber Molasses. Stalks were used for forage, silage and sorghum syrup, due to a high sugar content and were used to replace sugar cane. Seed heads are similar to corn tassels but consist of shiny black hulls encasing amber colored seeds. Use for fall decoration or for bird seed. Grow 8-12’.
100 seeds - $2.50

130. GARDEN SWEET BURPLESS (F1 HYBRID 60 DAYS)
GERM 6-10 DAYS Heirloom
Mild flavored as the name implies, these 11”, disease resistant cucumbers are great for pickling or eating fresh. Vines are vigorous climbers, yields are heavy. Skin is very smooth and flesh is bitter-free. A hybrid of the Japanese long cuke. Resistant toDowny and Powdery Mildew
25 seeds - $2.50

144. SPACEMASTER (59 DAYS)
GERM 6-10 DAYS
A full sized 7 1/2 " cuke, primarily a slicer, on a short 3’ vine; good for trellising in a tight spot or in a container. Its nice flavor and appearance is enhanced by its resistance to mosaic and scab.
25 seeds - $1.95

Indoors - Start 8-10 weeks before last frost, 1/4” deep with soil temperatures 75-80 degrees. Liquid fertilize seedlings every 7-10 days. Transplant 18” apart when danger of frost has passed.

Harvest - When fruit is shiny and smooth, before losing its luster.

Tips - Plant in fertile soil, water with compost tea every two weeks and use row cover to give the plants extra warmth, especially in the north. Mulch and keep well watered.

**147. LEMON (60 DAYS)**
**GERM 6-10 DAYS** Heirloom 1894

Originated in 1894, the 3” fruits are round, pale yellow in color, with a white flesh that is easily digested and never bitter. Yields are very abundant.

25 seeds - $1.95

**13501. DRAGON'S EGG (60 DAYS)**
**GERM 6-10 DAYS** Heirloom

Hailing from the cave of your local dragon’s lair, this novelty cucumber is another reason growing heirlooms can be so much fun. Originally from Croatia, its creamy skin and chubby oval shape really do look like an egg growing from a vine. It has a refreshing, mild flavor, doesn’t need peeling, and yields well; a few plants will be all you need, picking every one to two days for the best fruit.

25 seeds - $2.25

**134. PAINTED SERPENT (72 DAYS)**
**GERM 6-10 DAYS** Heirloom

Mild, delicious fruit is not a true cucumber but a melon that originated in Armenia. Light green fruits have darker striped ribs, curling into snakelike shapes. Grows 2-4” long, but best picked at 15”. Produces on a long vine.

25 seeds - $1.95

**13401. MEXICAN SOUR GHERKIN (75 DAYS)**
**GERM 6-10 DAYS** Heirloom - Melothria scabra

You can’t help but fall in love with these diminutive watermelon looking fruits; they are fun, interesting to grow and they have the tiniest, dainty flowers. Crunch into them and they have a cucumber like taste with a lemony-lime burst. Easy to grow, having rampent vines, best grown on a trellis or in hanging baskets and easily ignored by pests. Harvest when they are smaller than a grape; the bigger they get the more sour citrus flavor they get. Eat them raw as a snack and in salads or preserve by pickling. Native to central America and also known as mouse melon, sandita, cucamelon.

25 seeds - $2.50

**W610. ARMENIAN (90 DAYS)**
**GERM 6-10 DAYS** Heirloom pre-1400

This long pale green cucumber with white flesh is deliciously different. If grown on a trellis the fruit will be long and straight but they will curl if grown on the ground. Fruit remains edible, tender, and tasty at a larger size than most cucumbers. A relative of the honey dew melon.

20 seeds - $1.95

**149. WEST INDIA GHERKIN (65 DAYS)**
**GERM 6-10 DAYS** Heirloom 1793

Although this variety has been sold in the US since the early 1800’s, we suspect it will appear unique to most home gardeners. The leaves don’t resemble cucumber leaves at all; they look like watermelon leaves. Vines are long and bear multitudes of small oval fruit which are exceptionally spiny. Used for unusual and good tasting pickles, they will also add a bit of a surprise to a salad.

25 seeds - $1.95

**1501. TURKISH ORANGE (80 DAYS)**
**GERM 5-14 DAYS** Turkish Heirloom

Originally from Turkey and quite popular in all the Mediterranean countries. Produces dozens of 2 oz, orange-red fruit that resemble small tomatoes. Plants are very tall, as much as 4’ and it is reported that the fruits are best eaten when still green or beginning to change color.

30 seeds - $1.95

**15002. BLACK EGG (70 DAYS)**
**GERM 5-14 DAYS**

Fruit resemble black teardrops as both the skin and the calyx are a deep black with purplish tinge. This is the only eggplant we know of with a black calyx. Japanese in origin, Black Egg produces unusually tender fruit on vigorous 3’ plants. Sets fruit early (even in cool weather) and is best picked early.

30 seeds - $1.95

**155. BRIDE (F1 HYBRID 70 DAYS)**
**GERM 5-14 DAYS**

Later maturing variety stands out with appealing color and shape. Fruits are unique and attractive, white with purple-pink blush and a green calyx. Stocky and compact, 14-16” tall, and thick with soft & fuzzy leaves. Tender flesh and elongated shape, averaging 8” x 1.25”, make them great for grilling or roasting.

30 seeds - $1.95

**134. PAINTED SERPENT (72 DAYS)**
**GERM 6-10 DAYS** Heirloom

Mild, delicious fruit is not a true cucumber but a melon that originated in Armenia. Light green fruits have darker striped ribs, curling into snakelike shapes. Grows 2-4” long, but best picked at 15”. Produces on a long vine.

**FOR LIVE ELDERBERRY PLANTS, SEE PAGE 89**

**FENNEL - GOURDS**

**52707. ORAZIO**  
*(F1 HYBRID 50-80 DAYS)*  
**GERM 7-14 DAYS**  
A reliable hybrid that produces fine, uniform bulbs for late summer or early fall harvest. Very aromatic, and tender, never woody; resistant to cracking and bolting.  
Harvest for baby or full-sized bulbs.  
100 seeds - $3.25

**W271. FLORENCE FENNEL**  
*(100 DAYS)*  
**GERM 7-14 DAYS**  
In Italy, Florence Fennel or “finocchio” is grown for its large, round, compact, pure white bulb. University research on this crop compared a number of fennel varieties. This variety not only produced the largest bulbs, but they were nearly twice the size of the nearest competitor. Our trials confirm this with bulbs in excess of 1 lb in weight and nearly 1’ high. It is used raw or cooked in Italian cuisine for its sweet, anise-like flavor.  
100 seeds - $1.95

**FOR LIVE FIG PLANTS, SEE PAGE 89**

**FOR LIVE GARLIC BULBS, SEE PAGE 89**

**GOURDS**

**Indoors** - Individual biodegradable peat/cowpots 1” deep, 3–4 weeks before last frost, soil at 70 degrees. Transplant after last frost without disturbing the roots. Nick and soak seeds for 12-24 hours to aid germination.  
**Outdoors** - Plant 1” deep, after last frost, soil at 70 degrees. Plant 2-3 seeds every 18-36” apart, with the large varieties the furthest apart.  
**Harvest** - When the skin is hardening and the stem is shriveled, brown, and dried. Cut the stem off closest to the vine.  
**Cucurbita Gourds** - Harvest mature gourds before cold weather. Frost or freezing conditions causes injury to skins. Keep in a cool, dark, dry place for curing.  
**Lagenaria Gourds** - Harvest in the fall after light frosts, when leaves die but before skin hardens, changes to brown and the weight decreases due to drying.  
**Tips** - Vines can grow 15’ or more. Grow on a trellis for more uniform, straight gourds and for more garden space.

In indigenous cultures, gourds have been grown for eating and utility. When cured, they are made into dippers, bowls, tools and even baby rattles. Plants are extremely vigorous, covering a lot of ground-some of our vines even took to the trees. See our search on this crop compared a number of fennel varieties. This variety not only produced the largest bulbs, but they were nearly twice the size of the nearest competitor. Our trials confirm this with bulbs in excess of 1 lb in weight and nearly 1’ high. It is used raw or cooked in Italian cuisine for its sweet, anise-like flavor.  
100 seeds - $1.95

**FOR LIVE GRAPE PLANTS, SEE PAGE 90**

**164. BIRDHOUSE GOURD**  
*(95-110 DAYS)*  
**GERM 7-10 DAYS**  
(Lagenaria siceraria)  
Large, bulbous body with narrow neck. Ideal for birdhouses or other crafts.  
25 seeds - $2.25

**168. LONG HANDLED DIPPER**  
*(110 DAYS)*  
**GERM 7-10 DAYS**  
(Lagenaria siceraria)  
Long, skinny, curving neck with a round bulbous end: can be cut and used as a ladle or dipper when dried. Grow on a trellis for straighter, longer handles, or try bending them into a knot when fruit is young!  
25 seeds - $2.25

**167. APPLE**  
*(110 DAYS)*  
**GERM 7-10 DAYS**  
(Lagenaria siceraria)  
This heirloom resembles a giant delicious apple in shape. Gourds are 7.5” high and about 6” around. Skin is green speckled with white. Great in a centerpiece either as-is or painted red.  
25 seeds - $2.25

**171. BUSHEL**  
*(120 DAYS)*  
**GERM 7-10 DAYS**  
(Lagenaria siceraria)  
Native Americans used the vessels created by this gourd when dried, as storage containers. The flattened bowl can grow to 20” across. You will certainly find some interesting uses for this gourd, both decorative and practical.  
25 seeds - $2.50

**174. TURK’S TURBAN**  
*(100 DAYS)*  
**GERM 7-10 DAYS**  
(Cucurbita maxima)  
A very colorful globe, about 6 pounds. Bright orange with green and cream striping on the cap. Shaped like a small butter-cup squash.  
25 seeds - $2.25

**160. GOURD MIXTURE**  
*(95-120 DAYS)*  
**GERM 7-10 DAYS**  
(Lagenaria siceraria & Cucurbita pepo)  
Includes most varieties listed plus some others in a ratio of 40% small to 60% large.  
25 seeds - $2.25

**175. AUTUMN WINGS**  
*(100 DAYS)*  
**GERM 7-10 DAYS**  
(Cucurbita pepo)  
Hard to describe, it looks kind of like a tropical fish. The gourds are divided by 5 or 6 double fins or wings. Some are straight necked and others curved. The colors range from creams and yellows to whites and greens. Most are about 6-8” long.  
5 seeds - $1.95

**187. SMALL WARTED MIX**  
*(100 DAYS)*  
**GERM 7-10 DAYS**  
(Cucurbita pepo)  
A decorative mix of shapes and colors. Solid to multi colored fruits are rough in texture and covered in warts.  
25 seeds - $2.25

**173. SPECKLED SWAN**  
*(125 DAYS)*  
**GERM 7-10 DAYS**  
(Lagenaria siceraria)  
Grass-green with creamy speckles. 12-14” tall, the curve of the neck closely resembles the graceful silhouette of a swan.  
25 seeds - $2.25
The following varieties of seed are all grown for their edible leaves. This section provides an assortment of flavors and textures to experiment with in the garden and the kitchen. Enjoy discovering what the amazing world of greens can bring to your growing experience. Germination is generally 4-14 days on all greens.

**18901. RED GARNET (55 DAYS)**
This lovely amaranth is a versatile vegetable, grain, or ornamental. The young leaves are a colorful addition to any salad and an excellent spinach substitute. Eventually the plant matures into a five foot tall ornamental distinguished by its dramatic burgundy leaves.

*100 seeds - $1.95*

**489. HOPI RED DYE (45 DAYS)**
Young leaves are packed full of healthful nutrients and can be used fresh in salads or steamed. The burgundy inflorescence are showy, beautiful in arrangements, and in a flower garden. Seeds are edible and harvested for grain. The flower bracts are used for a natural red dye.

*50 seeds - $1.95*

**19101G. ASTRO (32 DAYS)**
Quick growth for clipping smooth leaf baby greens in 3 weeks, slightly mild flavor than other varieties, then maturing into a strapped leaf with deep lobes for bunching. Slower bolting and strong ability to grow in colder temperatures for year round harvest.

*500 seeds - $2.50*

**19103. ARUGULA - WASABI (45 DAYS)**
Has the sharp, tangy bite with an aftertaste of wasabi. Cultivated to have the close intenseness of wasabi’s heat this natural variety was created by growing out generations and selecting for the most concentrated flavor. Deep green spoon shaped leaves with slightly toothed edges can be sown multi times during the summer.

*500 seeds - $2.50*

**W257. ARUGULA OR ROQUETTE (38 DAYS)**
Somewhat pungent salad green. Young leaves are nutty and mustardy. Older leaves can become unpleasantly bitter. It is wise to protect this plant from flea beetles with a row cover. Best variety for our March-April planting and May-June harvests. Wild Arugula (W331) is better for the rest of the summer.

*500 seeds - $1.95*

**W331. WILD ARUGULA (50 DAYS)**
Slower-maturing, spicier strain of arugula or roquette (Eruca sativa). Tender, dark green leaves are narrow, deeply cut, have a more intense nutty and peppery flavor than other arugulas. Plants are under 8”, and slow to bolt, allowing a summer, spring, and fall harvest when planted successively. Highly recommended for those who love the pungent mesclun mixes.

*400 seeds - $1.95*

**W44501. MITSUBA (50-60 DAYS)**
Japanese Parsley. Uncommon aromatic herb cultivated for Japanese cuisine that has a parsley & celery essence. Use as a young seedling or harvest stalks at 6-8”. Grows best in moist shady areas during the summer heat or full sun in the cooler early and late part of the season.

*300 seeds - $1.95*

**W445. SALTWORT (40 DAYS)**
Heirloom 1700’s. A traditional Japanese culinary herb and green, native to the salt marshes of Japan. Long, thin & crunchy leaves with a fresh and very slight salty taste. Use for salads and sushi, steam the older shoots or pick extremely young for micro greens. Rich in both vitamins and minerals.

*50 seeds - $1.95*

**W447. TATSOI (45-50 DAYS)**
Also called spinach mustard or spoon mustard, it has dark green spoon shaped leaves and white stalks. Grows in a thick rosette close to the ground and is eaten raw or added to stir-fries. May be harvested at once or the leaves can be picked individually for mixed salads. A great plant to grow in the fall into winter as it can withstand temperatures down to 15°C.

*50 seeds - $1.95*

**W453. YU CHOI SUM (20 DAYS)**
A fast growing green, harvested young as small leaves called Yu Choi or mature with the leaves, stems and flowers just about to open, as Yu Choi Sum. Young leaves have a light broccoli/chard flavor and the thick tender, stalks of the mature plant have a pleasant bitter taste. Steam or stir fry and tossed with some vinegar, garlic, soy sauce and ginger.

*300 seeds - $1.95*

**W440. MIZUNA (43 DAYS)**
Heirloom
Popular Japanese green often part of a Mesclun mix. Attractive, deeply cut and serrated, narrow leaves grow vigorously into large bunched heads that resist bolting and allow for extended picking. Mild, pleasant cabbagey flavor, can be eaten raw or cooked in stir frys, soups, etc.

*400 seeds - $1.95*

**W451. MIBUNA (41 DAYS)**
Strip leaf Asian green is a great addition to braising mixes. The long thin leaves resemble those of dandelions but mibuna is easier and faster to grow. The mild mustardy flavor also serves as a slightly spicy addition to salads.

*100 seeds - $1.95*

**W446. MISOME (FI HYBRID 30 DAYS)**
Glossy round savoyed leaf green with thick and tender stems that are a cross between komatsuna and tatsoi. Upright plants can be grown all season and intensify in taste as they mature. Use for stir-fries and pickling.

*50 seeds - $1.95*

**W442. PAI TSAI-FUN JEN (FI HYBRID 35 DAYS)**
A very early and tasty, semi-spreading green that tolerates both heat and cold well. About a month after planting you begin to harvest the light green leaves. When fully mature, you can chop up the snow-white stems for stir fries.

*100 seeds - $1.95*

**36102. ENDIVE AND CHICORY GOURMET MIX**
Includes a wide assortment of endive and chicory. Mix these greens with baby leaf lettuce for gourmet salad full of texture and flavor. Best planted in the cooler season of spring and fall. Harvest individual leaves or wait for whole heads to form.

*200 seeds - $1.95*

**36101. GARDEN MESCLUN BLEND (30 DAYS)**
Mesclun is pre-mixed salad greens. Plant short rows of the mix every week, starting in early spring. As they mature, all varieties are harvested at once and mixed to make the perfect European style salad, providing a variety of taste sensations from sweet to bitter as well as a dramatic appearance.

*500 seeds - $2.25
1/2oz - $5.95*
**W279. RAD (CHETTA) (52 DAYS)**
Italian Heirloom (Cichorium intybus)

Also known as Catalina or Italian dandelion. The elongated, lobed leaves of this loose leaf lettuce come equipped with thick, crunchy, flavorful ribs. Flavor and texture are almost halfway between a lettuce and chicory so it can be eaten fresh or cooked. Not at all bitter, it grows fast, is cold tolerant, and slow to bolt.

300 seeds - $1.95

**9002. FRSEE ENDIVE (60 DAYS)**

Bushy heads of finely dissected, curly narrow leaves are used raw in salad mixes, adding a slight bitter flavor or prepare wilted or sautéed for more mellow taste. Blanch the center heart by tying the head up, 5-7 days before harvesting to create a creamy color, delicate texture and flavor. Plant in early spring or fall–best when matured in cooler weather.

100 seeds - $1.95

**18801. WATERCRESS (50 DAYS)**

Easy to grow. Start in small pots and keep moist but not wet for the first month. After the plant has made some growth immerse the pot in a container of water with the water coming up to the lip of the pot and change periodically. Tender leaves are the most succulent green imaginable. Plants yield well for several months and then taper off so make an additional mid-season planting.

100 seeds - $1.95

**18802. WRINKLED CRINKLED CRESS (30 DAYS)**

When you first taste the finely cut, wrinkly, crinkly leaves it brings on a warm spicy flavor then surprisingly ends with a burst of sweetness. Splendid addition for a salad mix and can be fun to experiment with its distinctive flavor in the kitchen. Resists bolting well so you can have a few harvests from one planting.

100 seeds - $1.95

**189. UPLAND CRESS (40 DAYS)**

For those of you who like spicy, tangy, and piquant tasting salads. It’s a broad, smooth leaved cress that is very productive and very fast growing. Plant in 2 week successions for a summer full of peppery flavor, similar to Nasturtium leaves but notably hotter.

100 seeds - $1.95

**188. VATES (75 DAYS)**

This is a large plant in the brassica family, popular in the South although easily grown anywhere. Generally it is used cooked and flavor seems to improve after a frost. Vitamin content is excellent. Leaves are an attractive blue-green. Requires several square feet of space when fully mature.

100 seeds - $1.95

**18707. FLASH (F1 HYBRID 55 DAYS)**

Vigorous uniform plants are slow to bolt and regrow quickly after harvesting. Popular in southern cooking, collards are packed full of nutrition and a healthy addition to your diet. Leaves grow 16-23” and are tolerant to cold and heat.

100 seeds - $2.95

**W141. MACHE (60 DAYS)**

Also known as Cornsalad, this member of the Valerian family is very popular in France. Its fine, nutty taste enhances any salad. Very cold tolerant, so it’s a great early or late season green.

300 seeds - $1.95

**1904. WASABINA (45 DAYS)**

Specialty Japanese mustard greens. Light green deeply serrated leaves have a wasabi-like flavor, milder in young baby leaves, bolder and spicier in mature leaves. Use in salads, stir-fries, or pickled. We left ours in the garden to bolt and continued picking tasty leaves while the flowers supplied nectar and pollen for the pollinators.

100 seeds - $1.95

**W450. MUSTARD SPINACH - KOMATSUNA (52 DAYS)**

This is the most bolt-resistant Asian brassica that we have encountered. We harvested leaves from the 3’ plants from June to October. Flavor is mild and sweet with just a touch of zesty pungency. Leaves can be used in salads, soups, stir-fries, sauces & with meats.

60 seeds - $1.95

**W452. MIZUNA – RED STREAKED MUSTARD (45 DAYS)**

One of our favorites! Deeply serrated fringy baby leaves are purple-red and pack a zingy peppery flavor that gets bolder with age. Great to plant along with other baby greens to add some flare to a salad. Slow to bolt but best planted in spring or fall.

100 seeds - $1.95

**19202G. WILD GARDEN MILD MUSTARD MIX (START HARVESTING AT 45 DAYS)**

A wonderfully diverse blend of colors and textures. Use fresh, young leaves to mellow the zestier mature leaves by sautéing, wilting, or these greens are packed full of healthy nutrients. Grow for tar and pollen for the pollinators.

500 Seeds - $3.95

**W448. RED GIANT MUSTARD (45 DAYS)**

This India Mustard, also referred to as Giant Japanese or Mike Purple, is easy to grow, vigorous and is good in stir fries, quickly boiled, or pickled. Plant early in spring or mid-summer for fall harvests. Grow 1’ tall with large, slightly fringed leaves of a deep purplish red. Winter-hardy and slow to bolt. Indian mustard is relatively resistant to pests & disease. Flavor is mustardy, not really “hot” until it starts to bolt. In addition to spicing up salads, try a few leaves on a sandwich.

100 seeds - $1.95
Micro Greens have become quite popular with chefs and home cooks. Easily grown in a window box, on the deck, or even a sunny spot in your house in the dead of winter. Enhance your salads year-round. All can be grown in regular potting soil in any sort of a low, flat container. sow the seeds set quite close together. After the third set of leaves begins to develop, begin to take cuttings with scissors. You can continue cutting every few days for several weeks. For a continuous harvest of micro greens plant every 7-10 days.

### BABY GREENS AND MICROGREENS

**82908. SPICY ASIAN**
Fast maturing greens from our Asian vegetable section such as mizuna, paitsai, mustards, lettuce and bunching onion. 1 OUNCE - $4.95

**82912. BRAISING GREENS**
This braising blend emphasizes a variety of mustards, kale, and tatsuoi. 1 OUNCE - $4.95

**82911. EDIBLE FLOWER & HERB MIX**
We import this unique mixture from the Netherlands. The herbs and edible flowers are both aromatic and tasty, adding both color and flavor to salads, meat dishes, and soups. It makes for a delicious and attractive window garden. Includes some of the following: oregano, calendula, monarda, perilla, thyme, nasturtium, agastache, allium, borage, hyssop, chamomile, melissa, basil, parsley, salvia. 100 seeds - $1.95

**SINGLE GREENS**

**82913. CILANTRO** - 1 oz. - $4.25

**82902. SPICY ITALIAN**
Includes cress, basil, arugula, endive, escarole, radicchio, chicory, and mustard. 1 OUNCE - $4.95

**82904. HEALTHY BLEND MIX**
Includes broccoli, spinach, a number of lettuces, and kale. 1 OUNCE - $4.95

**82906. PINETREE’S KITCHEN SINK MIX**
This huge blend includes many greens, lettuces, chards, onions, and herbs. A superb salad mix. 1 OUNCE - $4.95

**IN OTHER GREENS**

**9003. ICE LETTUCE** *(Mesembrianthemum crystallinum)*
Succulent, fleshy leaves, covered with frosted dew-like bubbles. Known as Ficoide Glacial in French, often featured in gourmet seafood dishes. Slightly acidic salty tang with hint of lemon. Use raw in salads for a crunchy refreshing addition, cook like spinach, pickle, or use your creativity with this versatile green. Great green for hot summers as it grows very well in hot, dry conditions. Can be intermingled with ornamental plantings with its noticeable foliage which then matures to airy daisy like flowers. 50 seeds - $1.95

**9005G. MAGENTASCREEN - LAMBSQUARTERS (30 DAYS)**
Giant relative of Lambsquarters grown for its glowing magenta young leaf tips. Easy to grow in heat or cold, it can be harvested at 8” in 30 days or left to continue upward to 8’. A taste similar to spinach, each tip is magenta coated with powdery iridescence. Spectacular in a salad mix or use any way you would many greens. Cultivated in the other parts of the world and first introduced here in the early 1980’s. Will self seed if left to grow. 500 seeds - $2.95

**18902. MINER’S LETTUCE - CLAYTONIA** *(37 DAYS)*
Can be eaten raw or cooked, like spinach. Round, fleshy leaves are high in vitamin C. Miners during the California gold rush ate it to prevent scurvy. 100 seeds - $1.95

**19002. PORTO SPINELESS CARDOON** *(100 DAYS)*
A member of the artichoke family, a fascinating vegetable, and occasionally an ornamental. In European cuisine the leaves are wrapped around the thick stalks to Blanch them. Stalks are eaten fresh or cooked. The plants are quite meaty & tall with a distinct artichoke flavor. 25 seeds - $2.50

**W352. ROSE ORACH** *(37 DAYS)*
Orach has been cultivated for 3000 years. Also known as butter leaves or mountain spinach, an excellent spinach substitute. Striking plants will eventually grow to 5’ in height but you can begin harvesting the leaves when the plant is very young. The tenderest leaves are available before the height exceeds 18”. A fully mature plant is very ornamental and can be used in dried arrangements. Primarily used in salads but can also be cooked as you would spinach. 100 seeds - $2.25

**99003. WHEATGRASS**
Cats need fresh greens for optimal health, and they often try to meet their needs by nibbling on houseplants. So give them their own special pot of wheat grass! It grows fast and will emerge in 5 to 7 days. Trim, chop and mix the grass in your cat’s food or let your pet forage straight from the pot. 1 oz. - $2.25

**W628. MELOKHIYA** *(60 DAYS)*
Heirloom
The most widely used vegetable in Egypt; Melokhiya is very healthy and nutritious. It contains calcium, carotene and B complex vitamins. The young leaves and shoots can be used to flavor and thicken soups and stews and can also be cut and dried for winter use. It does need full sun. 100 seeds - $1.95

**W25702. SPIGARIELLO LISCIA** *(44 DAYS)*
Produces large, broad leaves which can be harvested continually from Spring through much of the Summer. Small heading broccoli so eventually will produce a tight little head. Flavor is sweet and satisfying. Will contribute to a whole seasons worth of salads and is delicious in combination with arugula. 100 seeds - $1.95

**W25701. ARUGULA** - 1 oz. - $4.25
82915. BASIL - 1 oz. - $4.25
82914. BEET, BULL’S BLOOD - 1 oz. - $4.25
8601M. CELERY - 1 oz. - $4.25
W448M. MUSTARD, GIANT RED - 1 oz. - $4.25

8601M. CELERY - 1 oz. - $4.25
W448M. MUSTARD, GIANT RED - 1 oz. - $4.25
W146. SORREL (48 DAYS)
Known as Oselle in France, where Sorrel is a popular vegetable. In the US, sometimes known as Dock.
Flavor is somewhat acidic, reminiscent of citrus. Often puréed and served with a cream sauce or fresh in salads with vinaigrette. Also makes splendid soup. Easy to grow and nutritious, providing ample harvests throughout the season.
150 seeds - $1.95

9002. CAT GRASS – TABBY
(PHLEUM VULGARE)
An ornamental accent and edible, nutrient filled grass for both you and your feline friend. Bright white and green variegated foliage adds pizzazz to indoor and outdoor gardening. Easy and fast to grow, simply display in it containers or harvest for juicing by trimming repeatedly.
1 oz - $2.95

W333. GOLDGELBER (50 DAYS)
It is interesting that some of the peskiest weeds from our gardens are cultivated and valued as delicacies elsewhere. This cultivated purslane bears little resemblance to the weed. Much more erect and the leaves are very large and meaty; color is a bright golden green and the flavor is really wonderful, a bit citric. It is harvested over a long period.
200 seeds - $1.95

599. AUNT MOLLY’S (70 DAYS)
GERM 7-14 DAYS / (Physalis pruinosa)
Polish Heirloom 1837
Marble sized. Sweet, tangy citrus flavor with a hint of vanilla. Abundant harvests of golden fruit enclose in papery husks turning green to yellow/brown, dropping to the ground when ripe, continuing to sweeten while waiting to be harvested. Sweet or savory uses: add these to salads, smoothies, perserves, pies, and even dry like raisins. When stored with the husk on they can last a month. Grows to 2’ high x 4’ wide.
40 seeds - $2.25

W591. PINEAPPLE (75 DAYS)
GERM 7-14 DAYS / (Physalis pruinosa)
It really tastes like a pineapple! The large spreading plants are 3’ across and covered with hundreds of fruit that are quite different from other tomatillos. They are only about 3/4” in diameter and soft so they are great for eating fresh. They fall from the plant when ripe. Great for preserves and pies.
40 seeds - $1.95

W558. JICAMA (150 DAYS)
GERM 10-20 DAYS / (Pachyrhizus erosus)
Native of Central and South America. Produces an edible, fleshy root with a mildly sweet, crisp and crunchy texture and consistency like a water chestnut. This is a vigorous climbing vining in the legume family and requires a long growing season, 5 months plus and should be started indoors in the north. Seed pods, leaves, stems and flowers are toxic.
25 seeds - $2.50

19007. SEA KALE
GERM 3-6 WEEKS PERENNIAL (Crambe maritima)
Rare perrenial kale-like kale is a versatile addition to any garden. Its wavy blue-gray leaves add color to an all-season garden while its fragrant blossoms attracts pollinators (and our trial gardener!) throughout the summer. Native to the coastal North Atlantic, its blossoms, textured leaves, and midribs can all be eaten throughout the growing season. Remove outer casing from seeds. Sow ½” deep, provide 60-70 degree soil temperatures. Zone 5-8
15 seeds - $3.50

19001. REDBOR (F1 HYBRID 55 DAYS)
GERM 3-10 DAYS
This one has been difficult to find for the past couple of years. It was one of our favorites, so we had to bring it back. The color of the mature leaves are unlike any other kale we offer. Harvest often, regrowth is strong after each cutting. Grows well into late fall when cooler temperatures sweeten the flavor and intensify the leaf color to a rich plum. Capture the beauty of it in your garden or container. Ready for harvest in just 7 weeks.
30 seeds - $2.95

190. STARBOR (F1 HYBRID 45 DAYS)
GERM 3-10 DAYS
Excellent variety for home gardeners. Compact growth habit, blue green color, good flavor, and frost tolerance. Great choice for the grower to whom plant size is not the primary consideration.
30 seeds - $2.25

W276. NERO DI TOSCANA (55 DAYS)
GERM 3-10 DAYS Italian Heirloom 1885
Also known as Lacinato or Dinosaur Kale, the plant is 3’ tall with dark, meaty, puckered leaves, the color of a blue spruce. Striking frosty green foliage & white veining is a perfect addition to any garden. Its wavy blue-gray leaves add color to an all-season garden while its fragrant blossoms attracts pollinators (and our trial gardener!) throughout the summer. Native to the coastal North Atlantic, its blossoms, textured leaves, and midribs can all be eaten throughout the growing season. Remove outer casing from seeds. Sow ½” deep, provide 60-70 degree soil temperatures. Zone 5-8
30 seeds - $2.25

193. DWARF SIBERIAN (50 DAYS)
GERM 3-10 DAYS
A reliable variety through out the entire season for baby or full leaf harvests. Blue green broad, coarsely curled leaves form a upright habit with wide canopy, for easy picking and bunching.
30 seeds - $2.25

W351. WHITE RUSSIAN (50 DAYS)
GERM 3-10 DAYS
Striking frosty green foliage & white veining is tasty at any stage due to its tolerance to cool & hot climates. Hardy and tenderly sweet after the fall weather sets in, extending your growing season. Looks beautiful planted for baby greens with Red Russian kale for a lovely mixed greens salad or for an ornamental edible border.
30 seeds - $2.25

19401. KALE MIX
GERM 3-10 DAYS
A blend of curled, flat, thick, light and dark greens leaves.
100 seeds - $3.95

FOR LIVE HOPS PLANTS, SEE PAGE 90

FOR LIVE HORSE RADISH PLANTS, SEE PAGE 90

100. JICAMA – TENDER
GERM 3-10 DAYS
Native of Central and South America. Produces an edible, fleshy root with a mildly sweet, crisp and crunchy texture and consistency like a water chestnut. This is a vigorous climbing vining in the legume family and requires a long growing season, 5 months plus and should be started indoors in the north. Seed pods, leaves, stems and flowers are toxic.
25 seeds - $2.50

FOR LIVE HORSE RADISH PLANTS, SEE PAGE 90
**KALE - KOHLRABI - LEEKS**

**KALE**

**KOHLRABI**

- Grows best in the cooler weather of spring and late summer. Summer heatings can survive frosts and can be harvested when they are larger.
- Spring plantings under 2" for the most tender and sweet bulbs. Fall plantings for fall harvest.
- Early spring, 1/4" deep, 2-4" apart with soil temps 55 degrees. Mid/ Late Outdoors.
- Indoors - 8-10 weeks before last frost with soil temperatures 60-75 degrees. Plant in flats 1/4" deep, 1/4" apart. Transplant seedlings out mid/late spring, 2-6" apart. Liquid fertilize seedlings every 7-10 days. Seedlings should be about a pencil thick in size at planting time.
- Outdoors - Sow 1/4" deep early spring. Thin to 2-6" apart.
- Harvest - Start harvesting baby leeks at 1/2" diameter and leave some for a larger end of season harvest.
- Tips - Plant into fertile soil with lots of organic matter and adequate water for optimum growth. You can plant leek in a trench and as the plants mature, fill in around them to assist in blanching.

**LEEKS**

- Leeks have a more delicate, sweet flavor than onions. In the north we usually start our leeks indoors then transplant outside to give them a head start but this season we direct seeded this variety. We thinned out the row, used all the tender, baby leeks we can, left it in the garden for a while without it becoming woody, and were not at all woody.
- 40 seeds - $1.95

**NEW!** 19006. RAINBOW CANDY CRUSH (F1 HYBRID 45-55 DAYS) GERM 3-10 DAYS

Is it for the flower bed or for the garden, how about both? New to the market, this innovative fluorescent-pink ruffled leaved kale offers an excellent eating quality while being highly ornamental. It took ten years of breeding to create this colorful tender leaved kale. The idea was to move the pink and red colors of traditional flowering kale into edible brassicas. It grows happily in a container or in-ground. Eat it fresh or cooked, use for baby leaves, or allow it to mature. The vibrant color is most abundant in the cooler parts of the season, the hottest part, leaves are darker and more purple. Plants have a naturally rounded, compact shape reaching 12" height by 18" width.

10 seeds - $4.50

19005G. DAZZLING BLUE (50-60 DAYS) GERM 3-10 DAYS

We just had to trial this new variety simply because of its name. As we watched it grow and mature into impressive, upright, lightly wrinkled, strap leaved lacinato type plants, we fell in love with it. The leaves really do have a blueish cast to them and pinkish-purple colored mid-ribs branching out into the veins. Heartly, and like other kales, will sweeten after a frost.

30 seeds - $2.25

W350. RED RUSSIAN (58 DAYS) GERM 3-10 DAYS Heirloom

Kale is a staple in Eastern European cooking. Ease of growth, variety of uses, nutrition and delicious flavor (particularly after a frost) make kale an ideal addition to any garden & diet. Tender, oak shaped, three foot leaves change from reddish green to red after a frost. May be left in the garden for harvest throughout the winter.

30 seeds - $2.25

191. DWARF BLUE CURLED SCOTCH (55 DAYS) GERM 3-10 DAYS Heirloom 1863

Kale is so attractive it can be grown for its appearance alone. Finely curled blue-green leaves are carried on compact, 1' plants. Great fresh or cooked, either before or after a frost. Plant four plants per square foot.

30 seeds - $2.25

198. KOSSACK (F1 HYBRID 80 DAYS) GERM 7-10 DAYS

This giant kohlrabi can reach the size of a bowling ball, & still remain quite tender. Skin is light green with white flesh. Leaves can be eaten like collard greens. Will store a month or more in the refrigerator or root cellar.

40 seeds - $1.95

195. EARLY WHITE VIENNA (50 DAYS) GERM 7-10 DAYS Heirloom pre-1860

Early maturing bulbs provide an excellent, nut-like flavor. Has few leaves. An interesting contrast with ornamentals.

40 seeds - $1.95

19801G. KORIST (F1 HYBRID 42 DAYS) GERM 7-10 DAYS

The taste and texture is similar to a broccoli stem, crisp with a mild sweetness. White skinned with a 4" flat globe shape. Harvest from baby sized to full sized. Bulbs hold well and remain tender in the garden without becoming woody. Good resistance to downy mildew.

40 seeds - $3.75

196. GRAND DUKE (F1 HYBRID 50 DAYS) GERM 7-10 DAYS

A 1979 All-American selection winner and still a favorite for both earliness and flavor. Kohlrabi is also called cabbage-turnip and appropriately so, the turnip-like balls are held cleanly above the ground with a crunchy, “cabbagey” flavor. 4" globes are crisp and tender and Grand Duke holds well, meaning that you can leave it in the garden for a while without it becoming woody.

40 seeds - $1.95

19501. EARLY PURPLE VIENNA (60 DAYS) GERM 7-10 DAYS Heirloom pre 1860

According to the 1930 D. M. Ferry catalog: “Very early with small top, the leaf stems being tinged with purple. Bulbs of medium size, purple, flesh white. Desirable for forcing and early outdoor planting.”

40 seeds - $1.95

197. KOLIBRI (F1 HYBRID 43 DAYS) GERM 7-10 DAYS

We were very impressed with this kohlrabi from a prominent Dutch grower. If you start from transplants, this and kale will be the first cole crops you harvest in just 40 days from transplanting. Exterior is an attractive medium purple and the interior a crisp, clear white. Flavor is fine, delicate for kohlrabi. We continued hard harvesting over a 7 week period and by the end, size of the globes exceeded 1lb. and were not at all woody.

40 seeds - $1.95

200. LARGE AMERICAN FLAG (130 DAYS) GERM 5-10 DAYS Heirloom 1870

Long, broad necks are blanched by gradually hilling up adjacent soil. Essential to the gourmet’s kitchen. The standard variety for many years and still one of the best if you have a long enough growing season. Also known as Giant Musselburgh.

200 seeds - $2.25

20101. EARLY GIANT (95 DAYS) GERM 5-10 DAYS

Leeks have a more delicate, sweet flavor than onions. In the north we usually start our leeks indoors then transplant outside to give them a head start but this season we direct seeded this variety. We thinned out the row, used all the tender, baby leeks we can, left it in the garden for a while without it becoming woody, and were not at all woody.

200 seeds - $2.25

20104. RALLY (F1 HYBRID 85 DAYS) GERM 5-10 DAYS

Vigorous hybrid leek for early production. Earlier than the others, producing high-quality, long uniform shanks. Cleans easily and holds strong against thrips and rust.

50 seeds - $3.95

20001. CARANTAN (100 DAYS) GERM 5-10 DAYS

Heirloom 1874. The 1930 D. M. Ferry catalog names this “Monstrous Carantan”. An old French variety that does require a long growing season. Per Ferry “The largest variety, when grown well, often 3" in diameter. White and tender. It is an exceptionally hardy garden sort.

200 seeds - $2.25
LETTUCE

Indoors - 3-4 weeks before planting outside. Sow 1/4” deep in cells with soil temps 55-70 degrees. Transplant out 6-12” apart.
Outdoors - Sow 1/4” “deep, 1” apart. Thin to 6-12”, depending on the size of lettuce you want from baby to full heads. Keep moist during germination.

Harvest - cut whole head at base or individual leaves before lettuce starts to bolts and becomes bitter in the heat and long days of summer.

Tips - Plant in fertile soil with lots of organic matter and adequate water for optimum growth. Sow heavy seeded rows every 10-14 days for baby greens using Pinetree Lettuce Mix for a season long supply of lettuce.

210. GABRIELLA (50 DAYS)
In the ongoing battle to determine which is our “reddest” lettuce - Gabriella sometimes takes the lead. It is a deep wine red - even as it emerges - so it is great for adding color to a salad at any stage. Plants are very erect and form a lovely bunch. Flavor is just dandy.
500 seeds - $1.95

W278. LOLLO ROSSA (53 DAYS)
GERM 4-10 DAYS Heirloom
Neat little lettuce holds itself in a rounded mound shape like a perfectly pruned topiary. Leaves are ruby red tinged, fading to pale green in the center, with lovely ruffled edges. Could be considered an ornamental for borders and edges, but mild flavor and colorful frilliness make it an exciting salad lettuce.
500 seeds - $1.95

207. RED VELVET (47 DAYS)
GERM 4-10 DAYS
The leaves are such a dramatic deep red that you scarcely see any green at all. Leaves are about 8” tall and very frilly and ruffled. A very crunchy, crisp variety with a delicious sweet, crunchy flavor.
500 seeds - $1.95

208. MIDNIGHT RUFFLES (48 DAYS)
GERM 4-10 DAYS
This new variety from an Oregon breeder is the darkest red lettuce we have seen, almost black in color. Leafy plant is full in the center with serrated leaf edges, blistered leaves, and red midrib & veins.
500 seeds - $1.95

20503. TROPICANA (52 DAYS)
GERM 4-10 DAYS
Large, bright green heads with thick crumpled leaves hold up well to heat, proven to be one of the most tolerant leaf lettuce varieties. A mid-July harvest provided us with many salads and sandwiches over stuffed with lettuce. Available as an easy to sow pelleted seed.
100 seeds - $2.95

PINETREE LETTUCE MIX
GERM 4-10 DAYS / (BEGIN HARVESTING IN 40 DAYS)
Our lettuce mix includes over a half dozen varieties that we offer. A couple of each loose leaf, butterhead, and romaine types with a variety of colors, textures, tastes, and maturation times. We like to grow this mix not just for full-sized heads but for baby greens as well, just sow seeds closely together in rows (50-60 seeds per foot) and harvest at 3-4”. Sow every 14 days for a continuous supply of greens all season. This has become our best selling item.
203. 500 seeds - $2.95
20301. 1/2oz package (~15,000 seeds) - $6.25

PINETREE WINTER LETTUCE MIX
GERM 4-10 DAYS
These varieties will extend the lettuce season into fall and winter. Plant after the heat of summer for an early fall crop (after Labor Day in southern areas), or plant in a cold frame in the north. Don’t plant too early or they’ll bolt.
20302. 500 seeds - $2.95
20301. 1/2oz package (~15,000 seeds) - $6.25

HEIRLOOM CUTTING MIX
GERM 4-10 DAYS
A blend of 12 heirloom varieties; ready to start using in 30 days. Oakleaf, romaine, crisphead, butterhead, and looseleaf types.
20303. 500 seeds - $3.25
20305. 1/2oz package (~15,000 seeds) - $6.95

20307G. WILD GARDEN LETTUCE MIX
GERM 4-10 DAYS
Our growers most popular mix. An extremely diverse array of colors and textures. Over a dozen varieties are included, some only seen in this mix. Harvest mini heads or let them grow to maturity, either way growing this mix will delight the lettuce lover in you.
500 seeds - $3.50

206. NEW RED FIRE (45 DAYS)
GERM 4-10 DAYS
Described as a variety “slow to bolt”; an understatement in our experience as it holds without bolting better than most. One year, we picked from the same planting the entire season. Very early variety and one of the most attractive lettuces with a very deep red color & impressively frilly leaves. Very pleasant taste. Resistant to Downy Mildew.
300 seeds - $1.95

20902. ROUXAI (47 DAYS)
GERM 4-10 DAYS
Oakleaf type with intense red leaves opening up to a vibrant green interior. The medium sized heads can be grown and harvested through most of the growing season; spring, summer and fall. High resistance to downy mildew races EU 16-30, 32, 33 and Nasonovia ribisnigrri aphis.
100 seeds - $2.25

20903. BABY OAKLEAF (45-50 DAYS)
GERM 4-10 DAYS
This is our favorite for both flavor and ease of harvest because the compact bunch of loose and frilly leaves are borne on a single stalk, just the right amount to make a salad for two. More compact and vigorous, designed for smaller gardens with tighter spaces.
500 seeds - $2.25

204. GREEN ICE (45 DAYS)
GERM 4-10 DAYS
This vivid loose-leaf variety catches the eye and is delicious on the plate. The green, glossy leaves are meatier and more savoyed (crinkly) than other loose head types, and the 9” heads tend to be tighter and more compact. Flavor is very good and the exceptional crispness of each leaf is a real advantage.
500 seeds - $1.95

21602. LOLLO BIONDA (53 DAYS)
GERM 4-10 DAYS
This Italian sister lettuce of Lollo Rossa is refreshingly crisp and crunchy. A butterhead type but with a saucy, bronzy-red tinge on the edges of the leaves. The loose heads run about 10” in size.
500 seeds - $2.25

21301. BRONZE MIGNONETTE (53 DAYS)
GERM 4-10 DAYS
A butterhead type but with a saucy, bronzy-red tinge on the edges of the leaves. The loose heads run about 10” in size.
500 seeds - $1.95

213. TOM THUMB (47 DAYS)
GERM 4-10 DAYS Heirloom
This variety actually produces a full butterhead in a relatively short period of time. 6-7” heads have firm structure and compact habit. Leaves are dark green and the entire head will make a large salad for one. Can be grown 2-4 heads per square foot.
500 seeds - $1.95

PINETREE GARDEN SEEDS & ACCESSORIES – WWW.SUPERSEEDS.COM – 207-926-3400 26
**W359. MERVEILLE DE QUATRE SAISONS (49 DAYS)**
GERM 4-10 DAYS Heirloom
A truly marvelous lettuce. It was the only lettuce in our trials that remained good tasting during a dry, hot summer and continues to impress each year. Bibb type leaves are wavy and light green with a red overlay. Forms a loose 12" head with meaty texture and fine flavor.
500 seeds - $1.95

**21804. TENNIS BALL (50 DAYS) [ ]**
GERM 4-10 DAYS Heirloom
One of the oldest heirloom varieties cultivated in the country. Grown at Monticello during Thomas Jefferson’s time. Historically, it was pickled in brine and served as a side. Silky smooth, buttery leaves melt in your mouth; one of the best tasting lettuces we have ever tried. Grows a bit bigger than a single serving size head of the similar variety Tom Thumb, cut in half makes a perfect salad for two. Compact heads work well planted close together in tighter spaces.
500 seeds - $2.25

**21704. ICE QUEEN (62 DAYS)**
GERM 4-10 DAYS Heirloom
A historic French crisphead (iceberg) lettuce, from the late 1800’s, also known as Reine des glaces. Outer leaves are ruffled with jagged edges and tucked inside is a crispy textured head. It stood out in our trials, having formed beautiful heads with excellent heat tolerance. We see why this one has been grown in gardens for over a century.
300 seeds - $1.95

**21701. HANSON (65 DAYS)**
GERM 4-10 DAYS Heirloom pre 1855
A large old crisphead type with light green leaves and a white heart. According to 1930 D. M. Ferry – “The plant is compact and forms a large, cabbage-like head—the outer leaves are bright yellowish green, broad, somewhat crumpled and frilled at edge and with distinctive midrib. The inner leaves are white, very crisp, and sweet.”
500 seeds - $1.95

**218. RED ICEBERG (70-80 DAYS)**
GERM 4-10 DAYS
An uncommon variety and a great alternative to the plain green iceberg, having the same delicious sweet taste and crisp texture. Possesses beautiful reddish bronze outer leaves and a fairly tight 8-10” heads that hold for a long time. Has much more nutritional value than other icebergs.
300 seeds - $1.95

**21806. CRISP MINT (60 DAYS)**
GERM 4-10 DAYS
The search for a lettuce that tolerates the hot months of summer could be over for you. We have always loved Jericho but this has proven to be a worthy rival. The ruffled mint colored leaves are crisp and sweet even in elevated temperatures. Young heads are rather open but tighten up as they mature, growing to a sturdy 10”. Harvest mini or full sized. Experiment by growing this as a cut and come again lettuce, (we discovered this is possible thanks to our resident groundhog).
500 seeds - $2.25

**21801. RED ROMAINE (50 DAYS)**
GERM 4-10 DAYS
The merlot colored leaves of this romaine lettuce are especially beautiful and delicious in Caesar salads. Long, wide, spooned shaped leaves have a crisp, crunchy texture. At maturity this plant stands at 12” tall but it can be harvested earlier for little baby heads of romaine.
500 seeds - $1.95

**21803. LITTLE GEM (50 DAYS)**
GERM 4-10 DAYS
Miniature heads are crisp, sweet, with thick hearts combining the characteristics of romaine and butterhead types. Good choice for small spaces intensive planting, with 6” by 6” heads that stand up to early summer heat.
500 seeds - $1.95

**21802. ROUGE D’HIVER (60 DAYS)**
GERM 4-10 DAYS French Heirloom 1840’s
Popular for over a century and translating to “Red winter”, the tips of these broad, flat leaves are bronze red with a green heart. Does well in autumn weather when the leaf color intensifies with cool nights. A colorful choice for baby leaf; good regrowth abilities. Grows 10-12”.
500 seeds - $1.95

**21800. FRECKLES (70 DAYS)**
GERM 4-10 DAYS
A unique and attractive romaine. Medium green leaves are flecked and blotched with burgundy spots. Flavor of the meaty leaves is great and they are very slow to turn bitter. Adds interest to any salad.
500 seeds - $1.95

**W650. JERICHO (60 DAYS)**
GERM 4-10 DAYS
Middle Eastern. This lettuce is already popular in the hot, dry areas of the US. It was bred to grow in the deserts of Israel. Jericho is very bolt resistant and remains crisp and sweet in the hottest of weather. This cos type provides a large, dense head. Resistant to Downy Mildew and Lettuce Mosaic Virus.
150 seeds - $1.95

**21804. TENNIS BALL (50 DAYS) [ ]**
GERM 4-10 DAYS Heirloom
One of the oldest heirloom varieties cultivated in the country. Grown at Monticello during Thomas Jefferson’s time. Historically, it was pickled in brine and served as a side. Silky smooth, buttery leaves melt in your mouth; one of the best tasting lettuces we have ever tried. Grows a bit bigger than a single serving size head of the similar variety Tom Thumb, cut in half makes a perfect salad for two. Compact heads work well planted close together in tighter spaces.
500 seeds - $2.25

**21704. ICE QUEEN (62 DAYS)**
GERM 4-10 DAYS Heirloom
A historic French crisphead (iceburg) lettuce, from the late 1800’s, also known as Reine des glaces. Outer leaves are ruffled with jagged edges and tucked inside is a crispy textured head. It stood out in our trials, having formed beautiful heads with excellent heat tolerance. We see why this one has been grown in gardens for over a century.
300 seeds - $1.95

**21701. HANSON (65 DAYS)**
GERM 4-10 DAYS Heirloom pre 1855
A large old crisphead type with light green leaves and a white heart. According to 1930 D. M. Ferry – “The plant is compact and forms a large, cabbage-like head—the outer leaves are bright yellowish green, broad, somewhat crumpled and frilled at edge and with distinctive midrib. The inner leaves are white, very crisp, and sweet”.
500 seeds - $1.95

**218. RED ICEBERG (70-80 DAYS)**
GERM 4-10 DAYS
An uncommon variety and a great alternative to the plain green iceberg, having the same delicious sweet taste and crisp texture. Possesses beautiful reddish bronze outer leaves and a fairly tight 8-10” heads that hold for a long time. Has much more nutritional value than other icebergs.
300 seeds - $1.95

Shop online at www.superseeds.com!
Indoors - Individual biodegradable peat/cowpots 1/2" deep, 3-4 weeks before last frost with soil temperature 70 degrees. Transplant 36” apart after last frost without disturbing the roots.
Outdoors - 1/2" deep after last frost in warm soil at least 70 degrees.
Harvest - Look for the following, as it does take some practice to tell when they are ready to harvest. Skin tone changes, netting becomes heavy, the ends soften, will slip from the vines, or a gentle tug will pull it away from vine, a crack develops around the stem, the closest tendril to the stem dries, and the aroma increases when ripe.
Tips - Plant in fertile soil amended with compost or well rotted manure and keep well watered. They benefit from growing on black plastic and by using row covers for weed, insect control, and more rapid growth.

225. JENNY LIND (70 DAYS)
GERM 4-10 DAYS Heirloom 1846
An heirloom of great distinction and still the sweetest melon around. Fruits are 1-2 lbs in size and have a turban at the blossom end. Flesh is lime green. 5’ vining plants are prolific in setting delectable fruits.
20 seeds - $1.95

224. GINKAKU (F1 HYBRID 70 DAYS)
GERM 4-10 DAYS
Something unique and fun to try, this is the first Korean melon we have offered. White, crisp, sweet, small golden oval fruits with white stripes when ripe, weighing 1 1/2 lbs. It tastes like a cross of a cucumber, cantaloupe, and pear. A bounty of these little melons came from our garden with vigorous vines that survived one of the rainiest Augs. we have seen in years.
20 seeds - $1.95

22004. ROCKY FORD - GREEN FLESH
(75 DAYS)
GERM 4-10 DAYS Heirloom 1881
Also known as Eden Gem. In 1936 F. B Mills Seed wrote: “One of the most profitable market melons, no doubt more largely planted than any other one variety. Vines are healthy and vigorous, producing enormous quantities of fruit of uniform size and shape. Skin is a golden color when ripe. Flavor is rich and luscious.”
20 seeds - $1.95

22101. HONEYCOMB
(F1 HYBRID 78 DAYS)
GERM 4-10 DAYS
Honeycomb is very fragrant, as is typical for a honeydew melon. Large for a fairly early maturing variety with many exceeding 6 lbs. Known for its high yield, around six per hill. Flavor is enhanced by a super high sugar content.
20 seeds - $2.25

234. NAVAJO YELLOW
(85 DAYS)
GERM 4-10 DAYS Heirloom
Originally purchased at the Navajo Nation Fair. Ribbed, round/oval with orange flesh. Can handle drier conditions and keeps well if unbruised.
20 seeds - $1.95

23302. NOIR DE CARMES
(80 DAYS)
GERM 4-10 DAYS French Heirloom 1787
A rare Heirloom preserved by the Carmelites monks of France. Has deep smooth ribs and skin so dark green that it is almost black but ripens to a mottled orange. Aromatic flesh that is gently sweet. Grows 2-3 lb fruits.
15 seeds - $2.25

22202. LILLIPUT
(F1 HYBRID 80 DAYS)
GERM 4-10 DAYS
A mini, personal size melon just the right size for one serving. Luscious, sweet orange flesh has a high sugar content and is easy to harvest, it just slips from the stem when fully ripe. The fruit weighs up to 2 lbs. and is 4.5” in diameter. Resistant to Fusarium Wilt and Powdery Mildew.
20 seeds - $2.50

222. MINNESOTA MIDGET
(60 DAYS)
GERM 4-10 DAYS
Compact 3’ vines produce a quantity of 4” cantaloupes which mature very early. Has an excellent sweet flavor.
20 seeds - $1.95

22301. HALONA (F1 HYBRID 74 DAYS)
GERM 4-10 DAYS
Does well in cooler weather and shorter growing seasons. The heavily netted fruit can grow to 4-5 lbs. with good yields and intermediate disease resistance to powdery mildew and fusarium wilt. Thick fleshed with a small seed cavity, Halona is a sweet treat to eat, the result of a very high brix rating.
20 seeds - $2.95

22002. HALE’S BEST JUMBO
(75 DAYS)
GERM 4-10 DAYS Heirloom pre 1923
Reliable and classic melon with an ideal flavor. Oval, 7” by 6” sized fruits have thick walls with aromatic, sweet and juicy creamy texture flesh.
20 seeds - $1.95

W661. HAOGEN
(85 DAYS)
GERM 4-10 DAYS
Middle Eastern, Israeli melon. Developed on the Ogen kibbutz from ancient Indian/Persian stock. Heavy yielder of 3lb fruit that mature from light green to a golden yellow. Flesh is pale green with a distinct light orange hue around the seed cavity. Of course the rich, aromatic flavor is the reason for Ogen’s continued popularity.
20 seeds - $1.95

22001. CASABA GOLDEN BEAUTY
(110-120 DAYS)
GERM 4-10 DAYS
Heirloom Ancient Asian US since 1850
Originally from Turkey; thick white juicy flesh possesses a light sweetness and long shelf life. Do not slip from the vine, harvest when they are reasonably mature and hold in storage until blossom end softens. Oval fruits average 7-8 lbs. golden yellow & wrinkled skin. White flesh has a wonderful spicy scent & tempting flavor.
20 seeds - $1.95

226. SAKATA’S SWEET
(85 DAYS)
GERM 4-10 DAYS
Everything about this melon suggests sweet – bubble gum sweet. The flesh can be eaten right down to the white rind, yet the softball sized fruit are small enough to grow on a trellis. This melon also is quite prolific – a dozen per hill is a possibility.
20 seeds - $2.95

232. ATHENA (F1 HYBRID 75 DAYS)
GERM 4-10 DAYS
Early yields of uniform, high quality 5-6 lb fruits. Firm salmon colored flesh has a fruity aroma and small seed cavity with a good shelf life after harvest. Good disease resistance for powdery mildew and fusarium wilt.
20 seeds - $2.75

W170. TRUE CHARENTAIS
(80 DAYS)
GERM 4-10 DAYS Heirloom
A true, traditional Charentais melon is surprisingly hard to find. Oval fruit have a smooth gray exterior with dark gray sutures. Lovely, fragrant, delicious bright orange. Plants are medium size and the melons run to 2 pounds. Fruit should be harvested when the skin turns from green to gray for the best flavor.
15 seeds - $2.25

233. TUSCANY
(80 DAYS)
GERM 4-10 DAYS Italian Heirloom 1875
A delicious import with salmon flesh and a tan rind. Elongated, 3 lb fruit have both a thin rind and tiny seed cavity – leaving plenty of space for the sweet (brix rating 11) tender, delicious flesh. Skin color changes from a dark green to a golden creamy tan as the fruit ripens.
20 seeds - $1.95
**22003. HONEY ROCK** *(90 DAYS)*  
**GERM 4-10 DAYS** *Heirloom 1920*  
In 1936 Henry A. Deere Seed Co. stated: “This new muskmelon is outstanding for the delicious sweetness and rich aroma of its tender, luscious, salmon colored flesh. Fruits are almost round and are of medium size but have extremely thick flesh surrounding the small seed cavity. Skin of the heavy fruits is a gray-green color showing a rough netting.” *AAS winner.*  
**20 seeds - $1.95**

**SEED PLANTING:**  
**Indoors** - Plant in individual biodegradable peat/cowpots 1/2” deep, 4-5 weeks before last frost with soil temperature 70-80 degrees. Transplant out 12-18” apart last frost.  
**Outdoors** - 1/2” deep, 12-18” apart after last frost when soil is 70 degrees.  
**Harvest** - Stop watering a week before harvesting. Pull out when tops fall over and skin develops. Cure them by drying them until the neck is dry, out of direct sunlight, in a warm area, and in single layer so air can circulate around them.  
**Tips** - Plant into fertile soil with lots of organic matter and adequate water, 1” per week for optimum growth.  
**PLEASE NOTE: GERMINATION RATES FOR ALLIUMS (ONIONS/SHALLOTS/CHIVES/LEeks) DECLINE RAPIDLY. WE STRONGLY ENCOURAGE YOU TO PURCHASE NEW SEED EACH GROWING SEASON.**

---

**FOR LIVE OLIVE TREE PLANTS, SEE PAGE 90**

---

**238. RED BURGUNDY** *(55 DAYS)*  
**GERM 7-10 DAYS**  
Everything on this one is red, the stems, the pods, the flowers and even to some extent the leaves. Truly ornamental but it also bears an abundance of tasty pods.  
**50 seeds - $1.95**

---

**236. COW HORN** *(90 DAYS)*  
Heirloom 1860's. A truly giant plant, for okra or anything else, it can grow to a height of 8’. Pods can grow to 15” although for eating they are best picked at about 5”.  
**50 seeds - $1.95**

---

**823. JAMBALAYA**  
**(F1 HYBRID 55 DAYS)**  
Extra early maturing dark green pods sprout from the compact plants, being very suitable for container gardening. Great for those of you that garden in northern climates.  
**30 seeds - $2.25**

---

**235. CLEMSON SPINELESS** *(64 DAYS)*  
**GERM 7-10 DAYS**  
Plants are about 3’ tall. They carry numerous spineless pods which are tender and tasty if picked young. This variety won is an All-America selection winner back in 1939 and is still thought of as the standard variety.  
**50 seeds - $1.95**

---

**W670. STAR OF DAVID** *(65 DAYS)*  
**GERM 7-10 DAYS** *Heirloom*  
Vigorous plants are very tall and productive. They produce a multitude of 5”, flavorful pods. When the pod is cut open the cross section reveals a Star of David.  
**50 seeds - $1.95**

---

**FOR MUSHROOMS, SEE PAGE 122**

---

**23601. SILVER QUEEN** *(80 DAYS)*  
**GERM 7-10 DAYS** *Heirloom*  
This okra can grow to a height of 6’. Well branched plants carry unique white/green pods. Very productive if picked young. Dried pods also make a great ornamental, especially in an arrangement with red burgundy okra.  
**50 seeds - $1.95**

---

**243. WHITE SWEET SPANISH** *(110 DAYS)*  
**GERM 5-10 DAYS** / **LONG DAY**  
Bulbs will exceed 5” in diameter and are pure white and firm, thus storing well. Some globe shaped specimens may exceed 2lbs. in weight.  
**150 seeds - $2.25**

---

**24501. SOUTHPORT RED GLOBE** *(110 DAYS)*  
**GERM 5-10 DAYS** / **LONG DAY**  
D. M. Ferry Seed wrote in 1930; “This most excellent medium early or main crop red variety produces bulbs of medium to large size, ideally globe shaped with very smooth glossy surface, very small neck and remarkably beautiful purplish red color. Flesh is white, tinged with light purple, mild, very fine grained and tender.”  
**150 seeds - $2.25**

---

**24706. BLUSH**  
**(F1 HYBRID 115 DAYS)**  
**GERM 5-10 DAYS / LONG DAY**  
Pink skinned onions are new to us and to the American market but have been grown in France for centuries. Attractive inside and out; rose-pink skin with light purple blushed rings and when eaten starts off sweet, ending with a nice onion bite. Produces large blocky shaped bulbs with excellent storage ability.  
**150 seeds - $2.50**

---

**24707G. CORTLAND**  
**(F1 HYBRID 105 DAYS)**  
**GERM 5-10 DAYS / LONG DAY**  
Uniform globe shaped bulbs have thick copper colored skin and slender necks for easy drying and long storage. Developed by the breeders of some of the best storage onions available. High resistance to Fusarium basal rot and pink root.  
**150 seeds - $3.25**

---

**24802. REDWING**  
**(F1 HYBRID 110 DAYS)**  
**GERM 5-10 DAYS / LONG DAY**  
A beautiful red round onion with a very mild flavor. Color is brilliant maroon, growing paler as you get to the center of the bulb. Bulbs are firm and round. A mild addition to a salad or sandwich. This is also an excellent storage onion for months and months of enjoyment.  
**150 seeds - $2.75**
246. WALLA WALLA (105 DAYS)
GERM 5-10 DAYS / LONG DAY
This near legendary onion is noted for its mildness. In the NW, it’s planted in fall, over-wintered, and harvested in spring. Produces an acceptably mild crop from a spring planting in areas with more severe winters. Try to protect it over the winter with light mulch. We’ve had mixed results with this method. Worth experimenting if you crave a mild onion.
150 seeds - $2.25

24705. PATTERSON
(F1 HYBRID 104 DAYS)
GERM 5-10 DAYS / LONG DAY
Longest storage onion we offer. An outstanding variety that replaces the much loved Copra. Extremely high yielding 3-3 ½ inch uniform bulbs. Copper colored skins with firm flesh. One of our employees was still cooking with them in early May. Save some space in your garden to grow this one.
150 seeds - $2.75

24301. AILSA CRAIG EXHIBITION (105 DAYS)
GERM 5-10 DAYS / LONG DAY
British Heirloom 1887
This fine large onion has gained a big following in the past several years. Bulbs in excess of 3 lbs are possible, but the real virtue of this variety is the quality. Color is a snow-white, centers are bull’s eye single, tops are vigorous, and the flavor is very sweet. Great for slicing raw. Every year that we grow it we reaffirm that Ailsa Craig is the biggest, the earliest, and the best.
150 seeds - $2.25

24701. GOLD COIN (80 DAYS)
GERM 5-10 DAYS / INTERMEDIATE/LONG DAY
Matures to a medium-small, yellow cipollini onion. Flattened bulbs are 2-3” wide by 1” tall. A great onion for mid to late summer cooking. Thin to 6-12” apart
150 seeds - $1.95

24201. POMPEII (64 DAYS)
GERM 5-10 DAYS / INTERMEDIATE/SHORT DAY
These mini onions are suitable for pickling and cooking. Plant in high density to form uniform baby-sized spheres. This is a short day onion used in long-day areas to produce small onions.
150 seeds - $2.25

W28106. RED LONG OF TROPEA (90 DAYS)
GERM 5-10 DAYS / INTERMEDIATE-LONG DAY
Italian Heirloom
Fabulous onion! Origin was small area of southern Italy, near the city of Tropea. Produces 3-4” elongated bulbs wine red in color, sweet white flesh.
150 seeds - $1.95

W28104. RED MARBLE CIPPOLINII (80 DAYS)
GERM 5-10 DAYS / LONG DAY
Italian Heirloom. The extremely dark red color goes to the core of the bulb. Flat onions are 1 ½” wide and 1” high. This is a very hard onion and a good keeper. Also good for braiding.
150 seeds - $1.95

FOR LIVE ONION PLANTS, SEE PAGE 91

W467. HESHIKO (65 DAYS)
GERM 5-10 DAYS Heirloom
Produces no bulbs and also divides and thus can be considered sort of a perennial. Can be sown thickly (20 seeds per square foot) either in the spring for a fall crop or in the fall for a crop the following year. Use like scallions, each plant will have half a dozen narrow divisions in the fall.
400 seeds - $1.95

24803. WARRIOR (60 DAYS)
GERM 5-10 DAYS
Recent 2016 All-America selection winner that is ready 60 days from direct seeding and just 30 days after transplanting into the garden. More robust and earlier than our other onions, growing quickly, and held up well as we continued picking them over time. Uniform, slender stems perfect for harvesting at 1/2".
400 seeds - $1.95

Indoors - 3-4 weeks before transplanting out, 1/4” deep with soil temps 60-75 degrees. Transplant out in mid spring, not to early as exposure to heavy frost can cause bolting.
Outdoor - Mid-Spring to early summer. Sow fall crops mid to late spring. Thin to 6-12” apart
Harvest - Cut at the base for single leaves, whole heads, mini or full sized.
Tips - Provide moisture, dry conditions can cause the plant to bolt. Liquid feed once a week.

82909. BABY (50 DAYS)
GERM 7-12 DAYS
A tiny pak choi perfect for dense or container planting. You should be able to grow a half a dozen of these compact plants in a good sized pot and begin cutting within 45 days and continue to harvest the delicious leaf for another few weeks after.
50 seeds - $1.95

W456. PURPLE (F1 HYBRID 47 DAYS)
GERM 7-12 DAYS
A favorite in our trials, mostly because the very deep shade of purple really stands out, and it tastes very good. Distinctive purple leaves are carried on light green stems and the flavor is mild.
40 seeds - $1.95

W455. BRISK GREEN (F1 HYBRID 50 DAYS)
GERM 7-12 DAYS
This non-heading green, a member of the cabbage family, is a compact variety that produces 6-8” long, meaty, spoon shaped leaves. It is a staple for Asian cooking. Excellent for stir fries, soups and raw in salads. Bolt resistant variety.
40 seeds - $1.95

Indoors - 8 weeks before last frost, 1/4” deep. Transplant 3-4” apart early spring. Soak seeds in warm water overnight to speed up germination which is typically slow.
Outdoor - 1/4” deep, 1” apart in early spring when soil temperatures at least 45 degrees. Thin to 3-4” apart
Harvest - After first frost when flavor is improved.

W375. ARAT (80 DAYS)
GERM 14-21 DAYS
An underutilized root vegetable here in the United States; said to be the secret to soups, widely used in German, Dutch, and Polish kitchens. Slender carrot shaped roots have white skin and flesh with a flavor combination of carrot and celeriac with a hint of nuttiness. Can be eaten raw, steamed, or cooked to flavor soups, stews, and soufflés. This is an improved variety with uniform roots that grow up to 12”.
400 seeds - $1.95
## PARSNIPS

Outdoors - 1/2" deep, 1/2" apart in early spring with soil temperature at least 55 degrees. Slow to germinate and it is very important that they be kept moist for best germination. Thin to 2" apart.

**Harvest** - The flavor is best after a few frosts. Leave them in the ground for the winter with a thick layer of mulch and harvest in the spring when the ground thaws.

**Tips** - Soak seed 24 hours to hasten germination. Plant a few radish seeds with the parsnips to help mark the rows. This is helpful because they take 3 weeks to germinate. Requires adequate water, 1" per week for optimum growth.

**PLEASE NOTE THAT GERMINATION RATES FOR PARSNIPS DECLINE RAPIDLY. WE STRONGLY ENCOURAGE YOU TO PURCHASE NEW SEED EACH GROWING SEASON.**

---

### 251. HOLLOW CROWN (100 DAYS)
GERM 14-21 DAY Heirloom 1850
Also known as Guernsey. Per 1936 D. M. Ferry: "An excellent variety for the table. The roots are long with smooth white skin, uniform in shape, tender, and of the best quality. The variety is easily distinguished by the leaves growing from the depression on top of the crown of the root."

250 seeds - $2.25

### 250. HARRIS MODEL (100 DAYS)
GERM 14-21 DAY
Pure white perfectly straight roots. Slightly sweet flavor is unique in our experience. Store well and should comprise at least a small part of every northern garden. In the North, leave them in the garden until spring. It gives you a sweet treat to look forward to all winter. Dig them as soon as you can after thaw. If they are left for a few weeks they develop a lot of little white roots and start to become woody.

250 seeds - $2.25

---

## SNAP PEAS

### 26502. OPAL CREEK (70 DAYS)
GERM 7-14 DAYS
The first ever yellow podded snap pea available to grow, bred by Peace Seeds, and named after an old growth forest in Oregon. White flowers turn into slender, pastel lemon pods, growing on robust, 6 foot vines that accept heat well, it was the last of ours to perish in this season trials. Sweet, but not overly so, having a fresh pea taste, perfect for eating raw.

1oz (approx. 70-90 seeds) - $2.95

### 26101. SUGAR SPRINT (58 DAYS)
GERM 7-14 DAYS
This one is definitely the earliest sugar snap but it has some other virtues as well. Practically stringless – the least of any snap pea, and has short 2’ vines, allowing it to mature with little to no support. Reportedly the best flavor of any of the newer (post sugar ann, sugar bon, sugar rae) sugar snaps and an excellent “disease resistant package”.

1oz (approx. 100-120 seeds) - $2.50

### 26501. SUGAR MAGNOLIA (70 DAYS)
GERM 7-14 DAYS
Deep purple, edible pods have changed the world of sugar snap peas! We like this variety because of the striking colors; pretty pink bicolored flowers grow into vibrant pods and the showy hyper tendrils (vines have leaves replaced by hyper tendrils) make for easy climbing and are edible when they are young. At harvest we got a plentiful amount just from a 4’ planting! Good for a succession crop. Grows over 6-7’.

1oz (approx. 110-130 seeds) - $2.95

---

## SNOW PEAS

### 26903. BLUE PODDED (80 DAYS)
GERM 7-14 DAYS
Also known as ‘Blauswokkens’. Unusual edible and ornamental pea. Rare indigo-blue pods emerge from bi-colored purple and white flowers. Use the newly formed peas like you would a snow pea and later dried, for a soup pea in wintertime meals. Grows to 5-6’.

1oz (approx. 130-150 seeds) - $2.75

### 26801. MAMMOTH MELTING SUGAR (65-75 DAYS)
GERM 7-14 DAYS
Heirloom
Delectable super sweet stringless pods produce tremendous yields on the 5’ vines. Later maturing variety stays yummy even when harvesting 5” pods at the end of the pea season. Pick young or pick mature the sweetness will endure.

1oz (approx. 125-145 seeds) - $2.25

### SP20. GREEN PEA SHOOTS
GERM 7-14 DAYS
Grow pea shoots and enjoy fresh pea flavor all year long. Sow seeds tightly outside in spring through the summer for a succession of pea shoots or indoors using trays filled with soil. Grow next to a window or under grow lights. Harvest tender young shoots at 3-5”.

3oz - $2.75

### 269. GOLDEN SWEET (67 DAYS)
GERM 7-14 DAYS
Heirloom from India
Produces vigorous vines 6’ long. Attractive two tone purple blooming yield lemon-yellow pods that are best picked when small. Flavor is sweet and nutty.

1oz (approx. 140-160 seeds) - $2.95

---

## PEAS

### 259. SUPER SUGAR SNAP (62 DAYS)
GERM 7-14 DAYS
An improved Sugar Snap. Very tall, with better resistance to powdery mildew, thicker and plumper pods (and more of them). Can out produce Sugar Snap, with a comparable, sweet flavor. Matures up to a week earlier than the old Sugar Snap.

1oz (approx. 110-130 seeds) - $2.50

### 261. SUGAR LACE II (65 DAYS)
GERM 7-14 DAYS
The first semi-leafless or half leaf Sugar Snap type pea. It is also dwarf, growing to a height of only 24” so it requires no support. The lacy tendrils are unique and attractive, bearing large quantities of 3” pods with a distinctly sweet flavor.

1oz (approx. 90-110 seeds) - $2.50

---

## OUTDOORS TIPS

Harvest - Close to 60-70 degrees. Slow to germinate and it is very important that they be kept moist for best germination. Thin to 2” apart.

**Tips** - Adding inoculant with rhizobium bacteria will increase yields. Plant again, 1/2" deep, 1/2" apart in early spring with soil temperature at least 55 degrees. Slow to germinate and it is very important that they be kept moist for best germination. Thin to 2” apart.

**PLEASE NOTE THAT GERMINATION RATES FOR PARSNIPS DECLINE RAPIDLY. WE STRONGLY ENCOURAGE YOU TO PURCHASE NEW SEED EACH GROWING SEASON.**
26701. BLACK EYED (70 DAYS)
GERM 7-14 DAYS
Does well in hot weather, treat as a bean rather than a pea. Thrives in poor soil and due to the “nitrogen fixing” capabilities of legumes will actually improve the nutrition of the soil over time. Bushy plants produce pods of white peas with a dark spot and can be used fresh or dried.
1oz (approx. 125-135 seeds) - $2.25

2671. ASPARAGUS PEA (65 DAYS)
GERM 7-14 DAYS
LEGUMES TETRAGONOCEROS
Heirloom
Native to the Mediterranean region, this 12-18” tall, spreading plant with pea-like foliage is covered with interesting little winged pods, also known as winged pea. They are best harvested at about an inch or less in length and are delicious steamed or stir-fried. Bright red flowers can be used as a garnish in salads and make it quite ornamental too.
50 seeds - $2.25

Indoors - Start 8-10 weeks before last frost, 1/4” deep with soil temperatures 75-80 degrees. Liquid fertilize seedlings every 7-10 days. Transplant 18” apart when danger of frost has passed and when soil is 65 degrees.
Harvest - Using a sharp instrument, pick first fruits when they reach usable size, this helps accelerate the growth of the other peppers on the plant. Leave some on to mature, in color and sweetness up.
Tips - Plant in fertile, well composted soil, mulch and provide adequate water. It helps to use row cover early in the season giving the plants extra warmth, especially in the north. Side dress when flowers begin to form.

2673. CALIFORNIA WONDER (75 DAYS)
GERM 10-14 DAYS
This is a very large open pollinated variety measuring 4” square or more. Flavor is mild and sweet. Color ranges from deep green to crimson when fully mature.
20 seeds - $1.95

27304. MINI BELLE BLEND (60 DAYS) GER 10-14 DAYS
The wee little peppers in this blend are such a blast of fun to grow either in the garden or on the patio. Peppers are tiny, some only being 1” in length. Absolutely cute and robustly sweet tasting added to salads, vegetable platters or for mini stuffed pepper hour d’oeuvres.
20 seeds - $1.95

27303. KALEIDOSCOPE MIX (68-80 DAYS) GER 10-14 DAYS
A rainbow of sweet pepper varieties. Red, purple, yellow, chocolate, white, and orange.
40 seeds - $3.95

27801. CANDY CANE (F1 HYBRID 60-65 DAYS) GER 10-14 DAYS
Distinctive variegated foliage sets this plant apart from all of the others. The boldly striped, snack sized peppers are one of the sweetest we have ever trialed. Uncommon fruits start off with bands of light and dark green, later developing the red giving it the ‘candy cane’ appearance, edible at any stage. Exceptionally crisp, elongated fruits grow to 3-5 inches. Unbelievably yummy right off the plant. Try keeping them in a container just outside your door!
20 seeds - $4.25
273. PURPLE BEAUTY (71 DAYS)  
GERM 10-14 DAYS  
This open pollinated variety is more than a novelty, a nice thick walled pepper that yields late here, but in the main season in most of the country. The purple color adds a lot to the appeal—a deep, midnight, eggplant purple. Plants are compact and set fruit in both the crown and on the limbs. Resistant to Tobacco Mosaic Virus.  
20 seeds - $1.95

27301. BIG RED (75 DAYS)  
GERM 10-14 DAYS  
Many say that this newer open pollinated variety yields better than the hybrids. You will get an abundance of 4”, thick walled, very sweet red peppers. Flavor is crisp and delicious.  
20 seeds - $1.95

27302. CHOCOLATE BEAUTY  
(74 DAYS)  
GERM 10-14 DAYS  
A unique specialty pepper that produces smooth, good sized fruit. Matures from green to an attractive chocolate hue. Some believe that the flavor of the chocolate peppers is the sweetest of all. Fruit are large, thick walled, and generally 4-lobed.  
20 seeds - $1.95

27202. FLAVOR BURST  
(F1 HYBRID 75 DAYS)  
GERM 10-14 DAYS  
An extremely beautiful colored pepper starting out lime green maturing into a gilded gold. Has a juicy, delightful sweet taste with a burst of citrus. Enjoy the bountiful harvest provided by using the young or mature blocky elongated peppers.  
10 seeds - $2.25

27204. ORANGE SUN (81 DAYS)  
GERM 10-14 DAYS  
Fruits are 3 to 4” long and have medium thick walls with color changing from a deep green to a true golden color in just a matter of days. Yields are reasonably heavy on 2’, erect plants.  
20 seeds - $1.95

27402. LILAC BELL  
(F1 HYBRID 70 DAYS)  
GERM 10-14 DAYS  
Lilac Bell is a beautiful, full sized, sweet bell that starts out yellow and gradually turns a light purple with distinctive yellow stripes. This early beauty will make the complete color change even in the North.  
20 seeds - $2.25

27605G. RAINBOW BLEND  
(60-90 DAYS)  
GERM 10-14 DAYS  
A five color blend of sweet, thick walled bell peppers. Red, yellow, orange, purple and green. Grow all the colors in your garden from just one packet.  
30 seeds - $4.25

27901G. CARMEN  
(F1 HYBRID 60-80 DAYS)  
GERM 10-14 DAYS  
An award-winning Corno di Toro/bulls horn type with early maturity and deliciously sweet flavor. Productive and reliable, flowering and setting fruits over a wide temperature range, perfect for shorter growing season. Harvest these elongated peppers at 6-8”, green or red.  
15 seeds - $3.95

278. CUBANELLE (65 DAYS)  
GERM 10-14 DAYS  
This frying pepper is a must in many Mediterranean dishes. The fruit is an elongated and flattened yellowish green changing to red. Walls aren’t particularly thick. Quite productive and early.  
20 seeds - $1.95

CORNONE DI TORO (72 DAYS)  
GERM 10-14 DAYS  
Italian Heirloom  
These bull’s horn peppers are a deep green turning to a vivid bright red, are exceptionally sweet and tasty. Fruits are 6-8” in length. Great for both fresh use and dried.  
W282. RED - 20 seeds - $1.95  
W283. YELLOW - 20 seeds - $1.95
27707. JIMMY NARDELLOS (80 DAYS)  
GERM 10-14 DAYS  Heirloom  
Sweet Italian frying pepper with a long history. Originally from Basilicata, a southern region of Italy, was brought to Connecticut in the late 1800s by the Nardello family and saved for years by son Jimmy who passed the seed along in the early 1980s. It has become a favorite of home gardeners and chefs for its rich, complex fruity flavor and history. Easy to grow, throwing out loads of peppers that turn bright red. Historically, they were also dried by threading them through the stems and hung up for use during the winter.  
20 seeds - $1.95

27702. ACONCAGUA (75 DAYS)  
GERM 10-14 DAYS  Argentinian Heirloom  
This very large pepper plant is named after a mountain in Argentina where it originated. Plants can grow close to 3‘ in height and probably need to be supported as the fruit set is very heavy. Fruit can come close to 1’ in length and ripen from green to orange to red. They have great flavor for fresh use at any stage of maturity and are great for roasting when fully mature.  
20 seeds - $1.95

27705. CORBACI (75 DAYS)  
GERM 10-14 DAYS  Heirloom  
Unlike any pepper we have ever offered, and the longest available, besides the heirloom, Aconcagua. The most prolific and earliest, by mid July we had over a dozen 10” peppers on one plant, suitable for growing in the north. Super long, thin fruits; some stay straight, some spiral. Edible at any stage, they start out yellow-green, maturing into red, with a fruity, sweet flavor. This heirloom from Turkey is also called Sari Tatli Sivri and used for fresh eating, pickling, frying and drying. We saved some of our reds to dry and turn into a paprika type powder.  
20 seeds - $1.95

275. PIMENTO (75 DAYS)  
GERM 10-14 DAYS  
Heart shaped, smooth, round fruits average 3 1/2” in length. Eventually they turn from green to a deep red. Go ahead - stuff your own olives.  
20 seeds - $1.95

27503. ALMA PAPRIKA (70 DAYS)  
GERM 10-14 DAYS  
This is the type of paprika that is squat with many lobes, similar in size and shape to a medium sized tomato. This is the perfect pepper to dry to produce the popular spice but is also eaten fresh, and yields are very abundant so you can use it both ways. Skin color changes from cream to a bright pumpkin orange and eventually red.  
20 seeds - $1.95

MARCONI (80-90 DAYS)  
GERM 10-14 DAYS  
Long tapered Italian peppers with thin walls, and a crunchy texture. Red is the sweetest and the golden offers a gentler sweetness. Plants flourish with fruits that are great for frying, stuffing or sliced into rings for salads.  
27701. RED - 20 seeds - $1.95  
27704. GOLDEN - 20 seeds - $1.95

827. REDSKIN PEPPER 🌶️  
(F1 HYBRID 60 DAYS)  
A true dwarf bell pepper. Plants only grow to a height of 16”. The 2” to 5” fruit turn from green to a brilliant red surprisingly quickly. Yields are heavier than you would expect on a plant this size. The fruit hold on the plant for a very long period of time for both decorative purposes and to prolong the harvest.  
10 seeds - $2.50

280. CAYENNE - LONG (70 DAYS)  
GERM 10-14 DAYS  Heirloom pre-1827  
Wrinkled peppers are 6” long and skinny. Fiery hot and excellent for drying. An attractive plant.  
20 seeds - $1.95

283. PURPLE CAYENNE (70 DAYS)  
GERM 10-14 DAYS  
This exceptionally ornamental pepper is also one of the hottest we have encountered. Two foot plants are covered with dozens and dozens of light purple blossoms which turn into dark purple, thin peppers about 3” long, a bit smaller than a regular cayenne.  
20 seeds - $1.95

28204. FELICITY (F1 HYBRID 65 DAYS)  
GERM 10-14 DAYS / HEATLESS  
It’s easy to be timid when taking your first bite out of this pepper, but it really has no HEAT! A tamed jalapeno with the same exceptional flavor and crunchy thick walls. We were impressed with the number of peppers this produced, loaded with large, 4-6” fruit.  
15 seeds - $2.25

W566. EARLY JALAPENO (66 DAYS)  
GERM 10-14 DAYS  Latin American Heirloom  
Hot pepper with excellent keeping qualities, although Jalapenos are generally used green, they do turn red at full maturity. Very abundant yield of 1” by 3” thick walled fruits, perhaps 30 per plant.  
20 seeds - $1.95

28101. JALAFUEGO (F1 HYBRID 70 DAYS)  
GERM 10-14 DAYS  
One gigantic jalapeno, noticeably more robust in size and spiciness than other varieties; with extra wide and long, smooth, glossy, 4-6” long fruits that grow vigorously on sturdy, high yielding plants. Your stuffed jalapenos will be changed forever. Resistant to Bacterial Leaf Spot.  
15 seeds - $2.95

27803. HABANADA (70 DAYS)  
GERM 10-21 DAYS / HEATLESS  
A culinary wonder that has captured attention from around the world. Bright tangerine colored fruits have an exotic tropical flavor, a real stand out. Try growing these 2-3 inch peppers to create your own distinctive hot sauce, salsa or chili powder. There is a gourmet chef who used this pepper to create a Habanada Crema Brulee!  
20 seeds - $3.95

W572. SERRANO (75 DAYS)  
GERM 10-14 DAYS  Heirloom  
Pepers are small, 1/2” x 2” and borne in abundance, perhaps 60-100 per plant. Very hot even when green and much hotter when they turn red.  
20 seeds - $1.95

28301. TABASCO (85 DAYS)  
GERM 10-14 DAYS  Heirloom  
Imported to the US from Tabasco, Mexico in 1846. Eventually it made its way to Avery Island, Louisiana where the McIlhenny family used it in a hot sauce that has become so renowned that the word “Tabasco” is now used as a synonym for hot sauce. Plants are over 1’ tall and covered with 2” long tapered fruit.  
20 seeds - $1.95

Shop online at www.superseeds.com!
287. GHOST – BHUT JOLOKIA  
(100-120 DAYS)  
GERM 10-14 DAYS  
A legendary variety from India, has extreme heat, said to be one of the hottest peppers in the world with a Scoville rating over 1 million units. For comparison the jalapeno has a rating of 3500-10,000. Patience is required for this pepper, as they start out slow but will form 4” tall plants with thin walled, wrinkly fruit that ripen to red. Start indoors early as they can be slow to germinate and do require a long season.  
20 seeds - $2.50

W563. ANAHEIM (80 DAYS)  
GERM 10-14 DAYS  Heirloom  
This is the pepper you want for Chile Rellenos and the ubiquitous red or green sauces. The 30” plant bears smooth, flat, 2 celled peppers, about 7-8” in length. They are pungent, but not terribly hot.  
20 seeds - $1.95

282. HUNGARIAN YELLOW WAX  
(65 DAYS)  
GERM 10-14 DAYS  Heirloom  
Yields a large quantity of 6 inch yellow fruits, which turn red when fully ripened. Not super hot, but certainly pungent.  
20 seeds - $1.95

286. RED HOT CHERRY (77 DAYS)  
GERM 10-14 DAYS  
These peppers are red hot and used primarily for pickling. Fruit are one to two inches across, round, and flattened. Plants are small and color turns from deep green to dark red.  
20 seeds - $1.95

W575. ANCHO (80 DAYS)  
GERM 10-14 DAYS  Heirloom  
The primary Poblano-type pepper. It is nearly the size of a regular bell pepper but flattened and pointed at the end. An attractive shiny green with a thick flesh which makes it ideal for stuffing. Pungency is generally quite mild and green although it will eventually reden.  
20 seeds - $1.95

W564. PASILLA BAJIO (80 DAYS)  
GERM 10-14 DAYS  Heirloom  
A hot pepper, about 4-5” inches in length. The name means little raisin. It has a pungent, smoky flavor and is said to be the secret ingredient in some award winning Texas chilies.  
20 seeds - $1.95

W571. PINETREE’S SPECIAL HABANERO MIX  
(85-100 DAYS)  
GERM 10-14 DAYS  
All of these tall, sturdy, attractive plants will produce an abundance of shiny bright, very hot, lantern shaped peppers. Colors are red, orange, chocolate, and vivid yellow. Decorative and spicy.  
20 seeds - $1.95

27712. TRINIDAD SCORPION  
(100 DAYS)  
GERM 10-14 DAYS  
Trinidad scorpion was the hottest pepper in the world until Carolina Reaper came along. This one comes in at 1.2 million scoville units and deep in that heat is a bit of fruity sweetness.  
20 seeds - $4.95

27809. DRAGON’S TOES  
(F1 HYBRID 65-85 DAYS)  
GERM 10-14 DAYS  
These convoluted shaped, wrinkly peppers are uncommon, originating in Southeast Asia. The fruit is sweet with a little kick but less than the heat of a jalapeno. Use green in stir-fries and salads, we have some going into a hot sauce too. Tall upright plants yield a couple of dozen 3-4” by 2” thin-walled, peppers. Super fun to grow!  
15 seeds - $3.50

289. HOT PORTUGAL  
(65-75 DAYS)  
GERM 10-14 DAYS Heirloom 1920s  
According to the 1935 Harris Seed catalog “If you want a large hot pepper you should try the new Hot Portugal. The best hot pepper we know.” Early maturing variety. Fruits are thin, can grow to a length of 6” and are plenty hot. Yields are remarkably heavy.  
20 seeds - $1.75

W579. PINETREE HOT PEPPER MIX  
(66-90 DAYS)  
GERM 10-14 DAYS  
Many of the hot peppers we sell plus a few others, giving you the benefit of scattered maturities, different shapes and colors, and varying degrees of hotness.  
50 seeds - $2.95

W570. HABANERO (90 DAYS)  
GERM 10-14 DAYS  Heirloom  
Lovely fruits and plants and very hot chilies. Can be successfully grown in our climate although yields will be higher with a longer growing season. Also called Scotch Bonnet. Fruits are a beautiful, deep orange when mature. Here, plants are only a little over 1’ high and the light green, serrated leaves are very attractive. Yields of green peppers run about 10 per plant with a few of these turning orange. Peppers are 1 1/2” x 3”.  
20 seeds - $1.95

288. BIRDS EYE CHILI (85 DAYS)  
GERM 10-14 DAYS  
A very diminutive hot pepper with lots of fire that is used mostly in Asian, African, Spanish, Thai, and Portuguese cooking. The green immature fruits are used as much as the red/purple mature ones. Great for drying whole or ground into chili powder. Used to make peri-peri sauce.  
20 seeds - $1.95

28201. PADRON (60 DAYS)  
GERM 10-14 DAYS  Heirloom  
Favorite in the Northwestern region of Spain. What makes this interesting is that only a small percentage, 1 out of 20 of the small (1-1 ½”) peppers are considered hot. Is it hot or is it not? Won’t know until you try one! Customarily they are fried in oil and served as tapas. Mature peppers elongate with a conic undulating shape; pick them green, small or big, or leave on until they turn red. They have flavorful spice to them, with the mature reds having a sassy sweetness. Highly productive for us, a few gallons from 2 plants.  
20 seeds - $1.95

W479. SUPER THAI  
(F1 HYBRID 71 DAYS)  
GERM 10-14 DAYS  
Excellent yielding, good tasting, high pungency pepper that adds zest to stir fry dishes, sauces, and other foods. Vigorous plants grow 30” tall with strong stems, abundant foliage and heavy fruit set. As fruits mature they turn from green to dark red and measure 4-5” in length. The earliest, largest Thai pepper we are familiar with (resistant to tobacco mosaic).  
10 seeds - $1.95

27904. MAD HATTER  
(F1 HYBRID 85-105 DAYS)  
An exotic AAS-winning pepper with winged lobes that form a flattened disc shape. It has a crisp and crunchy texture and a lightly sweet, fruity flavor. Use in either green or red stage; they are perfect for snacking, salsa, pickling, and stuffing. Flavor intensifies as the fruit ripens, and in hotter climates, the center may produce a hint of heat, but the outer lobes remain sweet.  
10 seeds - $2.95
SPECIALTY HOT PUMPKINS

290. BABY BEAR (105 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
Johnny’s Selected Seeds developed this novelty mini-pumpkin, a 1993 All-America selection winner. Small, deep orange color and long, sturdy stem. Weighing less than 2 lbs. and averaging 5” in diameter, it’s appealing to kids of all ages who like to make jack-o-lanterns. Semi-hulless seeds are great for roasting and the flesh, is moist and flavorful. Vines are shorter than other varieties, but each plant produces 8-10 fruits.
15 seeds - $2.25

298. HOWDEN (105 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
This heirloom variety developed by John Howden of Massachusetts remains one of the best choices for big Jack O’ Lantern pumpkins. Pumpkins average around 25 lbs. and are much more uniform in shape than other Connecticut Field types. Skin is thick and rugged so it will last for a long time but the color is probably the biggest selling point – a deep reddish orange.
15 seeds - $2.25

29201. SPOOKIE (96 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
A cross between Sugar Pie and Jack O’ Lantern pumpkins, great for pie or carving on the porch. The 6-10 lb pumpkins are about 7” across with a smooth, hard red-orange skin and sweet, thick yellow-orange flesh. Exceptionally high yields of this strong stemmed pumpkin are reported.
15 seeds - $2.25

29501. WEE BE LITTLE (85 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
This miniature true pumpkin produces fruit that are 3-3 1/2” in both width and height. An All-America selection winner, plants are bushy and compact and produce unique ornamental pumpkins. Also has good flavor for eating. Try this: cut off the top, remove the seeds and pulp, fill with pumpkin pie filling, and bake on a cookie sheet at 350° for 25-30 minutes. Serve as individual desserts at a harvest party.
15 seeds - $2.25

W284. ITALIAN PEPPERONCINI
(75 DAYS)
GERM 10-14 DAYS
These peppers are just mildly hot by Italian standards, really nothing by Latin or Asian standards. Fruiter abundant 5”, elongated fruit; a light green turning to red. Pick these small for pickling and to increase yields.
20 seeds - $1.95

FOR POTATOES, SEE PAGE 91

Indoors - Individual biodegradable peat/cowpots, sow 1/2”-1” deep, 3-4 weeks before last frost with soil temperature 70 degrees. Transplant 36” apart after last frost without disturbing the roots
Outdoors - 1/2”-1” deep after last frost, in warm soil at least 70 degrees. Sow a few seeds per space/hill with 24-36” between, providing the furthest spacing for the larger varieties
Harvest - When skin turns color and rinds are hard, leaving a few inches of the stem on for best storage potential.
Tips - Plant in fertile soil amended with compost or well rotted manure and keep watered. Benefit from growing on black plastic and using row covers for weed, insect control, and more rapid growth. Fertilize on a regular basis by watering with compost tea. Turn pumpkins carefully to keep a uniform shape.

29801. CONNECTICUT FIELD
(100 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
Heirloom pre-1700
Grown by Native Americans prior to the arrival of the Europeans. Pumpkins are large and run to 25 lbs. Globe shaped and a bit flattened. The flesh is much coarser than the more modern varieties but the flavor is good. Makes a dandy Jack O’ Lantern.
15 seeds - $2.25

299. CASPER PUMPKIN
(100 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
Has ghostly white skin with gentle ribbing and orange flesh. Yields a sweet flavor that is super for baking and pies. Weighing in at 10-15 lbs, this one will stand out brightly. Powdery Mildew Resistant
15 seeds - $2.25

29503. CASPERITA
(F1 HYBRID 77 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
Cute and tiny, 1-1 ½ lb, white pumpkins with deep, smooth ridges. Easy to grow, with edible flesh, similar to an acorn squash, plus they make great fall decorations. We love growing tiny pumpkins; they keep taking up too much garden space, are not back-breaking to pick and still gives you that autumn vibe. Intermediate resistance to powdery mildew.
15 seeds - $2.50

30002. AUTUMN HARVEST DISPLAY
(PUMPKIN/SQUASH/GOURD MIX)
(60-120 DAYS)
GERM 7-10 DAYS
Will contribute mightily to those harvest displays! Also tastes great in a winter dinner. You will encounter surprise after surprise after surprise.
Pumpkins: Jack be Little, Small Sugar, Musquee De Provence, Galeaux d’Eysines, Rouge vif D’Etamps, and a mix of large and small gourds varieties.
100 seeds - $3.95

W174. MUSQUEE DE PROVENCE
(100-110 DAYS)
GERM 7-10 DAYS/ Cucurbita moschata
French Heirloom
A slightly flattened and deeply lobed pumpkin that is an heirloom from southern France, dating back to the late 1800’s. Magnificent variety is excellent for roasting or stuffing. Starts out green and turns a rich orange brown. Thick flesh is deep orange and dense with a distinct nutty flavor. Fruits can weigh up to 20lbs.
15 seeds - $3.50

W173. ROUGE VIF D’ETAMPS
(105 DAYS)
GERM 7-10 DAYS/ Cucurbita maxima
French Heirloom
This unique 1800’s French pumpkin, Cinderella to us here in America, is popular with chefs for soup bases because its mild flavor doesn’t overpower other ingredients. Fruits are flattened and concave on top, about 15” across and 6” high. Skin color is a brilliant reddish orange, more dramatic than the yellow-orange pumpkins you are used to. Flavor is great in pies or any winter squash recipe. Plants are vigorous with 15’ vines.
15 seeds - $2.50

29701. WINTER LUXURY
(100 DAYS)
GERM 7-10 DAYS/ Cucurbita pepo
Heirloom 1893
It is said to be the best pie pumpkin, ever! Vines produce medium sized, 5-7 lb. tangerine orange pumpkins that are blanketed with white netting giving it a pastel appearance. Flesh is silky smooth with just the right amount of sweetness. A must have if you like to have your own canned pumpkin in the pantry.
15 seeds - $2.25
PUMPKINS

2904G. KAKAI HULLESS
(100 DAYS)
GERM 7-10 DAYS / Cucurbita pepo
Do you love raw or roasted pumpkin seeds and want to be able to supply your family with more of your own homegrown healthy snacks? Then this “naked” hulless pumpkin is a perfect selection. Semi bush habit and 5-8lb fruit. Slightly ribbed skin has dark green mottled strips laid over the orange skin.
15 seeds - $2.50

296. DILL’S ATLANTIC GIANT
(125 DAYS)
GERM 7-10 DAYS / Cucurbita maxima
It’s fall, you’re reading the paper and suddenly your eye is drawn to a picture of this giant orange thing about the size of a pickup truck with a guy half its size standing next to it grinning like a lunatic. “Boy, I’d like to grow one of those,” you think. Let’s not quibble over whether this is a squash or a pumpkin; if it’s going to take up half your backyard, it can have a name of its own. The point is, it’s big. We sell only the true cultivar developed by Howard Dill of Windsor, Nova Scotia—not someone else’s imitation.
8 seeds - $2.25

29803. EARLY GIANT
(F1 HYBRID, 95 DAYS)
GERM 7-10 DAYS / Cucurbita pepo
An ideal, large carving pumpkin with deep orange skin and light ribs. It grows mostly the tall elongated type of pumpkins, ranging from 14-40 lbs. Long vines need sufficient spacing, 30-40 sq ft per plant. Powdery mildew resistant.
15 seeds - $2.50

298. SMALL SUGAR
(95 DAYS)
GERM 7-10 DAYS / Cucurbita pepo
Heirloom pre-1860
The ultimate pie pumpkin, although the larger specimens can also be carved for Halloween. The vigorous vine grows well on a trellis or other support, and produces a number of 5-8lb fruits. Eating quality is excellent.
15 seeds - $2.25

29702. PEPITAS
(F1 HYBRID 90 DAYS)
GERM 7-10 DAYS / Cucurbita pepo
An award-winning pumpkin that is known for its hulless or “naked seeds” that lack the tough outer husk like other pumpkin seeds. Highly nutritious seeds can be eaten fresh or slow roasted with spices and herbs or used for later use. Vigorous plants produce 5-6 medium-sized, 9-12 lb light orange fruits with green stripes with edible flesh. Powdery mildew tolerant.
15 seeds - $2.25

QUINOA

30001G. BRIGHTTEST BRILLANT RAINBOW BLEND
(90-120 DAYS)
GERMS 3-7 DAYS
High protein, nutritious grain, produces large seed heads and young, edible leaves. At maturity includes attractive red, yellow, orange, white, and green seed heads. A cool weather crop, grows best in northern areas where day-time temperatures do not exceed 90-95°, above this can prevent seed heads. Should be sown in cool soil, at 45-60°. Sow in straight rows, keep well weeded, and thin 8-18” apart when the seedlings are 6” high. Grows 4-6’ tall, in well drained, rich soil. After harvesting, wash a few times to remove the bitter saponin coating that covers the seeds. Cook like rice to enjoy a delicious gluten-free nutritional powerhouse!
500 seeds - $2.95

RADISHES

307. LADY SLIPPER
(30 DAYS)
GERM 5-7 DAYS
This radish is sort of slipper shaped, hence the name. It is a lovely bright pink color that is unusual, quite spicy, and resistant to cracking.
300 seeds - $1.95

30801. PINETREE RADISH MIX
GERM 5-7 DAYS
This is a mixture of most of the early maturing radishes we sell, plus a few surprises. You will get a wide selection of shapes and colors, plus a somewhat longer span of maturation, all from the same planting.
1000 seeds - $3.50

304. WHITE ICICLE
(30 DAYS)
GERM 5-7 DAYS
Heirloom pre-1896
Snow white roots are mild and firm. They remain crisp but are best harvested while still immature, the size of your little finger. A relative of the ‘Lady Finger’ from the 1890’s.
300 seeds - $1.95

W382. GERMAN GIANT
(37 DAYS)
GERM 5-7 DAYS
Heirloom
Imported from Germany, this radish retains its high quality from the size of a marble to the size of a cue ball (or larger). Does not get woody or spongy, and rarely splits, handling drought-like conditions well. Scarlet skin and white flesh is crisp and mild at any size. Plants should be thinned to 1” or more for the real “giants.”
150 seeds - $1.95

W482. DAIKON - MINOWASE
(55 DAYS)
GERM 5-7 DAYS
Heirloom
Mild daikon that tolerates heat well, it is intended for late spring sowing to grow and harvest through the summer. 8-12” roots can be 1 1/2”-2” in diameter, with nice white flesh. Tends to grow up out of the ground 2”-3” as it matures, developing green shoulders. A popular Japanese variety, it is crisp, juicy and hot. Great for pickling, cooking or eating raw.
150 seeds - $1.95

30705G. SORA
(22 DAYS)
GERM 5-7 DAYS
Classic, reliable radish for organic growers. High quality round roots have red skin and white flesh. Tolerates heat and resists pithiness better than most radishes.
300 seeds - $3.25
3007. RATTAIL (50-55 DAYS)  
GERM 5-7 DAYS  
Unlike other radishes this one is grown for its seed pod, not its root. Indigenous to southern portions of Asia, the versatile pods are a staple for many gardeners around the world. The zesty radish flavor and snappy texture is adaptable in many recipes. Try experimenting with it. Begin harvesting seed pods at about 2 inches. Keep harvested to extend production throughout the season.  
40 seeds - $2.95

301. CHERRY BELLE (21 DAYS)  
GERM 5-7 DAYS  
Heirloom 1949  
Mild with short tops. A classic radish; roots are perfectly round and flavor is mildly pungent. They will be different sizes at maturity, from 1/4" to 1" round. AAS winner.  
300 seeds - $1.95

30601. WATERMELON (37 DAYS)  
GERM 5-7 DAYS  
Large, white skinned radish with greenish shoulders and bright red interior, looks like a watermelon when sliced. Flavor is mild and sweet. It will grow to the size of a turnip, best eaten when smaller. Prefers a cooler climate, so plant this seed mid-summer for a late fall/early winter harvest.  
300 seeds - $1.95

302. PURPLE PLUM (30 DAYS)  
GERM 5-7 DAYS  
A unique combination of purple skin and white flesh. Radishes are oval, two inches long and 1 1/2" around. Flavor is quite mild.  
300 seeds - $1.95

30401. HAILSTONE (25 DAYS)  
GERM 5-7 DAYS  
Heirloom - 1800's  
Hailstone is thought of as the fastest maturing of the radishes available. Roots are round and white like a well - hailstone. Both the tops and the taproot are small, allowing for dense planting. 1" globes are tangy, pungent, and crisp.  
300 seeds - $1.95

30501. HELIOS (32 DAYS)  
GERM 5-7 DAYS  
A lovely, golden skinned radish named after the Greek god of the Sun. The white flesh contrasts with the yellow skin for a delightful, somewhat pungent, spring harvest.  
100 seeds - $1.95

305. EASTER EGG (28 DAYS)  
GERM 5-7 DAYS  
Heirloom  
This unique radish includes a combination of red, white, and purple radishes and a number of intermediary shades that really dress up your relish tray. Flavor is good (mildly pungent), texture is crisp, and they hold their quality well after their 28 day maturity.  
300 seeds - $1.95
Outdoors: Sow 1/2" deep, 1" apart in early spring, thinning to 2-4" apart. Germination can take up to 3 weeks. Tips: Plant in deep, loose soil and keep weeded & evenly watered. Grows best in cooler temperatures. Hot weather, over 85 degrees can make the roots tough.

Harvest: In fall, after a frost. Roots can grow down to 1'. Be careful to not break the roots when harvesting.

Tips: In fall, after a frost. Roots can grow down to 1’. Be careful to not break the roots when harvesting.

320. MAMMOTH SANDWICH ISLAND (120 DAYS) Heirloom
GERM 14-21 DAYS / Tragopogon Porrifolius
An unusual root vegetable native to the Mediterranean region arriving in America in the 1700's. Forms uniform slender straight roots with black skin and an inner white core with a distinct, earthy flavor. Leaf veins in the ground (hardy to zone 5) to pull the following year then harvest the greens in the spring along with the root. This process continues throughout the growing season with each plant growing 3-4 feet. Multi-stemmed plants produce 1-2 inch pods with approximately 30 on each stem. Allow pods to dry on or off the plant. Ready to harvest when the pods begin to split.

100 seeds - $1.95

32GG. SCORZONERA - BLACK SALSIFY (120 DAYS)
GERM 14-21 DAYS (Scorzonera hispanica)
An unusual root vegetable native to the Mediterranean region, named after a parsnip. Provides 8” long, slender, tapered roots, similar to parsnips. Can be left in the ground and harvested over the winter. A biennial, it produces grass-like foliage and attractive, purple daisy-like flowers the following year.

100 seeds - $1.95

Indoors: Start indoors 4-6 weeks before last frost. Sow 1/4" deep. Provide 70°F soil temperature. Transplant after last frost. Space 6-12" apart in rows 12-24" apart.

Outdoors: Sow after last frost when soil temperatures reach 70°F. Sow 5-6 seeds every 1 foot, thin to 6-12" apart when the seedling are 4" tall. Harvest: Pods start ripening from the bottom of the plant and begin to split when they are ready to harvest. In a shorter growing season you can cut the pod covered stems from the base and dry them indoors on a flat surface. Once pods have opened collect seeds by hitting plants against the side of a container or by hand. Another way is to collect green pods off the plant and place them in a paper bag until they are dried.

Tips: Plant into fertile soil with lots of organic matter and adequate water, 1” per week for optimum growth.

323. CONSERV (F1 HYBRID 110 DAYS) GERM 5-10 DAYS
Tear drop shaped bulbs have reddish brown skin with a white pink interior. Conserv produces large, quality bulbs that are mostly single and store extremely well.

100 seeds - $2.50

324. ZEBRUNE (100 DAYS) GERM 5-10 DAYS Heirloom
A vintage variety also known as echalions, banana shallots or Cuisse de poulet which translates to chicken thigh. It has an elongated, tapered shaped bulb, copper skin, and white flesh.

100 seeds - $2.50

33002. VIROFLAY (47 DAYS) GERM 7-14 DAYS / French Heirloom 1866
Described in the 1866 Vilnorn catalog as the Monstr de Viroflay, it is a very large spinach. Trowel shaped leaves measure 8” x 10” and are only slightly savoyed. Color is dark green and low acid foliage stays tender at any stage of development.

75 seeds - $1.95 / 1000 seeds - $3.95

33303. PINETREE SPINACH MIX GERM 7-14 DAYS
A large packet that gives you all the textures, flavors, and maturities of most of the spinach varieties that we sell plus a few more.

1200 seeds - $3.95

33305G. ACADIA (F1 HYBRID 27 DAYS) GERM 7-14 DAYS
Adaptable for spring or fall plantings with active regrowth for cut and come again harvests. Deep green semi-savoy leaves overwinter well, slow to bolt in all seasons. High resistance to downy mildew.

75 seeds - $2.25

1000 seeds - $4.95

337. GIGANTE DE INVERNO (55 DAYS) GERM 7-14 DAYS / Heirloom
“Giant of Winter”. Broad and pointed wavy leaves grow in a compact upright habit. Grows well when sown in the chilly temperatures of very early spring and also a perfect choice for late summer and fall plantings, due to its extreme cold tolerance.

75 seeds - $1.95

33201. DASH (F1 HYBRID 39 DAYS) GERM 7-14 DAYS
This extra early hybrid also is very tolerant of cool weather so it is an ideal choice for both very early and very late plantings. Upright, spade shaped, medium green leaves are both smooth and delicious.

75 seeds - $1.95 / 1000 seeds - $3.95

Shop online at www.superseeds.com!
**SPINACH PLANTING:**

**NEW ZEALAND SPINACH:**
Indoors - 1/2" deep, 2-3 weeks before last frost. Transplant 2-3 weeks after last frost. Harvest - Pick leaves and use like spinach.

**MALABAR SPINACH:**
Indoors - 6 weeks before last frost 1/2" deep with soil temperature 65-75 degrees. Transplant 2-3 weeks after last frost. Harvest - Pick leaves and use like spinach.

**STRAWBERRY SPINACH:**
Indoors - early spring, 1/8" deep, sow thinly with soil temperature 55 degrees. Harvest - grows all seasons just clip the new, green shoots as they emerge. Use raw in salads or cook like spinach. Harvest the fruit in late summer when they are dark red.

Our sprouts are the freshest available and come packaged in durable re-sealable plastic bags to maintain their high germination rate. Try our handy sprouting tray or sprouting lid for best results. Once sprouted, store in the refrigerator, rinsing daily. All seeds are tested for pathogen, germ and purity.

For sprouting tools, see our Hardgoods section!

**SP21. SUNFLOWER SHOOTS**
1 oz. - $2.25 4 oz. - $4.95
These have a nutty flavor and crunchy texture, perfect for a salad topping. Easy to grow in soil near a window or underlights. Harvest at 3-4".

**SP26. NASTURTIUM SHOOTS**
1 oz. - $3.25
Add a peppery zing to your salads with these easy to grow shoots. Grow outdoors or indoors. Harvest when shoots have produced 2-4 leaves.

**SP10. WHEATGRASS SHOOTS**
Organic 1 oz. - $2.25 4 oz. - $4.95
Juice your own wheat shoots or use them in salads, sandwiches, and homemade bread. Cats love the shoots too. Harvest at 3-5".

**SP20. GREEN PEA SHOOTS**
3 oz. - $2.75
Grow peas shoots and enjoy fresh pea flavor all year long. Sow seeds outside in the spring through summer for a succession of pea shoots or indoors using trays filled with soil. Grow next to a window or under grow lights. Harvest tender young shoots at 3-5".

**FOR SPROUTING TOOLS, SEE OUR HARDGOODS SECTION!**

**SP1. ALFALFA**
Organic 1 oz. - $2.95 4 oz. - $7.50
Many consider this to be the supreme sprout. It is high in nutrients with a delicate flavor & crisp texture. Great as a lettuce replacement on sandwiches. Should be used before the tiny green leaves appear for optimum food value, as this signals the exhaustion of stored food in the seed.

**SP3. MUNG BEANS**
Organic 1 oz. - $2.95 4 oz. - $7.50
Familiar large sprouts used in Chinese cooking. They are ready to eat when they are 1 1/2-2" long and have a crisp taste similar to raw peas.

**SPS. BROCCOLI**
Organic 1 oz. - $2.95 4 oz. - $8.95
Medical studies report these sprouts will help in the fight against cancer. A delicious sprout, they are rich in vitamins A, B, & C.

**SP18G. KALE**
Organic 2 oz. - $8.95
A member of the broccoli family with a distinct kale flavor. It has attractive oval green leaves with deep pink veins and ribs.

**SP27G. SALAD AND SANDWICH MIX**
Organic 3 oz. - $6.95
Radish, alfalfa, broccoli, mung beans, and kale. Adds a kick to a salad or sandwich.
Indoors - Plant in individual biodegradable peat/cowpots 1/2"-1" deep, 3-4 weeks before last frost with soil temperature 70 degrees. Transplant 36" apart after last frost without disturbing the roots.

Outdoors - 1/2"-1" deep after last frost, in warm soil at least 70 degrees. Sow a few seeds per space/hill with 24-36" between rows.

Harvest - Check and harvest a few times a week. Cut or kindly twist off fruit, starting at 3-4".

Tips - Plant in fertile soil amended with compost or well rotted manure and keep well watered. They benefit from growing on black plastic and by using row covers for weed, insect control, and more rapid growth. Fertilize on a regular basis by watering with compost tea.

**ZUCCHINI PATTY PAN / SCALLOP SUMMER SQUASH**

Fertilize on a regular basis by watering with compost tea. by using row covers for weed, insect control, and more rapid growth.

Plant in fertile soil amended with compost or well rotted manure and keep well watered. They benefit from growing on black plastic and by using row covers for weed, insect control, and more rapid growth. Fertilize on a regular basis by watering with compost tea.

---

**34501. BENNING’S GREEN TINT**

**GERM 7-10 DAYS / Heirloom 1914 (Cucurbita pepo)** Developed by Charles N. Farr. The squash are creamy in color but with a distinctive green tint. This is a very heavy yielder. The pale green flesh is delicious, especially when picked small.

- 20 seeds - $2.25

**346. SUNBURST (F1 HYBRID 50 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)**

Brilliant yellow color, crunchy texture, buttery flavor, and high productivity are all first rate. Designated as an AAS winner in 1985, Plant has a compact, open habit bush. For optimum tenderness and flavor, we recommend picking the squash young, when it is 2-3” in diameter. Resistant to Downy Mildew.

- 20 seeds - $2.25

**34505G. GREEN MACHINE**

**(F1 HYBRID 45 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)**

The most disease resistant zucchini we offer. All of the gourds in this machine are smooth-running with productive, healthy plants all season long. Growers will enjoy harvest friendly plants with reduced stem spines. Intermediate resistance to cucumber mosaic virus, powdery mildew, watermelon mosaic virus, and zucchini yellow mosaic virus.

- 10 seeds - $4.25

**34001. CASERTA (58 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)** In 1949, Caserta won the All-America selection winner as an exceptional Zucchini; it remains so. The bush plant produces 16” zucchini that are quite thin. Fruits are bulbous at the end and narrow at the neck, a light green color alternating with forest green bands. Best harvested young.

- 20 seeds - $2.25

**34002. BLACK BEAUTY (55 DAYS)**

**GERM 7-10 DAYS / Heirloom (Cucurbita pepo)** An old heirloom zucchini from the 1920’s. The classic, black-green fruit is very productive with a firm flavorful interior, very tasty raw, picked right from the plant. Harvest under 6-8” for the best quality or pick extremely young for gourmet baby zucchini. AAS winner.

- 20 seeds - $2.25

**348. GREYZINNI (F1 HYBRID 47 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)**

Color is a light green with grayish mottling and faint green bands. The earliest and highest yielding zucchinis extend, bar none. We’re not sure if that is a virtue or not, but if you think it is, this may be the choice for you. Better line up friends, neighbors, strangers, etc. to take the surplus off your hands. AAS winner.

- 20 seeds - $2.25

**34402. GENOVESE (55 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)**

A fine and beautiful Italian zucchini that has celery green skin overlaid with a lacy cream colored pattern. Pick young, at 5-7” for the finest flavor.

- 20 seeds - $2.25

---

**34901. CASHFLOW**

**(F1 HYBRID 47 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)**

The name says it all – for eastern growers this zucchini is money in the bank. High yields of middling green, cylindrical fruits display a few yellowish flecks. The eight inch squash are delicious. Plants are upright and open for ease of harvest. So why not take the advice of market growers on this one and get bushels of zucchini from a few hills? Resistant to Zucchini and Yellow Mosaic Virus.

- 20 seeds - $3.50

**34102. FORDHOOK (57 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)**

Smooth, cylindrical, deep green almost black zucchini with flavorful ivory flesh. Generous crops are produced from the bushy plants. Harvest at 5-8” for the most tender crop. AAS winner.

- 20 seeds - $2.25

**34903. RAVEN (F1 HYBRID 48 DAYS)**

**GERM 7-10 DAYS (Cucurbita pepo)**

Quick, strong growth and open, clean plants for easy picking. Fits into a garden well without sprawling. Cylindrical fruit with tender skin is dark and glossy; full of flavor, raw or cooked. Kept producing to the end of the summer for us, while others withered away.

- 20 seeds - $3.50

**345. BLACK (50 DAYS)**

**GERM 7-10 DAYS / Heirloom 1931 (Cucurbita pepo)**

Yields aren’t as large as with the hybrids, but still provide plenty of squash for the average family. Flavor is unsurpassed. Originally listed by the Jerome B. Rice Seed Company in 1932.

- 20 seeds - $2.25

**W287. STRIATA D’ITALIA (50 DAYS)**

**GERM 7-10 DAYS / Italian Heirloom (Cucurbita pepo)**

A true beauty to behold. Appreciated for its earliness, this tasty zucchini is cylindrical with a slight taper. Thin skin has mottled light and dark green stripes, and fruit has excellent flavor & texture. Plants are bushy but open, which allows ease in harvest.

- 20 seeds - $2.25

**W28901. COCOZELLE (58 DAYS)**

**GERM 7-10 DAYS / Italian Heirloom (Cucurbita pepo)**

Bush type heirloom zucchini decorated with dark and light green stripes. Tender, flavorful, and firm greenish white flesh is best picked under 12”. In Italy, it is eaten when only 1-2” long. Great for the small garden or container planting and also good for freezing and canning.

- 20 seeds - $2.25

**351. SUMMER SQUASH MIX**

**GERM 7-10 DAYS**

A blend of our open-pollinated varieties. They will cross with one another so if you save seeds you could get some interesting surprises next season. 100 seeds - $3.95

---

Shop online at www.superseeds.com!
34507. **GOLDEN GLORY**  
(F1 HYBRID 50 DAYS)  
**GERM 7-10 DAYS (Cucurbita pepo)**  
Bright, flashy yellow zucchini with excellent production while under pressure from disease and bugs. The flesh is meaty, not watery and is tasty marinated and grilled. Harvest fruits at 7-8”. Intermediate resistance to powdery mildew, watermelon mosaic virus, and zucchini yellow mosaic virus.  
10 seeds - $2.95

34508. **CHIFFON**  
(F1 HYBRID 50 DAYS)  
**GERM 7-10 DAYS (Cucurbita pepo)**  
Durable, compact plants yield creamy butter-yellow zucchini. Chiffon has thin skin and slow to form seeds, making it tasty zucchini even when they are picked at a larger size. Strong plants have good resistance to powdery mildew.  
10 seeds - $2.95

34502. **RONDE DE NICE** (50 DAYS)  
**GERM 7-10 DAYS / French Heirloom 1800’s (Cucurbita pepo)**  
This is a bit different from both the zucchinis and the scallop types. The delicious fruits are spherical and light green. They are great harvested young and when they get to about 4” in size they are fine for stuffing. Compact plants grow vigorously and produce heavy yields.  
20 seeds - $2.25

34401. **EIGHT BALL**  
(F1 HYBRID 35 DAYS)  
**GERM 7-10 DAYS (Cucurbita pepo)**  
Small baseball-size fruit that is just right for one serving. Stuff with your favorite filling and serve as an appetizer or main dish, or use as you would other zucchini in your best recipes. Pick when 3” in diameter, before the seeds have started to form. Bushy plants produce dozens of squash. AAS winner.  
20 seeds - $2.25

354. **EARLY PROLIFIC STRAIGHTNECK** (45 DAYS)  
**GERM 7-10 DAYS (Cucurbita pepo)**  
Abundant fruits with sunny yellow skin having a straight tapered shape that is best harvested at 7-8”. An AAS winner in 1938, became a standard in many home gardens since then. AAS winner.  
20 seeds - $2.25

342. **YELLOW CROOKNECK**  
(55-60 DAYS)  
**GERM 7-10 DAYS / Heirloom 1700s (Cucurbita pepo)**  
This Native American summer squash is a very prolific heirloom with a butternut flavor and light yellow skin. Should be picked at 4-5” for the best taste. If you were to leave the squash on the plant until maturity they get large and have ornamental warted rinds ideal for fall decoration.  
20 seeds - $2.25

34202. **ZEPHYR**  
(F1 HYBRID 54 DAYS)  
**GERM 7-10 DAYS (Cucurbita pepo)**  
Two tone, slender fruits are light yellow with faint white stripes and have a distinctive pale green blossom end, which can vary in hue and size. A one of a kind hybrid squash with crookneck, delicata and acorn squash in its family genes. Harvest at 4-6” for a delicate, nutty flavor.  
20 seeds - $2.50

34504. **LEMON** (55 DAYS)  
**GERM 7-10 DAYS (Cucurbita pepo)**  
Shaped, colored, and sized like a lemon. Undaunted by extreme weather and most pests, this vigorous plant produces huge yields of sweet and tender squash with minimal care. Perfect for the weekend gardener.  
20 seeds- $2.25

W288. **ZUCCHETTA RAMPICANTE TROMBONCINO** (60 DAYS)  
**GERM 7-10 DAYS / Italian Heirloom (Cucurbita moschata)**  
Grows like squash and needs room for 15’ runners. Light yellow-green fruit, slender with a bulbous end and should be harvested at about 10”. Leaving on the vine can produce variously twisted squash specimens 3” long and 6” wide and can be used like a winter squash. Firm, mild and delicious. Can be grown up a very strong trellis. Tol erates squash vine borer.  
20 seeds - $2.25

W684. **LEBANESE WHITE BUSH** (50 DAYS)  
**GERM 7-10 DAYS / Heirloom (Cucurbita pepo)**  
This Cousa type squash offers creamy greenish colored skin and white flesh with a delicious nutty flavor. Large yields picked at 4-8” can be harvested over a prolonged period.  
20 seeds - $2.25

341. **GREEN VEGETABLE MARROW**  
(56 DAYS)  
**GERM 7-10 DAYS / British Heirloom (Cucurbita pepo)**  
This very old variety has always been popular in England. Bush plants produce light green oval fruits that can be used in all the usual ways. When bigger, the squash are often stuffed. An English customer mentioned bread crumbs, onions, and nuts for stuffing – I’d add a bit of hot Italian sausage.  
20 seeds - $2.25

352. **TATUME** (50 DAYS)  
**GERM 7-10 DAYS / Mexican Heirloom (Cucurbita pepo)**  
A rare summer squash variety that vines profusely, lasting all season long. Has firm, sweet white flesh with more flavor than your average yellow squash. Best to grow this on a fence or trellis as the vigorous vine can grow 10-12’. Known to be more heat and pest tolerant than most other squash.  
20 seeds - $2.25

34506. **TEOT BAT PUT**  
(F1 HYBRID 65 DAYS)  
**GERM 7-10 DAYS (Cucurbita moschata)**  
This Korean summer squash variety, also known as avocado squash, has deep glossy green skin and light yellow, delicate sweet flesh. With long trailing vines, it is an ideal summer squash to grow vertically on a trellis. Harvest fruits at 3-4” in diameter, and if you forget to pick a few, the fruits mature into edible winter squash.  
10 seeds - $3.50

</thead>
<tbody>
<tr>
<td><strong>362. TABLE PRINCESS</strong></td>
<td>(F1 HYBRID 75 DAYS) Good size, earliness, a compact growth habit, excellent flavor with an almost fiber free flesh, and good storage ability characterize this hybrid acorn type. Fruit is somewhat rounder and heavier than other acorns. Can be grown in just 9 square feet. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>363. CARNIVAL</strong></td>
<td>(F1 HYBRID 85 DAYS) Colorful! Skin is flecked with shades of green, gold, yellow, and cream. Fruit is so attractive that it is usually used in decorations but has excellent flavor that only improves with storage, so display it a while and then eat it. Semi-bush plants provide heavy yields. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>37305. AUTUMN FROST</strong></td>
<td>(F1 HYBRID 100-105 DAYS) There is nothing like opening up the bright orange interior a butternut squash in the cold of winter, bringing back memories of the summer. Traditional butternut squash with medium sized, 4-5 lb. fruits. Vigorous plants produce at least 4-5 uniform fruits per plant. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>370. POLARIS</strong></td>
<td>(F1 HYBRID 100 DAYS) Unique, round and stocky, deeply ribbed butternut type squash. Ripens to dark tan skin with a frosty overlay. This eye-catching squash has a rich butternut flavor and stores well up to 4 months. Fruits grow to 5-7” high by 5-6” wide. High resistance to Powdery Mildew. 10 seeds</td>
<td>$2.95</td>
</tr>
<tr>
<td><strong>372. WALTHAM BUTTERNUT</strong></td>
<td>(90 DAYS) Relative newcomer amongst winter squash, Butter-nut was introduced in 1944, although the breeding material, Winter Crookneck, dates back to the 19th century. Vines run 6-7” in length and yields of 2-3 lb squash are good, but quite late. AAS winner. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>374G. BUTTERSCOTCH</strong></td>
<td>(F1 HYBRID 100 DAYS) Abundantly sweet flavored mini personal sized, 1-2 lb fruits are 6” by 3” and grow on compact space saving vines; producing 3-4 per plant. Resists powdery mildew. 2015 AAS winner. Bred by our neighbors, John-ny’s Selected Seeds. 15 seeds</td>
<td>$3.75</td>
</tr>
<tr>
<td><strong>37304. TAHIATIAN</strong></td>
<td>(100 DAYS) You could almost have enough squash to last a whole family all winter with just one or two plants. The impressive 20’ to 30’ vines yield 7-9 fruits each, some can weigh in up to 40 pounds, most reach around 20 pounds. The seed was originally purchased by a sailor from the island of Tahiti in the 1960s. They grow well in a range of conditions and store an incredible 9 to 10 months. The dense, orange flesh sweetens in storage. First-rate texture for pies and soups. 15 seeds</td>
<td>$2.25</td>
</tr>
</tbody>
</table>

#### Acorn

<table>

</thead>
<tbody>
<tr>
<td><strong>381. SWEET MEAT</strong></td>
<td>(100 DAYS) Apparently this variety is much favored on the West Coast and we can see why. The flesh is very dry, but with a nutty, sweet flavor. The skin is very hard and the color is an attractive bluish grey. Sweet Meat is an excellent keeper. Does very well in dry conditions, freezes well without blanching, and is a good pumpkin substitute. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>38102. SWEET MAMA</strong></td>
<td>(F1 HYBRID 85 DAYS) This improved butternut type bears fruit on semi-bush vines. Squash are dark green with yellow flesh that is sweet and dry. An excellent storage variety. AAS winner and resistant to Fusarium wilt. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>380. BURGESS BUTTERNUT</strong></td>
<td>(100 DAYS) A favorite of many Pinetree employees, Delicata is a good choice for the home gardener. The vines are relatively compact. Fruits average about 8” in length, are half as wide, so they are a good size for a meal. Color is a creamy green with length-wise darker green stripes. Flesh is an attractive orange and flavor is very sweet. As a bonus, Delicata is also a very good keeper for a small squash and the flavor even seems to improve as the winter passes. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>379. DELICATA</strong></td>
<td>(97 DAYS) A delightful mini-hubbard, Orange Magic is both delicious and decorative. There are lots of fruit set on fairly short vines so it is great for home gardeners. 6” deep reddish orange fruits stand out nicely. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>38402. ORANGE MAGIC</strong></td>
<td>(F1 HYBRID 85 DAYS) A delightful mini-hubbard, Orange Magic is both delicious and decorative. There are lots of fruit set on fairly short vines so it is great for home gardeners. 6” deep reddish orange fruits stand out nicely. 15 seeds</td>
<td>$2.25</td>
</tr>
<tr>
<td><strong>384G. BLUE HUBBARD</strong></td>
<td>(102 DAYS) This New England favorite is not for those with limited space. Long vines produce good yields of powdery blue, oval squash with a hard shell and firm, dry, yellow flesh, some an excess of 20lbs. Storage qualities are exceptional, and one squash will provide a number of meals. 15 seeds</td>
<td>$2.75</td>
</tr>

W492. TETSUKABUTO  
(F1 HYBRID 90 DAYS)  
GERM 7-10 DAYS  
(Cucurbita maxima x moschata)  
Very popular in Japan, this unique winter squash is an interesting hybrid. Commonly called a Japanese pumpkin, it develops only a small blossom-end scar. The nearly round, dark green fruit has a deep yellow flesh that is so sweet and nutty and smooth and creamy, it’s like custard. Well-suited for any pumpkin or winter squash recipe, but is especially delicious simply baked and served by itself. Requires a pollinator, so plant hubbard, buttercup, or butternut variety nearby.  
15 seeds - $3.95

W493. HOKKORI  
(F1 HYBRID 110 DAYS)  
GERM 7-10 DAYS  
(Cucurbita maxima)  
Sweet flavor and dry, flaky, texture are characteristic of this kabocha type globe shaped squash with black green skin and golden yellow flesh. Produces 4-5 lb. fruits on a uniform plant with a yield of 3-4 fruits per plant. Keeps for months in the proper conditions.  
15 seeds - $2.25

38202. TIVOLI  
(F1 HYBRID 95 DAYS)  
GERM 7-10 DAYS  
(Cucurbita pepo)  
An improvement upon the older, long vining spaghetti squash varieties. Released in 1990 as the first compact bush spaghetti squash, this AAS winner continues to be a successful garden variety for 25 years later. Oval shaped fruits have a smooth, light creamy yellow exterior, weighing in at 4-5 lbs and producing 4-6 per plant.  
15 seeds - $2.25

382. VEGETABLE  
(100 DAYS)  
GERM 7-10 DAYS / Heirloom 1890  
(Cucurbita pepo)  
Very heavy yielder; we have harvested as much as 80lbs from a single hill. Vines grow up to 10’ and fruit are oblate and a buff color, each weighing a couple of pounds. After bolting, fork out the flesh and it will resemble spaghetti and taste great with any sauce but with far fewer calories.  
15 seeds - $2.25

38007. SPECKLED HOUND  
(F1 HYBRID 100 DAYS)  
GERM 7-10 DAYS  
(Cucurbita maxima)  
Is it a pumpkin? Is it a squash? Our friends at Johnny’s list this as a specialty pumpkin and a specialty squash – it is always nice to be special. You will get about 8 flattened, round, 5lb squash with that grey, dry, delicious, light orange flesh that is such a winter treat. Coloring is really special – sort of a pastel orange and a greenish dun combined in as many patterns as you see in a cloudy sky.  
15 seeds - $2.25

W260. PIENA DI NAPOLI  
(125 DAYS)  
GERM 7-10 DAYS  
(Cucurbita moschata)  
Old and interesting Italian vegetable is the shape of a butternut squash but larger, up to 25lbs. Similar to the American Neck Pumpkin in that it is big and very sweet. Grey/greenish smooth skin encloses a very hard yellow orange flesh. Great stuffed, sliced, fried, roasted and sautéed. Used in slightly sweet pasta, gnocchi, and the delectable zucca da marmalèta – pumpkin jam.  
15 seeds - $2.25

38104. JARRAHDALE  
(100 DAYS)  
GERM 7-10 DAYS  
(Cucurbita maxima)  
This Australian variety is very unusual. Skin is an attractive ribbed blue-gray. 10lb fruit can be 34” around and flesh is orange and sweet. Stores well.  
15 seeds - $2.25

38101. PINK BANANA JUMBO  
(105 DAYS)  
GERM 7-10 DAYS  
(Cucurbita maxima)  
Picture a 2-3’ long pink banana. This elongated squash is 6-8” in diameter with a small seed cavity. The medium-dry flesh is medium orange and the flavor is exceptionally sweet. Borne on long vines so not for space savers.  
15 seeds - $2.25

37903. GREEN STRIPED CUSHAW  
(105 DAYS)  
GERM 7-10 DAYS / Heirloom 1820’s  
(Cucurbita mixta)  
The cushaw is a crookneck winter squash and will run up to 20” long, weighing up to 12 lbs. Skin is creamy white with mottled green stripes. Slightly grainy texture of the flesh is sweet with a distinctive cushaw flavor. Great for pies. Tolerates squash vine borer.  
15 seeds - $2.25

37905. GOLD NUGGET  
(95 DAYS)  
GERM 7-10 DAYS  
(Cucurbita maxima)  
Gold Nugget is a small buttercup type which won the All-America selection award in 1966. Fruit is 1-3lbs and shape is a flattened oval, with flesh and skin a light orange. Keeps well.  
15 seeds - $2.25

38001. GALEUX D’ EYSINES  
(100 DAYS)  
GERM 7-10 DAYS / French Heirloom  
(Cucurbita maxima)  
A unique, thought provoking squash that fits perfectly into the fall holiday season. Flattened fruit grow 10-15lbs, and ripen up with a peachy skin covered with eruptions of crispy beige colored warts. Has brilliant orange, sweet and smooth, non-stringy flesh.  
15 seeds - $2.25

38002. QUEENSLAND BLUE  
(105 DAYS)  
GERM 7-10 DAYS / Heirloom  
(Cucurbita maxima)  
This excellent, 20lb, round, flattened squash was imported initially from Australia in 1932. It is characterized by deeply ribbed blue skin. The dense, semi-sweet orange flesh is very flavorful. A dependable keeper.  
15 seeds - $2.25

38801. RAINBOW TREASURE  
GERM 14-30 DAYS  
Introducing the hottest new strawberry that is available from seed. Rainbow Treasure will delight you with its edible and ornamental qualities! Berries are amazing, juicy, fragrant, and sweet, one of the finest we have tasted-plus the flowers arrive in 3 different colors. It acts as a creeping ground cover, throwing out lots of runners (up to 25”) during the first season while the white, pink and deep rose flowers take the show. If you don’t have the ground space, it is does excellent in hanging baskets and containers. We started ours inside in February, planted it out in mid June, and had juicy berries by early August. Zones 4-8.  
15 seeds - $4.95

Shop online at www.superseeds.com!
38601. ALEXANDRIA
GERM 14-30 DAYS
Alpine strawberries are a treat when you are working away in the garden and their flavor is so much more delectable than standard strawberries. This variety doesn’t take up much space with compact sized plants that produce few runners. We have ours growing as a border in the herb garden or tuck a few plants into the corners and edges of the vegetable or flower garden. They will grow successfully in containers if ground space is hard to find. Day Neutral. Zones 3-9.
20 seeds - $1.95

387. YELLOW ALPINE GERM 14-30 DAYS
This yellow version provides berries that are even sweeter than the reds. Another plus is that for some reason, birds don’t touch them. Plants are less than a foot tall and very hardy providing an attractive, edible border. Fruits are a creamy yellow and some approach 1” in length. Zones 3-9.
50 seeds - $1.95

FOR LIVE STRAWBERRY PLANTS, SEE PAGE 93

FOR LIVE SWEET POTATOES, SEE PAGE 92

W319. CARDINAL CHARD (54 DAYS)
GERM 5-10 DAYS
An improved rhubarb chard, developed in Switzerland. Stems are a deep ruby red, and plants are large and productive. It has a darker color on larger plants compared to Rhubarb Chard. Its narrower, savoyed leaves have a mild, slightly sweet flavor that is as nice raw as it is cooked.
30 seeds - $1.95

9301. PEPPERMINT (60 DAYS)
GERM 5-10 DAYS
Strikingly vivid striped stems offers a unique color combination for a Swiss Chard. Stalks have vertical fuchsia and white stripes with thick dark green savoy leaves. Harvest from baby sized to full grown. Try growing it as an edible ornamental in a flower garden too!
75 seeds - $1.95

96. RHUBARB (55 DAYS)
GERM 5-10 DAYS
A striking purplish stalk and red veined leaves distinguish this popular variety. It is characterized by quick growth, yields over a long period if frequently cut, and has a pleasing flavor.
75 seeds - $1.95

98. SEA FOAM (53 DAYS)
GERM 5-10 DAYS
This interesting chard doesn’t come in a unique color; it just has a great flavor and texture. Shiny, crinkled green leaves cling to a creamy white stem. This variety is mild, tender, and tasty.
75 seeds - $1.95

94. BRIGHT LIGHTS (50 DAYS)
GERM 5-10 DAYS
Almost neon in appearance, it was the talk of our trial gardens. Leaves are green, moderately savoyed with veins of vibrant color, red, orange, or yellow running through them. Use young raw leaves in a salad (30 days) or briefly cook mature leaves (50 days) to maintain their color. If started indoors 5-6 weeks before setting out they can be planted by color for effect in an ornamental edible garden. Developed by Johnny’s Selected Seeds AAS winner.
75 seeds - $1.95

93. ORANGE FANTASIA (59 DAYS)
GERM 5-10 DAYS
Another gorgeous, new chard that not only has great baby leaves for salads, but also holds its color when cooked. Stalks are a brilliant orange while leaves are a light icy green and heavily savoyed. 18” plants are a colorful highlight to any garden.
75 seeds - $1.95

9305G. RAINBOW BLEND (55 DAYS)
GERM 5-10 DAYS
A brilliant blend of colors decorative enough to grow in a flower garden. Yellow, red, orange, white and pink stems have dark green savoy leaves. Use all season; the baby greens can be added to salad mixes while the large leaves can be filled with veggies and grains and used as a carb free wrap. When cooked the colors hold and brighten your dishes.
75 seeds - $3.25

95. FORDHOOK (58 DAYS)
GERM 5-10 DAYS
This old favorite is still a superior variety in several ways; thick leaves, dark green color and a compact plant with a nice white stalk.
75 seeds - $1.95

DISEASE RESISTANT

40110. JULIET (F1 HYBRID 60 DAYS)
GERM 7-14 DAYS / INDETERMINATE
We’ve had multiple requests for this AAS winner. Plants continue to look healthy through September with intermediate resistance to both early and late blight. Grape-like clusters of up to a dozen, mini plum type fruits with the ability to stay on the vine longer than most. While wonderful for eating fresh they are also meaty enough for sauces and canning or try drying them as well.
15 seeds = $2.75

40201G. DAMSEL (F1 HYBRID 73 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom quality hybrid with high resistance to late blight, nematodes, and Verticillium wilt. Indeterminate vines produce pink globe shaped fruits that weigh 8-12oz. Harvested fruits hold well.
10 seeds = $5.25

TOMATO DISEASE RESISTANCE KEY:

- Verticillium
- Late Blight
- Alternaria (Early Blight)
- Tobacco Mosaic
- Fusarium Race 1
- Fusarium Races 1 & 2
40304G. VALENTINE
(F1 HYBRID 55 DAYS)
INDETERMINATE
Tremendous yields of early maturing fire red colored grape-type tomatoes. An AAS winner that is rich and flavorful, firm in texture with meaty Roma-like flesh. Crack-resistant fruits are about the size of an extra-large grape, 1 1/2" long by 3/4" wide, weigh ½ oz each, and have an extended shelf life after harvest. Intermediate resistance to early blight.
10 seeds - $4.95

401G. DEFiant
(F1 HYBRID 70 DAYS)
GERM 7-14 DAYS / DETERMINATE
Traditionally bred for resistance to late blight. Our plants were loaded with clusters of round 6-8 oz fruits, around 30 fruits from one plant, this season. One of the first to ripen in our tomato trials, having a good, basic fresh tomato flavor.
10 seeds - $3.95

39901. COUNTRY TASTE
(F1 HYBRID 70 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Real tomato flavor from this large, raw meaty, delicious fresh eating and slicing tomato. It can weigh up to 1/2 pound or more and does extremely well in a greenhouse. When we grew this variety we were very impressed with its vigorous growth and fruit set. It outperformed many of our other trial varieties, barely touch it by mid September when others tomatoes already had succumbed to it.
15 seeds - $3.95

4101G. CHERRY BOMB
(F1 HYBRID 64 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Classically full flavored, sweet but balanced, cherry tomatoes with late blight protection. Produced high yields of uniform fruits, that were easy to harvest, and extremely vigorous; still growing strong at the end of September and would keep going if it weren’t for the frost. A hybrid with quality flavor, and a solid tomato to grow for a successful crop.
Bred by our neighbors Johnny Selected Seeds.
10 seeds - $3.95

39101. GRANDEUR
(F1 HYBRID 75 DAYS)
GERM 7-14 DAYS / INDETERMINATE
An early red oblate shaped cluster tomato with 5-7 fruits per bunch and 6-9 oz firm, meaty tomatoes. A vigorous grower, long yielding, with large leaves that help with the resistance to cracking.
15 seeds - $2.50

40203. STELLAR
(F1 HYBRID 70-75 DAYS)
GERM 7-14 DAYS / DETERMINATE
Productive slicing and processing tomato for areas with disease pressure. Round, medium-sized 5-7 ounce fruits have great tomato flavor, especially for a disease resistance variety. High resistance to late blight plus intermediate resistance to early blight and Septoria Leaf Spot. A tomato you can count on!
10 seeds - $3.95

40102. PLUM REGAL
(F1 HYBRID 75 DAYS)
GERM 7-14 DAYS / DETERMINATE
First offering of a plum tomato with a strong disease resistance package. Blocky fruits grow on medium sized plants. Perfect for a bounty of late season tomatoes for that last batch of canning sauce or salsa.
10 seeds - $2.95

392. POLBIG
(F1 HYBRID 60-65 DAYS)
GERM 7-14 DAYS / DETERMINATE
For decades we have been looking for an early tomato that sets fruit in cool weather and tastes good. Polbig may be the one. Compact plants produce round smooth fruit that have excellent dark red color inside and out. Small but hardly tiny, Polbig tomatoes run between 3 1/2-6 oz. Flavor is similar to good midseason tomatoes, sweet and just a bit acidic.
15 seeds - $2.50

40202. TUMBLER
(F1 HYBRID 50 DAYS)
GERM 7-14 DAYS
DETERMINATE
A superior variety for hanging baskets and container gardens. Cascading vines are prolific, offering extra early cherry-sized tomatoes, the first tomato to ripen for us this season. Replaces the Tumbling Tom series.
10 SEEDS - $2.95

41901. RED PEAR
(80 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Vines carry an abundance of red, pear shaped fruit, 2” long. Sweet and juicy and resist cracking.
25 seeds - $1.95

41206. CANDYLAND
(55 DAYS)
GERM 7-14 DAYS / INDETERMINATE
First currant type tomato to be an AAS winner. One of our earliest maturing, indeterminate tomatoes. A very well-kept plant when compared to the sprawling growth habit of a traditional currant tomato. Each of the tiny ½ inch fruits have a bright burst of flavor with a slightly meaty texture. We counted up to 40 fruits on just one of the dozens of trusses. You’ll need this heavy producer to contend with how many of these petite treats you will want to consume.
10 seeds - $3.95

405. TOMATO BERRY GARDEN
(F1 HYBRID 60 DAYS)
GERM 7-14 DAYS / INDETERMINATE
This improvement on the original Tomatoberry is a unique breed for home gardeners. Fruit resemble large strawberries both for sweetness and appearance. It is great for eating right off the vine. Fruits are only about 1” across and notably heart shaped. Resists cracking and carries more sweet juice than most cherry tomatoes.
15 seeds - $5.25

41303. MIDNIGHT SNACKS
(65-70 DAYS)
GERM 7-14 DAYS / INDETERMINATE
An All-America Selections award-winning indigo-type cherry tomato with a traditional and well-balanced flavor. Fruits ripen to a deep red and have a glossy black-purple overlay when exposed to sunlight. The indeterminate vines continuously produce bunches of fruits that mature earlier compared to other indigo-colored varieties. We picked this one because we were impressed by its flavor and abundant yields.
10 seeds - $2.95

Follow us on Facebook & join
Rooted: Pinetree Garden Chat
416. GARDENER'S DELIGHT (67 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
This open pollinated large cherry tomato has become popular through word of mouth because this is an excellent tomato. The 1-1 ½” dark cherry red fruits have a delightful sweetness, a classic summer flavor. They resist cracking well and are produced in abundance. The German grower, Ernst Benary, has gradually evolved into a flower seed company; this is the only vegetable seed they continue to produce because it is so popular.  
25 seeds - $1.95

41501. RIESENSTRAUBE (80 DAYS)  
GERM 7-14 DAYS INDETERMINATE Heirloom  
In German, the name suggests a giant bunch of grapes and that pretty well sums it up. The plant can produce 20-40 fruits per cluster. They are an elongated cherry shape with a pointed end. The flavor is quite acid, not too sweet.  
25 seeds - $1.95

420. YELLOW PEAR (80 DAYS)  
GERM 7-14 DAYS INDETERMINATE Heirloom  
A favorite among tomato aficionados and a childhood favorite of Pinetree's founder, Dick Meiners. A Pre-1800 heirloom variety has that historically was used for tomato preserves and offers a mild slightly sweet flavor. Bundles of pear shaped fruits grow in clusters with 1½” long fruits.  
25 seeds - $1.95

41204. MATT'S WILD CHERRY (55 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
Wild is the operative word here. Strong vines are overwhelmed by an abundance of small cherry tomatoes, hundreds of them. The flavor is intense and they seem impervious to almost any disease you can name. They are also early and will continue to yield well up to the first frost.  
25 seeds - $2.25

41302. ISIS CANDY (75 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
A true beauty! Bi-colored, 1 ½” fruit with golden and reddish pink marbled skin grows in clusters of 6-8. The flavor is fruity with a sweetness that is just right.  
15 seeds - $1.95

412. OREGON SPRING (68 DAYS)  
GERM 7-14 DAYS DETERMINATE  
One of many excellent releases by Dr. Jim Baggett of Oregon State. Breeding effort was to develop a variety that could be set out in cool spring temperatures. Can go out in April if freezing can be prevented. Tomatoes are full sized, 4” across, with fine color and texture. Yields are high and flavor is great, nicely acid.  
25 seeds - $1.95

40106. SWEET APERITIF (80 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
This new open-pollinated tomato could be the sweetest you have ever tasted! We think it is sweeter than the sweetest we offer, Sungold (#406). Why not try a side by side test and let us know what you think! A bite sized ¼ ounce morsel with a sugar brix of up to 13, balanced with enough acidic tang to delight your senses. One plant offers trusses upon trusses of bright red succulent fruit. Can also be grown successfully in a greenhouse.  
15 seeds - $2.75

406. SUN GOLD (F1 HYBRID 60 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
Great “tomatoey” flavor and very sweet, an 8 on the brix scale. Fruits are nearly 1” round globes which turn a very attractive golden orange when ripe. Productive varieties provide very high yields. A longtime customer favorite!  
15 seeds - $2.50

41504. GERANIUM KISS (68 DAYS)  
GERM 7-14 DAYS SEMI INDETERMINATE  
One of the most beautiful tomato plants we have seen with deep green rugose leaves on dwarf, bushy plants. We grew ours in the greenhouse and everyone’s comment here was that they would be beautiful in a container on a patio or deck. The foliage is not the only stand out with this variety; we have never seen such enormous trusses of fruit like this before, anywhere from 20-60 fruits on one, with 3-4 of these sized bunches per plant. The tomatoes range from 1-2 ozs, have pointed ends with a simple tomato flavor.  
20 seeds $1.95

42001. GOLD NUGGET (55 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
Approximately 1” in diameter and a healthy golden color. One of the earliest to mature in the field, not prone to cracking and don’t have a lot of seeds. Flavor is memorable, similar to Yellow Pear. This variety, bred by Dr. James Baggett at Oregon State, is fairly compact allowing efficient space utilization.  
25 seeds - $1.95

41202G. BLACK CHERRY (80 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
Long vines are covered with distinctive, very dark purple fruit. You get the exceptional flavor of a Brandwiny in a cherry tomato.  
25 seeds $2.25

41209G. JAPANESE BLACK TRIFELE (70-80 DAYS)  
GERM 7-14 DAYS INDETERMINATE  
Highly productive Russian heirloom. Brick-red, 4-6 oz pear shaped fruit rarely seen in other potato leaf varieties. Every summer we share our tomatoes with the staff for a taste test, this one was the favorite for 2019. They loved the dense, smooth texture and clean taste, a real balance between sweet and tangy. Don’t let the gangly structure of this plant fool you, this one’s a workhorse for tomato production.  
20 seeds $2.95

423. PINEAPPLE (85 DAYS)  
GERM 7-14 DAYS INDETERMINATE Heirloom  
An heirloom with a combination of orange and yellow stripes both inside and out. Very large, beefsteak type fruits are 5” in diameter with juicy, meaty flesh and a fine mild flavor. We have produced fruit that exceeded 2.5lbs.  
25 seeds - $1.95

BRANDYWINE (80 DAYS)  
GERM 7-14 DAYS INDETERMINATE Heirloom 1885  
Legendary for its delicious taste and one of the most popular heirloom tomatoes grown. This is the “Quisenberry” strain, considered to be among the best, a potato leaf plant with big, 10-24 oz pink- reddish fruit.  
424. Conventional- 25 seeds $2.25  
424G. Organic- 25 seeds - $2.95
42401. YELLOW BRANDYWINE
(80 DAYS)
GERM 7-14 DAYS / INDETERMINATE
A yellow, turning to gold, version of Brandywine. A heavy yeller with a fine rich flavor.
25 seeds - $1.95

42402. BLACK BRANDYWINE
(90 DAYS)
GERM 7-14 DAYS / INDETERMINATE
A bit later than the yellow, this Brandywine is a brownish purple, close to black. The oval shaped fruit has a memorable flavor.
25 seeds - $1.95

41503. MARIANNA’S PEACE
(85 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom
An excellent customer suggestion! Outstanding rich flavor of sweet and acid with dense creamy texture. If you love Brandywine, this one will surely challenge its recognition as the “Best tasting heirloom” tomato. Comes from Czechoslovakia, and said to be passed down since the early 1900’s. The name and history comes from story of Marianna. She was a young girl who escape capture in WW2, after a decade of losing contact with her family they reunited and before her father died he gave her these seeds as a gift. Late season, pink beefsteak type with potato leaves.
25 seeds - $2.25

411. AUNT RUBY’S GERMAN GREEN
(80 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom
Green fruit become amber tinged when fully ripe. Slices are lime green, resemble a sliced kiwi and the flavor is terrific, spicy and sweet. Fruits are 5x4”.
25 seeds - $2.25

41703. BLACK KRIM (69 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Ukrainian Heirloom
Deep red fruits appear to be a shiny black while the interior is a reddish green. Surprisingly, this very old, very sweet, fairly large tomato is also very early.
25 seeds - $2.25

422. BONNY BEST (72 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom
An old time canning variety with a full, pleasantly acid flavor keeps gardeners growing this reliable variety. Fruits are round and flattened and are under 8 oz apiece. Producing especially well in Northern areas where it is one of the first to ripen.
25 seeds - $1.95

42801. OXHEART PINK
(80 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom 1925
Per James Vick Seed’s 1936 catalog, “A very large tomato rounded at the stem end but tapering to a point, and averaging 1 1/2 pounds in weight. As it becomes better known the demand for seed is constantly increasing. Skin – purplish pink, flavor – luscious sub-acid; very meaty and almost seedless.
25 seeds - $1.95

42701. BIG RAINBOW
(80 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom
A beautiful and delicious bi-color beefsteak tomato. The golden shades dominate but the red shade accents the color of both the flesh and the skin. Plants are fiercely fruitful. If you like an old fashioned tomato, you will love Big Rainbow.
25 seeds - $1.95

40901. SUB ARCTIC PLENTY
(60 DAYS)
GERM 7-14 DAYS / DETERMINATE
Developed in Canada, this is one of the world’s earliest tomatoes. It sets fruit early and under cool summer conditions and is a heavy yeller; 2 oz, round, red tomatoes in clusters. The plants may be placed close together and don’t require staking.
25 seeds - $1.95

41601. RUTGERS (73 DAYS)
GERM 7-14 DAYS / DETERMINATE
This tomato remains the most popular with many farm stand owners from Maine to New Jersey. Rutgers was developed by the Campbell Soup Company for processing, but is also a superb slicer. Uniform 7 ounce fruits are a brilliant red with a terrific full bodied flavor.
25 seeds - $1.95

415. KELLOGG’S BREAKFAST
(79 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom
Heirloom from West Virginia preserved by Darrell Kellogg, a railroad supervisor, after receiving seed from a friend. Very large, sunny orange beefsteak with an outstanding flavor that is unforgettable.
25 seeds - $1.95

40701. WAPSIPINICON PEACH
(78 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom
A two bite tomato with an unbelievable delicious nectar-like, juicy flavor. Your taste buds will surely melt and thank you when you put this tomato in your mouth. Named for a river in northeastern Iowa, this tomato produces a plentiful supply for 2” light yellow fruits having tinges of pink with a touch of fuzzy peach like skin.
25 seeds - $1.95

42503G. GREEN ZEBRA (75 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Olive green and yellow striped fruits are full of flavor; tangy and tart with sweetness arriving the longer left on the vine to ripen. Smooth, globe shaped, 3-5 oz fruit rarely crack.
25 seeds - $2.25

40501G. STRIPED GERMAN (80 DAYS)
GERM 7-14 DAYS / INDETERMINATE
Heirloom
Massive fruits, our first one coming in at 1.3 pounds, with yellow orange skin, a red starburst bottom streaking upward and inward into the silky, fruity tasting flesh. An incredible tomato!
25 seeds - $2.25
# Tomatoes

## Standard, Heirloom & Open Pollinated

### 408. Pruden’s Purple (72 Days)
*Germ 7-14 Days / Indeterminate*

**Heirloom**

One of our favorites. Pruden’s Purple is outstanding in every aspect. Exceptionally early for a large tomato. Average fruit weighs 1 lb., is 4” across and 3” high. Distinctive ridges, like the ribs of a cantaloupe, grid the fruit longitudinally. Color is more of a deep pink than a true purple. Flesh is firm and meaty; flavor is wonderful. Remarkably, Pruden’s Purple contains very few seeds.

25 seeds - $1.95

### 40902. Heinz Classic Processor (75 Days)
*Germ 7-14 Days / Determinate*

The Heinz Company came out with several strains of this tomato over the years and we have the best of them. In late August there are dozens of fruit, all around 3” across, all crack free, all bright red. A great tomato for a variety of home uses – one thing to keep in mind is you will get lots and lots of perfect fruit, all at pretty much the same time. Acid content is perfect for canning; the flavor is fine for salads.

25 seeds - $1.95

### 42802. Soldacki (80 Days)
*Germ 7-14 Days / Indeterminate*

**Polish Heirloom**

Intense flavor is tangy and strong but also very sweet. Heavy yielder on potato leaf vines. Plants are huge and covered with the beefsteak red fruit. Should be picked at the first sign of maturity and while many fruits will be perfect others will be misshapen or cracked. Many growers put up with this in exchange for the remarkable flavor. 1 lb. fruit are picked in late-midseason.

25 seeds - $1.95

### 42502G. Cherokee Green (80 Days)
*Germ 7-14 Days / Indeterminate*

**Ripe green skin is blushed amber, has a green interior with a balance of sweet and tart, some say it is has the best flavor out of all green tomatoes. Medium size 8-12 oz fruits. A selection out of the heirloom Cherokee Purple.**

25 seeds - $2.25

### 425. Cherokee Purple (80 Days)
*Germ 7-14 Days / Indeterminate*

**Heirloom 19th Century**

Many heirloom tomatoes get the accolade “best tasting” from their fans, and this is certainly one of them. Originally grown in Tennessee by the Cherokee tribe, the 6”, 12-16 ounce fruit come in shades of dusty rose to purple, sometimes with greenish shoulders. While it is a beefsteak type, it is known for its sweet aftertaste – almost like candy with heavy yields.

25 seeds - $1.95

### 42803. Stupice (65 Days)
*Germ 7-14 Days / Indeterminate*

**Czechoslovakian Heirloom**

Very early to mature. The flavorful 3-4 ounce fruit are borne in clusters of 5 or more. Yields are quite high and nearly every fruit is perfect. The color is an intense red and the sweet, tangy flavor is what you would associate with larger beefsteak types.

25 seeds - $1.95

### 42804. Tigerella (55-65 Days)
*Germ 7-14 Days / Indeterminate*

**English Heirloom**

These unique fruit are noted for their stripes, hence the name. When immature they are a light green with dark green stripes. When mature the stripes alternate between red and a yellow orange. 2” fruit have a very tangy flavor; yields are very heavy, & quite early.

25 seeds - $1.95

### 41602. Mortgage Lifter (77 Days)
*Germ 7-14 Days / Indeterminate*

**Heirloom**

The story is that a gentleman named Radiator Charlie bred this variety with crosses between German Johnson, Beefsteak, and other varieties. He was able to earn enough selling the seed to pay off his mortgage during the Depression. They are very large, pink skinned, very sweet tomatoes.

25 seeds - $1.95

### 41603. Climbing Triple Crop (80 Days)
*Germ 7-14 Days / Indeterminate*

**Triple Crop is a Beefsteak type with a very long, 10-15’ vine. You can grow these tomatoes much as you would pole beans or cucumbers on a sturdy trellis, with a yield of several bushels per plant. The large, meaty, sometimes oddly shaped red fruit have a pleasant, somewhat acid, flavor that you associate with Beefsteak types.**

25 seeds - $1.95

### 40104. Ten Fingers of Naples (75 Days)
*Germ 7-14 Days Semi-Indeterminate*

**Heirloom**

Italian heirloom bears finger like trusses of medium-sized paste tomatoes. Incredible yields of 4 oz., 4-5” fruits with firm meaty flesh and a rich, savory flavor with little seed; ideal for purée, salsa, sauces, and canning. Outperformed San Marzano, with 25 bunches of tomatoes growing on one plant, 5-7 fruits per bunch.

25 seeds $2.25

### 41405G. Blue Beech (80-85 Days)
*Germ 7-14 Days / Indeterminate*

**Heirloom**

Heirloom sausage-type paste tomato, similar to Opalka. An excellent canning tomato with thick, meaty flesh and little seeds; perfect for homemade sauce. Tastes great sliced and eaten fresh too. It is well adapted to northern climates, resists disease, and blossom end rot better than others. This strain was originally brought to Vermont from Italy during WWII.

25 seeds - $2.95

### 428. Martino’s Roma (75 Days)
*Germ 7-14 Days / Determinate*

**Heirloom**

Unusual among old tomato varieties, this 2 ounce paste tomato will supply you with hundreds of fruits. They are borne in clusters of 4-6 and it seems immune to the blossom end rot that plagues the larger paste varieties. Makes a truly fine sauce.

25 seeds - $1.95

**Follow us on Facebook & join Rooted: Pinetree Garden Chat**

---

**W292. SAN MARZANO**  
*(82 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Always a favorite paste tomato despite its lack of disease resistance. Imported from Italy, vigorous vine carries large, lobed fruits, like elongated bell peppers. Pleasant, mild tomato flavor, with low water content. Fruit has thick flesh and open seed cavities. Yields are high.  
35 seeds - $1.95

**42601G. AMISH PASTE**  
*(85 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Heirloom 1870  
Origin is said to be from the Amish communities in Wisconsin, but discovered among the Amish of Lancaster County, Pennsylvania. Sweeter than other paste tomatoes, the shape can vary from large plum to teardrop. Juicy, 8-12 oz fruits with meaty flesh and few seeds; useful in sauces, for slicing or canning.  
20 seeds - $2.50

**W295. PRINCIPE BORGHESI**  
*(78 DAYS)*  
*GERM 7-14 DAYS / DETERMINATE*  
Heirloom  
Italy’s tomato for sun drying. Very small (1-2 oz.), plum shaped, and pointed at one end. Fruits are born in large clusters of several dozen, like grapes. Meaty with little juice and branches can be hung to dry until leathery. Italians just throw the vines over a fence. We’ve had success with slicing them in half and drying them in an oven with just the pilot light. Don’t give this one too much water as you don’t want juicy fruit for drying.  
20 seeds - $1.95

**42907G. PORK CHOP**  
*(80 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Large plump 8-12 oz, bright yellow fruits start out with shiny green streaks with the skin fully ripening into a radiating golden color. A true beauty, like sunshine on a vine, with a flavor that is low in acid, smooth and sweet with a hint of citrus, said to be the best true yellow tomato.  
20 seeds - $2.75

**42908G. LARGE BARRIED BOAR**  
*(65-75 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Ample amounts of large, flattened pink-brown fruits with lustrous green stripes range from 8-12 oz, with bigger ones possible. Rich, delicious flesh is meaty and full of flavor.  
20 seeds - $2.75

**42909G. PINK BERKELEY TIE DYE**  
*(75 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Trying this one for the first time is a true flavor experience. Extremely robust flavors; complex and hard to describe: sweet, rich, tart, salty with a hint of smoky and a dripping juicy texture. Fruits are 8-12 oz, round to oblate with green metallic stripes over pink skin.  
20 seeds - $2.75

**42905G. SOLAR FLARE**  
*(85 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
Golden metallic stripes flare from the top and bottom of the bright red, 6-10 oz beetsteak type fruit. Excellent production continues to the end of the growing season with good scab resistance. We loved the luscious, flavorful taste of this one, having a perfect balance of sweet and acid.  
20 seeds - $2.75

**42911G. GREEN BERKELEY TIE DYE**  
*(75 DAYS)*  
*GERM 7-14 DAYS / INDETERMINATE*  
An entanglement of flavors, a hint of sweetness at the beginning of a bite, moving through to a lightly tart, savery side with a salty edge. The exterior is a burnt orange shade with metallic green stripes that encompasses the round to oblate, 8-16 oz fruit. The tricolored interior is succulent and meaty with green, red, and a little creamy yellow swirling shades.  
20 seeds - $2.75
These extraordinary blue almost black tomatoes will be some of the most unique varieties you have ever grown. They were developed with traditional selection and breeding techniques at Oregon State University, beginning in the 1960’s from crossing cultivated tomatoes and wild species from Chili and the Galapagos islands. Young fruits when exposed to sunlight have indigo-purple skin from the pigment Anthocyanin, naturally occurring in blueberries, which is a powerful and beneficial antioxidant. The fruits are ready to harvest when the skin turns bright rosy red on the bottom, shoulders are indigo shaded and the fruit is soft to the touch.

**ARTISAN SERIES**

**42910. INDIGO PEAR DROPS**  
(65 DAYS)  
**GERM 7-14 DAYS / INDETERMINATE**  
This designer tomato is finally here and we can’t wait for you to try it. It performed so well; we were impressed by the vast clusters of pear shaped fruits with sunny orange skin that ripen with indigo shoulders. Flavor was divine, delicately sweet, balanced with great tomato taste. PVP  
20 seeds $2.95

**429G. INDIGO ROSE**  
(90 DAYS)  
**GERM 7-14 DAYS / INDETERMINATE**  
Growing in clusters of 6-8, bearing a mighty crop of polished, indigo colored, super-sized cherry tomatoes. Flavor is mildly acidic and distinctive, with an herbal hint, flesh is rouge colored, meaty and juicy.  
20 seeds - $2.95

**42901G. BLUEBERRIES**  
(85 DAYS)  
**GERM 7-14 DAYS / INDETERMINATE**  
Produces an avalanche of cherry size, amethyst colored clusters. Nice balanced tomato flavor with a perfect amount of sweetness and juiciness.  
20 seeds - $2.95

**42902G. BLUE BEAUTY**  
(80 DAYS)  
**GERM 7-14 DAYS / INDETERMINATE**  
Shoulders start out sapphire blue, darkening to a deep purple-red as they ripen. Abundant amounts of 6-8 oz meaty slicing tomatoes with clusters of fruits hold very well on the vine having great crack and sunburn resistance.  
20 seeds - $2.95

**BUMBLE BEE SERIES**  
(70 DAYS)  
**GERM 7-14 DAYS / INDETERMINATE**  
A movement to create tomatoes with the complex flavor, texture and beauty of heirlooms is on the rise, giving us stellar new varieties each season. Here we have the Bumblebee Series, from Artisan Seeds™. Three different colors, these traditional spherical cherry types, 1 ½”, with their own delicious distinctive flavor, all are very productive, and hold up well to cracking. Try one or all varieties, we couldn’t decide which one we like best so we thought we would offer them all to you!  
10 seeds - $2.75

**42806G. PINK**  
Pink orange marbled together, balance of sweet ‘n’ tart.

**42807G. PURPLE**  
Purple red with metallic green striping, straight up tomato flavor.

**42808G. SUNRISE**  
Bright yellow and red streaks, sweetest of the three

**INDIGO SERIES**

**W592. PURPLE TOMATILLO**  
(100 DAYS)  
**GERM 7-14 DAYS / Heirloom**  
*(Physalis philadelphica)*  
Large heirloom tomatillos are later than the green but worth the wait. Deep purple color develops after they mature and break open the papery husks. Flavor is tangier than its green cousin. Try them grilled!  
40 seeds - $1.95

**W590. TOMATILLO**  
(85 DAYS)  
**GERM 7-14 DAYS / Heirloom**  
*(Physalis philadelphica)*  
Fruits resemble Chinese Lanterns. The tomato-like fruit grows to about 2” inside a papery husk. Harvest when the tomatillo is just turning yellow. They will be hard. Can be stored for 1-2 months in a cool dry place. Use in Mexican sauces or salsas. Grow as you would tomatoes. Height will be 4’, so give good support. Very prolific.  
40 seeds - $1.95

**TURNIPS**

**433. TOPPER**  
(35 DAYS)  
**GERM 7-14 DAYS**  
This variety is grown primarily for the greens. There tend to be seven tops which are dark green, crisp, and delicious, particularly when harvested young. This variety is resistant to aphids and mildew.  
100 seeds - $1.95

**432. ROYAL CROWN**  
(F1 HYBRID 52 DAYS)  
**GERM 7-14 DAYS**  
This hybrid is a big improvement over other purple topped varieties we’ve tried. Tops are shorter but have more leaves per plant making them ideal for greens. The white root is very smooth and slightly flattened with purple blotches on top. Matures quickly in either spring or fall and flavor is excellent.  
100 seeds - $1.95

**430. PURPLE TOP - WHITE GLOBE**  
(58 DAYS)  
**GERM 7-14 DAYS / Heirloom**  
Roots are nearly round with purple tops & white bottoms. Will grow to almost the size of a rutabaga, but better young. Flavor is very “turnipy”.  
100 seeds - $1.95

**431. TOKYO CROSS**  
(F1 HYBRID 30 DAYS)  
**GERM 7-14 DAYS**  
The rapid maturation of this variety is absolutely amazing and they will get quite large if you wish. Harvest them young and they are usually worm-free without chemicals. Tops also have a nice flavor. AAS winner.  
100 seeds - $1.95
435. SCARLET OHNO REVIVAL (50 DAYS)
GERM 7-14 DAYS
A specialty Japanese variety improved and reintroduced by breeder Frank Morton. Scarlet to Fuchsia bulbs with a white interior feathered with the vivid color of the skin. Harvest at baby or full sized and don’t forget to make use of the healthful leafy greens.
100 seeds - $1.95

436. HINONA KABU (40 DAYS)
GERM 7-14 DAYS / Japanese Heirloom
Magenta colored roots are easily seen in the garden, protruding above the soil by a few inches, then turning white, stretching long and elegantly into the ground. Harvest the mild flavor roots at 1-1½” wide and 10-12” long and use raw, pickled or cooked. A traditionally Japanese turnip used to make sakura zuke cherry pickles.
100 seeds - $1.95

W495. SHOGOIN (30 DAYS)
GERM 7-14 DAYS
A classic Japanese Turnip, as with American varieties it is used both for the roots and the tops. Plants quickly mature to a height of 20 inches and lovely, round 4 inch diameter roots are developed. Since it is such a quick grower it also makes a good fall crop.
100 seeds - $1.95

434. GOLDEN BALL (60 DAYS)
GERM 7-14 DAYS / Heirloom 1863
We got the seed for this variety from our friend Glenn Drowns at the Sand Hill Preservation Center. Golden Ball was brought to this country from London in 1855. Sweet, tender, and mild with dark yellow flesh. They get huge if left, but flavor is best when harvested at 3-4". A good keeper.
100 seeds - $1.95

Indoors - Individual biodegradable peat/cowpots 1/2” deep, 3-4 weeks before last frost with soil temperature 70 degrees. Transplant 36” apart after last frost without disturbing the roots.
Outdoors - 1/2” deep after last frost in warm soil at least 70 degrees.
Harvest - Look for the following signs: the closest tendril to the stem dries, there is a crack in the stem that attaches to the watermelon to the vine, where the watermelon touches the ground it should be a butter yellow color, give it a knock with your hands it should sound hollow, the skin is dull, and slipping of the stem from the melon with slight finger pressure.
Tips - Plant in fertile soil amended with compost or well rotted manure and keep well watered. They benefit from growing on black plastic and by using row covers for weed, insect control, and more rapid growth.

444. TENDERSWEET ORANGE (89 DAYS)
GERM 4-10 DAYS
The medium sized football shaped fruits have a bright orange flesh that is very sweet. A tip on when to harvest any watermelon—wait until the first curly tendril turns brown.
20 seeds - $2.25

44103. MINI LOVE (F1 HYBRID 70 DAYS)
Early, personal-sized watermelon for small spaces. This AAS winner has short 3-4 foot vines and can produce up to 4-5 fruits per plant weighing in around 4-7 lbs. A thin but strong rind envelops a deep red interior with a high sugar content resulting in sweet, juicy flesh. Crack and split resistance.
10 seeds - $5.25

445. MOON & STARS (105 DAYS)
GERM 4-10 DAYS / Heirloom 1901
This Amish heirloom’s rind is a deep green with yellow dots, some large (moons) and some small (stars), hence the name. We harvested a 28lb melon from our trials. Foliage is mottled as well. It’s very sweet flavor, along with its unusual appearance, have given it a lot of notoriety in recent years.
20 seeds - $2.25

44501. MOON & STARS YELLOW (105 DAYS)
GERM 4-10 DAYS / Heirloom
Similar to the Red Moon and Stars but with a firm, sweet yellow flesh and white seeds. Fruit can grow up to 2’ in length and weigh about 12lbs. Good, sweet, memorable flavor.
20 seeds - $2.25

441. SANGRIA (F1 HYBRID 87 DAYS)
GERM 4-10 DAYS
Sangria is thought of as the “gold standard” when it comes to watermelon, the best of those big ones that command the produce section in late summer. Elongated fruit run 20-25lbs and the rind is mostly green with lighter green stripes. Flesh is a lovely red and flavor is terrific. So sweet, so juicy. Resistant to Anthracnose and Fusarium wilt.
20 seeds - $3.95

44904. BLACKTAIL MOUNTAIN (70 DAYS)
GERM 4-10 DAYS
If you have had a difficult time growing watermelons try this easy to grow variety. Perfect for first-time gardeners. 10” to 12” solid deep green rind with mouthwatering sweet red flesh. Vines up to 10’. Developed in northern Idaho with the ability to ripen even in cooler climates. If you mulch it well at the start and give it adequate water, this variety can take care of itself.
20 seeds-$2.25

44801. YELLOW PETITE (80 DAYS)
GERM 4-10 DAYS
A very aromatic melon and just the right size to fit in the refrigerator. Melons are nearly a perfect sphere, 5-7lbs with bright yellow flesh and a dark and light green striped rind. Very sweet.
20 seeds - $2.25

442. SUGAR BABY (80 DAYS)
GERM 4-10 DAYS
Early enough to be grown almost anywhere. Flavor is as good as the larger shipping melons, perhaps better. Fruits average 7” in diameter and are perfectly round.
20 seeds - $2.25

44401G. CRIMSON SWEET (85 DAYS)
GERM 4-10 DAYS
AAS winner from the 1960’s. Classic light and dark green striped rind and deep red flesh with the perfect amount of sweetness. Almost round fruits can reach 15-25 lbs. Vines spread 8 feet and are resistant to anthracnose and fusarium wilt.
20 seeds - $2.95

449. KLECKLEY SWEET (85 DAYS)
GERM 4-10 DAYS / Heirloom pre 1900
Also known as Monte Christo or Wonder Melon. The large, 25-40lb fruits are oblong with square ends and a relatively thin dark green rind. The flesh is bright red and very sweet with white seeds.
20 seeds - $2.25
Cover Crops

44901. TOM WATSON (90 DAYS)
GERM 4-10 DAYS / Heirloom pre-1900
A very large fruited variety but well suited to short season areas because it matures in less than 90 days.
Fruits are 2' across and one foot wide with weights from 25 to 40 pounds. The rind is green with darker green stripes, thin, and hard. The flesh is sweet and red with brown and white seeds. A popular, productive, home garden variety.
20 seeds - $2.25

447. KLONDIKE BLUE RIBBON (90 DAYS)
GERM 4-10 DAYS
One of the highest sugar contents of the varieties we offer and a garden standard since 1939. Medium to large sized oblong fruit covered by narrow dark stripes, bright crimson flesh has that homegrown watermelon flavor; perfect for a late summer BBQ.
Resistance for fusarium wilt, anthracnose.
20 seeds - $2.25

CC3. BARLEY
90-100 DAYS (Hordeum vulgare)
Excellent spring cover crop and valuable feed crop, sprouted barley can also be used to make malt for beer brewing. A fast-growing grain, this six-row barley produces lots of organic matter in the form of straw. Grows about 3’ tall. Sow 4-5 lbs. per 1000 sq. ft.
1LB. - $7.50 5 LBS. - $13.95

CC2. BUCKWHEAT
40 DAYS FLOWER, 80 DAYS GRAIN (Fagopyrum esculentum)
Accumulating phosphorus, buckwheat is fast growing and can be planted under just 6 weeks after planting. Useful for shading out persistent noxious weeds if planted early in the spring. Not at all cold tolerant it grows about 3’ tall. Sow 2-3 lbs. per 1,000 sq. ft.
1 LB. - $7.50 5 LBS. - $13.95

CC22. FIELD PEAS
65-75 DAYS (Pisum sativum)
Short term green manure smothers weeds and adds nitrogen and nutrients to soil. Peas are often mixed with vetch, oats, or rye as an effective cover crop. Sprouts are delicious and you can harvest the peas.
1 LB. - $7.50 5 LBS. - $13.95

CC10. CLOVER-MAMMOTH RED
70-90 DAYS (Trifolium pretense)
Clover grown on fallow ground, improves the quality of the soil because of the nitrogen fixing property. Mainly grown in the North since it won’t tolerate heat. Plants are 1-2’ tall and make a fine display with their red flowers. Plant in the spring, where it will be left for the whole season. Half-hardy perennial, will re-seed if not cut before it sets seed. Often this clover will die the first year—a real plus in a cover crop. Grows 2-3’. tall. Sow 1/2 lb. per 1,000 sq. ft.
1 LB. - $12.95 5 LBS. - $24.95

CC6. WINTER RYE
(Secale cereale)
Planted in fall to protect and enrich the soil throughout the winter. Plant up to 3 weeks before the ground freezes solid and turn under in the spring, a few weeks before the garden is to be planted. Grows about 5’ tall. Sow 3-4 lbs. per 1,000 sq. ft.
1 LB. - $7.50 5 LBS. - $13.95

CC14. CLOVER-WHITE
60-70 DAYS (Trifolium repens)
Perfect living mulch for garden paths, wide spaces, between beds or hills. Hardy, low-growing perennial clover that effectively smothers weeds, prevents erosion, retains moisture and builds soil fertility. Sow in early summer. Growing up to 12’ high, should be mowed or clipped once or twice in the season. Sow 1/4-1/2 lb. per 1,000 sq. ft. Hardy to Zone 4.
1 LB. - $15.95 5 LBS. - $32.95

CC19. ECO-TIL RADISH
(Raphanus sativus)
Elongated radish roots produce a vigorous root system that pulls up nitrogen along with other important nutrients from deep within the soil, bringing them back up to the surface while increasing water infiltration, soil aeration, and weed suppression. This mining of nutrients from deep down becomes available to the next crops once the radish decomposes. Sow August through September, the further north you are the earlier you want to seed. Sow 1 lb per 1000 sq ft.
1 LB. - $10.95 5 LBS. - $29.95

CC16. HAIRY VETCH
(Vicia villosa)
Provides nitrogen fixing, and more frost resistant than others. Sow in late summer to establish a stand before the ground freezes, and will survive ordinary winters in the North to re-grow vigorously next spring. Turn in a few weeks before spring planting. Benefits from a companion grain like rye or oats to protect it through the winter and provide support for vines in the spring. Versatile, tolerates acid soils, low fertility, shade, and can fix over 100 lbs. nitrogen per acre. Grows 2’ tall. Sow 1 lb. per 1,000 sq. ft. Hardy to Zone 4.
1 LB. - $9.95 5 LBS. - $25.95

CC4. OATS
100-110 DAYS (Avena sativa)
Another fast growing grain that can be turned under several times a season to enrich the soil. If planted prior to September, it will winter-kill, but the stubble will protect the soil throughout the winter and it is easily tilled under in the spring. Grows 3-4’ tall. Sow 2-3 lbs. per 1,000 sq. ft.
1 LB. - $7.50 5 LBS. - $13.95
Herbs are so beautiful they are often worked into the landscape, either grouped together or mixed with other perennials and annuals. Lavender makes a beautiful hedge, garlic chives are a lovely accent plant, and the blooms of marjoram provide a delicate pattern of beauty. Generally, herbs are easily grown. The perennials and biennials are best started indoors where germination can be controlled and the annuals are generally sown outdoors. One packet is usually enough for the home garden.

**CULINARY HERBS**

Herbs with the “Culinary Herbs” symbol are suggested to be used in an edible capacity.

**MEDICINAL HERBS**

Most herbs can be applied in both culinary and medical uses, but some tend to be more effective in a medicinal capacity. Items with the “Medicinal Herbs” symbol are suggested to be applied in this manner.

### BASILS

**503. ITALIAN LARGE LEAF**

*(Ocimum basilicum)*

A staple in many Mediterranean dishes, this strain is selected for maximum leaf production and dramatic flavor. Grows to a height of 2’, produces throughout the season. A productive and dependable pesto producer.

100 SEEDS - $1.95

**50303. DOLCE FRESCA**

*(Ocimum basilicum)*

AAS winner for its compact habit, strong fragrance and vigorous performance. A Genovese type that stays healthy all season, keeping its mounded shape while recovering quick after harvesting. Specifically developed for containers but adaptable to any garden space. Grows to 14”.

100 SEEDS - $2.50

**50305. EVERLEAF EMERALD TOWERS**

*(Ocimum basilicum)*

Tidy plants have a stately columnar habit and offer extensive season-long harvests of traditional Genovese flavored dark green, glossy leaves; flowers are delayed up to 10 weeks later than standard basil. Upright, plants can reach 36” when grown in containers, in-ground, or hydroponics plantings. We set out transplants the first week of June and now it is the 1st of September and they still have not flowered. Resistance to downy mildew and fusarium.

50 SEEDS - $3.50

**W268. BASILICO MOSTRUOSO**

*(Ocimum basilicum)*

Mammoth-leaf basil, with very large, blistering leaves and a strong licorice-like flavor. Plants grow over a foot tall, forming a dense bush with 3” x 4” bright green leaves. Suitable for drying.

100 SEEDS - $1.95

**510. BUSH**

*(O. basilicum minimum)*

A compact mound of tiny light green leaves with white flowers, of equal value in both the landscape and the kitchen. Imparts a delicate, spicy flavor to food and is especially good in soups. Just 8” tall, it can be grown in pots.

100 SEEDS - $1.95

**506. LETTUCE LEAF**

*(O. basilicum crispum)*

Originated in Japan. The large (3-5”) leaves are light, bright green. The flavor and fragrance are wonderful. Large leaves make it easy to pick and great to use as flavorful wrappers stuffed with different mixtures. Grows to a height of 2’.

100 SEEDS - $1.95

**544. ANISE HYSSOP**

*(Agastache foeniculum)*

**PERENNIAL**

Also known as Licorice Mint. Grows to 3’ tall with 4-5” spikes of purple flowers at top. Leaves are dark green and arrow shaped with a nice strong licorice flavor. Dry leaves and flowers are used in potpourris, arrangements, and drinks. Blooms in summer, the same year from seed. Zones 4-8.

100 SEEDS - $1.95

**54401. ARNICA**

*(Arnica montana)*

**PERENNIAL**

Golden yellow daisy-like flowers rise 12” above low growing rosettes of bright green foliage early in its second year of growth. As a native to the alpine meadows of Europe, the petals have been used for centuries as a topical herbal medicine usually in the form of salves and tinctures for muscles aches, inflammations, and bruises. Plant in sun to partial shade. Zones 4-9.

30 seeds - $1.95

**ANGELICA**

*(Angelica archangelica)*

**BIENNIAL**

Native to northern Europe; grows stout, vibrant green foliage in the first year then sends up impressive, large umbels of white-greenish star burst flowers the following season. Has many uses in the kitchen along with a long traditional history as an herbal remedy. Leaves can be used to flavor poultry and fish, while stems can be stewed with apples and rhubarb or made into candy and preserves. Seeds are added to flavor vermouth and gin; in Iceland it was once considered a currency in trade. Historically used for stomach, respiratory ailments, and as an herbal tonic for blood and circulation. Prefers cool climates, semi shaded areas and moist fertile conditions. Spreads 2-4’ wide and grows to 5-7’. Zones 4-9.

100 SEEDS - $2.50

**ANISE**

*(Pimpinella anisum)*

**PERENNIAL**

Also known as Licorice Mint. Grows to 3’ tall with 4-5” spikes of purple flowers at top. Leaves are dark green and arrow shaped with a nice strong licorice flavor. Dry leaves and flowers are used in potpourris, arrangements, and drinks. Blooms in summer, the same year from seed. Zones 4-8.

100 SEEDS - $1.95

**ARNICA**

*(Arnica montana)*

**PERENNIAL**

Golden yellow daisy-like flowers rise 12” above low growing rosettes of bright green foliage early in its second year of growth. As a native to the alpine meadows of Europe, the petals have been used for centuries as a topical herbal medicine usually in the form of salves and tinctures for muscles aches, inflammations, and bruises. Plant in sun to partial shade. Zones 4-9.

30 seeds - $1.95
507. HOLY
(Ocimum sanctum)
This 2’ plant is a perennial in some climates. Sacred to the Hindu people—often grown around their temples. It has a warm, spicy scent of cloves. The reddish-tinted leaves are used in salads or cold dishes, but never cooked.
100 SEEDS - $2.50

50702. TREE
(Ocimum gratissimum)
A type of Holy Basil for the curious herbalist. Native to India, tree basil, also known as Vana basil, is significant in ayurvedic medicine. Its leaves are used in the preparation of tea to rejuvenate the body and help adapt to stress. Clove scented leaves have a slightly hairy texture and gray-green color. A tender perennial which matures into a woody shrub. If grown in a container can be brought indoors for winter use.
100 SEEDS - $2.50

509. PURPLE RUFFLES
(O. basilicum var.)
This 1987 All-America Selections winner looks remarkably like a miniature perilla. Leaves are much darker than regular opal basil and the plant is larger, 18-24”. Flower stalk of 6” with pink blooms is more dramatic than other basils. Like opal basil, can be used as both an ornamental and culinary herb.
100 SEEDS - $1.95

50901. OPAL
(Ocimum basilicum)
Crown for both culinary and ornamental uses, first discovered in the early 1800’s, it is a sweet basil cultivar with deep purple glossy leaves and lilac flowers making it a beautiful ornamental plant too. Opal makes wonderful aromatic oils, vinegars and colorful pestos.
100 SEEDS - $1.95

50301. THAI
(Ocimum basilicum)
Native to southeast Asia this is a type of sweet basil found in the delicious cuisine of Thailand. It has a clove-licorice flavor with a hint of citrus and holds up well when cooked. The plant grows to 12-18” and has colorful purple stems and blooms.
100 SEEDS - $1.95

513. CINNAMON
(O. basilicum var.)
Produces 2”-3” leaves and light lavender blooms. The spicy aroma and taste is cinnamon and mint, with a touch of anise. Also known as Mexican Spice Basil.
100 SEEDS - $1.95

51301. WILD
(PERENNIAL
(Clinopodium vulgare)
Not a true basil. The small 10” plants carry round green leaves, less than an inch across with small bright pink flowers. Posses a mild, savory flavor. Wild basil is used by Italians in many dishes and medicinally it functions as a skin preparation and a booster to the immune system. Zones 6-9.
100 SEEDS - $1.95

W270. DWARF GREEK
(68-70 DAYS)
(Ocimum basilicum)
Bush basil prized by chefs for its savory flavor. The small leaves make a great garnish.
100 SEEDS - $1.95

514. PINETREE BASIL MIX
This mixture includes most of the culinary basils we sell, including Italian ones, and a few surprises.
300 SEEDS - $3.50

515. BORAGE
(Borago officinalis)
ANNUAL
3’ tall with a spreading habit. Continuous sky blue blooms attract lots of bees. Tough and drought resistant, it reseeds itself vigorously. Grown as an ornamental as well as for the fuzzy, cucumber-tasting leaves in the spring. Soothing to skin inflammations, bites, stings, bruises, and as a tea for colds.
100 SEEDS - $1.95

540. CARAWAY
(Carum carvi)
BIENNIAL
These seeds are my favorite addition to a number of vegetable and pasta dishes. The plant has a tap root, feathery leaves, and white flower umbels, all of which are also eaten. Zones 4-8.
100 SEEDS - $1.95
547. CATNIP
(Nepeta cataria)
PERENNIAL
2 1/2’ tall. Used as a tea or for cats. White blooms are similar to other mints. Relaxing and soothing properties. Zones 3-9
100 SEEDS - $1.95

48002. ROMAN CHAMOMILE
(Chamaemelum nobilis)
PERENNIAL
Translated from the Greek, “chamomile” means ground apple, referring to the apple-like odor and the fact that it makes a fine ground cover. Plants are 4” tall and rapidly spreading. Dried flowers are used to make a sedative tea, nerve tonic, and skin cleanser, and used in potpourri. Zones 5-9.
350 SEEDS - $1.95

48001. GERMAN CHAMOMILE
(Matricaria recutita)
ANNUAL
This 15” tall, feathery-leaved plant is known for its apple-like flavor and fragrance. Used in teas and medicinally as a sedative, nerve tonic, and skin cleanser. Remarkable properties as a companion plant in making compost due to an affinity with calcium.
800 SEEDS - $1.95

519. CHERVIL
(Anthriscus cerefolium)
ANNUAL
The leaves and flavor resemble parsley, but with a hint of anise. Its leaves taste best before flowering, so pinch off blooms for a continuous supply. Requiring cool, moist conditions; spring and fall planting. Self-sows generously. 1-2’ high.
350 SEEDS - $1.95

551. CHIVES
(Allium schoenoprasum)
PERENNIAL
Onion-like flavor comes from the tops which are generally chopped fine. Used in sour cream, cream cheese, soups, etc. The light lavender flowers can be added to your favorite salad, just break the head apart. Zones 4-9.
100 SEEDS - $1.95

557. GARLIC CHIVES
(Allium tuberosum)
PERENNIAL
Chinese leeks. Reminisces chives but leaves are flatter and more grass-like. Doesn’t spread as rampantly as its cousin either. Lovely as an ornamental with white flowers arranged in a half-sphere on very straight stems. Blooms in August and grows to 2’. Has mild garlic flavor. Zones 4-9.
100 SEEDS - $1.95

55701G. GARLIC CHIVES - GEISHA
(perennial)
ANNUAL
All-America Selection winner for 2015. Vigorous grower, larger plants with wider and fatter leaves that have a sweet, mild garlic flavor. A more refined garlic chive. Flowers towards the end of first season. Zones 4-9.
100 SEEDS - $2.25

Follow us on Facebook & join
Rooted: Pinetree Garden Chat
48004. ELECAMPANE
(Inula helieunum)
PERENNIAL
Grows to 8’ tall with many side branches and numerous bright yellow flowers from mid to late summer. Full sun to partial shade. Roots are used medicinally as an expectorant with antibacterial and antifungal properties. As a dye plant, the roots yield a blue dye and the flowers a yellow-orange dye. Zones 3-9.
50 SEEDS - $1.95

57506G. EPAZOTE
(Dysphania ambrosiodes)
ANNUAL
Native to Central and South America, this Mexican herb is easy to grow and hard to describe. The flavor is very fresh with a decided edge and aftertaste. Used in a variety of sauces, particularly with black beans, corn, mustard, and seafood dishes. This herb is known as the “bean herb” as using just two sprigs effectively combats flatulence, aiding digestion with its carminative effect. A couple of specimens is probably enough for a small garden, use only the leaves, fresh or dried, sparingly. Harvest around 50-55 days.
100 SEEDS - $2.75

95701. LEMON
(citrodora)
ULTRA LEMON SCENTED LEAVES, MORE FRAGRANT THAN LEMONS THEMSELVES. NARROW 3-4” GRAY GREEN LEAVES HAVE A HIGH PERCENTAGE OF CITRONELLA OIL AND ARE A MAIN INGREDIENT FOR PLANT BASED INSECT REPELLENT. IT HAS GROWN TO OVER 3’ BY THE END OF OUR SEASON. WORKS WELL AS CONTAINER PLANT OR IN THE GARDEN AND WHEN PRUNED BACK KEEPS A BUSY HABIT. ZONES 9-11.
20 SEEDS - $2.50

527. FENNEL
(Foeniculum vulgare)
Fennel is a tender perennial making it through the winter here about 50% of the time. Grown for its anise-flavored seeds on 3-4’ plants. Decorative fern-leaved plants can be started indoors or out and grown as an annual in colder parts of the country. Zones 7-10.
100 SEEDS - $1.95

528. BRONZE
(Foeniculum vulgare var.)
A dramatic landscape plant as well as a culinary herb. The brownish bronze color is truly unique in our experience and deepens as the season wears on. The flavor and uses are similar to those for regular fennel. Tender perennial. Zones 7-10.
30 SEEDS - $1.95

479. WHITE POMPON
(Tanacetum parthenium)
PERENNIAL
A native to south eastern Europe with small, cheerful white pom pom flowers and tiny yellow centers, that appear during the mid summer. Valued for treating migraines, allergies, and arthritis. Grows to 2 feet, blooms the first season from seed started indoors and has long stems, making a good cut flower. Zones 5-9.
50 SEEDS - $1.95

526. FLAX
(Linum usitatissium)
ANNUAL
A 3’ plant with sky blue flowers, Flax is cultivated for its fiber, edible seeds and oil. Its fiber from the stem is made into linen fabric, linseed/ flaxseed oil is produced from the pressed seeds and the nutty tasting seeds have many health benefits. Medicinally it has anti-inflammatory, laxative and expectorant properties.
500 SEEDS - $1.95
565. MUNSTEAD STRAIN
(Lavandula angustifolia)
PERENNIAL
A dwarf, it is earlier than Lavender Vera with thicker, denser foliage. This long time favorite is also covered with deep purple flowers on plants just 18” tall. Zones 5-9.

100 SEEDS - $2.25

566. MEXICAN MINT
(Origanum majorana)
ANNUAL
Cils candy anise flavor, slightly hinted with citrus. Used as an ingredient for many recipes.

300 SEEDS - $1.95

567. VERA
(Lavandula angustifolia)
PERENNIAL
Original species of English lavender. This lovely plant, when dried, is fragrant and repels insects. Seeds take a long time to germinate, so start indoors and keep moist. Plant is 2 1/2-3’ tall with fine needle-like foliage. Zones 5-9.

100 SEEDS - $2.25

56701. HIDCOTE BLUE
(Lavandula angustifolia)
PERENNIAL
A dwarf variety having deep purple to navy blue flowers with a compact and vertical habit. An extremely aromatic variety that grows well as a border plant. Zones 5-9.

100 SEEDS - $2.25

586. LAVENDER COTTON
(Santolina tomentosa)
PERENNIAL
Foot tall foliage resembles a miniature evergreen tree. The fragrant foliage is deeply colored and colors vary from green to silver. Small yellow flowers appear in July and August. Zones 6-9.

25 SEEDS - $1.95

569. LEMON BALM
(Melissa officinalis)
PERENNIAL
A lovely fragrant herb growing to 1 1/2’. This perennial germinates slowly but grows quickly. The fresh, tangy lemon-flavored leaves are used for a relaxing tea and to give lemon flavor to poultry and other dishes. Zones 4-9.

100 SEEDS - $1.95

56902. CITRONELLA
(Melissa officinalis)
PERENNIAL
Bursting with a soothing scent, this is the most fragrant, flavorful variety available. A lush, bushy growth habit with flowers that attract bees and butterflies. Use in herbal teas, or fish dishes, or plant in a pot as a mosquito repellent for your outdoor sitting area. Zones 4-9.

50 SEEDS - $1.95

52802. LEMON GRASS
(Cymbopogon flexuosus)
PERENNIAL
East India lemon grass, native to India, Burma, and Thailand. Plants grow to 3’ in height. Most often used in perfumes but it is also good for flavoring food. Zone 8-11. Has a natural germination rate around 50%.

50 SEEDS - $1.95

571. LOVAGE
(Levisticum officinale)
PERENNIAL
Handsome plant may grow to 6’ and its leaves resemble those of celery. The flavor is similar to, but stronger than, that of celery. Use leaves sparingly to flavor soups. Eat young leaves in salad. Zones 4-8.

100 SEEDS - $1.95

496. GOLDEN MARGUERITE
(Anthemis tinctoria)
PERENNIAL
Also known as dyer’s chamomile, hardy perennial grows to 3’ tall with abundant dark yellow daisy-like flowers above lacy foliage. Produces a yellow, buff, or orange dye depending on the mordant used. Also makes a nice cut flower. Zones 3-7.

50 SEEDS - $1.95

48303. MEXICAN MINT
(Tytoes lucinda)
ANNUAL
Also known as Mexican Tarragon, Sweet Mace or Spanish Tarragon. Edible golden flowers and foliage have an anise flavor, slightly hinted with citrus. Used in gourmet dishes and can be substituted for French tarragon. Holds its simple bright flowers for a long time and is beautiful in herb, flower or container gardens. Zones 8-11.

100 SEEDS - $1.95

531. MARJORAM
(Origanum majorana)
PERENNIAL
Handsome plant may grow to 6’ and its leaves resemble those of celery. The flavor is similar to, but stronger than, that of celery. Use leaves sparingly to flavor soups. Eat young leaves in salad. Zones 4-8.

100 SEEDS - $1.95

48401. MILK THISTLE
(Althaea officinalis)
BIENNIAL
Forms a rosette of leaves often 3’ across. Color is a distinctive dark green variegated with white. The blueish purple seed head can reach a height of 4’. The young leaves can be eaten as greens and the root is similar to salsify. Said to be good for the liver. Zones 5-10. Cannot be shipped to WA.

50 SEEDS - $2.50

585. MINT
(Mentha piperita)
PERENNIAL
Also known as Sweet Mint, Common Mint, or Peppermint. A true mint, it is valuable for its nectar rich flowers, attracting beneficial insects into the garden space. Grows to 3-4 feet, forming multiple tiers of small white flowers speckled with lavender. Leaves can be used for tea and when crushed have a spicy mint flavor, also said to help repel insects. Place this pollinator attractor along the edges of a woodland or back border of the garden. Full to part shade. Zones 3-11.

100 SEEDS - $1.95

58502. MOUNTAIN MINT
(Pycnanthemum pilosum)
PERENNIAL
Native to eastern North America this rustic mint is valued for its nectar rich flowers, attracting beneficial insects into the garden space. Grows to 3-4 feet, forming multiple tiers of small white flowers speckled with lavender. Leaves can be used for tea and when crushed have a spicy mint flavor, also said to help repel insects. Place this pollinator attractor along the edges of a woodland or back border of the garden. Full to part shade. Zones 4-8.

100 SEEDS - $1.95

Shop online at www.superseeds.com!
5801. CORSICAN MINT
*(Mentha requienii)*
**PERENNIAL**
The smallest member of the mint family, also known as mini mint. Diminutive mint creeps along, hugging the ground with its deeply scented leaves and tiny purple flowers. Leaves are not as palatable as peppermint but release a more intense scent and used as flavoring of creme de mint. Likes a moist, dappled light location, can be used in containers or as a filler around stepping stones. Grown as an annual, it will often self-seed in colder zones. Zones 6-9.

**10 MULTI-SEED PELLETS - $2.25**

5201. WHITE MUSTARD
*(Sinapis alba)*
**ANNUAL**
Mildest.

**50 SEEDS - $1.95**

53203. BROWN MUSTARD
*(Brassica juncea)*
**ANNUAL**
Mildly pungent.

**50 SEEDS - $1.95**

534. NEPITELLA
*(Calamintha nepeta)*
**PERENNIAL**
Savory Mediterranean herb used in Italian cuisine, also known as calamint. Inviting flavor, like a mix of mint, basil, oregano, thyme and licorice; traditionally used to flavor meats, soups, stews along with mushroom, tomato, potato dishes. Great border or container plant with 12" mounds of oregano-like leaves. Lavender pink tubular flower spikes arrive later in the summer, lasting well into fall; attractive both in an herb and flower garden. Zones 5-10.

**50 SEEDS - $1.95**

559. GREEK OREGANO
*(Origanum heracleoticum)*
**PERENNIAL**
True oregano flavor that we have come to associate with pizza sauce and other Italian dishes. Form is upright with a low-growing spreading habit just 6-8" tall. Pungent, dull green leaves exhibit some purpling at the tips with white flowers. Winter mulch is helpful in the north. Zones 5-10.

**200 SEEDS - $1.95**

575. OREGANO
*(Origanum vulgare)*
**PERENNIAL**
This perennial herb can grow to a height in excess of 2 ft. The leaves are used fresh or dried. Zones 4-8.

**300 SEEDS - $1.95**

Follow us on Facebook & join
*Rooted: Pinetree Garden Chat*

55901. ZAATAR
*(Origanum syriacum)*
**ANNUAL**
This oregano relative is native to the Mediterranean and has been used for centuries as a culinary and medicinal herb. The velvety gray-green leaves are highly aromatic and have the blended flavor of marjoram, thyme and oregano. Add this savory taste to vegetables and meat dishes, hummus, flatbreads and soups. Tender perennial grown as an annual. Start indoors in the north. Grows to 24 inches. Zones 9-11.

**50 SEEDS - $3.25**

57504. PAPALO
*(Porophyllum ruderale)*
**ANNUAL**
If you love cilantro, you have to try this unusual Mexican herb. Largely grown in Central and South America, it is also known as Papaloqueitale. The flavor is similar to cilantro with a bit more punch coupled with a touch of mint and citrus. Very distinct. Thrives in hot conditions where cilantro would typically bolt or dwindle. Grows 3’ - 5’. Use raw and add to salsa, beans, and salads. Germination naturally runs around 50%.

**75 SEEDS - $2.50**

541. FLAT LEAF
*(Petroselinum crispum var. neapolitanum)*
**BIENNIAL**
Also called Italian parsley, uses are similar to the curly variety but flavor is a bit stronger. Plants are 1’ tall and produce sprigs of large, flat leaves all season. Preferred in Italian cooking. Zones 5-9.

**300 SEEDS - $1.95**

543. TRIPLE CURLED
*(Petroselinum crispum)*
**ANNUAL**
Used as a garnish or like other greens. High nutritional value, with a long history of medicinal uses. Parsley is a biennial but is usually grown as an annual for the foliage. Zones 5-9.

**300 SEEDS - $1.95**

577. PENNYROYAL
*(Mentha pulegium)*
**PERENNIAL**
Member of the mint family. Creeping plant spreads quickly and sends up 6” lilac flower stalks. Not reliably hardy in the north. Pennyroyal has a strong mint odor, and is used as an insect repellent. Zones 6-9.

**200 SEEDS - $1.95**

579. ROSEMARY
*(Rosmarinus officinalis)*
**PERENNIAL**
Evergreen with numerous medicinal uses. Fragrance and texture make it valuable for sachets and potpourris. In the kitchen, used with pork, veal, chicken and in vinaigrettes. Needs some winter protection or can be brought indoors in the North. Zones 7-9.

**100 SEEDS - $2.95**

581. RUE
*(Ruta graveolens)*
**PERENNIAL**
A woody perennial with unusual grey-green leaves finely lobed and fluted. Rue may grow to 3’ and is beautiful used as an ornamental. Leaves are very aromatic and taste bitter; flowers are small and yellowish-green. Zones 4-9.

**50 SEEDS - $1.95**
545. SALAD BURNET  
(Poterium sanguisorba)  
PERENNIAL  
A pretty perennial that grows about 1’ tall and produces white or rosy flowers. Leaves are used in salads for their cucumber-like flavor. Zones 4-8.  
50 SEEDS - $1.95

584. CLARY SAGE  
(Salvia sclarea)  
BIENNIAL  
Hardy biennial with large ‘fuzzy’ silvery-gray leaves. Deer resistant and medicinal uses. The second year, it sends up handsome 3’ stalks of purple and white flowers. Zones 6-9. Cannot be shipped to WA.  
50 SEEDS - $1.95

539. SILVER SAGE  
(Salvia argentea)  
BIENNIAL  
Produces a rosette of gray-green woolly leaves that beg to be touched. This relative of Clary Sage can grow to a width of 30” and flowers can be cut back to enhance the appearance of the foliage. Zones 5-8.  
25 SEEDS - $1.95

583. SAGE  
(Salvia officinalis)  
PERENNIAL  
The broad grey-green leaves and beautiful purple flower spikes make this a fantastic ornamental. Grows 1-2’ tall, used fresh or dried in poultry and pork dishes. Zones 3-10.  
50 SEEDS - $1.95

582. WHITE SAGE  
(Salvia apiana)  
PERENNIAL  
Aromatic with white, felt-like foliage. Toss cuttings on the grill to flavor cooking or use large stems to add an interesting flavor to shish kabobs. Native Americans burned the plant in ceremonies and made tea from the leaves. Seeds were toasted and ground for cereal. Zones 6-11.  
15 SEEDS - $2.25

48402. ST. JOHN’S WORT  
(Hypericum perforatum)  
PERENNIAL  
Shrubby perennial grows to 1 1/2’ tall and produces clusters of yellow flowers. In use since biblical times, it is thought to be named after St. John the Baptist. While it has been used for kidney and pulmonary problems the most common use is a mood enhancer to combat anxiety and depression. Zones 4-9.  
100 SEEDS - $1.95

529. SUMMER SAVORY  
(Satureja hortensis)  
ANNUAL  
Bushy, attractive herb growing to 12” high. Pungent leaves used in stews and gravies. Sweeter and more delicate than winter savory.  
500 SEEDS - $1.95

591. WINTER SAVORY  
(Satureja montana)  
PERENNIAL  
Deep green glossy-leaved plant grows to 1’ tall. The tiny purple flowers bloom in mid-summer. Stronger flavor than summer savory. Both herbs are traditionally used to flavor beans. Zones 5-8.  
100 SEEDS - $1.95

52901. LEMON SAVORY  
(Satureja montana var. citriodora)  
PERENNIAL  
A lemon-scented version of winter savory with a pleasant lemon fragrance and flavor. Harvest before it puts out its pinkish-white flowers in mid to late summer. Use fresh or dry for storage. Grows to 9-12’. Zones 5-8  
100 SEEDS - $2.25

W462. SHISO - RED  
(Perilla frutescens)  
ANNUAL  
Leaves of this Asian herb are dark purplish-red and curly. Grows to 4’ high, very striking as an ornamental. Flavor is hard to describe, some say it is like coriander, others notice a basil-like or cinnamon flavor. Leaves are used fresh to season fish. Flowering shoots are fried in tempura, or used in soups. The seeds are ground and are one of the “seven spices”.  
300 SEEDS - $1.95

535. STEVIA  
(Stevia rebaudiana)  
PERENNIAL  
The leaves are 200-300 times sweeter than sugar. It is native to South America. Likes full sun, good drainage and grows to 3’. If grown as a houseplant, it will go dormant in the winter. Pinch off flowers as the plant dies after blossoming. A tender perennial best grown as an annual. Zones 9-10.  
15 SEEDS - $2.95

59002. CREEPING THYME  
(Thymus serpyllum)  
PERENNIAL  
Grown as a ground cover, filling in spaces quickly. A sea of lavender-pink flowers arrives mid-summer completely covering the plant, attracting bees and butterflies. Useful for borders, rock gardens, and stone path plantings. Grows to 6”. Zones 5-8.  
50 SEEDS - $1.95

589. COMMON THYME  
(Thymus vulgaris)  
PERENNIAL  
Forms a low-growing mound of dark green for a beautiful ornamental effect. Tiny leaves are fragrant and pungent with a tangy flavor that enhances a variety of dishes. Covered with tiny white flowers in the summer. Zones 5-9.  
100 SEEDS - $1.95

Shop online at www.superseeds.com!
We offer the following selection of tobacco seeds to growers who wish to control the production of their own tobacco to ensure exactly what is, and what is not, in the leaves they produce. All of our seed comes from grower Jim Johnson of Gautier, Mississippi, Seedman.com. Seeds are quite tiny and while the guaranteed minimum is 50 seeds, most packets contain well over a hundred. Should be started indoors early in the spring and transplanted in the same way as eggplant, tomatoes, peppers, etc. Plants can grow to over 5’ so each plant merits a couple square feet of space.

**50 TOBACCO SEEDS - $3.50 PER PACKET**

**TA101. GOLD SEAL SPECIAL**
**BURLEY**
**SMOKING TOBACCO**
An upright variety with abundant leaves, Gold Seal grows vigorously to heights in the 5’ range and produces heavily. Leaves cure to a lovely golden hue.

**TA07. HUNGARIAN SZAMOSI**
**DARK**
**FOREIGN TOBACCO**
A very popular Hungarian tobacco with a full, rich flavor. The lower half dozen leaves are used for cigars while the higher leaves are used for pipes and cigarettes. This variety produces immense leaves – 24-30” in length and 16” wide.

**TA55. BLACK SEA SAMSUN**
**TURKISH**
**FOREIGN TOBACCO**
This tobacco is grown in the Samsun province of Turkey on the shores of the Black Sea. It produces smaller, flavorful leaves with a distinctive aroma.

**TA58. CONNECTICUT SHADE**
**LEAF**
**CIGAR TOBACCO**
While the seed originated in Cuba, this variety grows best in the temperate climate of Connecticut. The delicate, thin, deeply veined leaves are used as a wrapper for such famed cigar brands as: Macanudo, Davidoff, and Monte Cristo.

**TA202. VIRGINIA GOLD**
**SMOKING TOBACCO**
There is a body of opinion that the best tobaccos are still produced in Virginia where commercial production originated. The 5’ plants are heavy producers of a very light gold leaf which is mild and smooth in flavor.

**TA110. GREENWOOD DARK**
**CHEWING TOBACCO**
Medium, smooth leaves cure to an impressive dark brown with a fine chewing tobacco flavor. You can count on an impressive yield from Greenwood Dark.

**TA05. ORINOCO**
**PIPE TOBACCO**
A tall plant with thick, textured, leaves that produces a rich brown tobacco favored by millions of pipe smokers. Orinoco also makes a good blending tobacco for cigars and cigarettes.

**TA78. PARIS WRAPPER**
**SMOKING TOBACCO**
The name comes from the fact that the long, narrow leaves are ideal as cigar wrappers. But for this purpose this variety would probably have to be shade grown. It is also a fine smoking tobacco, producing an abundance of flavorful leaves on large, sturdy plants.

**TA40L. CULTIVATORS HANDBOOK**
With a reverence for the beauty of Nicotiana, Bill Drake writes a comprehensive handbook for the grower of tobacco. Drake advises farmers, step by step, on how to produce organic tobacco products for individual consumption, or as a small cottage industry. Although the growing, curing, flavoring, and cutting procedures abundantly described herein are essential to an ingestible product, we found the prose delightful, with records of past practices and the influence of religious and political powers on the distribution of tobacco.

Softcover 8” x 10” - 166 pages - $19.95

**TA77. GOLD DOLLAR**
**SMOKING TOBACCO**
Flue cure type that matures earlier than any other variety that we are familiar with. It is ideal for a short growing season – you can usually harvest leaves 2 weeks earlier than other strains. The yield of golden brown leaves is also heavy, making this an ideal choice for both cigarettes and pipes.

**TA110. GREENWOOD DARK**
**CHEWING TOBACCO**
Medium, smooth leaves cure to an impressive dark brown with a fine chewing tobacco flavor. You can count on an impressive yield from Greenwood Dark.

**TA05. ORINOCO**
**PIPE TOBACCO**
A tall plant with thick, textured, leaves that produce a rich brown tobacco favored by millions of pipe smokers. Orinoco also makes a good blending tobacco for cigars and cigarettes.

**TA78. PARIS WRAPPER**
**SMOKING TOBACCO**
The name comes from the fact that the long, narrow leaves are ideal as cigar wrappers. But for this purpose this variety would probably have to be shade grown. It is also a fine smoking tobacco, producing an abundance of flavorful leaves on large, sturdy plants.

Flower Seeds

We offer a wide selection of both annuals and perennials; unique varieties are our focus, with some challenging and others more common. Whatever your experience level, you will find something beautiful to cultivate in your own garden. Many cannot be found in greenhouses or nurseries—how enticing to have a garden filled with uncommon flowers!

As most seeds are packed by hand, flower seed counts are approximate.

Start indoors 8-10 weeks before last frost. Chip or soak the seeds for 12-24 hours. Barely cover seed and provide 65-75°F soil temperatures. Transplant 14-18” apart after last frost. Blooms in 80-90 days. Germ 14-25 days.

FLOWERING MAPLE

ANNUAL (Abutilon)
Will develop into a flowering 16” plant in 11-16 weeks. Well branched and covered with medium green maple shaped leaves, so it is often called flowering maple. 2” blooms in delicate shades of apricot to apricot orange, butter yellow and creamy white. Color intensifies in cooler weather. Will overwinter in the house in either sun or partial shade.

839. BELLA SELECT MIX 5 SEEDS - $2.50

Start indoors 6-8 weeks before last frost. Sow on the surface and press into soil, seeds need light to germinate. Provide 60-65°F soil temperatures. Direct sow outdoors after last frost. Transplant 6-8” apart after last frost. Blooms in 50-60 days. Germ 7-21 days.

70501. WHITE YARROW

PERENNIAL (Achillea millefolium)
A common wildflower and a magnet for native pollinators. Plants form a dense mat of lacy foliage first with the highly aromatic, sweet-scented flowers arriving in midseason. An excellent companion plant; foliage wards off garden pests and flowers attract the helpful ones. Also known for its powerful herbal properties. Drought tolerant great for dry sunny spots. Grows to 24-36”. Zones 3-8
200 SEEDS - $1.95

705. SUMMER PASTELS YARROW PERENNIAL (Achillea millefolium)
The 3’ high plants carry a multitude of 4” flat clusters, blooming in shades of rose, pink, apricot to cream. Plant in groups for the most effective display. This variety dries well for arrangements and nice for fresh cut flowers. Zones 3-8.
25 SEEDS - $1.95

Start indoors 4-6 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-75°F soil temperature. Direct sow outdoors after last frost. Sow again in midsummer for late blooms. Transplant 6-8” apart after last frost. Blooms in 50-60 days. Germ 7-10 days.

602. CARPET OF SNOW

ANNUAL (Lobularia maritima)
Tiny white flowers blanket these 6” plants very quickly. Phenomenal spreader, one plant can grow a foot wide. Hardy annual, plant seedlings out a few weeks before frost for very early blooms. Keeps blooming through many frosts in fall too.
80 SEEDS - $1.75

Start indoors 4-6 weeks before last frost. Sow on surface and lightly cover. Provide 65-75°F soil temperature. Direct sow outdoors after last frost. Sow lightly, thin to 12-18” apart. Transplant 12-18” apart after last frost. Blooms in 60-75 days. Germ 10-15 days.

60104. HIGH TIDE BLUE

ANNUAL (houstorianum)
These bright blue blossoms on 14-16” tall plants create a lovely border. Popular for its unique blue, soft, furry flowers and long bloom time. Makes a nice counterpoint to the other colors in a bed. Deadheading of the older blooms helps to keep this plant looking great.
10 SEEDS - $2.75

Don’t forget to use and save seeds from your gardens in order to grow and expand your collections next year. Information taken from packaging and catalogs. Photos courtesy of stock photo sites.
FLOWERS

60601. SPLENDENS PERFECTA

ANNUAL (Amaranthus tricolor)

Also known as Summer Poinsettia, Joseph’s Coat or even Chinese Spinach, Amaranths are grown for their distinctive foliage. Plants are a foot and a half tall and covered with large, color-changing leaves. Foliage presents a splendid tricolor effect of yellow, green and red colored bracts. Grows to 24”-48”.

50 SEEDS - $1.75

946. ELEPHANT HEAD

ANNUAL (Amaranthus caudatus)

Huge dark burgundy red plumes look as if an elephant is raising its trunk into the air. A long time bloomer that grows to 5’, grabbing attention in the garden. It is also an excellent cut flower. An heirloom that was brought here from Germany in the 1880’s.

100 SEEDS - $1.75

FOR OTHER AMARANTH, SEE GREENS SECTION, PAGE 21

605. BISHOP’S FLOWER

ANNUAL (Ammi majus)

Long used by florists as a substitute for Queen Anne’s Lace. Plants are 2 1/2’ tall carrying double umbels of tiny white flowers that are more open than its relative. Self seeds once established.

100 SEEDS - $1.50

70702. DAWN MIX

ANNUAL (Caperus)

Alkanet or wild bugloss. Truly wonderful and very underused. Perfect plant for the border of a cottage style garden with deep azure blue, pink and white flowers that stand out, blooming for a very long time. An easy plant to grow, all it needs is average to dry soil – definitely not high-maintenance. Grows to 12”.

50 SEEDS - $1.50

71082. MCKAN’S GIANTS

PERENNIAL (Ceratostephis chinensis)

Columbine. Large flowers with long-spurred petals in white, crimson, purple and yellow. Many flowers are two-colored. Height 2-3’. Zones 3-8

100 SEEDS - $1.95

71303. HELLO YELLOW MILKWEED

PERENNIAL (Asclepias talauberis)

Golden yellow flowers are displayed in a flat-topped arrangement. Provides a nectar-rich feast for a variety of pollinators, especially the monarch butterfly. Easy to maintain, long-lived perennial likes full sun in well-drained, even gritty soil, and tolerates dry conditions. For long lasting cut flowers the seed is key, sowing indoors in February or March and transplanting outside after the last frost date. Grows to 36-42”, prefers a sunny spot and moist soil; though we found it could take our average to dry soil quite well. Use as a border plant, grow along the edge of ponds, or in low spots and of course in butterfly gardens. This is a white flower form of Red Swamp Milkweed. Zones 3-9.

40 SEEDS - $4.25

71305. ICE BALLET MILKWEED

PERENNIAL (Asclepias incarnata)

The sweet nectar of the snow-white flowers lure pollinators. Easy to care for milkweed that grows to 36-42”, prefers a sunny spot and moist soil; though we found it could take our average to dry soil quite well. Use as a border plant, grow along the edge of ponds, or in low spots and of course in butterfly gardens. This is a white flower form of Red Swamp Milkweed. Zones 3-9.

40 SEEDS - $3.50

711. BUTTERFLY WEED

PERENNIAL (Asclepias)

Butterflies are attracted to asclepias, hence the common name. Vigorous, hardy and rugged grower, plants are about 2’ tall and can become invasive. Heavily leafed stem carries large bracts of dozens of red buds that turn orange as they open. Prefers full sun and a well-drained soil. Interesting, long lasting cut flower, the seedpod can also be useful as an everlasting. Zones 4-8.

40 SEEDS - $1.95

71201. RED SWAMP MILKWEED

PERENNIAL (Asclepias incarnata)

5’ tall plants produce interesting 2 tone clusters of pink to purple blooms which are 2” across. Beloved by butterflies. Zones 3-9.

40 SEEDS - $1.95

71101. COMMON MILKWEED

PERENNIAL (Asclepias syriaca)

Fragrant and near abundant pink flowers along with the leaves are an important food source for many butterflies and insects. Flowers in midsummer followed by green pods which dry, opening up with fluffy seed heads. Spreads by seeds and underground rhizomes. Grows 3’-4’. Zones 3-9.

40 SEEDS - $1.95

70802. MCKAN’S GIANTS

PERENNIAL (Ceratostephis chinensis)

Columbine. Large flowers with long-spurred petals in white, crimson, purple and yellow. Many flowers are two-colored. Height 2-3’. Zones 3-8

100 SEEDS - $1.95

71306. HELLO YELLOW MILKWEED

PERENNIAL (Asclepias talauberis)

Golden yellow flowers are displayed in a flat-topped arrangement. Provides a nectar-rich feast for a variety of pollinators, especially the monarch butterfly. Easy to maintain, long-lived perennial likes full sun in well-drained, even gritty soil, and tolerates dry conditions. For long lasting cut flowers the seed is key, sowing indoors in February or March and transplanting outside after the last frost date. 40 SEEDS - $1.95

60803. VALKYRIE MIX

ANNUAL (Callistephus chinesis)

A must-have for any flower cutting garden! An abundance of slim string-like petals burst from the center of each flower creating a pillowy plume of color. Large flowers can reach 5 ½” across and are supported on long stems. This is the first time we have grown this type of aster and fell in love instantly. Treat yourself with late summer bouquets, you will not be disappointed. An easy to grow flower!

50 SEEDS - $2.95

707. ALPINE MIX

PERENNIAL (Aster alpinus)

This low growing evergreen, just 6” high is covered with little, daisy like flowers in white, purple, blue, and pink. Provides a real focal point in a border or rock garden, year after year. Zones 3-7.

25 SEEDS - $1.95
83902. BLUTOPIA
ANNUAL (Sutera cordata)
Start indoors 8-10 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-75°F soil temperatures. Transplant 8-20” apart. Blooms in 75-85 days. Germ 4-7 days.

Start indoors 6-8 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-70°F soil temperatures. Direct sow outdoors after last frost. Space 4-5 seeds every 8-12” apart, Transplant 8-12” apart after last frost. Blooms in 60-70 days. Germ 5-10 days.

610. DOUBLE CAMELIA MIX
ANNUAL (Impatiens balsamina)
Sow outdoors around last frost date. Space a few seeds every 12-15” apart. Transplant 12-15” apart after last frost. Blooms the first season when started early indoors. Blooms in 100-120 days. Germ 30-60 days.

Start indoors 12-16 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 70-80°F soil temperatures. Transplant 12-15” apart after last frost. Blooms in 110-120 days. Germ 5-10 days.

Start indoors 6-8 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-70°F soil temperatures. Direct sow outdoors after last frost. Space 4-5 seeds every 8-12” apart, Transplant 8-12” apart after last frost. Blooms in 60-70 days. Germ 5-10 days.

609. BUSH FLOWEDED MIX
ANNUAL (Impatiens balsamina)
So easy to grow, excellent choice for a child’s garden. Flowers are early, prolific and produce an abundance of blooms in the white-red specifications. 18-20” tall.

70 SEEDS - $1.75

Start indoors 6-8 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-70°F soil temperatures. Direct sow outdoors after last frost. Space 4-5 seeds every 8-12” apart, Transplant 8-12” apart after last frost. Blooms in 60-70 days. Germ 5-10 days.

612. INDIAN PRINCE
ANNUAL (Impatiens balsamina)
Also known as Summer Gardenia. Double flowers are held visibly above the foliage on plants that grow to 1 1/2” tall. Blooms are in shades of pink, rose, and white.

70 SEEDS - $1.75

843. DRAGON WING PINK
ANNUAL (hybrida)
Name comes from the shape of the leaf, which is pointed at the end and wing shaped. Single plant will completely overflow a container and this variety is very heat tolerant. Height will reach 15” but the plant will spread substantially more than that. Covered with an abundance of pink blooms with a rose reverse. Spectacular display all summer, then easily over-wintered.

5 PELLETED SEEDS - $1.95

841. NON STOP MIX
ANNUAL (tuberhybrida)
Exceptionally large flowers and continuous bloom make the non-stop series a vibrant choice for dramatic containers and plantings. 10” tall wing shaped deep green foliage, some edged in red, carries an abundance of remarkable, 3 1/2” - 4 1/2” double blooms. Apple blossom, golden orange, and rose petti-coat are but a few of the dozen distinct colors.

15 SEEDS - $2.25

842. GRYPHON
ANNUAL (hybrida)
Sensational foliage is uniquely shaped with a stunning color combination; avocado green background, marbled with steel gray, maroon veins, stems, and leaf backside all on deeply cut, maple shaped leaves. Dramatic when placed as a solo container plant or in shade garden complemented with coleus and new guinea impatiens. Adaptable as a houseplant, bring indoors over winter for a large, voluminous plant the next season. Strong, durable foliage grows well in shade to part shade.

5 MULTI-SEED PELLETS (6-8 SEEDS PER PELLET) - $2.50

87205. CHOCOLATE DAISY
FLOWER
PERENNIAL (Berlandiera lyrata)
Start indoors using a growing medium of 1/2 seedling mix and 1/2 sand. Sow on surface and press into soil, seeds need light to germinate. Provide 70-80°F soil temperature. Germinates in 5 days to 6 months.

Start indoors 8-10 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 60-70°F soil temperature. Direct sow outdoors around last frost date. Space a few seeds every 12-15” apart. Transplant 6-12” apart after last frost. Blooms in 50-60 days. Germ 7-14 days.

883. CACTUS MIX
ANNUAL
A mixture of cacti in fascinating shapes and sizes. Fun to grow and can be grown in pots for years to come.

20 SEEDS - $1.75

63601. HENS AND CHICKS
PERENNIAL (Sempervivum hybridum)
Commonly known as houseleeks, were once grown on roofs and said to bring prosperity and protection from fire; especially from the Norse Thunder god, Thor who was known to throw thunderbolts upon dwellings. Today they can be tucked right into rocky and dry areas, requiring little soil, or grown in pots. Zones 3-8.

200 SEEDS - $2.25

61102. BRONZED BEAUTY
ANNUAL
Extraordinary color combination for a calendula. Petals are a creamy peach and curl upward displaying the bronzed burgundy shaded undersides. Plant a patch of this uniquely colored variety for the season and be awed by its beauty. Grows to 18”.

30 SEEDS - $1.75

612. INDIAN PRINCE
ANNUAL
14” plants are covered with 2-3” blooms. Dark yellow petals are edged in dark red to mahogany with a dark center. This is the darkest calendula that we sell and makes a distinguished display in the garden.

30 SEEDS - $1.75
61204G. RESINA
ANNUAL
This calendula strain is prized for use in herbal applications such as salves and balms, and as a dye for food or fabrics. It has the highest concentration of resin compared to other types of calendulas. Flowers are radiant yellow, with an occasional orange blossoming up. Grows to 24-30”.
30 SEEDS - $2.50

61104. PACIFIC BEAUTY MIX
ANNUAL
Lovely 18” plants have a long blooming period, standing both summer’s heat and early frosts. Colors range from creamy yellow to sunshine yellow to a deep orange. 1 1/2” flowers may be dried for a mellowness herbal tea.
30 SEEDS - $1.75

61103. TOUCH OF RED MIX
ANNUAL
Dramatic color comes from the deep mahogany-red back of each petal. This adds a reddish overtone to the normal calendula yellow, orange, and cream, creating an exceptional effect. Plants are 14” in height with 2” blooms becoming slightly smaller as its three month bloom period wears on. Several plants provide hundreds of cut flowers.
30 SEEDS - $1.75

613. PINK SURPRISE
ANNUAL
The reason behind being called Pink Surprise is that the pinkish ones are in fact a surprise. Most of the flowers are a lovely gold with a bit of a darker burn, some of the flowers have a more pinkish tinge on the edges, and some of the flowers are actually pink with touches of gold.
30 SEEDS - $1.75

61201. RADIO
ANNUAL
This variety was introduced in the 1930’s and remains a classic. The colors go from a very bright yellow to a golden orange so that every bloom is a little sunrise. The petals are very crisply defined and almost quill-like. Plants grow close to 2’ in height and if you keep them deadheaded they will bloom until frost.
30 SEEDS - $1.75

61101. LEMON CREAM
ANNUAL
The perfect calendula for cut flowers! Rounded flowers up to 3” in diameter have multiple layers of narrow petals ranging in lemon, banana, and cream shades. Our patch of lemon cream has been blooming for at least 10 weeks now. A fantastic summer long bloomer. Grows to 24” in height.
30 SEEDS - $1.75

614. FAIRY MIX
ANNUAL (Iberis umbellata)
The plants of this variety are shorter than the Hyacinth flowered candytuff, 18”, but are very impressive. A mixture of colors that show just about every color shade from pink to dark purple, with a few whites thrown in for contrast. It will give a second flush of color if cut back when the flowers fade.
90 SEEDS - $1.50

61102. TOUCH OF RED MIX
ANNUAL
Dramatic color comes from the deep mahogany-red back of each petal. This adds a reddish overtone to the normal calendula yellow, orange, and cream, creating an exceptional effect. Plants are 14” in height with 2” blooms becoming slightly smaller as its three month bloom period wears on. Several plants provide hundreds of cut flowers.
30 SEEDS - $1.75

617. PINK CATMINT
PERENNIAL (Nepeta nervosa)
An easy to grow plant for spring and summer blooms. Soft pink flower spikes and gray green foliage form nice little mounds reaching 10”, spreading to 12”. Dense clusters of flowers fit very well as a border plant, in containers, or for mass plantings. Cutting back after the first flush of flowers encourages continuous blooming. Zones 4-9.
25 SEEDS - $1.95

61501. CORAL GARDEN
ANNUAL (Celosia argentea cristata)
A medium sized, 8-10” plant with large combs of brilliant colors ranging from light yellow to a vibrant fuchsia. The size of the combs varies from 4” to almost 8” across. These can be used for fresh arrangements or dried. It’s like adding a velvet ribbon when used dry on an evergreen wreath.
50 SEEDS - $1.50

61502. PAMPAS PLUME
ANNUAL (Celosia argentea plumosa)
These 28” celosias are the originals that provide a dramatic background planting in any setting. In our trial gardens the eye was immediately drawn to these plants due to the stately grace of the stems and vivid colors—scarlet, rose, Carmine, gold, cream, and bronze.
50 SEEDS - $1.50
**CENTAUREA**

*CENTAUREA (canyus)*

Also known as Bachelor’s Buttons or Cornflower. A native of Europe, they were brought to America in the 17th century and have been loved by gardeners since. Tuck them among annuals, perennials or even in the veggie garden where the flowers can be used for attracting pollinators, for an edible garnish or cut flower. The 1” flowers bloom non stop mid summer on.

- 60902. FLORIST BLUE BOY- all blue, grows to 24-36”-
  100 SEEDS $1.95
- 60904. TALL MIX- blue, purple, pink, red, and white. Grows to 36”
  300 SEEDS $2.50

**CHILEAN GLORY FLOWER**

*CHILEAN GLORY FLOWER (Eccremocarpus scaber)*

Enchanting lacy curtain with bipinnate leaves, tiny curling tendrils, and continuous clusters of 1” yellowy orange tubular blooms. Grows to 12 feet. Hummingbirds love the blooms; grow close to your house so you can watch them. Wonderful for screening or shading a porch. Germ time is slow, so be patient!

- 25 SEEDS - $1.75

**CHRYSLANTHEMUM**

*CHRYSLANTHEMUM (indicum)*

We have all had the experience of buying fall mums, and having a few of them come back for a year or two. This isn’t guaranteed to come back every year like a shasta daisy but it has the best chance of over-wintering for any multi-colored mum that you can grow from seed. Grows to 2’ and covered with 2” blooms, several hundred per plant. Color range is broad. Zones 6-9.

- 20 SEEDS - $1.75

**CINERARIA**

*CINERARIA (hassleriana)*

Old fashioned favorite, also known as spider flower. Large, airy flowers bloom dramatically atop sturdy 4” stalks. A stately centerpiece in the garden or as cut flower. If pinched when about 6” tall each plant will branch out to produce a half dozen or more blooms. Cleome does well when planted in the fall (also self-seeds readily).

- 60 SEEDS - $1.75

**CLEOME**

*CLEOME (hassleriana)*

The first hybrid cleome, this All America Selection will flower freely all season. Plants are shorter (3 feet), and more refined than standard cleomes. The pink blooms cover the upper third of the plant and blooming continues for an exceptionally long time. Sparkler Blush can be grown in smaller gardens with less space than standard cleomes. A very stately centerpiece in the garden or as a cut flower for large arrangements.

- 10 SEEDS - $2.50

**COBAEA**

*COBAEA (Scandens)*

Known as cup and saucer vine or cathedral bells, has dramatic flower clusters and strong tendrils to attach to its support. 2” bell shaped flowers drape gracefully from lush foliage. Colors range from a muted mauve to dusty lavender. Grow in a container and bring in for the winter.

- 20 SEEDS - $1.75

**CLARKIA**

*CLARKIA (elegans)*

This flower can grow to 3’ tall with hollyhock type spires of double blooms. Colors range in the white and red spectrums. Direct seed in the garden after danger of frost. Shows best when planted in a mass.

- 150 SEEDS - $1.50

**DUSTY MILLER**

*Velocty textured, silver-white oak shaped leaves have a calming effect when planted among vibrant annuals and having a few of them come back for a year or two. This isn’t guaranteed to come back every year like a shasta daisy but it has the best chance of over-wintering for any multi-colored mum that you can grow from seed. Grows to 2’ and covered with 2” blooms, several hundred per plant. Color range is broad. Zones 6-9.

- 75 SEEDS - $1.75

**FALL MUM**

*FALL MUM (indicum)*

This version of the dramatically impressive climber presents 2” blooms of pure white.

- 20 SEEDS - $1.75

**FLORIST BLUE BOY**

*FLORIST BLUE BOY (canyus)*

This flower can grow to 3’ tall with hollyhock type spires of double blooms. Colors range in the white and red spectrums. Direct seed in the garden after danger of frost. Shows best when planted in a mass.

- 150 SEEDS - $1.50

**FORSYTHIA**

*FORSYTHIA (indicum)*

This is a standard cleome. A very stately centerpiece in the garden or as a cut flower for large arrangements.

- 25 SEEDS - $1.75

**HARDY GERANIUM**

*HARDY GERANIUM (caryophyllus)*

Known as a cup and saucer vine or cathedral bells, has dramatic flower clusters and strong tendrils to attach to its support. 2” bell shaped flowers drape gracefully from lush foliage. Colors range from a muted mauve to dusty lavender. Grow in a container and bring in for the winter.

- 20 SEEDS - $1.75

**MONASTERY BELLS**

*MONASTERY BELLS (Scandens)*

Zone 9 Mexican perennial grows here as an annual. Known as cup and saucer vine or cathedral bells, has strong tendrils to attach to its support. 2” bell shaped flowers drape gracefully from lush foliage. Colors range from a muted mauve to dusty lavender. Grow in a container and bring in for the winter.

- 20 SEEDS - $1.75

**SPARKLER BLUSH**

*SPARKLER BLUSH (hassleriana)*

The first hybrid cleome, this All America Selection will flower freely all season. Plants are shorter (3 feet), and more refined than standard cleomes. The pink blooms cover the upper third of the plant and blooming continues for an exceptionally long time. Sparkler Blush can be grown in smaller gardens with less space than standard cleomes. A very stately centerpiece in the garden or as a cut flower for large arrangements.

- 10 SEEDS - $2.50

**ALBA**

*ALBA (canyus)*

This version of the dramatically impressive climber presents 2” blooms of pure white.

- 20 SEEDS - $1.75
**FLOWERS**

**COLEUS**

- **85201. MIGHTY MOSAIC** - Unique patterns in reds, greens and yellows
- **85202. LIME DELIGHT** - Vibrant golden lime green **NEW!**
- **85203. WATERMELON** - Vivid pink centers with thick green edges **NEW!**
- **85204. PINEAPPLE SURPRISE** - Splashes of Chartreuse & deep burgundy **NEW!**
- **849. CHOCOLATE MINT** - Dark, chocolatey red with thin light green edging

10 PELLETED SEEDS - **$3.25**

**CONVOLVULUS**

- **62804. ROYAL ENSIGN**
  - **ANNUAL** (Convolvulus tricolor)
  - Beautiful 3” true-blue flowers with a white throat
  - Make this a great addition to the border. Sometimes called dwarf morning glories, convolvulus don’t form true vines but do spread a couple of feet. Grows 8-10”.
  - 35 SEEDS - **$1.75**

**COREOPSIS**

- **728. BABY SUN**
  - **PERENNIAL** (grandiflora)
  - One of the most carefree perennials you can grow, Baby Sun is covered with an abundance of 1 1/2” golden yellow blooms for much of the summer. You will harvest armfuls of golden flowers that are touched by a dark maroon center. Grows 2’ tall and enjoys a sunny spot in the garden. Zones 3-9.
  - 100 SEEDS - **$2.25**

**CYPRESS**

- **81601. Cyprus climber**
  - **ANNUAL** (Ipomoea quamoclit ‘Cardinalis’)
  - Can grow to 20’, with flowers that are 1 1/2” long, funnel-shaped, and vivid scarlet. Leaves are palmate with 7-15 lobes.
  - 30 SEEDS - **$1.75**

- **81603. White cypress vine**
  - **ANNUAL** (Ipomoea quamoclit pennata)
  - Finely cut foliage with white, tubular flowers. Grows over 10’.
  - 30 SEEDS - **$1.75**

FOR COLUMBINE - SEE AQUILEGIA PAGE 63
Start indoors 4-6 weeks before last frost. Sow 1/8” deep. Provide 70°F soil temperatures. Direct sow outdoors after last frost. Sow a few seeds every 6”, thin 12-18” apart. Transplant 12-18” apart. Blooms in 75-90 days. Germ 7-10 days.

621. SENSATION MIX
*ANNUAL* (*bipinnatus*)
Mix of white, pinks and reds. Classic summer flowers have large single blooms 4-6” across on plants 4-5’ tall. Foliage is finely cut, and the plants branch out and bloom profusely and continually.

100 SEEDS - $1.75

62112. PSYCHE MIX
*ANNUAL* (*bipinnatus*)
Semi-double flowers in shades of pinks and whites. Grows 3-4’.

100 SEEDS - $1.75

62101. PURITY
*ANNUAL* (*bipinnatus*)
Pure white. Grows 3-4 feet.

100 SEEDS - $1.75

62103. CARPET MIX
*ANNUAL* (*sulphureus klondyke type*)
Specifically designed for the front of the garden, these cosmos are only a foot tall. The semi-double blooms come in vibrant single shades of lemon, orange, and red and blooms are 1 1/2” across.

30 SEEDS - $1.75

62110. DAYDREAM
*ANNUAL* (*bipinnatus*)
Bi-color 2-3” round blooms feature wide overlapping petals that are white around the edges and fade to a dark pink “eye”. Daydream works very well in masses, by itself or inter planted with other large cosmos. Grows 18-24”.

50 SEEDS - $1.75

62113. SEA SHELL MIX
*ANNUAL* (*bipinnatus*)
Unique tubular petals of these flowers are striking in color and appearance. Blooms seem bi-color as the throats are darker than the outer surface of the petals. 4-5’ tall and bloom constantly. A balance of pinks, white, and reds.

100 SEEDS - $1.75

62114. PICOTEE
*ANNUAL* (*bipinnatus*)
Plants are 4’ tall. The large blooms are white with a deep rose pink picotee edge. Some blooms are also splashed or striped with crimson highlights.

50 SEEDS - $1.75

62118. COSMIC ORANGE
*ANNUAL* (*sulphureus klondyke type*)
All America winner for 2000, dwarf one foot plants that bloom all summer if you keep up with dead-heading. Dependable and simple to grow, works great in borders, cottage gardens, even containers. Grows 12-18”.

30 SEEDS - $1.75

62104. CUP AND SAUCERS MIX
*(WHITE, PINK AND BLUSH, WITH SINGLE, DOUBLE AND SEMI DOUBLE FLOWERS)*
*ANNUAL* (*bipinnatus*)
We hope this variety will dazzle you as much as it did us! First cosmos of its kind with petals that are fused together forming a cup, like a graceful tulip. This was a true standout in our cottage style flower beds, blooming all season, rain or shine. So very lovely in a bouquet. Grows 30-36”

25 SEEDS - $1.95

62106. SONATA MIX DWARF
*ANNUAL* (*bipinnatus*)
Lovely single blooms of the larger cosmos but the plants are under 2’ tall. The mix includes white, carmine red, a rose pink and bicolor with pink edges and carmine at the center.

50 SEEDS - $1.75

62102. YELLOW
*ANNUAL* (*bipinnatus*)
We have been searching for a tall yellow cosmos and finally found it. We can’t wait to share it with our fellow gardeners. Gentle flowers sway in the breeze, tempting birds, butterflies and pollinators alike. We had lots of fun watching the finches dance among the blossoms just outside our door. Grows to 4 feet.

50 SEEDS - $2.50

DOUBLE CLICK SERIES
*ANNUAL* (*Cosmos bipinnatus*)
A radiant new cosmos series highly sought after for cut flower arrangements. Fully double and semi double blooms are a huge hit at farmers markets and beautiful as a backdrop in a flower bed. Blooms slightly later than other cosmos. Grows up to 48”.

62115. CRANBERRIES - Rich cranberry pink

62116. SNOW PUFF - Most are pure white, a few blushed with pink

25 SEEDS - $2.75
DAHLIA

Dahlias are grown for their gorgeous, colorful flowers that bloom from midsummer through autumn. They are stunning in patio containers or flower gardens and start blooming when most perennials begin to fade, offering fantastic late-season color. These dahlias are the large-flowered type, referred to as dinner plate dahlias, and grow to 3-4½’ tall. They require staking to support the tall foliage and large flowers and can be pinched back to produce bushier plants with smaller flowers.

62203. SHOWPIECE MIXTURE
ANNUAL (variabilis)
Rivals plants started from rhizomes. Showpiece is appropriately named, winning numerous awards in the US, UK, and Australia. Double blooms are 3-4” across on 3-4 ½’ plants. Very sturdy stems carry blooms in bright shades of gold, orange, purple, apricot, and numerous variations in the pink-red spectrum. Blooms the first season.
10 SEEDS - $1.95

62210. DOUBLE EXTREME
ANNUAL (variabilis)
Rewarding you with beautiful flowers by mid summer, Dahlias are not difficult to start from seed. Grows quickly, plus you can dig up the tubers and store them for next season. Richly colored blooms in shades of a magical sunset are abundant in this mix. Consistently blooming with double and semi-double flowers in deep rose, burgundy, light pink, yellow and orange blushed with pink edges. 2 ½’ tall.
50 SEEDS - $1.75

622. REDSKIN MIX
ANNUAL (variabilis)
The name derives from the plant’s bronze green foliage. 3” flowers on 20” plants bloom from mid-summer to fall. Excellent cutting flower in colors of white, apricot, yellow, pink and red. Tubers can be dug in fall for use the following year.
50 SEEDS - $1.75

62201. UNWINS DwarF MIX
ANNUAL (variabilis)
This “dwarf” is still over a foot. Flowers are single to semi-double and come in a wide variety of colors—the brick red and crimsons are particularly arresting. Easily grown with very pleasing results.
50 SEEDS - $1.75

Plant in full sun. Plant outdoors after your last frost date. You can pot up dahlia tubers a few weeks early to bring on earlier blooms. Plant tubers so the crown is at or just below the surface. Plant in rich, well-drained soil. For best results, dig up the tubers in the fall, store for the winter, and replant the following spring.

SHIPS MID MARCH THROUGH END OF APRIL

DAISY

DAISIES

Also known as African daisy. The tidy, compact plants bloom all summer, working well in containers or landscape plantings. Easy to sow and grow. These two varieties look beautiful intermingled together at the front of a flower garden.

64009. WHITE WITH PURPLE EYE
64008. LAVENDER SHADES
10 SEEDS - $3.75

Start indoors 6-8 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-75°F soil temperatures. Direct sow after last frost. Transplant after last frost. Germination 11-120 days, Paper Daisy and Cape Daisy blooms in 80-90 days, White Breeze/Crazy Daisy blooms late season first year when started indoors otherwise blooms the second year. Germ 7-14 days.

61001. CAPE DAISY
ANNUAL (Venidium fastuosum)
16-24” tall plants are covered with unusual blooms. White petals with a ring of purple and orange and a blueish black center.
30 SEEDS - $1.75

62504. PAPER DAISY
ANNUAL (Helipterum roseum)
An unusual cut flower with papery petals. Colorful blooms in multiple shades of pink retain good color and form after being dried. Preserve them easily by cutting stems just as the buds open and then hang them upside down in a dark room for a few weeks. Great for crafting and cut flowers. Grows 16-24 inches.
100 SEEDS - $2.25

72603. WHITE BREEZE
PERENNIAL (Leucanthemum superbum)
Petite, first year blooming perennial with classic full-sized snowy white daisy flowers. Only grows to a foot, blooms arrive mid summer the initial season with the following season’s flowers popping out in early summer. Zones 5-9.
50 SEEDS - $1.75

AKILA SERIES (F1 HYBRID)
ANNUAL (Osteospermum)
Also known as African daisy. The tidy, compact plants bloom all summer, working well in containers or landscape plantings. Easy to sow and grow. These two varieties look beautiful intermingled together at the front of a flower garden.
12-14” tall x 12-14” w.

64009. WHITE WITH PURPLE EYE
64008. LAVENDER SHADES
10 SEEDS - $3.75

Start 8-10 weeks before last frost. Cold treat seed by sowing into moist soil or paper towel, wrap in a clear plastic bag and place in refrigerator for 2-3 weeks. Provide 50-55°F soil temperatures. Direct sow outdoors in spring or fall. Transplant 12-18” apart after last frost. Blooms late in the first season when started early indoors, midsummer thereafter. Germ 10-21 days.

72901. CONNECTICUT
YANKEE MIX
PERENNIAL (cultorum)
A shorter variety of delphinium which does not need staking and blooms from seed in the first year. Blooms are in several shades of blue, lavender and white. Connecticut Yankee thrives in full sun to partial shade. Zones 3-9. Grows to 36”.
30 SEEDS - $1.75

72902. SUMMER COLORS DWARF MIX
PERENNIAL (grandiflorum)
The smallest delphinium we have seen, only 1’ tall, but still covered with big, dramatic blooms. The color range includes a mixture of blues, purples, and white. This is the first dwarf white available. An early variety so all plants should flower in the first year and for years thereafter. Zones 3-7.
30 SEEDS - $1.75

620. DAZZLING SUN
8” bright yellow flowers touched with a reddish hue in the center and on the edges of petals.
LIVE TUBER

DH102. DAZZLING SUN
8” bright yellow flowers touched with a reddish hue in the center and on the edges of petals.
LIVE TUBER

DH26. MYSTERY DAY
The unique coloration of Mystery Day is one not to be missed! The decorative Dahlia’s deep red petals with white tips will surely create some contrast in your garden. 6-8” blooms.
LIVE TUBER

DH44. GOGO PEACH
GoGo Peach is a patio Dahlia, meaning it has the benefit of compact growth with all the beautiful blooms. The soft peach color of these 4-6” flowers is a beautiful contrast to the shiny green foliage of the plant.
LIVE TUBER

622. REDSKIN MIX
ANNUAL (variabilis)
The name derives from the plant’s bronze green foliage. 3” flowers on 20” plants bloom from mid-summer to fall. Excellent cutting flower in colors of white, apricot, yellow, pink and red. Tubers can be dug in fall for use the following year.

50 SEEDS - $1.75

72601. CRAZY DAISY
PERENNIAL (Leucanthemum superbum)
Stands out from other shasta daisies because all of the flowers are double and many are triple. Creates a very rounded frilly bloom. Plants are 2’ tall and blooms average 3” across. Zones 5-9.
10 SEEDS - $1.95
73102. FLAVORA ROSE SHADES
PERENNIAL (gratianopolitanus)
Forms a beautiful mound of grey-blue foliage about 10-12” tall. Dark pink, 1 1/2” single flowers are held well above foliage and are quite fragrant. Will bloom first year from seed. Summer bloomer. Zones 4-9.
50 SEEDS - $1.95

855. SILVER FALLS
ANNUAL (repens)
The 3-4’ trailing vines carry many fan shaped, 3/4”, silver leaves. This variety is very heat and drought tolerant. Dichondra is lovely by itself or in conjunction with other flowers, particularly pale pastels.
10 MULTI-SEED PELLETS - $2.95 (4-5 SEEDS PER PELLET)

73106. DOUBLE DYNASTY MIX
PERENNIAL (barbatus interspecific)
One of the prettiest dianthuses we have grown and an adorable cut flower. Fully double flowers in shades of pink, red and white. Well-branched, upright, and strong-stemmed, these plants are excellent in the landscape all season long. Here in Maine, we grow this as an annual but it is a perennial to zone 6.
Grows to 16-20”. Zones 6-9.
25 SEEDS $3.50

73104. DANCING GEISHA
PERENNIAL (repens)
We love unusual looking flowers. If you do too, this is a must-have! We could not resist this lovely Dianthus with exotic, fringed flowers of white, purple, pink and red shades. Flowers first year in garden beds or containers. A distinctive cut flower. Grows from 10”-12”. Zones 5-9.
15 SEEDS $3.50

732. SWEET WILLIAM
BIENNIAL (barbatus)
This familiar biennial features quite large 4” clusters of 1/2” flowers on 18-24” stems. Blooms in June and thereafter, in lots of different colors from white through deep red. Reseeds itself vigorously. The 1936 Vicks Seed catalog describes Sweet William as a favorite of old time gardens, so it has been around a century or more, and remains a personal favorite. Zones 3-9.
80 SEEDS - $1.95

73107. ROSE QUARTZ
PERENNIAL (gratianopolitanus)
First-year flowering dianthus with sweet-scented rose flowers that have a deep rose ring around the center. Summerlong appeal offering a long flowering period, colorful and showy in containers, rock gardens, and borders. Grows to 12”. Zones 4-9.
25 SEEDS - $2.25

62304. VICTORIANA
PERENNIAL (chinensis)
This is quite a large dianthus with plant size going up to 15” and blooms approaching 2” across. The frilly flowers come in a mixture of pink, red, purple, and rose, and all possess a delightful spicy fragrance. Zones 5-9
15 SEEDS - $1.75

737. PURPLE CONEFLOWER
PERENNIAL (purpurea)
GERM 10-15 DAYS
This hardy perennial makes a spectacular display when established. Plants are 40-45” and produce an abundance of bluish purple flowers, 4” across, from July to September. Give them plenty of room as they will spread to create a very striking plant. Zones 3-8.
100 SEEDS - $1.75

73605. GREEN TWISTER
PERENNIAL (purpurea)
GERM 10-21 DAYS
We have been waiting two years to introduce this first year flowering, irresistible echinacea. The petals on each flower have alternating shades of lime mingled with shades of pink creating a unique array of colors on a single plant. Sturdy 3’ tall plants are a natural mutation of the variety Magnus, allowing abundant, ever-changing colors from mid-summer to fall. Zones 3-8.
15 SEEDS $4.95

Follow us on Facebook & join
Rooted: Pinetree Garden Chat
7301. IVORY TOWERS PERENNIAL (Istibus) White blooming version of Joe Pye, first introduced in 2010. Flowers are much fluffer and cloud like than the native type. The flowers first season and blooms toward the late summer each year after. Pollinators adored this tall and proud plant. Grows 4-6 feet. Zones 4-8.
100 SEEDS $1.75

738. JOE PYE WEED PERENNIAL (purpureum) A dramatic background plant that grows to a height of 6’. In the late summer it produces 5-6” clusters of dusty rose blooms. Likes moist soil so it makes a great backdrop to a garden pond and is useful for filling in those low areas. Zones 3-8.
100 SEEDS $1.75

627. VICTORIA LIGHT BLUE ANNUAL (Myosotis sylvatica) This classic wildflower is known throughout much of the world for the shape of the leaf, indeed the Latin name comes from the Greeks for “mouse’s ear”. 1’ tall plants are covered by multiple clusters of five petaled light blue flowers with yellow centers. The blooms are less than an inch across and will appear throughout the summer. This waterside plant thrives on plenty of moisture. The legend is that a knight was picking a saying “forget me not”.
50 SEEDS $1.75

62701. FOXY ANNUAL (Digitalis purpurea) This unique annual foxglove was an All-America Selection in 1967. Flower stalks are 36-38” tall in white, cream, yellow, violet and various shades of red with contrasting spots. Plants set out in May will flower from August till frost — long after the perennial foxgloves have faded — so they can work well interplanted with early blooming annuals that die back (like schizanthus or poppies).
100 SEEDS $1.75

67006. CHINESE ANNUAL (Rehmannia elata) Are you looking for a plant to disperse amongst your shade garden that will add color through the season? Chinese Foxglove’s 2” rosy-pink tubular flowers grow from the 3’ spikes with prolific blooms lasting up to 3 months. Keep this plant deadheaded and growing in rich fertile soil for a continuous display.
200 SEEDS $1.75

734. EXCELSIOR HYBRID BIENNIAL (Digitalis purpurea) This biennial grows 3-5’ tall and does well in part shade. Colors of the stately glomixia-like blooms are white, cream, purple, pink and primrose. Start plants in June for blooms the following June. Self-seeding so a permanent planting is soon established. Zones 4-8.
100 SEEDS $1.75

73401. FERRUGINEA BIENNIAL (Digitalis) This foxglove has very long spikes that are covered with small bell-shaped blooms in a creamy yellow shade flecked with rustly brown. Blooms quite late, and the 4’ plants provide a nice background to the perennial garden in late summer. Dries well. Zones 4-8.
100 SEEDS $1.75

62704. NEW DAY MIX ANNUAL (Trigens) Compact, sturdy, high-quality plants are easy to produce! New Day was bred to deliver larger flowers, shorter peduncles and beeler-looking plants. Drought-tolerant series performs beautifully in containers and baskets, and as a garden edging or ground cover. Well-suited to high-density pack programs. Grows to 10”.
20 SEEDS $1.95

70804. BLANKET FLOWER PERENNIAL (Gaillardia aristata) Richly colored native wildflower with long lasting blooms. Reddish orange petals have yellow tips that surround a red center. Low maintenance, blooming July until the end of summer. Attracts pollinators, drought tolerant and deer resistant. Grows 18-30”. Zones 3-10.
100 SEEDS $2.25

70810. MESA RED PERENNIAL (Gaillardia x grandiflora) Ruby red daisy-like flowers give way to attractive globe-shaped seed heads on compact plants. Easy to grow, holds up well in dry conditions and flowers the first-year when started indoors. Once established it requires little care while putting out non fadding color all season. Grows to 16” by 20”. Zones 5-10.
20 SEEDS $3.75

GERANIUM ANNUAL (Pelargonium hortum) An easy to grow, abundantly blooming, and reliable plant that works well in any hot, sunny location. Use in flower beds, containers, and window boxes. For blooms in the winter season or early spring move a potted-up geranium indoors for winter, place it on a sunny window sill, and then take it back outdoors the following spring.
10 SEEDS $2.25

857. MULTIBLOOM RED - True bright red
85701. MULTIBLOOM SALMON - Salmon pink
85702. MULTIBLOOM WHITE - Pure white
85803. MAVERICK QUICKSILVER - Pale lavendar blue NEW!
85704. MULTIBLOOM MIX - The above colors and more
Plant gladiolus when the soil warms to 60° (soil too cool can cause the bulb to rot). Plant in well drained soil, 3-5" deep allowing 4-6" between each corm. Rows should be 12-36" apart. Need plenty of airflow. Hill the soil 6" up around the stalk to prevent glad from tipping over in the wind. Bulbs are shipped mid-March through April. We request that orders are placed prior to March 15th. After that, stock is limited. Orders received by March 15 are shipped as a first wave, southern states first, then moving north. Orders received after March 15 will be delayed until the first batch of orders is shipped. Sorry, we cannot send Glads to Alaska, Hawaii, or Foreign Countries. Certified to ship to California. Zones 7-10.

958. GLOBE AMARANTH
ANNUAL (globoasa)
Bushy, 2’ plants produce masses of 1”, globe-shaped flowers in shades of pink, purple, and white. Excellent drying flowers do not need to be picked at specific times like strawflowers, but remain beautiful all season and can be picked right before frost.
30 SEEDS - $1.75

959. STRAWBERRY FIELDS
ANNUAL (haageana)
A real highlight of our trials, this very refined gomphrena is a rich strawberry red. 2’ tall plants bloom throughout the summer and creates a wonderful garden display. The abundance of bloom is also a delightful addition to flower arrangements, wreath making, etc.
30 SEEDS - $1.75

70808. HELEN’S FLOWER
PERENNIAL (Helenium autumnale)
A late-season blooming native perennial with upright, clump-forming, branching plants that are abundantly covered in showy yellow disc-shaped flowers. Drawing in native pollinators, its natural habitats include meadows, open wet woodlands, marshes, and wet fields. Also known as autumn sneezeweed, even though the name implies this, it does not make you sneeze. It was used in the past to make a snuff that promoted sneezing. Low maintenance and adaptable, able to grow in full to part sun from average to wet soil. Deer resistant. Grows to 48”. Zones 3-9
500 SEEDS - $1.95

74101. LUNA RED - 5 SEEDS - $3.25
74102. LUNA PINK SWIRL - 5 SEEDS - $3.25
74103. LUNA WHITE - 5 SEEDS - $3.25

745. CREME DE CASSIS
BIENNIAL (Alicia rosea)
The 5’ tall plants are covered with 3” blooms in a lovely black currant shade edged with lighter berry shades. The 5’ tall plants are covered with 3” blooms in a lovely black currant shade edged with lighter berry shades. The plant begins to flower in its first year. Zones 3-8.
15 SEEDS - $1.95

74501. JET BLACK
BIENNIAL (Alicia rosea)
This single hollyhock is about as close as a flower can get to black, a really deep, deep purple, it is very decorative and an excellent counterpoint in arrangements. While technically a biennial, hollyhock plantings last for decades as a result of division and self-seeding. Zones 3-8.
30 SEEDS - $2.50

LUNA SERIES
PERENNIAL (moscheutos)
The improved Luna series hibiscus is hardy to USDA zone 5. In cooler climates they will benefit from some light mulch in the winter. The distinctive trumpet shaped blooms open to a width of 6-8”. The 3’ tall and 2’ wide plants are bushy and effective in borders, hedges, or as single specimen plants. They are expensive but can provide a remarkable experience each year, sort of like when a magnolia tree flowers in the North.

74101. LUNA RED - 5 SEEDS - $3.25
74102. LUNA PINK SWIRL - 5 SEEDS - $3.25
74103. LUNA WHITE - 5 SEEDS - $3.25

GOMPHRENA
ANNUAL
This single hollyhock is about as close as a flower can get to black, a really deep, deep purple, it is very decorative and an excellent counterpoint in arrangements. While technically a biennial, hollyhock plantings last for decades as a result of division and self-seeding. Zones 3-8.
30 SEEDS - $2.50

HIBISCUS
PerENNIAL (moscheutos)
The improved Luna series hibiscus is hardy to USDA zone 5. In cooler climates they will benefit from some light mulch in the winter. The distinctive trumpet shaped blooms open to a width of 6-8”. The 3’ tall and 2’ wide plants are bushy and effective in borders, hedges, or as single specimen plants. They are expensive but can provide a remarkable experience each year, sort of like when a magnolia tree flowers in the North.

74103. LUNA WHITE - 5 SEEDS - $3.25

HOLLYHOCK
BIENNIAL (Alicia rosea)
This single hollyhock is about as close as a flower can get to black, a really deep, deep purple, it is very decorative and an excellent counterpoint in arrangements. While technically a biennial, hollyhock plantings last for decades as a result of division and self-seeding. Zones 3-8.
30 SEEDS - $2.50

GOLDENET E
PERENNIAL
Goldeneye is a little known type of wildflower. Sunsplash is an enhanced version of Goldeneye with light yellow daisy like flowers and a deeper sunny splash is an enhanced version of Goldeneye with light yellow daisy like flowers and a deeper sunny splash. The plant begins to flower in its first year. Zones 3-8.
500 SEEDS - $1.95
**FLOWERS**

**HYACINTH BEAN**

**ANNUAL (Dolichos lablab)**

More vigorous growth habit than the Scarlet Runner Bean, the Hyacinth Bean produces large spiked clusters of bi colored lavender and white flowers which are held out and above the foliage on long, straight stems. Mature pods are a lovely purple and the seeds are an interesting chocolate brown with a white lobe. Warning: The dry seeds of this bean contain cyanoglycosides in toxic amounts. Asian cooks treat the seeds to remove the toxins, but unless you are very familiar with the process, it is best not to eat them. Grow as an annual under zone 9.

12 SEEDS - $1.95

Start indoors 8-10 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-75°F soil temperature. Transplant 6-12" apart after last frost. Sizable seedlings are ready 10-12 weeks after sowing. Germ 3-10 days

**IMPATIENS**

**BEACON SERIES**

**NEW**

Beacon Series impatiens grow stronger and perform longer in gardens, window boxes and hanging baskets than other impatiens. Extensive trialing has proven that the Beacon series has high resistance to IDM (Impatiens downy mildew, a destructive disease that has affected impatiens for over a decade). You can confidently fill in those part sun to shaded locations with these season-lasting vibrant colors. Grows to 14-18" high by 12-14" wide.

86101. WHITE - 25 SEEDS - $2.50
86102. VIOLET SHADE - 25 SEEDS - $2.50
86103. BRIGHT RED - 25 SEEDS - $2.50
86104. CORAL - 25 SEEDS - $2.50
86105. ORANGE - 25 SEEDS - $2.50
86106. MIX - 50 SEEDS - $3.95

**ACCENT SERIES**

**NEW**

Smaller plants than the Beacon series, thriving in climates with short growing seasons where its vigorous growth provides gardeners with full and colorful flower beds even in shaded conditions. Grows 10-12" high by 10-12" wide.

862. ACCENT BURGUNDY - 25 SEEDS - $1.95
863. ACCENT PINK - 25 SEEDS - $1.95
864. ACCENT WHITE - 25 SEEDS - $1.95
86402. ACCENT STAR MIX - 25 SEEDS - $1.95

**POLKA DOT PLANT**

**ANNUAL (Hypoestes phyllostachya)**

Most familiar as a houseplant, the colorful and cheery foliage is also excellent for part-shaded garden borders and containers. Green leaves are spotted and splashed with either pink or white in varying patterns. Easy to grow, add a little color to your indoor space then plant outdoors. Grows 6-12".

25 SEEDS - $2.25
62901. SPLASH SELECT™ WHITE
62902. SPLASH SELECT™ PINK

FLOWERS

748. IRISH MOSS

**PERENNIAL** *(Sagina subulata)*

A charming creeper, forming a mat of soft lime green foliage that begs to be touched and patted. Irresistible tiny white flowers bloom in summer. Excellent in the rock garden or used for filling between stepping stones. Prefers part shade in a light but moist soil. We have planted it under an apple tree where it is spreading happily. Zones 4-8.

25 SEEDS - $1.75

644. SILVER CUP

**ANNUAL** *(triumphetis)*

Also called Tree Mallow. Flowers early and blooms profusely on sturdy, well shaped plants. Pink flowers resemble the wild mallows, but color is more vivid, with dark veins that stand out in nice contrast. Blooms are large, up to 4” across, and plants form multi-branching bushes 2-3’ tall. Blooms profusely.

50 SEEDS - $1.75

FLOWERING KALE & CABBAGES

ANNUAL

This is a new development in ornamental brassicas. The sturdy stems grow to a height of 26”. The bloom really resembles a rose at the height of bloom. These are great in any sort of long lasting arrangement. Used in a Holiday wreath they are just lovely and should last for several months.

63307. FLOWERING KALE – SUNRISE

Creamy white with a pinkish center.

20 SEEDS - $1.75

63308. FLOWERING KALE – SUNSET

Red with green outermost leaves.

20 SEEDS - $1.75

FLOWERING KALE

ANNUAL

Because they are such standouts of the autumn garden, these crucifers work well with mums, improving in color after frost. The distinction between ornamental kale and cabbage is a nebulous one; in fact the grower lists them all as kale. In this country, the smooth leaved, round varieties are referred to as “flowering cabbage” and the fringed leaved varieties as “flowering kale”.

63301. KAMOME RED

FLOWERING CABBAGE

A very deep red with dark green outer leaves, a bit over 1” wide. Plants are dependably uniform.

20 SEEDS - $1.75

63302. KAMOME WHITE

FLOWERING CABBAGE

A dark green circle with a creamy white large center.

20 SEEDS - $1.75

63303. PEACOCK RED

FLOWERING KALE

The feathery, frilly leaves form a much more open head with a serrated red center and green surround.

20 SEEDS - $1.75

63304. PEACOCK WHITE

FLOWERING KALE

The feathery white leaves are centered in the green outer leaves to form a lovely wreath.

20 SEEDS - $1.75

LARKSPUR

ANNUAL *(Delphinium consolida)*

Resembles its perennial cousin the delphinium in bloom but is more delicate. Foliage is quite feathery and light and the colors range from deep blue to pale blue, pink, lilac and white. 3-4’ plants need support if stalks are to grow straight. Fantastic drying flower. To dry, strip leaves, hang in small bunches in a cool dry area. Colors dry vividly and quickly.

60 SEEDS - $1.95

LAVATERA

ANNUAL

**SILVER CUP** *(triumphetis)*

Also called Tree Mallow. Flowers early and blooms profusely on sturdy, well shaped plants. Pink flowers resemble the wild mallows, but color is more vivid, with dark veins that stand out in nice contrast. Blooms are large, up to 4” across, and plants form multi-branching bushes 2-3’ tall. Blooms profusely.

50 SEEDS - $1.75

LOBELIA

ANNUAL *(erinus)*

A classic filler, with airy foliage and delicate flowers; exceptional for hanging baskets, window boxes, rock walls, and containers, gracefully cascading over the edges. Long blooming, performing to the end of the season.

870. SAPPHIRE - rich blue with white eye

100 SEEDS - $1.95

86901. ROSE - deep rose with white eye

15 MULTI-SEED PELLETS - $1.95

LUPINE

PERENNIAL 

**RUSSELL MIXTURE** *(Lupinus polyphyllus)*

Bi-color towers of bloom, in shades of pink, buff, bronze, rust, red and blue on 3’ plants. These gorgeous June bloomers will naturalize without too much trouble. Needs rich soil. Zones 4-7.

754. RUSSELL MIXTURE

PERENNIAL *(Lupinus polyphyllus)*

Bi-color towers of bloom, in shades of pink, buff, bronze, rust, red and blue on 3’ plants. These gorgeous June bloomers will naturalize without too much trouble. Needs rich soil. Zones 4-7.

25 SEEDS - $1.75

805. WILD LUPINE MIX

PERENNIAL *(Lupinus perennis)*

The more refined lupines can be difficult to grow. Not this wild forebearer. Scatter the seeds around, and you will get a nice presentation. Color is primarily shades of blue and purple, but occasionally get some spots with pink or white - mark them and save seed for more variety in your stand. An interesting planting that should last and expand for years. We tossed some in a roadside ditch and have been amazed at how well they’re growing. Zones 4-7.

10OZ (1250 SEEDS) - $4.95

Start indoors 6-8 weeks before last frost. Sow on surface, seeds need light to germinate. Provide 60-70ºF soil temperatures. Direct sow outdoors around last frost date. Sow a few seeds every 12”. Transplant 12-18” apart after last frost. Blooms in 85-95 days. Germ 10-15 days

Start indoors 6-8 weeks before last frost. Sow on surface, seeds need light to germinate. Provide 60-70ºF soil temperatures. Direct sow outdoors around last frost date. Sow a few seeds every 12”. Transplant 12-18” apart after last frost. Blooms in 85-95 days. Germ 10-15 days
Start indoors 6-8 weeks before last frost. Sow on surface and lightly cover seed. Provide 70-75°F soil temperatures. Direct sow outdoors after last frost. Transplant 8-15” apart after last frost. Blooms in 50-70 days. Germ 7-10 days

ANNUAL Versatile flowers easily started from seed indoors or out and continue to bloom right up to a frost. American marigolds are the tallest types with large round flowers; French marigolds run from 5-12” and the flowers can be single, doubles, or crested types; Signet types have feathery foliage and small single flowers.

653. CRACKERJACK AMERICAN-AFRICAN (Tagetes erecta) Every time we grow this variety, we marvel at how favorably the appearance compares to the hybrids, it only lacks their uniformity. Large 3’+ plants produce abundant 5” yellow and gold blooms throughout the summer. 20 SEEDS - $1.75

652. PETITE MIX FRENCH (Tagetes patula) French double petite type with plants 6-12” in height. Colors include gold, orange, and yellow with some bicolors. 20 SEEDS - $1.75

654. SAFARI YELLOW FRENCH (Tagetes patula) Beautiful pale yellow double flowers are 2” across. Plants are 12” tall. Foliage is dark green and is a great contrast with the blooms. A stunning shade that mixes well with any color theme. 20 SEEDS - $1.75

65501. SAFARI RED FRENCH (Tagetes patula) Safari Red is actually an amalgam of many shades of red, mahogany, bronze, and copper. The two constants are that the backs of the petals and all of the centers are yellow. The 10” plants create a varied and striking display. 20 SEEDS - $1.75

65601. MR MAJESTIC FRENCH (Tagetes patula) This unique marigold is significantly different than others. Alternating bands of mahogany and yellow go outward from a yellow center to form a distinct pinwheel of color. 10” plants produce eye catching blossoms all summer. 20 SEEDS - $1.75

65701. BONANZA MIX FRENCH (Tagetes patula) A nice French dwarf mixture, 8” tall. All blooms have the protruding crested “eye”. Colors include a mahogany red with orange center, bright golden orange, yellow flecked with red, and a rich golden yellow. 20 SEEDS - $1.75

65703. FIREBALL FRENCH (Tagetes patula) Many multi-colored blooms on the same plant. The fully double flowers start out a deep red, aging to a rusty orange, closing with a rich golden bronze. The cooler temperatures of spring, early summer and fall allow the most vivid contrast of colors. Grows 10-12 inches. 20 SEEDS - $2.75

GEM SERIES – SIGENT (Tagetes tenuifolia) A profusion of petite single flowers appear on top of the soft and lacy light green foliage. Unlike other types of marigolds, a lovely citrusy scent perfumes the air around them. Beneficial insects are attracted to them, and one of our favorite ways to grow these is to plant 5-7 seedlings in a circle creating a bushy shrub-like appearance. Flower petals are edible and are used to liven up salads and other dishes. Use in beds, borders, and containers. Grows to 12-15”.

64901. LEMON GEM - VIBRANT YELLOW 20 SEEDS - $1.75
64902. ORANGE GEM - BRIGHT ORANGE NEW! 20 SEEDS - $1.75
64903. RED GEM - MAROON RED NEW! 20 SEEDS - $1.75

MALVA

756. ZEBRINA PERENNIAL (sylvestris) HEIRLOOM A fascinating heirloom cottage garden plant with lavender-pink petals overlaid with deep maroon veins. This striking, out of the ordinary plant grows to 3-4’ and is long blooming. Zones 5-8.
25 SEEDS - $1.50

75601. SNOW WHITE PERENNIAL (moschata) Short and sweet describes this little plant perfectly. Iridescent silver-white flowers float over the foliage, blooming the first season, growing to 16 inches. A good way to get a mass of flowers in the first year would be to plant 5-7 seedlings, spread evenly out, in a foot diameter circle, creating a full grown, established look. Zones 5-8.
50 SEEDS - $1.50

MARIGOLDS

48303. MEXICAN MINT MARIGOLD (Tagetes lucida) An ancient herb that goes by many names including Texas tarragon, false or Mexican tarragon and yerba anise. A great culinary stand in with recipes calling for tarragon. A tidy upright bush growing up to 24”, covered with clusters of golden yellow flowers in late summer. Flowers and foliage have slight anise or licorice like flavor. Low maintenance plant.
50 SEEDS - $1.95

65502. MARVEL YELLOW (Tagetes erecta) Large, bright cheerful flowers, low maintenance, drought-tolerant, and easy to grow! The replacement variety for First Lady. The perfect addition for a sunny spot in flower beds or vegetable gardens alike. An outstanding pollinator with sturdy stems for cut flowers. Grows to 18”.
20 SEEDS - $2.50
### MEXICAN HAT CONEFLOWER

**PERENNIAL (Ratibida columnifera)**

Large elongated center starts off green turning to a brownish red. The crown of the hat is surrounded by mahogany, fringed with yellow petals that turn down and become the hat brim. Zones 3-10.

**FOR MILKWEED: SEE ASCLEPIAS, PAGE 63**

Start indoors 4-6 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 65-70°F soil temperatures. Direct sow outdoors early spring or fall. Transplant 12” apart after last frost. Blooms in the second season. Germ 7-42 days

### MORNING GLORIES

#### MINA LOBATA

**ANNUAL (Ipomoea lobata)**

Vigorous and radiant flowering vine. Grown in our climate as an annual, easily climbs over 10’, covered with red-tinged, three-lobed leaves which look like upside-down fleur-de-lis. Unusual and colorful blooms are festooned in linear clusters of 6 or more on arching stems, and change color as they enlarge and open from crimson red to yellow-orange to creamy yellow. Sunny but sheltered spot, providing good support, with rich, light, moist soil.

20 SEEDS - $1.75

#### MORNIG GLORIES

#### CAMEO ELEGANCE

This strong climber, to 7’, has the new star shaped flower where each of the five petals is more clearly defined. The bright magenta pink flowers are creamy white throated. This unique morning glory is a Flieuro Select winner.

20 SEEDS - $1.50

#### SPLIT PERSONALITY

This legendary heirloom morning glory originated in Bavaria and was brought to the US by John Ott. The very vigorous vines grow to 15’ in length and exceptionally large blooms are a deep purple with a red star. Reseeds readily.

20 SEEDS - $1.50

#### GRANDPA OTT’S

This strong climber, to 7’, has the new star shaped flower where each of the five petals is more clearly defined. The bright magenta pink flowers are creamy white throated. This unique morning glory is a Flieuro Select winner.

20 SEEDS - $1.50

#### CHOCOLATE

The strong, long vines carry good sized blooms that are deep violet with a cerise star. A very dark morning glory.

20 SEEDS - $2.95

#### KNOWLIANS BLACK

Unique color and the blooms are absolutely huge, perhaps the largest ipomea that we have seen. The variegated foliage is also unusual. The color is a dusty rose, about as close to chocolate as you can get.

20 SEEDS - $2.95

#### RUFFLED PINK

Loosely ruffled and frayed shell pink blooms. Petals have deeper pink in the middle with a throat of pure white. Flowers arrive in double, semi double with some singles. Grows to 5-8’.

20 SEEDS - $1.50

#### CAMEO ELEGANCE

Delightfully variegated leaves of light green and blooms that are brilliant rose-red with a prominent white throat. Not just for climbing, Cameo Elegance is a better choice for container growing or hanging baskets than other Ipomea. Vines grow to 10’.

20 SEEDS - $2.25

---

Follow us on Instagram! @pinetree_garden_seeds
**Nasturtiums**

Start indoors 2-4 weeks before last frost. Soak seed overnight. Sow 1-2" deep. Provide 60-65°F soil temperatures. Direct sow outdoors after last frost, space seeds 8-10" apart. Annual. Sow outdoors after last frost. Sow on surface and lightly cover seed. Provide 65-70°F soil temperatures. Space a few seeds every 2-6".

**Monarda**

Start indoors 6-10 weeks before last frost. Lightly cover seed. Provide 60-70°F soil temperatures. Direct sow outdoors in mid spring. Transplant after last frost. Annual. Blooms in 90-100 days. Perennial: blooms late season first year when started early indoors otherwise blooms the second year. Germ 15-21 days

---

**FLOWERS**

- **75702. PANORAMA MIX**
  PERENNIAL *(Monarda didyma)*
  The most true-to-type monarda to grow from seed. Sturdy 36-48" plants carry blooms in many shades of scarlet, bright red, pink, salmon, and crimson. Makes a good cut flower. Near legendary for its ability to attract bees and hummingbirds. Leaves and flowers also make a nice tea. Zones 4-9.
  100 SEEDS - $2.95

- **65003. LEMON MINT**
  ANNUAL *(Monarda citriodora)*
  A real eye-catcher in trials. Plants are over 3' tall and attractive. In mid-summer, swirls of pink to lavender blooms appear at the top of the plant and eventually cover much of the stem. Excellent bee plant, and makes delicious herbal teas.
  100 SEEDS - $1.75

- **96402. DELFT BLUE**
  ANNUAL *(Nigella papillosa)*
  Distinctive violet-blue streaks on snowy white petals. A well loved cottage flower named for the famous Dutch Delft blue pottery. Easy to grow, the fresh flowers and unusual dried seed pods make outstanding cut flowers. Grows 18-24".
  100 SEEDS - $2.95

- **964. PERSIAN JEWELS**
  ANNUAL *(Nigella damascena)*
  Love in a mist. Large blooms in shades of blue, pink and white on 1' plants, with delicate ferny foliage. A well-known annual, the flowers are airy and showy, surrounded by a lacy shroud of greenery. As an everlasting, this is prized for its large balloon-like seedpods that are dried and used in arrangements.
  100 SEEDS - $1.50

- **66204. GLEAM MIX**
  *(Tropaeolum majus)*
  Recommended for most hanging baskets and moderate spreading. Vines are substantially longer than jewel but much shorter than the tall climbing single. Offers a particularly nice color selection with all the shades you expect from nasturtiums and a few more. The original strain of this variety was discovered in a Mexican convent garden in the 20's, and became a sensation with seeds selling for 5 cents apiece in the midst of the Depression. Grows 36-48".
  30 SEEDS - $1.75

- **66219. BLOODY MARY**
  *(Tropaeolum minus)*
  Flowers come in a blend of colors in varying shades and patterns of dark red, orange, soft yellow, and cream. Foliage is blue-green to medium green and consists of mounding and trailing types. Grows to 16-36".
  30 SEEDS - $2.95

- **66218. DOUBLE DELIGHT CREAM**
  *(Tropaeolum majus)*
  Light yellow petals form semi-double to double flowers. We pick this variety because of its deeper shaded yellow flowers and mounding foliage, whereas, Moonlight our other yellow nasturtium exhibits a lighter shade of yellow, more on the cream side, and a spreading habit.
  30 SEEDS - $2.25

- **66201. JEWEL MIX**
  *(Tropaeolum minus)*
  Extremely vigorous and mounds up to 16" in height. Blooms come in a variety of colors including yellow, red, orange, mahogany, and rose. Bush habit, non-trailing type that holds its blooms well above the attractive foliage. Developed by Denholm seeds in the late 60's.
  30 SEEDS - $1.75

- **66202. TALL CLIMBING SINGLE MIX**
  *(Tropaeolum majus)*
  A favorite place to visit is the Gardner Museum in Boston to see the old-fashioned nasturtium baskets trailing their vines some fifty feet to the ground. This is the variety you must use to create such baskets. Vines will trail as far as they are able. Includes red, gold, yellow, mahogany, and orange. It does best if the soil is not too fertile. We see growth of about 4’ in one of our short summers.
  30 SEEDS - $1.75

- **66205. ALASKA MIX**
  *(Tropaeolum majus)*
  The variegated foliage, green with white streaks, is the outstanding feature of this variety. This adds another dimension to the standard nasturtium. Blooms are in the normal range of colors. Growth habit is fairly compact, 10-12". A showy and unique variety.
  30 SEEDS - $1.75

- **66206. VESUVIUS**
  *(Tropaeolum majus)*
  Salmon pink blooms are graciously surrounded by dark green foliage that is silhouetted with red. Magnificent anywhere. A great choice for window boxes or containers. Grows to 12".
  30 SEEDS - $1.75

- **66208. WHIRLYBIRD CHOICE MIX**
  *(Tropaeolum majus)*
  Spurless single flowers held high above compact foliage make this excellent for the window box or the salad bowl. A non-trailing type with a full range of colors, rose, orange, cream, and gold. Grows 14-16".
  30 SEEDS - $1.75

- **66209. MOONLIGHT**
  *(Tropaeolum majus)*
  Pale creamy yellow flowers are held above foliage of light green. Will create a nice edging for a moon garden. Garnish your favorite salad with this tangy morsel. Grows to 5’.
  30 SEEDS - $1.75

- **66210. EMPRESS OF INDIA**
  *(Tropaeolum nanum)*
  The vigorously growing plants feature attractive and tasty leaves of a very dark bluish green growing as tall as a foot. They carry large 2" blooms in shades of red ranging from dark ruby to a fiery red.
  30 SEEDS - $1.75

- **66211. PEACH MELBA**
  *(Tropaeolum nanum)*
  An exceptionally early variety that will continue flowering until frost. The 10-12” plant holds aloft large creamy colored blossoms with a dramatic raspberry splash in the center of each flower.
  30 SEEDS - $1.95
66212. BLACK VELVET
(Tropaeolum minus)
As the name implies this variety is covered with velvety red-black flowers carried on dark blue-green foliage. The vine length is shorter than other nasturtiums, only 12". Ideal for small beds and containers.
30 SEEDS - $1.75

66216. LADYBIRD CREAM
PURPLE SPOT (Tropaeolum majus)
This should prove to be a very interesting Tropaeolum (what they call nasturtiums in the rest of the world). The Dutch grower came out with Ladybird, a bright yellow with red markings in 1999. This one followed in 2009. The color is more of a cream with purple spots on bushy compact plants. Grows to 12".
30 SEEDS - $1.75

66215. OUT OF AFRICA
(Tropaeolum majus)
The vigorous, variegated foliage is spreading and covered with blooms in a variety of colors. A single spur type. Grows to 4'.
30 SEEDS - $1.75

66217. TIP TOP APRICOT
(Tropaeolum majus)
Dense mounds of foliage with lovely flowers in multiple hues of apricot. The petals have a darker veining with a deeply shaded throat. A tidy plant great for borders, bedding, and containers. Grows 10-12".
30 SEEDS - $1.75

66214. KING THEODORE
(Tropaeolum minus)
Flowers are a very bright mahogany red and held above bushy, 12” plants with a dramatically dark green foliage.
30 SEEDS - $1.75

813. CANARY CREEPER
ANNUAL (Tropaeolum peregrinum)
GERM 9-18 DAYS
This flowering vine has rounded, lobed leaves that are exotic and tropical. Climbs, spreads, and covers well, making a lush screen or canopy. Flowers are canary-yellow with tiny red splashes, made even more striking by the open “mouth” and curled, pointed tail which float below two flared, fan-like “wings.” South American native. Grown as an annual under zone 9.
30 SEEDS - $1.75

664. SENSATION MIX
ANNUAL (sylvestris)
This plant is two to three feet tall and covered with blooms of crimson, bright pink, and white. Sweetly scented in the evenings, the trumpet shaped flowers are something of a sensation.
100 SEEDS - $1.75

984. BUNNY TAIL GRASS
ANNUAL (Lagurus ovatus)
A sought after grass for dried arrangements. 1-2” fuzzy heads, compact 12” clumps are a great addition to any garden, and have winter interest as well.
50 SEEDS - $1.95

99004. BLACK TIP WHEAT
ANNUAL (Triticum durum)
Decorative white glumes coordinated with long black bristles or awns create a visual and textural wonder. Attractive for fresh or dried arrangements. Very easy to grow. Grows to 36”.
100 SEEDS $2.50

Rooted: Pinetree Garden Chat

663. MARSHMALLOWS
ANNUAL (nichotiana)
An interesting cultivar as each flower fades giving the effect of three colors on individual plants. Masses of rosy red, pink, and white ever changing, sweetly scented tubular flowers are poised above the wiry stalks with a gracefulness that only nicotiana can provide in the garden.
100 SEEDS - $1.75

66301. ONLY THE LONELY
ANNUAL (sylvestris)
The tallest, largest flowering nicotiana. Give it lots of room in the back of beds. By mid-summer, stalks as thick as your finger shoot up 4 to 4 1/2’ with enormous clusters of pendulous white blooms. These 4” trumpets bloom all summer, and their evening fragrance is very intoxicating.
100 SEEDS - $1.75

985. ORNAMENTAL MILLET -
PURPLE MAJESTY
ANNUAL (Pennisetum glaucum)
Designated as an All America Selection for 2003. 4-5’, deep purple, corn-like foliage is truly distinguished as a background plant. When mature, plants put up a purple seed head nearly 1’ tall and 1” around.
10 SEEDS - $3.25

983. LIVE WIRE GRASS
ANNUAL (Isolepis)
An interesting grass with fine leaves capped by a small round seed head that makes each clump of grass look like a fiber optic lamp.
10 SEEDS - $1.95
FLOWERS

98501. ORNAMENTAL MILLET - JESTER
ANNUAL (Pennisetum glaucum)
From the grower of Purple Majesty, Jester has a denser growth habit and the leaves change from a chartreuse shade to a deep burgundy as they mature. Plants grow about 42” high and can be container grown.
10 SEEDS - $2.95

987. BROOM CORN - MIXED
ANNUAL (Sorghum vulgare)
Broom corn is the source of natural straw fibers for brooms. Large, splayed seed heads form at the top of tall, corn-like stalks. Cut stalks and seed heads when mature for use in dried arrangements or crafts. More than 20 varieties in this mixture. Colors are red, black, brown, and natural.
50 SEEDS - $1.95

ORNAMENTAL ORGANO

64007. KIRIGAMI
PERENNIAL (Origanum x hybrida)
Intriguing non culinary oregano that has densely textured mounds of drooping hop-like flowers in soft tones of sage green, dusty pink and purple, changing with different light exposure. Kirigami is decorative in patio containers, hanging baskets, and window boxes, were its eye catching appearance can be consumed all season. Grows to 10”H x 12-14”W. Zones 5-8. PVP
10 SEEDS $1.95

ORNAMENTAL PEPPER

89101. BLACK PEARL
ANNUAL
The first of its kind for ornamental peppers and an All America Selection winner in 2006. Compact plants have semi-glossy, dark purple to true black leaves with pearl- like, bubbly clusters of 1/2” fruits that start out shiny black, eventually maturing to red. A vibrant, unique accent to a bedding or container garden. Peppers are edible but very hot. Grows to 16”-20”
5 SEEDS - $1.95

ORNAMENTAL GRASSES

760. SWISS GIANTS FORMULA MIX
PERENNIAL (Viola x wittrockiana)
The old ‘tried and true’ standard. Colors are vivid with a range that is very broad including shades of red, blue, yellow, orange, white, black and some bi-colors. Flowers are clear, blotched, or whiskered. Zones 6-10.
25 SEEDS - $1.50

COOL WAVE SERIES

763. BERRIES 'N CREAM MIX
76301. PASTEL MIX
PERENNIAL (Viola x wittrockiana)
Tumbling waves of foliage, superior blooms fill out quickly, trailing to 2’+, attractive as a ground cover or in containers, lasts all season long. Incredibly fragrant. This variety has been around since 1940 and holds true to being the best double red peony. Sold as a single 3-5 eye tuber. Zones 4-9.
1 root - $9.95
2 or more roots- $17.95 each

ITOH PEONY

PEO9. SCARLET HEAVEN
(Paeonia x)
Beautifully contrasting large deep scarlet flowers with golden colored centers. Produces many blooms each season spreading from late spring to mid summer. Itoh peonies are a cross between a tree peony and a herbaceous peony. Once established, this hybrid can produce over 50 blossoms for up to 4-5 weeks, (herbaceous varieties are in flower for 7-10 days). Does not require staking and is deer and rabbit resistant. Sold as a single 3-5 eye tuber. Zones 4-9.
1 root - $49.95

GROW IN FULL SUN. PLANT IN Average, well drained soil amended with compost. Dig a hole twice as deep and twice as wide as your root. Place root with the eyes facing up placing it within 1-2” of the soil surface. DO NOT plant too deep.

SHIPS MID-MARCH THROUGH END OF APRIL

HERBACEOUS PEONY

PEO8. KANSAS
(Paeonia lactiflora)
Large deep fushia-red double blooms on hearty stems, Kansas is an early to mid season bloomer and very fragrant. This variety has been around since 1940 and holds true to being the best double red peony. Sold as a single 3-5 eye tuber. Zones 4-8.

GRAFFITI

ANNUAL (Lanceolata)
Pentas are absolutely perfect for the front edge of a flower garden or in containers. Colorful clusters of star shaped blooms are set just above the shiny compact foliage, producing non-stop color throughout the season. Uniform, 12-15” plants are heat and drought tolerant.

10 PELLETED SEEDS - $2.95

FLOWERS

83304 83205 83202
62501. CALIFORNIA BLUEBELLS
ANNUAL (Phacelia campanularia)
Alluring cobalt blue bell-shaped flowers are a lively addition to the garden space. This native wildflower of the Californian desert is easy to grow, drought-tolerant, and adaptable to other types of climates and soil. Grow this charming flower in the vegetable garden snuggled between the veggies where it lures in the pollinators.
Self-seeds. Grows to 10-18”.
300 SEEDS - $1.95

66809. BREADSEED PINETREE MIX
ANNUAL (Papaver somniferum)
The 3’ tall plants with blue-green foliage carry an abundance of lovely 3” papery blooms in shades of purple, dark pink, and light pink. Some are double and some are single. The seed pods that follow the blooms can be as big as golf balls and provide a bounty of brown poppy seeds for use in baking.
100 SEEDS - $1.75

ANNUAL
Start indoors 8-10 weeks before last frost. Sow on surface and press into soil, seeds need light to germinate. Provide 70-80°F soil temperatures. Transplant 1-2’ apart after last frost. Direct sowing outdoors not recommended.
Blooms in 90-100 days. Germ 10-21 days.

WAVE SERIES (hybrida)
Fill out your next hanging basket with flowing waves of blooms. The wave series set the standard for petunias used in landscaping. Plants display a care-free low-growing spreading habit that can be used in any sunny setting. Lush foliage and profuse runners make it well-suited for ground cover, rock gardens, containers, and hanging baskets. The 2”-3” blooms cover the plants from late June till hard frost. Spreads to 48”.
10 PELLETED SEEDS - $3.50
83302. PURPLE WAVE - AAS winner, radiant fuchsia-hued purple
83302. BLUE WAVE - AAS winner, purplish blue

EASY WAVE SERIES (hybrida)
Blooms are a clear, clean white. Vigorous grower and a single plant will quickly fill a 10” basket. By season’s end the vines are hanging more than 2’. Blooms freely all season.
10 PELLETED SEEDS - $3.50
83201. WHITE - Clear, clean white
83202. RED - Deep red
83304. YELLOW - Butter yellow
83205. LAVENDER SKY BLUE - Lavendar that lightens to silver blue NEW!

83301. TIDAL WAVE SILVER (hybrida)
Silvery white blooms with dark purple centers are truly distinctive, highlighted by deep purple veins and a pleasant aroma in the evening. An All American Selection for 2002. They can grow to a height of 3’ if provided with a trellis. Neither pinching nor pruning is required to produce flowers all season.
10 PELLETED SEEDS - $3.50

836. HURRAH MIX (multiflora)
A mixture that will allow you to grow a lot of the wonderful varieties you see at garden centers in the spring. This mix from prestigious California grower, Goldsmith, offers a little bit of everything. Highlights are a dramatic plum, lavender tie dye, reds, and blues, a lovely veined blue, a delicate salmon, a pristine ultra white, and velvet, as well as star types.
25 SEEDS - $2.25

PIROUETTE SERIES (hybrida)
We were really impressed by their super puffy, double bi-color blooms. They really struck our fancy. They perform well in a basket although quite tall, 15”, and erect. The blend of the white and the darker color is perfect, about 25% white so it is more than fringed.
25 SEEDS - $2.25
83103. RED PIROUETTE - Red and White
83102. ROSE PIROUETTE - Rose and White

Shop online at www.superseeds.com!
FLOWERS

668. CALIFORNIA POPPY
ANNUAL (Eschscholzia californica)
This is the true California poppy with 2" arancia orange flowers exclusively. 14-16" foliage is silverish blue and lacy, with plants 1' tall. Flowers close at night and open in the morning. Blooming is profuse, then regains its strength strongly a second time.
100 SEEDS - $1.50

66814. DANISH FLAG
ANNUAL (Papaver somniferum)
The sharp contrasting colors of scarlet red and white are stunning in mass plantings. Petal edges are fringed and surround a white center in the shape of a cross. This heirloom flower has its name named because the color arrangement appears like the Danish flag. After the petals drop the seed pods have their own appeal in the garden and when dried they make a great addition to floral decorations.
100 SEEDS - $1.95

76201. FRUIT PUNCH
PERENNIAL (Papaver orientale)
The strong, upright 24" plants produce dramatic 5" blooms in shades of red, bright pink, pink, orange, and even an unusual plum. Blooms are ruffled and centers are dark. Zones 4-8.
50 SEEDS - $1.75

66803. FIELD POPPY
ANNUAL (Papaver rhoeas)
Also known as Corn Poppy or Flanders' Poppy. Bright and showy 2 1/2" scarlet blooms on hairy nodding buds create a lovely display in early summer. Plants are 2-3" tall with feathery foliage.
100 SEEDS - $1.50

66804. SHIRLEY DOUBLE MIXED
ANNUAL (Papaver rhoeas)
2' high plants carry a multitude of salmon, scarlet, rose, pink, and white, double flowers, many over 4" across.
100 SEEDS - $1.50

66702. HAPPY TRAILS MIX
ANNUAL (Portulaca grandiflora)
The most striking array of colors available with large, 1 1/2" - 2 1/4" inch, semi-double blooms. Cascading plants can be used in containers, hanging baskets or as a ground cover. A good choice for dry, sunny areas. Grows to 6-9". Space 12-16" apart to create a brilliant mat or border.
100 SEEDS - $2.75

777. TOTO RUSTIC COLORS
PERENNIAL (Gloriosa Daisy)
Colors range from yellow and orange to brown and mahogany as well as mixes. They make a very dramatic back-drop in burnished, autumnal tones. No two are alike. Great as cut flowers. 3" flowers on 2' plants. Zones 5-9.
20 SEEDS - $2.75

77712. CHERRY BRANDY
PERENNIAL
The dramatic cherry red flowers vary; some have a dark burgundy ring around the chocolate brown center, while others are all red. This is the first ever reddish rudbeckia available from seed and makes a spectacular display in a garden. Zones 5-9.
20 SEEDS - $1.75

77702. INDIAN SUMMER
PERENNIAL
Compact, multi-branching, and prolific producer of huge, colorful blooms. The largest, most astonishing Black-eyed Susans you'll ever see. Grow them as an annual, starting them indoors in April, transplanting when the soil is warm, and there will be 26-30" plants with 5-8" flowers from mid-August through the first few frosts. Golden yellow blossoms with chocolate-brown centers. Zones 4-9.
50 SEEDS - $1.75

77705. PRAIRIE SUN
PERENNIAL
An AAS winner for 2002, this blend of autumnal shades, (yellow, orange, bronze, and mahogany) provides wonderful sunset tones. Flowers range from 3-1 1/2" across, are double or semi-double, and long lasting as cut flowers. Plants are 24-30" tall, spreading to about a foot. Cherokee Sunset will flower profusely in the first year. Zones 5-9.
10 SEEDS - $2.25

77704. CHEROKEE SUNSET
PERENNIAL
An AAS winner for 2002, this blend of autumnal shades, (yellow, orange, bronze, and mahogany) provides wonderful sunset tones. Flowers range from 3-1 1/2" across, are double or semi-double, and long lasting as cut flowers. Plants are 24-30" tall, spreading to about a foot. Cherokee Sunset will flower profusely in the first year. Zones 5-9.
20 SEEDS - $1.75

77706. AUTUMN COLORS
PERENNIAL
The vivid play of fall colors – bronze petals, red rings, and rusty red centers creates an attractive contrast to the light and golden yellow sister varieties in this mix. 2' plants, covered with 5" blooms make dramatic bedding plants. Zones 5-9.
20 SEEDS - $3.95
**671. BONFIRE**
*ANNUAL* (splendens)
This variety blooms from July until the first frost on plants that often exceed 2’ in height. Extremely impressive when planted in beds. If you want constant scarlet color, this is the plant for you.

50 SEEDS - $1.75

---

**67105. PATIO DEEP BLUE**
*ANNUAL* (Salvia patens)
Pure gentian blue flowers are rare and eye-catching in flower gardens. This salvia, also known as Gentian Sage, throws out 14-16” spikes of blue the entire season. We enjoyed the lovely bouquets they made for us this summer. Perennial, grown as an annual in zones 7 and below.

20 SEEDS - $4.50

---

**70806. SCARLET SAGE**
*TENDER PERENNIAL* (Salvia coccinea)
Fiery red spikes attract butterflies, hummingbirds and other pollinators. A southern native wildflower that can take on hot, dry summers with grace. Flowers continuously from mid summer into fall. Dramatic plants grow 24-36 inches tall, covered with flashy scarlet blossoms. Blooms first year from seed for us northerners. A perennial in zones 8-10. Naturalizes in most areas.

100 SEEDS - $2.25

---

**672. ROYALE MIX**
*ANNUAL*
Also known as “Velvet Flower” or “Painted Tongue”. A beautiful, unusual flower with blooms that are funnel shaped and velvety in appearance. Superior in handling the stresses of weather changes, blooming for the entire season. Plants reach up to 2’1/2” and are multi-branching. Rich hues of purple, mahogany, chocolate red, golden yellow and scarlet are common, most with veins of yellow and contrasting colors. 2” blooms.

20 PELLETED SEEDS - $1.95

---

**673. ROCKET MIX**
*ANNUAL* (Antirrhinum majus)
This is a mixture of many varieties of different colors, sizes, and bloom times so it should produce flowers from June through August. The succulent foliage is drought tolerant and versatile in rock, border, container and roof top gardens. Hardy to zone 5.

100 SEEDS - $1.95

---

**675. MAGIC CARPET MIX**
*ANNUAL* (Antirrhinum majus)
7-8” plants produce a wide variety of colors, including reds, pinks, whites, and a host of others. This dwarf variety is quite early to flower and makes an ideal addition to any border or rock garden.

100 SEEDS - $1.50

---

**676. TALL DELUXE MIX**
*ANNUAL* (Antirrhinum majus)
Plants exceed 2’ in height, and this mixture includes virtually all the colors of the rainbow. Lovely, stately plants are ideal for the background in any border, and make terrific cut flowers for large arrangements.

100 SEEDS - $1.75

---

**677. MAGIC LANTERNS**
*ANNUAL* (Antirrhinum pendula)
Beautiful 12-18” tall plants carry blooms of pastel colors and bi-colors. One bi-color was a glorious magenta on white while another was a ‘butter and eggs’ color. Makes a great cut flower for a long lasting indoor bouquet.

100 SEEDS - $1.75

---

**678. MAGIC LANTERNS**
*ANNUAL* (Antirrhinum pendula)
Specificially bred to be both trailing and self branching so the drama just keeps expanding. Colors include oranges, pinks, roses, whites, yellows, and bi-colors in the most amazing combinations.

10 SEEDS - $1.95

---

**679. BLACK PRINCE**
*ANNUAL* (Antirrhinum majus)
Early season, the foliage stands out, a dark green with reddish maroon overlay. Blooms are stunning — a dark velvet crimson, one of the richest, warmest colors I’ve seen. Relatively tall (16-18”) and large flowered, Black Prince is easy to grow and simply astounding with other intense colors like lobelia.

100 SEEDS - $1.50

---

**680. ROCKET MIX**
*ANNUAL* (Antirrhinum majus)
Is there a more impressive flower than a big, tall snapdragon? Rocket is the class act for 2 1/2-3’ snaps. Indeed most, if not all, of these varieties were All-America winners. Bloom itself is very bushy and the more you cut them, the more spikes they produce. Bloom until the end of summer.

50 SEEDS - $1.75
FLOWERS

**STATICE**
ANNUAL (*Limonium sinuata*)
A mainstay of traditional flower arrangements. It is easy to grow and comes in a wide range of colors. Grow to 30”, Harvest when blossoms have fully opened, either for fresh bouquets or for drying. Harvest often to encourage blooming.

25 SEEDS - $1.75

970. MIXTURE
97002. GOLD COAST - yellow shades
97003. HEAVENLY BLUE - clear sky blue
97004. ICEBERG - pure white
97005. MIDNIGHT BLUE - dark blue
97006. APRICOT SHADES - lovely apricot
97007. ROSELIGHT - light rose
97009. TWILIGHT LAVENDER - soft lavender

**STOCKS**
ANNUAL
Branched 1 1/2’ plants have gray-green leaves and 1” star shaped flowers of very pale violet. Blooms are tightly closed all day but open at dusk to pour out a fantastic spicy fragrance. Start early indoors and plants will do well. Shades include white, pink, and violet.

70 SEEDS - $1.50

65801. EVENING STOCK
ANNUAL (*Matthiola bicornis*)
Branched 1 1/2’ plants have gray-green leaves and 1” star shaped flowers of very pale violet. Blooms are tightly closed all day but open at dusk to pour out a fantastic spicy fragrance. Start early indoors and plants will do well. Shades include white, pink, and violet.

100 SEEDS - $1.50

**SUNFLOWERS**
ANNUAL (*Helianthus annuus*)
Most of us think of the large Russian-type as the only sunflower, but Italian and Asian growers have many other types available. We’ve looked at dozens in our trials and selected the following for home gardeners. They make a dramatic and unique addition to borders and are being used more and more as wonderful cut flowers.

67708. STRAWBERRY BLONDE (F1)
Petals have varying shades of burgundy and pink encircling the dark centers with ivory to pale yellow tips. These eye-catching sunflowers are absolutely beautiful in bouquets. Strong and long stems on 3-6 foot branching plants. Daylength neutral and pollenless.

20 SEEDS - $2.75

67731. TEDDY BEAR
Fully double, radiant yellow blooms reach a height of 40 inches. The fuzzy appearance and height make it appealing for kids to grow. Thrives in containers or the garden. Branching.

20 SEEDS - $2.25

67733. CHOCOLATE
The deepest color we have seen for a sunflower. Dark chocolate colored heads are a handsome contrast in the midst of all the other sunflowers. Grows to 60”.

20 SEEDS - $2.95

67725. ITALIAN WHITE
An heirloom with creamy white blossoms and dark chocolate centers. A soft yellow ringlet divides the center from the petals. Sturdy and multi-branching, it creates a sensational backdrop. Grows up to 6’.

20 SEEDS - $1.75

677. SUNFLOWER MIX
A phenomenal mix of open pollinated sunflowers. Tall and short as well as single and double varieties. Everything to delight you and all of your garden pollinators.

100 SEEDS - $2.95

67713. MONET’s PALETTE MIXTURE (F1)
A beautiful mixture of yellows and reds, roses and creams, all pastels, a bouquet does resemble a watercolor painting. 6’ plants grow vigorously and are covered with blooms for close to a month. The long branches are ideal for cutting and the flowers are pollen free.

20 SEEDS - $1.95

67728. SKYSCRAPER
Reaching for the sky and soaring over the landscape with stalks growing over 12’ high with 10-12” heads. When the bright yellow flowers fade you can harvest the edible seeds for you and the birds.

20 SEEDS - $1.75

67721. BLACK RUSSIAN
Plants can be 12-15’ tall and blooms are 8” across. Petals are bright golden yellow and centers can be quite dark or quite light. Seeds are black and striped. A good planting for the birds.

20 SEEDS - $1.50

67701. AUTUMN BEAUTY
Six foot slender stalks are covered with 5” blooms in a range of colors you don’t normally associate with sunflowers, from light cream to a deep mahogany with many bi-colors. They begin flowering in July but are truly beautiful in autumn.

20 SEEDS - $1.50

67703. MOULIN ROUGE (F1)
A pollen-free sunflower that grows to a height of 4-6’. Extremely dark in color, the burgundy red petals become almost black close to the disc, a unique focal point in any garden. Flowers are quite large, 6-8” across and stems are long enough for cutting. Branching.

20 SEEDS - $1.95

**Shop online at**
www.superseeds.com!
67704. GIANT GRAY STRIPE
Traditional single stem giant Russian sunflower. Grows to at least 5’ in height, often up to 10-12’. Blooms are typically over 1’ wide and packed with seed that makes a tasty snack for birds and people.
20 SEEDS - $1.50

67705. DWARF MUSIC BOX
Plants are multi-branching and uniform, growing only 40”. They bloom in a splendid range of yellows and creams and even mahogany bi-colors, all with brown centers. Very cute; try interplanting it with zinnias, or in front of tithonia. Suitable for beds, borders, children’s gardens, even window boxes (and, of course, for cutting).
20 SEEDS - $1.75

67706. FLORISTAN
Dark wine-red petals with creamy yellow highlights at the tips are elegant. Each stem is multi-heading, with foliage and stalks having dark purple veins. Short plants reach 35”.
20 SEEDS - $1.75

67709. EARTHWALKER
Earth tones. ranging from deep orange to terra cotta to brown. Plants are 5-6’ tall, strong stemmed, vigorous, side branching, and multihed with 8-10” blooms. Grows to a height of 5’.
20 SEEDS - $1.75

67711. VELVET QUEEN
This distinctive, elegant sunflower is often recognized as “the red one” but it is really more of a velvet red shading to copper. An early bloomer, Velvet Queen grows to a height of 6’ and makes a good cut flower, with blooms about the size of your palm.
20 SEEDS - $1.75

67723. CHERRY ROSE (F1)
The fastest growing sunflower that we have seen. You will have flower buds within 40 days and it grows to a full 5’ in height. Cherry Rose makes a great pollen free cut flower. The 3’ blooms are a beautiful red that is a head turner. Large black centers.
20 SEEDS - $1.95

67724. JOLLY JOKER (F1)
Dramatic 6’ tall plants are covered with interesting semi-double blooms as large as 5” across in a mixture of mahogany and golden yellow. Striking! Pollenless.
20 SEEDS - $1.95

67726. LEMON ECLAIR (F1)
Spreading 4’ plant is pollen free so it makes a mess free cut flower. Four inch blooms are distinctly double, lemon colored, with chocolate brown centers.
20 SEEDS - $1.95

67727. SUNSPOT
Cheerful dwarf sunflower with large 12” yellow flowers. Growing just to 36-50” it’s the right size for a kids garden, containers, or raised beds. Dark brown centers produce edible seeds or the heads can be used whole, for bird food, dried and left in the garden or perch in a tree.
20 SEEDS - $1.50

67735. MAXIMILLIAN
50 SEEDS - $2.25

FOR SWEET WILLIAM - SEE DIANTHUS, PAGE 70

Start indoors 6-8 weeks before last frost. Sow on surface, seeds need light to germinate. Provide 70-75°F soil temperatures. Direct sow after last frost, only in areas with long growing seasons. Transplant 12” apart after last frost. Blooms in 80-90 days. Germ 10-21 days

Often called everlasting flower or paper daisy, they make nice fresh cut flowers or, when dried, last for a very long time and bloom from midsummer until frost. A whole gamut of colors from red, cream, yellows, white and rose is include these mixes.

ANNUAL (Helichrysum bracteatum)

960. TALL MIX - grows 3-4’
96001. DWARF MIX - grows 24-30”

60 SEEDS - $1.50

FOR SWEET ANNIE

Direct sow outdoors in early spring when soil temperatures reach 55-65°F. Soak seeds 24 hrs. Sow 1/2” deep, 4-6” apart. Blooms in 75-85 days. Germ 7-14 days. Plants are poisonous.

81801. MAMMOTH MIX
Vigorous vines will climb a trellis or pea fence up to 5’ by the end of the season. Plants are covered with mildly fragrant blooms in a wide range of pinks, roses, reds, violets, purples and white. Stems are generally 6-9’, great for cutting.
20 SEEDS - $1.50

81803. OLD SPICE MIX
Fill your home with color and fragrance with this gorgeous mix. The fragrance seems to be more powerful than that of Knee High Fragrant Mix. Includes stunning dark rich single and bicolors that I had never seen before in a sweet pea. One bicolor was a rich lavender hood with a deep wine lower lip. 3’ plants with 8” stems make this a great bloom for bouquets.
20 SEEDS - $1.50

820. SWEET PEA
This climbing plant is very long-lived, grows 5-6’ and spreads considerably. A mix of pink, lavender and white sweet pea blooms appear in summer and keep blooming past frost. Zones 5-9.
20 SEEDS - $2.25

81802. KNEE HIGH FRAGRANT MIX
This strain is a mix of old fragrant varieties. 2 1/2’ vines provide a nice blend of colors - violet, crimson, lilac, dark purple, white. The stems are shorter and the flowers are smaller than newer strains but they have a heavenly rich, sweet fragrance.
20 SEEDS - $1.50
**FLOWERS**

**TALIUM**

**JEWELS OF OPAR**

**ANNUAL (Talinum paniculatum)**

Old-fashioned garden plant with eye-catching mounds of chartreuse-colored succulent leaves and sprays of delicate, pink flowers that turn into shiny jewel-like beads. Flower panicles are ideal as fresh or dried cut flowers, filling out bouquets. As an added bonus, the thick leaves are edible with a mild, tender texture. The entire season. Works well in containers, hanging baskets, and in the garden. Grows to 30”.

50 SEEDS - $1.95

**8201. BLUSHING SUSIE (F1 HYBRID)**

**ANNUAL (alta)**

After trialing this new color palette of Thunbergia in our window boxes we thought that it was more muted in appearance as it spilled over the edges, not as aggressive as the golden orange variety. Displays shades of pink, salmon, apricot and ivory. Once it started blooming for us in early summer it continued until frost.

15 SEEDS - $3.95

**821. SUSIE MIX**

**ANNUAL (alta)**

These Black Eyed Susan vines have orange, yellow, and cream flowers with dark centers and make excellent hanging plants. The blooms are trumpet-shaped and form a tube. They climb over 5’ and bloom continually.

20 SEEDS - $1.95

**72701. PINK DANDELION**

**PERENNIAL (Taraxacum pseuforeosum)**

Not your average backyard dandelion! Pastel pink petals surround the apricot-colored center of this uncommon dandelion. A wildflower from central Asia with the same medicinal and edible properties as our yellow one. The early spring blooms provide an important source of food for our native nectar-seeking insects. Suitable in-ground and container planting. Grows to 12”. Zones 3-9.

25 SEEDS - $2.95

**68203. YELLOW TORCH**

**ANNUAL (Tithonia speciosa)**

First yellow tithonia ever offered from seed and the ultimate delight for pollinator’s; draws in butterflies, bees and hummingbirds. Reaching 4-6’ or more, blooms from the middle of summer to frost. Grow in a veggie patch or in the flower garden.

15 SEEDS - $1.75

**68201. FIEL DEL SOL**

**ANNUAL (Tithonia rotundifolia)**

This tithonia got an All-America award for the year 2000. What struck us most about Fiesta Del Sol was that it bloomed early, abundantly and then continued to bloom throughout the summer. The 3 inch daisy-like orange flowers are very attractive in bouquets. Bees and butterflies love them too!

15 SEEDS - $1.95

**683. UNICORN PLANT**

**ANNUAL (Proboscidea)**

Produces pretty, purple-pink, orchid-like cup shaped flowers that mature into interesting seed pods, hence its common name of Devil’s Claw. The seed pods can be used in dried arrangements or to produce a black dye. Young pods are edible, much like okra, and the oil rich seeds were once dried for fuel oil.

10 SEEDS - $1.95

**788. VERBASCUM MIX**

**PERENNIAL (phoeniceum)**

Mullein plants are 3’ tall, covered with a pretty mix of white, rose, red, and violet blooms all along the stalk in the spring. There are crinkly bright green leaves at the base of the plant, and if cut back, stalks will shoot up and bloom again for a second and even a third time. Zones 3-8.

100 SEEDS - $1.50

**68302. BONARIENSIS**

**ANNUAL**

Lavender-colored flowers borne in umbels sit high atop 3-4’ tall thin stems making a perfect cut flower. The open airy habit and self sowing makes this a wonderful addition to a wildflower garden. From Buenos Aires, a perennial for zones 7-9.

50 SEEDS - $2.25

**689. TITAN SERIES**

**ANNUAL (Catharanthus roseus)**

Bursting with color all season, vinca is grown for its bright phlox-like flowers and attractive shiny foliage. Perfect for the landscape; use in borders, bedding, in containers, or hanging baskets. Tolerates heat and drought. Resistant to deer and rabbits. Grows to 16” high by 12” wide.

25 SEEDS - $2.25

87607 - REALLY RED - NEW!

VIOLA

79301. HONEYBEE (F1)
ANNUAL Viola cornuta
The name is what drew us to this viola at first, then, it impressed us thoroughly with its animated blooms. Honeybee has a unique pattern on its petals in shades of golden-yellow, honey and copper. Plant in spring or fall. Grows 6-8" h x 6-8" w.
10 SEEDS - $1.75

876. YESTERDAY, TODAY & TOMORROW
ANNUAL (Viola cornuta)
This variety behaves in a way that we have never seen before in an ornamental. The blooms change color as each one matures from a creamy white to a medium blue and eventually a dark purple. Each passing day, the display is very different. Plants are 6" tall with 3/4" blooms and stay in bloom for about 8 weeks.
10 SEEDS - $1.75

793. JOHNNY JUMP UP
ANNUAL (Viola tricolor)
Heirloom
Lovely 3/4" flowers of dark purple and yellow, among the first flowers to bloom in spring where they are established. They reseed themselves with a vengeance but are beloved wherever they appear. Grows to 6".
45 SEEDS - $1.75

79302. SORBET MIX (F1)
ANNUAL (Viola cornuta)
We love violas here in Maine, they are the first flowers we see after our long winters and the bold array of colors from this mix proved to be delightful: yellow, orange, multi shades of purple, white and varying bi-colors. They bloomed long into the summer and when we cut them back during the heat they rebloomed with a vengeance. Grows 6-8" h x 6-8" w.
10 SEEDS - $1.75

FLOWER MIXTURES

NORTH AMERICAN WILDFLOWER MIX
ANNUAL / PERENNIAL
To create a beautiful meadow, you should carefully prepare the area, sow seed evenly, then cover lightly and keep moist. It is equally split between perennials and annuals that should self-seed.

800. - 700 SEEDS - $1.95 (Plants approx. 100ft²)
80001. - 1OZ / 4,000 SEEDS - $4.95 (Plants approx. 450ft²)
80002. - 1LB / 65,000 SEEDS - $39.95 (Plants approx. 7000ft²)

804. DEERPROOF GARDEN FLOWER MIXTURE
Includes: white yarrow, blue pimpernell, lance-leaved and plains coreopsis, foxglove, California poppy, blanketflower, sweet alyssum, yellow lupine, Mexican lupine, perennial lupine, arroyo lupine, Shirley poppy, glorious daisy, scarlet sage, blue sage, and dwarf zinnia.
700 SEEDS - $1.95

808. BIRD AND BUTTERFLY GARDEN MIXTURE
A mix of perennials and self-seeding annuals including several varieties of coreopsis, coneflower, clover, centaurea, godetia, larkspur, daisies and many more lovely flowers to entice both butterflies and hummingbirds into your garden.
700 SEEDS - $1.95

ZINNIAS

ANNUAL (elegans)
Start indoors 4-6 weeks before last frost. Lightly cover seed. Provide 75-85°F soil temperatures. Direct sow outdoors after last frost. Sow a few seeds every 8-12" apart. Transplant 8-12" apart after last frost. Blooms in 75-90 days. Germ 7-10 days.

690. CACTUS FLOWER MIX
Shaggy textured 4-5" blooms of tightly knit elongated petals. An old variety and unique amongst zinnias. Grows to 3".
50 SEEDS - $1.50

69001. CUT AND COME AGAIN
As the name implies, whenever you cut the blooms additional stems appear. Grow a prism of colorful zinnias with this mix. Blooms are 2-3" on strong, long stems. Grows to 30".
50 SEEDS - $1.50

693. LILLIPUT MIX
Smaller, earlier button-type flowers on short plants. Grows to 18-24". If dead-headed, bloom is continuous from mid-summer to the first frost.
50 SEEDS - $1.50

695. PEPPERMINT STICK MIX
These 4" blooms come in pinks, reds, golds and oranges, all streaked and splashed with shades of yellows and whites.
50 SEEDS - $1.75

69502. UPROAR ROSE
Vivid 4" magenta pink double blooms. Abundant, well branched stems and great for cutting. Grows to 36".
10 SEEDS - $1.95

69801. STATE FAIR MIX
A fine cut flower reaching 5-6" across in shades of lavender, pink, orange, purple, yellow and scarlet. Grows to 36".
50 SEEDS - $1.50

FLOWERS
**BENARY’S GIANTS**
The giant, fully double flowers are 4-5” in diameter and sit on top of long and sturdy, branching stems. You will get many cuttings from these vigorous growers all season. The immense blooms make spectacular long-lasting cut flowers.

- **25 SEEDS - $2.25**
- **696. LIME** - Soft lime green, grows 32-40”
- **69601. WINE** - Merlot- burgundy, grows 40-50”
- **69802. MIX** - Rainbow of colors, grows 40-50”

**SWIZZLE SERIES**
Each petal has two shades of color and layer upon each other forming fully double 3” blooms. Plants are bushy, growing to 15-20”

- **10 SEEDS - $2.95**
- **697. CHERRY & IVORY**
- **69702. SCARLET & YELLOW**

**SINGLE COLOR ZINNIAS**
Classic flowers on 3’ plants can be ordered by color. We trialed them and loved them all. Each color has a profusion of blooms and looks stunning in a mass planting. They also last for a surprisingly long time as cut flowers. Grow 30-40”.

- **75 SEEDS - $1.75**
- **69914. SCARLET FLAME**
- **69910. PURPLE PRINCE**
- **69903. MISS WILLMOTT**
- **69905. CHERRY QUEEN**
- **69915. CANARY BIRD - NEW!**
- **69907. ORANGE KING**
- **69911. POLAR BEAR**
- **69909. LAVENDER QUEEN**

**OKLAHOMA**
These zinnias were developed specifically for cut flowers, offering bright colors on long strong stems with an excellent vase life. The prolific, cut and come again 2” semi-double to double flowers fit well in mixed bouquets. Grows to 40”.

- **69804. FORMULA MIX - 50 SEEDS - $2.95 NEW!**
- **69905. WHITE - 25 SEEDS - $1.95**

**QUEEN SERIES**
Outstanding new zinnia out-performs the original standard. A mix of double, semi double or single, fade resistant blossoms atop a sturdy, well branching plant. Each flower has a slightly different variation of color with smoky undertones and lime green centers. One of our best performers in trials. Creates a captivating bouquet. Grows 30”- 40”.

- **20 SEEDS - $2.50**
- **69004. QUEEN RED LIME**
- **69008. QUEEN LIME ORANGE**
- **69006. QUEEN LIME BLUSH**

**79001. ROCKY MOUNTAIN PERENNIAL (Zinnia grandiflora)**
GERM 10-30 DAYS
A native perennial wildflower found in arid areas of western United States. Durable little zinnia thrives in rugged, extreme spots where strong winds and severe heat are common. A well mannered spreading ground cover that can adapt to the rocky, sandy soil in your yard too. Grows 4-8 inches, creating a carpet of sunny yellow flowers beginning in midsummer. Loved by pollinators and birds. Zones 4-9

- **20 SEEDS - $4.95**

**69101. CRYSTAL WHITE (haageana)**
This happy little zinnia with a short, dense habit fills in a garden spot fast and is low maintenance. This AAS winner grows to 8-12”.

- **20 SEEDS - $2.25**

**698. PERSIAN CARPET (haageana)**
A strikingly unusual zinnia. Bushy, 12-15” plants produce single to double 2” blooms with pointed petals and crested centers. Bi-colored flowers range from cream through yellow to deep mahogany.

- **50 SEEDS - $1.75**
Live Plants, Tubers & Bulbs

All live plant orders should be placed prior to March 15th. After that, stock is limited. Spring tubers and plants are shipped Mid-March through end of April. Orders received by March 15 are shipped southern states first – moving north as we are able. Orders received after March 15 will be shipped at the end of April. None of the spring items are available after April. Please order early. Onion Plants and Sweet Potato plants are shipped from their growers according to zone. Fall bulbs and plants are shipped Late September through Early October. Sorry, we cannot send spring tubers and plants to Alaska, Hawaii, and Foreign Countries. Other states have additional, item specific restrictions.

**ARONIA BERRY**

Plant in full sun in well drained soil. Prepare a hole twice the width and depth as the root ball. Place in hole and cover with equal parts top soil and composted manure or garden compost. Make sure roots are at least 2” below the surface. Water regularly until established and during extended dry spells. **SHIPS MID-MARCH THROUGH END OF APRIL.**

**AB1. VIKING**

PERENNIAL (Aronia melanocarpa)
A superfood of increasing popularity, this fast growing deciduous shrub thrives in a multitude of soil types, making it a great option for many homesteads across the US. At maturity, Aronia will grow 3-6 feet tall with a spread of 6-10 feet, making them a nice choice for a hedge or windblock. The shiny, black, astringent berries are high in vitamin C and make delicious jams or smoothie additions, although many claim they are too pungent to eat raw. This mid season bloomer is an asset in any landscape with its soft white flowers and dark green leaves, which turn red in the fall. Although they prefer well drained soils and full sun, they tolerate wet feet and still thrive in rain gardens, swales, as well as help with erosion control. Aronia berry shrubs are relatively low maintenance once established, self pollinating, and a native pollinator plant. 3.25” container grown. Zones 4-7.
1 plant - $12.95 each
2 or more plants - $11.65 each

**BY13. CADDO**

New release with outstanding characteristics; large, high-quality flavorful berries with excellent post-harvest fruit durability. High yielding plants are thornless and floricanne fruiting (summer bearing), producing berries only on the second-year growth. Caddo has proven to be disease-free; no orange rust, anthracnose, or cane/leaf rust in all research trials. Zones 5-9.
1 order (3 plants) - $24.95 each
2 or more orders - $22.95 each

**SAR8. PURPLE PASSION**

Sweet and tender spears have a higher sugar content than green asparagus making this a favorite of the home gardener. The deep burgundy color and tender texture is almost completely stringless (young spears are often eaten raw). Zones 4-9.
1 order (10 roots) - $14.95 each
2 or more orders - $13.50 each
Mix and match varieties to get discounted pricing

**BB26. SUNRISE**

Excellent flavor, ease of harvest, and high fruit quality are the outstanding characteristics of Sunrise. Fruits average 70 berries per cup with yields averaging 10 to 12 pounds per plant. Our grower has reintroduced this variety due to the high demand from U Pick Blueberry farmer Dan Childs-“U-Pick customers know when the Sunrise fruits are ripe and are waiting in line to harvest these fruits throughout its ripening season.” Ripens early to midseason. Grows 5-5 ½’. Zones 4-7

**BB5. ELLIOTT**

Northern high bush cultivar with small to medium berries averaging 75 berries per cup. Light blue with a good mild flavor. Elliott is a heavy producer and adapts well to machine harvesting. Grows to a height of 5-7 ft. Yields 10-20 lbs of fruit. Ripens mid to late season. Zones 4-7.

Shop online at www.superseeds.com!
Dig a hole twice as deep and wide as the roots. Plant Buttonbush in full sun and well drained, humus rich soil. This is a whimsical, fragrant shrub that can be found by lakesides or in wetland areas. They develop a white pincushion-like flower, roughly the size of a golf ball, which is an attractor of bees and butterflies. Initially, Buttonbush was introduced in the 1700's for beekeepers. Birds and ducks also eat the seeds and use the shrub as protection for their nests. Buttonbush prefers rich, humusy soils, but can also thrive in drier soils or even in shallow water. At maturity, the shrub will be 10-12 ft high with a 4-8 ft spread. Optimal addition to rain gardens and swales. Bare root plant. Zones 4-10.

CB10. COMMON BUTTONBUSH
PERENNIAL (Cephalanthus occidentalis)
The Buttonbush is a white flowering shrub; also a good choice for the silk floss or cotton ball tree. It is a large shrub or small tree, has white, fragrant flowers in June. It is hardy and grows well in the moist soil of stream banks and wooded edges. It is best to use it as a specimen plant. Needs plenty of water. Zones 4-10.

Plant in full sun, 3’ apart in rows 4-5 feet apart. Soil needs: well drained, rich and loamy. Adaptable to most soils. Elderberry roots are shallow and will not tolerate drought. Mulch and keep well water until maturity, the shrub will be 10-12 ft high with a 4-8 ft spread. Optimal addition to rain gardens and swales. Bare root plant. Zones 3-8.

EY3. WILD ELDERBERRY
(Sambucus canadensis)
Boost your immune system with both the flowers and berries of this North American native plant. Have a go at creating extracts or tinctures, even syrup for your pancakes (we love this as an alternative to maple syr- up). Also try your hand at drying the berries for tea; there is a long list of possible uses. Once established, the plants spread by putting out suckers allowing a colony to form. Rejuvenating easily, the colonies can be managed by pruning back in late fall or early spring. They grow naturally along river banks and roadsides but perform perfectly in any moist, well drained soil. Zones 3-8.

1 plant - $14.95 each
2 or more plants - $12.95 each

Figs can be planted directly in the ground, after last frost, in a protected sunny area near your house. There should be at least 1’ of organic material on top. The remainder of the soil can be poor quality. Soil too rich will produce meager growth and a limited crop. When new growth comes up from the ground, select only a few shoots to mature. Prune all others so that plenty of sun can reach between each branch. New growth can produce figs the same year.

CH1. CHICAGO HARDY
This special fig cultivar can withstand the colder temperatures of the north unlike other fig varieties. The plant dies back in the winter and has the ability to re-sprout every year producing crops of medium sized fruit, ripening late summer into fall. Big, curvy & grass green, tropical looking leaves provide a visually stunning and unique landscape plant. It is best to give the fig the warmest and most protective place in the landscape; this, along with mulching over the cold season will provide great success in a northern garden. Can grow to 12’ when provided with the right conditions. Zones 5-10.

Spring planted - Separate cloves, plant 2-4” deep and 5-6” apart with pointed end up as soon you receive them or the garden is workable.

Fall planted - Separate cloves, plant 2-4” deep and 5-6” inches apart with pointed end up, 3-4 weeks before the ground freezes.

Harvest - When lower 4-5 leaves have dried. Dry and hang out of direct light in a warm area with good air circulation. After they have dried for 2-3 weeks, cut off the stem, 1” from bulb and trim roots.

Tips - Plant in well drained, rich soil, amend with organic matter, such as compost. Mulch the garlic 4” with straw or chopped leaves, this helps protect from extreme winter conditions, keeps soil evenly moist and controls weeds for next season. Plant after cold period is over, will form a white pincushion-like flower, roughly the size of a golf ball, which is an attractor of bees and butterflies. Initially, Buttonbush was introduced in the 1700’s for beekeepers. Birds and ducks also eat the seeds and use the shrub as protection for their nests. Buttonbush prefers rich, humusy soils, but can also thrive in drier soils or even in shallow water. At maturity, the shrub will be 10-12 ft high with a 4-8 ft spread. Optimal addition to rain gardens and swales. Bare root plant. Zones 4-10.

1 plant - $18.98 each
2 or more orders - $9.45 each
FB14. MUSIC - HARDNECK GARLIC
Hardneck-Porcelain type. Porcelain garlic that prefers cooler weather when growing but does well in most of the US but may struggle in warmer regions. Music is a large, pretty bulb with a pink to purple hue and 4-8 easy to peel cloves per bulb. It has a flavor that is spicy with some heat but not overwhelming. Great garlic to use in marinades and rubs, pestos, and salsas. Stores well and will last into the winter.
1/4 LB - $14.00

GR23. CATAWBA
A versatile red grape, Catawba is used for wines, juices, jellies, and table grapes. This variety has been grown to make sparkling wine in upstate New York and Ohio. It is hardy to zone 5 and a vigorous grower which produces bunches of medium sized grapes with intense flavor. Fruit ripens late in season. Zones 5-8.
1 plant - $13.50 each
2 or more plants - $12.50 each

HORSERAISH

GRAPES

WH2. AMERICAN WITCH HAZEL
This native deciduous shrub is valued for both its late-season color and medicinal properties. In the Autumn after all the rich golden leaves have fallen, the unique fringed yellow flowers persist through November, giving it great winter interest. Grows into a multi-stemmed shrub with a vase shape. Witch Hazel can tolerate a variety of soil types but prefers acidic soils rich with organic matter, and is best planted in full sun to part shade. Use for woodland and rain gardens, windbreaks, hedges, and erosion control. Deer tolerant. Grows to 10-15’. Bare root plant. Zones 3-8.
1 plant - $18.98 each
2 or more plants - $16.98 each

Olive Tree

ARB1. ARBEQUINA (Olea europaea)
Compact variety (can reach 8-10’ if planted out, smaller if container grown) that produces fruit with a delicious, slightly buttery flavor. Grown commercially for oil production. While the hardiness zone is 7-10, the tree maybe grown in a container and overwintered indoors in a cool location. To set fruit, you must fulfill the chill requirement. Temperatures must fall to around 50 degrees F for about 2 months. Small, fragrant flowers emerge in spring on the one-year-old wood. Olive trees are slow growing and can take up to 4 years to begin fruiting. They require full sun during the growing season with well-drained soil. Container grown plants need monthly feedings with a high nitrogen fertilizer. Also suitable as an ornamental or bonsai plant if grown indoors all year round. Self-pollinating.
1 plant - $21.25 each
2 or more plants - $18.49 each

HOPS

HP50. MT. HOOD
(Humulus lupulus)
A vigorous grower of German ancestry, Mt.Hood is an early to mid season crop. Mt. Hood is an aromatic hop that has a light sweetness with herbal notes. Similar tastes that you would find in a European style ale.
1 plant - $21.25 each
2 or more roots - $18.49 each

HOP50. MT. HOOD
(Humulus lupulus)
The hop (Humulus lupulus) is a hardy perennial, which may grow up to 25’ in a season, dying back to the crown in the fall. Ripe flower cones can be harvested in August and September, dried, and used in brewing for flavor, aroma, bittering, preservation, and head retention. Under good conditions a vigorous hop can produce up to 2lbs of dried flowers. Mature hop cones are 1” to 3” long, yellowish green, and papery to the touch. Plant in early spring, in full sun, one rhizome per hill with the buds pointing up, 1’ deep, plants 3’ apart. When the vines are 1’ long, select 2-6 to train to supports and remove the rest. Zones 3-8.

PINE TREE GARDEN SEEDS & ACCESSORIES – WWW.SUPERSEEDS.COM – 207-926-3400

PINETREE GARDEN SEEDS & ACCESSORIES – WWW.SUPERSEEDS.COM – 207-926-3400

LIVE PLANTS, TUBERS & BULBS
ONION PLANTS

LONG DAY: Best in northern areas. Bulb out with 14+ hrs of daylight.

INTERMEDIATE DAY: Widely adapted, except the far north and deep south. Bulb out with 12-13 hrs of daylight.

SHORT DAY: Southern regions. Bulb out with 10+ hrs of daylight.

Onion plants arrive dormant. They will be dry and recover once properly planted. Full sun, fertile soil, and 1 inch of water a week are essential needs for successful onion bulbs. Plant in soil amended with compost, well aged manure, or a balanced fertilizer. Harvest bulbs when the necks have become soft and fall over. Pull up and dry for a few days in the field (if there is not rain predicted). Move indoors and dry for 2-3 weeks until stems are dry (unable to squeeze water out of necks). Cut off tops and roots and store in mesh bags, above freezing at 65-70% humidity. Onion plants will be shipped to you from our grower in Texas. Plants will be shipped via Priority Mail (or U.P.S.) to ensure you receive the freshest plants possible at the proper time for planting.

Shipment for southern gardeners begin in January and will be shipped by zone according to last frost date.

WE ARE NOT ABLE TO ACCEPT ORDERS FOR ONION PLANTS AFTER MAY 31ST. LIVE ONION PLANTS SHIP JANUARY THROUGH MAY; END DATE MAY VARY BASED ON GROWER’S DISCRETION.

WE ARE NOT ABLE TO SHIP ONION PLANTS TO ALASKA, HAWAII, APOS, OR PR. CERTAIN COUNTIES IN ID AND WA HAVE QUARANTINE RESTRICTIONS. YOUR ORDER WILL BE DELAYED OR CANCELED IF YOU ARE IN ONE OF THESE AREAS.

1 bunch (55-65 plants per bunch) - $17.50 each
2 or more bunches - $15.75 each

| **OP24. YELLOW SWEET SPANISH** | LONG DAY - Brown skinned, globe shaped onion with crisp, mild and sweet flesh. Great storage life, up to 6 months. |
| **OP40. PATTERSON (HYBRID)** | LONG DAY - Longest storage onion we offer. An outstanding variety that replaces the much loved Copra. Extremely high yielding 3-3 ½ inch uniform bulbs. Copper colored skins with firm flesh. |
| **OP26. WHITE SWEET SPANISH** | LONG DAY - Spherical in shape with a sweet, mellow flavor and papery white skin. Good storage life with the ability to last up to 6 months. |
| **OP32. RED WING (HYBRID)** | LONG DAY - A beautiful red round onion with a very mild flavor. Bulbs are firm and round. Excellent storage onion. |
| **OP16. WALLA-WALLA** | INTERMEDIATE TO LONG DAY - This is a terrific sweet onion for northern gardeners. Produces colossal, yellow skin globe shaped onions with sweet tasting flesh. |
| **OP22. CANDY APPLE RED (HYBRID)** | INTERMEDIATE DAY - A new red globe shaped variety with brilliant red skin, extra sweetness, and red interior rings. |
| **OP12. CANDY (HYBRID)** | INTERMEDIATE DAY - A sweet onion for southern, mid, and northern states. Produces a large, globe shaped white onion with sweet tasting white flesh. |
| **OP36. TEXAS SUPERSWEET - TX1015-Y** | SHORT DAY - Sweet, yellow all around fantastic onion. Great for eating raw or cooked. Can be grown in north if planted in early spring, won’t grow as large. Stores well for 2 - 3 months. |
| **OP34. RED BURGUNDY** | SHORT DAY - A classic red skin onion for southern growers. Produces 4” bulbs with a mild, sweet flavor. Excellent slicing variety with white and pink interior rings. Short storage life. |
| **OP28. YELLOW GRANEX** | SHORT DAY - One of the most popular varieties ever! This variety produces the famous Vidalia, Noonday and Maui Sweet. It is extremely sweet and best suited for southern gardeners. |

PICTURES

PT32. EVA (90-100 DAYS)
Mid-season. Produces attractive tubers that are medium-sized, round-oval in shape with bright white skin and flesh. They are ideal for baking, mashing, and home-made chips. The tubers grow well in heavy or sandy soil and are resistant to early blight, golden nematode, common scab, and hollow heart. Excellent table variety and excellent storability.

PT12. ADIRONDACK BLUE (90-100 DAYS)
Mid Season. The vibrant blue color makes this one extra fun to grow! It has purple-blush skin with a deep blue interior and tubers that are round to oblong and slightly flattened in shape. The moist flesh is very flavorful and holds its color well when cooked. These potatoes make a beautiful potato salad, or when roasted, they liven up a dinner plate. They also are perfect for making fresh from the garden potato chips. Very high in antioxidants. Moderate storage ability.

PT25. RED PONTIAC (100-110 DAYS)
Late Season. Red Pontiac will supply you with a bumper crop of potatoes. The tubers have thin red skin with a crisp white flesh. A great variety for harvesting baby potatoes, and when it comes to gardening, there is nothing like digging up and boiling or roasting up fresh baby potatoes. Produces large, round potatoes when mature. This is a multi-purpose, dependable variety many of us here grow every year. Medium resistance to scab.

Grows well in heavy soils. Stores extremely well.

PT34. SUPERIOR (80-90 DAYS)
All around great early season potato for the home garden. A widely-grown, popular variety over the last 70 years. An improved cobbler type with round to oblong tubers, buff-colored, lightly flaky skin, and firm white flesh. An all-purpose potato that is suitable for baking, mashing, boiling, or frying. Stores well.

PT30. KEUKA GOLD (90-100 DAYS)
Mid season. Rich-flavored, oval-shaped, yellow-fleshed, and buff skinned potato. While Yukon Gold is the premier potato grown by many home gardeners, Keuka Gold has been its rival since being introduced by Cornell University in 2004. Bred to handle the variable weather conditions of the northeastern United States with its uneven rain and fluctuating temperatures. Strong performer when grown under organic conditions with high, uniform yields. Tolerates most soil conditions. Resistant to scab and golden nematodes with great storage abilities. An all-purpose potato used boiled, baked, or roasted.
PT35. KENNEBEC (110-120 DAYS)
Late Season. A Maine potato developed in 1941 and named for the mighty river, which bisects our state. This variety offers high yields of large round to oblong tubers with a firm, starchy white flesh. A great potato for baking, roasting, mashing but not most known for its superior frying ability. It has been a popular variety for years, but this will be the last season we will offer Kennebec, it is going out of production next year.

PT20. RUSSET BURBANK
(100-125 DAYS) Heirloom
Late season. Most widely grown potato in America. Dark skin with few eyes and white flesh making it extremely versatile. Long storage life. Great baked, mashed and perfect for all the important French fry.

PT19. CARIBOU RUSSET (90 DAYS)
Named after the Northeastern most city in the United states, Caribou Russet was Developed by the University of Maine breeding program. A cross between ‘Silverton Russet’ and ‘Reeves Kingpin’. Described as having “high yields, mid-season maturity and moderate common scab resistance”. It is also resistant to golden nematode race Ro1 and is moderately resistant to Verticillium wilt. A versatile potato with great flavor, it is excellent for baking and mashing.

PT29. YUKON GOLD (70-90 DAYS)
Early Season. Yellow, waxy flesh has creamy consistency and rich, buttery flavor when cooked. Wonderful for grilling, roasting, boiling and frying. Frequently used in gratins, hashbrowns and yes! French fries. Works well with cream, butter, cheese and eggs. Also nice with herbs like oregano, basil, sage and tarragon. Smooth skin is free of eyes, and stores well.

FINGERLING POTATOES
1 order fingerlings (1 LB) - $11.95
2 or more orders - $9.50 each
ORDER MULTIPLE VARIETIES IN 1 POUND INCREMENTS

PT5. PINTO GOLD (110-135 DAYS)
Late season. A specialty fingerling style gourmet potato developed by the University of Maine. Red and yellow “pinto type” skin pattern with creamy yellow flesh. A great potato for the home grower, farm markets and restaurants. It may be harvested early for a smaller fingerling type potato or left in the ground for large baking type potato. Tubers can develop somewhat irregular shapes in extreme heat. Excellent roasted but also good boiled, pan fried and baked.

PT51. RUSSIAN BANANA FINGERLING (100-125 DAYS)
Heirloom
Late season. Banana, which has a slight curved finger shape, is one the best known and easiest to grow fingerlings. Tan skin and light yellow flesh with a smooth, creamy texture. Excellent boiled and tossed with butter! Even better roasted or sliced into medallions and made into homefries.

SW3. VARDAMAN (100 DAYS)
Bush type, this compact plant is ideal for garden, small space, and containers. Light orange skin with dark flesh and no strings. A delicious eating potato and a very good keeper, Vardaman sports decorative purple and blue vegetation.

SW1. BEAUREGARD (90-100 DAYS)
Heavy yielding, vine type, developed at Louisiana State University. Copper skin, moderately deep orange flesh, and consistent in shape. Tolerant to soil pH and does not crack open. Out yields all other sweet potatoes.

SW2. GEORGIA JETS (90-100 DAYS)
Heavy yielding, vine type, with remarkable hardiness makes this one great for northern gardens. Rose petal skin with orange flesh. Excellent for baking.

Ramps

RM1. RAMPS
(Allium tricoccum)
Ramps, a wild, beloved member of the allium family, are an early spring leek with bold onion and garlic flavor. Naturally found in shady, damp woodland areas, this vernal treat is a slow grower and can take 2-3 years to be of harvestable size when planted from bare root bulbs. Plant in an environment that mimics a shaded deciduous forest, with leaf litter and cool, damp soil. Enjoy a sense of foraging each spring by planting these delicious treats!

1 order(10 bare root bulbs) - $16.95 each
2 or more orders - $15.25 each

Shop online at www.superseeds.com!

Grow your own sweet potatoes! High in vitamins A & C, as well as beta-carotene, sweet potatoes are a nutritious food source. Plants grow best in a sandy loam soil and will thrive with minimal rainfall. Plant in rows that are 3’ apart with 8-10” high mound rows. Space plants 10-18” apart and 3-4” deep. Will be shipped direct to you from the grower. As sweet potatoes cannot withstand frost, plants will be shipped according to customer’s last frost date as determined by our grower. April, May and early June are shipping months. Plants arrive with growing instructions and tasty recipes. Our grower suggests gardeners in Northern states use black plastic mulch, covering bedded rows 2-3 weeks before plants arrive, to warm the soil and aid growth.

Sorry we cannot ship to Alaska, Hawaii, PR, or APOs.

1 order (12 plants) - $20.95 each
2 or more orders - $15.25 each

LIVE PLANTS, TUBERS & BULBS

DAHLIA

DAHLIAS are grown for their gorgeous, colorful flowers that bloom from mid-summer through autumn. They are stunning in patio containers or flower gardens and start blooming when most perennials begin to fade, offering fantastic late-season color. These dahlias are the large-flowered type, referred to as dinner plate dahlias, and grow to 3-4 ft tall. They require staking to support the tall foliage and large flowers and can be pinched back to produce bushier plants with smaller flowers.

Plant in full sun. Plant outdoors after your last frost date. You can pot up dahlia tubers a few weeks early to bring on earlier blooms. Plant tubers so the crown is at or just below the surface. DO NOT plant too deeply.

1 tuber - $13.95 each
2 or more roots - $12.50 each

RS14. LATHAM
Heritloom 1914. A variety from Minnesota with excellent winter hardiness and reliable yields every season. Exceptional for fresh eating, freezing, and jams the bright red, sweet fruits ripen midseason, over a 3 week period. Latham is a floricance fruiting type (summer bearing) that produces berries on second-year growth. A great raspberry for the home garden. Zones 3-8.

1 order (5 plants) - $15.95
2 or more orders - $14.95 each

RB3. MACDONALD
One of the first garden crops you can gather from your garden in the spring. Large, vigorous, tender stalks. Very good red color, excellent for pies, canning and freezing. Resistant to wilt and root rot.

1 root - $13.95 each
2 or more roots - $12.50 each

Gladiolus

Plant gladiolus when the soil warms to 60° (soil too cool can cause the bulb to rot). Plant in well drained soil, 3-5" deep allowing 4-6" between each corm. Rows should be 12-18" apart. Need plenty of air. Hill the soil 6" up around the stalk to prevent glad from tipping over in the wind. Bulbs are shipped mid March through April. We request that orders are placed prior to March 15th. After that, stock is limited. Orders received by March 15 are shipped as a first wave, southern states first, then moving north. Orders received after March 15 will be delayed until the first batch of orders is shipped. Sheds may not be available after April. Sorry, we cannot send Glads to Alaska, Hawaii, or Foreign Countries. Certified to ship to California. Zones 7-10.

SHIPS MID-MARCH THROUGH END OF APRIL.

ST13. FLAVORFEST
Flavor Fest yields large, bright red berries of excellent flavor. This June bearing variety is a vigorous producer. A new release from the USDA breeding program, Flavor Fest is resistant to red stelle and leaf diseases. Ships as bare root. Zones 4-7.

1 order (10 bare root plants) - $9.95 each
2 or more orders - $8.50 each

RS13. FLAVORFEST

STRAUBERRIES

STRAIN

Plant in full sun. Plant outdoors after your last frost date. You can pot up dahlia tubers a few weeks early to bring on earlier blooms. Plant tubers so the crown is at or just below the surface. Plant in rich, well-drained soil. For heavy clay soil amend with sand and compost for better drainage. They are best grown in deep, fertile, well-drained soil with at least 4-6 hours of sunlight per day. Full sun will make the flowers fade, but too much shade and they will be slow to grow. In colder zones, mulch well to protect the roots during frost. Do not die back in the fall like other herbaceous peonies.

1 order (5 plants) - $15.95
2 or more orders - $14.95 each

HERBACEOUS PEONY PEO8. KANSAS (Paeonia lactiflora)
Large deep turshia-red double blooms on hearty stems. Kansas is an early to mid season bloomer and very fragrant. This variety has been around since 1940 and holds true to being the best double red peony. Sold as a single 3-5 eye tuber. Zones 4-8.

1 order (25 plants) - $12.95 each
2 or more orders - $9.95 each

ITORO PEONIES PEO9. SCARLET HEAVEN (Paeonia x)
Beautifully contrasting large deep scarlet flowers with golden colored centers. Produces many blooms each season spanning from late spring to mid summer. Itoh peonies are a cross between a tree peony and a herbaceous peony. Once established, this hybrid can produce over 50 blossoms for up to 4-5 weeks, (herbaceous varieties are only for 7-10 days). Does not require staking and is deer and rabbit resistant. Sold as a single 3-5 eye tuber. Zones 4-9.

1 root - $19.95
2 or more roots - $17.95 each

COW POT - THE POTS YOU PLANT

100% biodegradable and a great alternative to plastic and peat! Made of 100% renewable, recycled composted cow manure from a family owned dairy farm in Connecticut. CowPots fully decompose with no waste or odor, providing nitrogen-rich fertilizer to your plants. They can be top or bottom watered. Made in Connecticut. CowPots fully decompose with no waste or odor, providing renewable, recycled composted cow manure from a family owned dairy farm. 100% biodegradable and a great alternative to plastic and peat! Made of 100%

H100. EASY SEEDER - $8.95
Ideal for the home gardener! The Easy Seeder makes planting fast, easy, and efficient. Simply make a furrow using the end of the guide, lay it down, and slide your seeds along the guide. They will fall into the pre-drilled holes for perfect spacing and reducing waste. Practically no thinning of seedlings required. The set of 6 planting guides is designed for use with corn, beans, peas, beets, spinach, radish, chard, carrots, celery, lettuce, onions, and more! Each measures between 21-23”.

H101. MINI SEEDMASTER - $3.95
A precise little seeder that allows you to plant small seeds in germination flats or directly into the garden. Will handle most seeds up to the size of a radish seed, including all brassicas, carrots, lettuce, and 75% of flowers. Practically eliminates the need for thinning so no seeds are wasted.

JIFFY-7 PEAT PELLETS

These convenient, pre-dibbed, 1/4” thick disks are comprised of compressed peat and when soaked in water, they expand to 7 times their height so your seedlings can be planted directly into the ground. Each pellet is wrapped by thin, biodegradable netting so the root ball stays intact, allowing roots to grow through, preventing transplant shock. The 42mm pellet is 1.6” diameter and expands to 1.6” in height.

H113. FIBER PACK STRIP - $2.95
This set of 6 fiber packs are connected into one strip that fits our standard seed starting trays (item #H117f) perfectly. Still a popular greenhouse pick for starting seeds, this biodegradable peat flat forgives over-watering, insulates the roots, and can be easily separated with no sharp edges. Each fiber pack measures 6” l. x 5” w. x 2” h. Overall strip measures 21” l. x 10” w. x 2” h.

H114A. 50 PELLETS - $9.95
H114B. 100 PELLETS - $16.95

H112A. 50 POTS - 3” ROUND - $6.95
H112B. 100 POTS - 3” ROUND - $12.95

JUMP START GROW LIGHT SYSTEM

Maximize your germination and growth rate with the ideal growing system for your seedlings! No more leggy seedlings reaching for light with this carefree lighting system. Easy to operate, it has a toggle clamp on the frame making it adjustable by just the pull of the cord. Powered by a high output T5 58” bulb, it offers a full daylight spectrum that is over 2 times more efficient, and with the reflective fixture above it directs 20% more light than ordinary fluorescents. Sturdy frame is simple and quick to assemble and comes with a 6 ft grounded cord with an on/off switch.

H116. 2’ JUMP START GROW LIGHT SYSTEM - $92.95
Measures: 24 1/2” h. x 18 1/4” w. x 26” l.

H116A. 4’ JUMP START GROW LIGHT SYSTEM - $124.95
Measures: 31 3/4” h. x 18 1/4” w. x 50” l.
GARDEN SUPPLIES

SEED STARTING

JUMP START SEEDLING HEAT MATS
The perfect germinating conditions for indoor seed starting. The bottom heat will give an ideal warm soil environment for quicker germination and give plants a healthier start. Essential for many flowers, peppers, tomatoes, and eggplants, the heat mat provides uniform heat for warming the root area up to 20% more than existing air temperature. Thick, waterproof mat has a multi-layer construction that is heat bonded, not glued, to stay sealed for durability and a 6 ft power cord. Instructions and tips are printed directly on the mat. Made in the USA.
H118. SMALL SEEDLING HEAT MAT 19.5" x 9" - $31.95
Fits under one common seed tray with 17 watts, 120 volts.
H119. LARGE SEEDLING HEAT MAT 48" x 20" - $88.95
Fits under 4 common seed trays or a variety of pots with 107 watts, 120 volts.

H122. HEAT MAT THERMOSTAT - $41.95
A digital temperature control device for gardeners to select and maintain optimum rooting temperatures for faster seedling growth. Includes a temperature probe with a 6 ft cord to ensure a precise temperature from 68-108 °F. Model #MPTHRTC for use with all Jump Start (Hydrotone) heat mats including our H118 and H119 heat mats. 120 volts.

H117. MESH STARTING TRAY (SET OF 5) - $11.95
Proper air circulation is vital for tender seedlings. The 1020 medium-weight mesh bottom trays with solid side walls provide air movement and drainage. They accommodate any standard insert, plant pots, and more. Designed to provide additional support and stability when combined with 1020 solid bottom trays. Measuring 21 1/8" x 10 1/2" x 2 1/2" in size. Sold as a set of 5 trays.

H117DS, PROPAGATION DOME $2.95 EACH
This clear acrylic dome helps maintain an incubator-like atmosphere. Seeds germinate and emerge into the perfect warm, moist environment. This fits our standard seed starting tray (H117F) with solid bottom for an ideal starter kit. The dome can be reused continuously. 21 3/4" long x 11" wide x 2 1/2" high. Made in USA.

H117F. SEED STARTER TRAYS (5 COUNT) - $11.95
Solid bottom tray can be used with our 806 insert (H117A) and all of our individual peat pots, cow pots, and peat pellets for starting seeds. Our propagation dome (H117DS) fits atop perfectly to make an ideal seed starting set. Made in USA.

H117ES, 20-ROW SEEDLING FLAT $3.95 EACH
Conserve space and sow a variety of seeds at the same time. Each row is 10" long x 7/8" wide x 1 1/4" deep. Although this tray requires no under tray it does have a rim that sits on the edge of our solid bottom tray (H117F) that can be adapted by trimming to fit snugly at the bottom of the solid tray for bottom watering if you prefer. Not designed to be placed onto a heating source as the thin rows can dry out very quickly. Made in USA.

H379. WONDER SOIL (18 WAFERS) - $13.95
These expanding potting wafers are equivalent to 15 lbs of potting soil, all contained in a portable storage tube! 2 1/2" wafers will expand to 18 times their volume when mixed with water. Water-absorbing benefits of coconut coir, as well as worm castings, kelp, soybean meal, and cottonseed meal take the guess work out of fertilizing for the entire season. Not only do these wafers promote healthy plants with less work, they promote a stronger root system and reduce watering up to 50%. Great for containers and portability. Made in USA.

PLANTING MEDIUMS

H382. COCO COIR BRICKS (3 PACK) - $12.95
These growing mediums are a great alternative to peat moss and potting soil with excellent air and moisture retention especially for too-packaged or over-watered soils due to poor drainage. Extracted from coconut husks, the coir fiber’s texture is the ideal balance giving your plant room to breathe and room for growth. The compressed bricks are free from pathogens and seeds. Each brick measures 4” w. x 8” l. x 2 1/4” d. Once moistened with 11/2 gallons of water, it expands to 2-2 1/2 gallons of potting medium. This 3 pack is equivalent to 7.5 gallons (1 cu ft.) with a pH of 5.5 to 6.2.

H107. BLACK GOLD® SEEDLING MIX (8 QT. BAG) - $8.95
Black Gold has a long term commitment to sustainability and organic gardening. Organic seedling mix is double-screened to a fine texture allowing plenty of aeration even when wet, encouraging high germination on even the tiniest seeds. Contains Canadian sphagnum moss, perlite so it does not pack down, and a wetting agent to ensure rapid water retention. Perfect mix for germinating seeds in pots, cell packs and trays. OMRI listed.

H372. BLACK GOLD® NATURAL & ORGANIC POTTING SOIL (8 QT. BAG) - $8.95
This rich loamy mix is the premium choice you will want for your gardening applications. The 100% organic mix is comprised of screened earthworm castings, Canadian sphagnum peat moss, compost, and organic fertilizer. Perlite or pumice are added to ensure optimum aeration. This all-purpose mix can be used for all flowers, herbs, and vegetable plants, including houseplants, patio containers, and hanging baskets. Made in USA. OMRI Listed.

WOOD & PLASTIC PLANT LABELS
Use these plant labels to identify plant names, dates, and other information. Shorter labels are primarily for pots and flats while larger sizes serve best in the garden. The natural wood labels are made of white birch right here in Maine. The white plastic are very popular and should last you several seasons. Write permanently on them using our greenhouse pen (H650).

H630B. 4” WOOD - 50 for $2.95
H635B. 6” WOOD - 50 for $3.95
H640B. 8” WOOD - 50 for $4.95
H637B. 6” PLASTIC - 80 for $6.95
H642B. 8” PLASTIC - 80 for $9.95

H646. COPPER PLANT LABELS 10 INCH (10 pack) $8.95
A set of 10 attractive copper plant markers that are ideal for herb gardens, greenhouses, seed trays, window boxes & vegetable gardens. Easy to engrave with a ballpoint pen. The copper label will naturally weather outdoors, changing colors over time. Copper label area measures 2 1/2” x 3/4” with metal stakes. Total height 10”.

H647. WHITE T-STYLE PLANT LABELS (10 pack) $3.95
Durable, waterproof, white plastic markers to label rows and plants. Features a 2” x 1 1/4” writing area or simply slide your empty seed packet over the top to mark your rows. The white color is highly visible against the greenery. Package of 10 labels. Measures 6” in total length.

H650. GREENHOUSE PEN $2.49
Ideal for permanently marking greenhouse and garden labels. Black ink, customized with our own Pinetree Garden Seeds logo.
GARDEN SUPPLIES

H691. AL’S FLOWER POUCH
GROWING BAG - $1.95
From early spring to late fall, showcase your green
thumb with a beautiful planted display on your wall,
fence, or mailbox post. Made of heavy gauge UV pro-
tected green polyethylene film, the pouch consists of
10 pre-sliced inserts to place your plants into without the
guesswork of spacing. It holds approximately 1.5 gallons
and has a 7” handle to hang. Be creative and try toma-
toes, cucumbers, strawberries, herbs, lettuce, impatiens,
petunias, mums, and more! Measures 27” l. (including
7” handle) x 8 1/2” w.

ROOT POUCHES
Root Pouches are degradable pots made of a mixture
of recycled natural fibers and recycled bottles otherwise
designed for landfill. The lightweight breathable fab-
ric begins to break down once planted into the ground.
Benefits include: allows air and water to freely pass, de-
creases the risk of transplant shock, prevents roots from
circling, will withstand UV rays, provides insulation
from winter cold, allows roots to cool in summer heat,
and produces quicker growing times. Offered in 4 sizes.

H717A. ROOT POUCH (3 GALLON)
(No Handles) - $3.95
Color grey, measures 10” wide x 8.5” high,
longevity 3-4 years

H717B. ROOT POUCH (5 GALLON)
(With Handles) - $4.95
Color grey, measures 11” wide x 10.25” high,
longevity 3-4 years

H717C. ROOT POUCH (10 GALLON)
(With Handles) - $6.95
Color grey, measures 16” wide x 12” high,
longevity 3-4 years

H717D. ROOT POUCH (15 GALLON)
(With Handles) - $8.95
Color black, measures 17” wide x 15” high,
longevity 4-5 years (Not Pictured)

H130. BOSMERE POTATO PLANTER
BAG (1 Bag) - $9.95
Enjoy the real taste of homegrown potatoes! No need
for a garden. No need for digging. Great for decks, bal-
conies, and patios. Simply plant between 3 to 5 seed
potatoes per bag. The flap at the bottom of the green bag
allows you to check your potatoes. Its webbed handles
make moving it easier. Drainage holes are located at the
bottom. Made from woven polyethylene, easy to wipe
and takes up virtually no storage space when the
season is over. Bag holds approximately 36 quarts of
planting mix. For best results, use 3 bags and plant every
4-6 weeks to spread your harvest over a longer period.
Planter bag measures 18” high x 14” in diameter.

TRELLIS NETS
Made of tough, flexible nylon, these trellis nets are ide-
al for growing peas and climbing vegetables and flow-
ers. Harvesting is easy with the 7” squares that let you
reach through on either side. It conserves space, keeps
your produce off the ground, and holds up a bountiful
harvest remarkably well when properly secured with
stakes. Made in USA.

H601A. TRELLIS NET - 5’ x 15’ - $10.95
H601B. TRELLIS NET - 5’ x 30’ - $15.95
H601C. TRELLIS NET - 5’ x 60’ - $26.95

3-PLY JUTE TWINE - $2.95 PER ROLL
Soft, all natural, pliable, and biodegradable 3 ply jute
twine is offered in 2 colors. Used in a multitude of
ways in the garden or around the yard due to its soft-
ness and good tying qualities. Each roll is 243 feet
in length.
H623. NATURAL
H624. GREEN

H625. SOFT TWIST TIE
(16FT. SPOOL) - $4.95
Multi-purpose soft ties are convenient for any number of
tasks around the yard. Simply cut to the length you need
and form to any shape to wrap hoses, extension cords,
plant stakes, or trellises. Made in USA.

H628A. VELCRO BRAND® ONE-WRAP®
GARDEN TIES (50 FT. SPOOL) - $5.95
VELCRO® Brand One-WRAP® Garden Ties make garden
staking easy with no knots, twists, or tying. Simply cut
to length, wrap the tie onto itself for a secure hold
around the plant and post, stake, or trellis. Allow for a 2
inch overlap. The ties are reusable, adjustable, and gentle
on plants. Now made with 65% post-consumer recycled
materials. One roll measuring 30 feet in length x 1/2 inch
(15.2 m x 1.2 cm), VELCRO® is a registered trademark of
Velcro BVBA. Used with permission.

H629. LEVER LOOP PLANT GRIPPERS -
(50 PACK) - $5.95
50 reusable plant clips to secure stems and vines to
stakes, trellises, or wire. Also, useful for attaching lights
to trees and shrubs for decoration. Each package con-
tains an assortment of ¾” or 1” clips. Simply squeeze
the “handles” to open the loop.

H590. BOOGIE-BLUE BASIC WATER
FILTER - $29.95
Boogie-Blue Basic Water Filter will safely reduce chlo-
rine, heavy metals, and other common toxins like pes-
ticides from your water. Threads easily onto any ¾”
hose. Contains a single activated carbon membrane
derived from virgin coconut shells. A stand-alone fil-
ter with an effective lifespan of approximately 10,000
gallons. Promotes healthy plant nutrition and growth,
returning natural balance back to the soil. Useful for
gardening, livestock/pets, pools, spas, compost teas,
and all water system installations. Made in USA.

H596. BASIC RAIN GAUGE - $7.95
This simple design with large numbers for easy read-
ing measures up to 6” of rainfall. May be placed in the
ground or mounted on a post (screws not included).
Rugged one piece molded polystyrene measuring 12”
in length with an opening measuring 2 5/8” x 1”. Clean
with mild soap and water as needed.

H694. SOIL MOIST GRANULES (1LB.)
$12.95
A must have to save you 50% on your watering time.
Polymer granules, when mixed into the soil, absorb and
retain water like a sponge. When soil begins to dry, the
stored water is slowly released back to the plant’s root
system. Polymers do not contain any fertilizer, and last
3-5 years in the soil. Only a minimal amount is needed
for each container, so a jar should last awhile.

**H310. DIAL COMPOST THERMOMETER - $22.95**

Temperature plays an important role in the composting process. Decomposition occurs most rapidly between 110° to 160°F. This simple, easy to read thermometer has a dial scaled from 0° to 220°F and from -17.8° to 104.4°. It will assist you in determining the appropriate time to turn your pile. The 19” stainless steel probe is specifically designed for compost.

---

**H303. DIAL SOIL THERMOMETER - $11.95**

Check your soil temperature before setting out your seedlings with this easy to read thermometer. Simply insert the 6.5” probe into the soil to a depth of 2-3” and check the temperature recorded after 3 minutes. Made of a corrosion proof aluminum, it is scaled to read from 30-90°F and includes guidelines on the minimum temperature to plant the most common vegetables.

---

**H304. RAPITEST SOIL TEST KIT - $17.95**

Color-coded capsule system will reveal the nutrients your soil needs in minutes. By testing the nitrogen, phosphorous, potassium, and the pH level of your soil, you can determine whether to fertilize or adjust the pH levels for your plants’ growing needs. Take a sample of soil mix and mix it with water, add the powder from the capsule and watch the test results. Kit includes 4 test holders, 40 test capsules, 10 each for N, P, K, instructions for adjusting the pH and fertilization guidelines.

---

**H307. 4-WAY ANALYZER - $35.95**

Durable and compact in size, this calibrated meter does it all. Remarkable 3-probe analyzer measures the 4 most important aspects of plant’s health. Light reading where the plant is located, soil moisture at the root level, pH level of the soil on a scale of 0-9 and a combined nitrogen, phosphorus, potash reading determined on a “too little” or “too much” scale on the soil’s fertility. No batteries required.

---

**H306. ELECTRONIC SOIL TESTER - $24.95**

This dual purpose electronic meter tests soil pH and combined nutrient levels in about one minute. The pH portion of the tester measures pH values within a range of 1-9. The fertility portion of the instrument measures the soil levels nitrogen, phosphorus, and potassium (NPK) content in combination. Complete instructions and a pH preference list for 350 plants are included. One AA battery is required (not included).

---

**H301. RAPITEST SOIL MOISTURE TESTER - $7.95**

A helpful garden tool that tests the soil for moisture. Instantly, indicates when you need to water plants and helps to prevent over watering. Simply insert the probe into the soil and observe where the indicator falls on a scale of 1-4 (dry-wet). A chart provided lists over 100 plants and their assigned watering number. Water the plant when the needle falls on the number or below. For indoor and outdoor use. Cleaning pad included. No batteries required.

---

**H302. RAPITEST SOIL PH TESTER - $9.95**

Measure the acidity/alkalinity of the soil using this pH tester. Prepare the soil sample, clean the probe, and take a pH reading. A list of over 50 plant pH preferences is located on the back of the package. It includes vegetables, fruits, flowers, and shrubs. For indoor and outdoor use on soil only (not liquids). Cleaning pad included. No batteries required.

---

**H334. NEPTUNE’S HARVEST TOMATO AND VEG 2-4-2 (1 QT.) - $24.95**

Introducing Neptune’s Harvest Tomato & Veg Formula 2-4-2. This is a perfect complete fertilizer for your tomatoes, vegetables, and more. Made from fresh fish, seaweed, molasses, yucca extract, and humic acids. This formula was uniquely designed for plants with intense growth or “veggie” stages. Growers using the Tomato & Veg Formula have seen increased stalk/stem mass resulting in higher yields. In addition, Neptune’s Harvest Tomato & Veg provides necessary nutrients to keep your plants vigorous with strong root zones and lush foliage. Therefore, increasing the plants’ tolerance to various diseases, temperature and drought. Application rate: 1 oz. liquid concentrate per gallon water, every 1-2 weeks. One quart makes approximately 32 gallons.

For best results: Tomato & Veg Formula should be used in combination with Rose & Flowering Formula as described below, but can be used alone.

Part 1: Tomato & Veg during the vegging stage of the plant.
Part 2: Rose & Flowering once buds begin to appear, when flowering begins.

---

**H335. NEPTUNE’S HARVEST ROSE AND FLOWERING 2-6-4 (1 QT.) - $24.95**

Announcing another new Neptune’s Harvest formula! The Rose & Flowering Formula 2-6-4. Formulated for flowering plants to increase vigor during flowering and to increase the volume and density of buds that produce healthy, vibrant flowers. Made with fresh fish, molasses, yucca extract, seaweed and humic acids, the formula will ensure that your plants are healthy and happy, produce lush foliage and maximize their flowering ability. Application rate: 1 oz. liquid concentrate per gallon water, every 1-2 weeks. One quart makes approximately 32 gallons.

For best results: Rose & Flowering Formula should be used in combination with Tomato & Veg Formula as described below, but can be used alone.

Part 1: Tomato & Veg during the vegging stage of the plant.
Part 2: Rose & Flowering once buds begin to appear, when flowering begins.

---

**H336. SOIL MOIST PLANT THRIVE (3 OZ.) - $12.95**

Plant Thrive is a microbial based formulation that improves soil conditions for plant growth and improves plant establishment. There are 18 strains of highly active beneficial bacteria with 4 strains of fungi that can be applied as a soil amendment, a drench in soils, or as a foliar spray. Plant Thrive is ideal for all plants, flowers, vegetables, and trees. Use the scoop included to mix and follow the application rates on the bag of the package. For soil drenching, use ½ to ¾ scoop of Plant Thrive per gallon of water. A 3 oz. bag treats over 25 10” plants. Contains non-plant food ingredients. OMRI listed. Made in USA.

---

**H333. NITROGREEN ORGANIC FERTILIZER 13-0-0 - $12.95**

NitroGreen is a 100% plant-based organic fertilizer that can be used on all plants and vegetables. It does not contain any harsh ingredients that will burn the plants. 100% water soluble and dissolves completely into a solution to ensure immediate delivery of nutrients. The fertilizer has the highest nitrogen available in the industry which is essential for plant growth and establishment. Normally applied as a water solution, but can be applied dry. For outdoor plants: mix 7 teaspoons per gallon of water. One gallon treats about 12-15 square feet or 7 gallons about 100 square feet. Indoor plants: mix 2 teaspoons per gallon of water. Should be applied every 2 weeks during the growing season. 14 oz bag, OMRI listed. Made in USA.
**H325. ACID MIX – NPK 4-3-6**
A fertilizer specially blended for acid soil loving plants like blueberries, raspberries, rhododendrons, azaleas, hydrangeas, evergreen trees and shrubs, and others that thrive in a low pH soil. Apply in early spring to promote lush flowers and vegetables. Late fall applications assist with healthy root growth and boost resistance to colder temperatures. 1 lb. OMRI listed.

**H319. ALL PURPOSE MIX – NPK 4-6-2**
A gentle non-burning fertilizer perfect for all types of transplants, vegetables, herbs, flowers, and container plants. Formulated with organic ingredients of fish bone meal, blood meal, feather meal, rock phosphate, bone meal, alfalfa meal, seaweed granules, and kelp meal. It delivers a steady supply of essential nutrients to your plants while enhancing the soil’s fertility and microbial activity naturally. 1 lb. OMRI listed.

**H322. BLOOD MEAL – NPK 12-0-0**
A high nitrogen source guaranteed to promote rapid green growth. Great for feeding heavy feeders like corn, spinach, salad greens, and garlic. It also helps compost piles heat up and break down faster. 8 oz. OMRI listed.

**H321. FISH BONE MEAL – NPK 4-12-0**
A marine based alternative to traditional bone meal and wonderful for all flowering plants, trees, and shrubs. A great source of phosphorus and calcium, this fish bone meal also contains a small amount of nitrogen that is ideal for new garden beds, perennials, and bulbs. 1 lb. OMRI listed.

**H320. ROSE & FLOWER MIX – NPK 4-8-4**
A specialized blend providing ample nitrogen for vigorous growth, extra phosphorus for beautiful blooms, and potassium and trace minerals for a healthy plant stock. Contains fish bone meal, lanthanide (combination of potassium, magnesium, and sulfur), blood meal, alfalfa meal, seaweed granules, rock phosphate, humates, and kelp meal. It supplies all of your bulbs, annuals, and perennials with the right nutrients needed for a sensational flowering season. 1 lb.

**H326. STARTER MIX – NPK 3-3-3**
The perfect way to help your new seedlings thrive in the ground. The starter mix contains a beneficial blend of Endomycorelliza fungi along with essential plant nutrients to ensure successful planting, expansive root development, and early growth. 1 lb. OMRI listed.

**H318. VEGETABLE GARDEN FERTILIZER NPK 4-4-4**
Full of powerful plant nutrition to help your garden grow! All-purpose formulation provides a perfect start for your spring veggies, gives your summer tomatoes super powers and is fantastic for growing your favorite herbs. Vegetable Garden’s broad nutrient profile is ideal for use throughout the growing season. 1 lb. OMRI listed.

**H314A. JACK’S CLASSIC FERTILIZER (8 OZ.) – $6.95**
All purpose 20-20-20 fertilizer with micronutrients feeds both through the roots and leaves. Water soluble formula of nitrogen, phosphorus, and potassium provides fast green-up and rapid leaf expansion. Recommended for use on all your indoor and outdoor plants. A proven performer in the vegetable garden. Recommended application for outdoor plants; 1 TBS per gallon of water and indoor plants: ½ tsp per gallon of water every other week. Made in the USA.

**H328. FOSSILIZED SEABIRD GUANO (2 LB. BAG) – $9.95**
Large percentage of phosphorus and trace elements make this an all-around soil amendment for houseplants, vegetables and shrubs. Aids in healthy root growth and bud development and can be used as a seed starter mix by mixing 1 lb. per 5 gal. of potting mix. Use 1 tsp per 4” diameter container or 2 lbs. per 100 square feet and rake into soil. NPK 0-9-0

**H327. DESERT BAT GUANO (1 LB. BAG) – $7.95**
Especially good for green crops, due to the high nitrogen ratio, as well as fruit-producing vegetables, roses and perennial plants. Apply 1-2 lbs. per 100 square feet of growing area or seed row, 1-2 tsp. for an 8” diameter container, 1/4 cup dry per 1 gallon sized transplant holes or mix 1 cup for every 5 gallons of water. NPK 0-9-0

**H324. FIXIT SOIL WORM CASTINGS (5 LB. BAG) – $8.95**
Earthworm castings, an organic multi-purpose fertilizer, can be used for all indoor plants and outdoor gardens as well. Promotes rapid growth, adds structure and aeration to the soil for excellent drainage, dramatically improves crop yields, non-burning to plants when applied directly, and non-toxic. These quality worm castings are created by Fixit Farm, Inc. located in Maine and approved for use in organic crop production. Available in a 5 lb. bag.
H417. BurnOut® WEED & GRASS KILLER 32 oz. RTU SPRAY - $10.95
Made from natural ingredients, BurnOut® is approved for organic gardening. It kills all types of actively growing weeds and grasses. Best results are achieved from spring/early summer applications to actively growing weeds. BurnOut® is rainproof when dry, works at temperatures as low as 40°F and does not translocate. Great for use around borders, driveways, sidewalks, buildings, fence lines and other areas where weed control is desired. One bottle covers approximately 375 sq. ft. Active ingredients include citric acid and clove oil, inert ingredients include water, lauric acid, octanoic acid, gum arabic, xanthan gum, and sodium acetate.

AgroFabric® creates a stable and favorable microclimate for your crops. It captures extra heat during the day and slows the loss of stored heat at night from the soil. As a result, AgroFabric® raises minimum temperatures without crushing or suffocating your plants. Essential for frost sensitive vegetables, berries, and container plants. The material is flexible and porous allowing air, water, and sunlight through to assist in growth. Made in USA.

H520. AGRO-FABRIC PRO19 ROW COVER $0.45 PER FOOT (10’ MINIMUM)
Lightweight material provides up to 4°F of frost protection to extend your growing season. Transmits 95% light and 0.55 oz. per sq. yd. Six feet wide. You determine the length needed. Purchase by the foot with a minimum of 10 feet.

H532. HIGH YIELD TOMATO MULCH - 18” x 25’ - $9.95
Ideal for tomatoes, peppers and strawberries. Reflects the growth promoting spectrum of sunlight onto the plants producing up to 26% increase in yields of fruit and vegetables. By placing the mulch on both sides of your transplants the red reflection fools them into believing they’re overcrowded so they grow more. Holds moisture in the ground, prevents weed growth, and reduces blight problems caused by spores in soil splashing onto the leaves. 3 mil. thick.

H515. RED TOMATO TRAYS (3 PACK) $10.95
Red plastic trays protect your tomatoes against drought, weed growth, and shielding from cutworms. Color stimulates growth by reflecting red light back onto the plants increasing the yield up to 40%. Split tray design makes it easy to slide around the plant’s stem. Corner spikes aid in anchoring to the ground by covering the outer flange with 1” of soil. Water and fertilize by filling each of the corner holes and the entire tray. Add a stake or a cage for support. Made in USA.

Do you have a Japanese beetle problem? Milky Spore is a key to solving the problem. It is a natural bacteria that kills at the grub stage. Apply one time using 1 teaspoon for every 4 feet in a checker board pattern on the lawn and water lightly after application. Infected beetle larvae will die and decompose releasing billions of new spores into the soil continuing this cycle. 10 oz. will treat 2,500 sq. ft. and has no expiration date if kept sealed and dry. Made in USA and OMRI listed.
**INSECTICIDES, PESTICIDES, & FUNGICIDES**

**H408. THURICIDE – BASILLUS THURINGIENSIS (8 OZ. CONCENTRATE)**
$11.95

Natural bacteria better known as BT is the best resort for killing leaf eating worms and caterpillars without resorting to harsh chemicals. Used by organic gardeners to effectively control leaf eating caterpillars, loopers, cabbageworms, hornworms, leaf folders, leaf rollers and gypsy moths. Mix ½ - 4 teaspoons per gallon of water. Read and use according to the label. Spray upper and lower side of leaves. Repeat at weekly intervals if needed. Made in USA.

**H407. PYRETHRIN GARDEN INSECT SPRAY (8 OZ. CONCENTRATE)**
$16.95

Protect your entire garden from damaging insects. Botanical insecticide derived from the pyrethrum plant better known as chrysanthemum. Can be used on all vegetables, flowers, fruits, roses and ornamentals. Kills an array of bugs: asparagus beetles, aphids, cucumber beetles, cabbage worm, flea beetles, stink bugs, potato beetles, leaf hoppers and many other yard and garden insects. Add 3-5 tablespoons per gallon of water and spray to apply thorough coverage. Made in USA.

**H406. INSECTICIDAL SOAP (32 OZ. RTU SPRAY)**
$11.95

Are insects destroying your plants? This organic ready-to-use spray will kill them in minutes. Derived from natural plant based potassium fatty acids, it controls aphids, grasshoppers, licebugs, mites, thrips, whiteflies, earwigs, spider mites and more. Use on houseplants, vegetables, flowers, fruits, roses and shrubs up to the day of harvest. Spray directly on pests and all plant parts including the undersides of leaves. Repeat treatment weekly if needed. Quickest and safe insect control solution to use on edible crops while not harming the environment. Made in USA.

**NEEM OIL**

**H405. NEEM OIL RTU (32 oz.)** $9.95
**H405C. NEEM OIL CONCENTRATE (16 oz.)** $19.95

**H410A. SLUGGO PLUS** $17.95

Sluggo Plus not only eliminates slugs and snails, but also kills earwigs, cutworms, sowbugs, and pillbugs. The 1 lb. shaker container containing granules can be used outdoors around vegetables, fruit trees, berries, flowers, shrubs, lawns, and gardens. The combination of naturally occurring iron phosphate and spinosad keep the pests under control. 1 lb. treats 2,000 sq. ft. and lasts up to 4 weeks. OMRI listed.

**H410. SLUGGO (1LB. SHAKER CAN)**
$13.95

Eliminate slugs and snails that can destroy leaves on vegetables and flowering plants in a matter of hours. This blend of iron phosphate lures the slugs from their hiding places near plants, and when ingested, even small amounts will cause them to cease feeding, become less mobile and die within days. Since slugs and snails travel and feed mostly by night or early morning, evening is the best time to apply, sprinkling the granules around the plants for prevention. We’ve found this is the best solution to combat them and is safe around pets and wildlife too! Apply 1 lb. per 1,000 sq. ft. or 1 teaspoon per sq. yard. OMRI listed.

**H412. GONZO COPPER STOPPER SLUG & SNAIL TAPE (30FT. ROLL)**
$14.95

Control slugs and snails without using harmful chemicals. The copper surface reacts with their secretions, providing an unpleasant sensation and effective deterrent. An adhesive back can be easily applied around trees, various planters, pots and even pet dishes. May be tucked or stapled onto wooden raised bed systems as well. Great for organic gardening. One roll measuring 30 ft. x 1.25 inches.

**H440. NO ESCAPE MOTH TRAPS**
$7.95

Powerful traps that attract and capture pantry moths commonly found in flour, rice, crackers, dog food, birdseed, and cereals. The traps are odorless and non-toxic, so they can be safely placed near food items. Last for three months. Contains 2 pheromone lures and 2 traps. Made in USA.

**H439. MOSQUITO BITS 8 OZ.**
$14.95

Kills mosquitoes before they’re old enough to bite. Sprinkle the granules in water gardens, flower pots, and bird baths. Also controls fungus gnats in plant beds or pots. 1 teaspoon per 25 sq. ft. or 1 tablespoon per 75 sq. ft. Treats up to 2,178 sq. ft.

**H435A. STICKY APHID & WHITEFLY TRAPS (5 PACK)**
$5.95

Sticky yellow surface has a grid for precision monitoring purposes. Non-poisonous, odorless and weatherproof. Easy-to-open, the other small flying insects that are attacking your plants may anchor it down by attaching a sinker to it.

**H435. STICKY APHID & WHITEFLY TRAPS (5 PACK)**
$5.95

Capture aphids, white flies, leaffoppers, months, and other small flying insects that are attacking your plants without the use of toxic chemicals. Easy-to-open, the sticky yellow surface has a grid for precision monitoring purposes. Non-poisonous, odorless and weatherproof. Use the twist-tie provided to easily hang the trap. 5 traps included measuring 4" x 7". Made in USA.

**H482. GIANT 6 FT. SNAKE**
$9.95

Inflatable 6’ snake deters birds around fruit trees, decks, rafters, window ledges, barns, docks and even pond or pool areas. We suggest placing the snake in a prominent area such as on a limb where it looks as natural as possible, or where the birds can see it, and periodically move it around from time to time. Side tabs may be used to tie down under windy conditions or if floating on the water’s surface you may anchor it down by attaching a sinker to it.
GARDEN SUPPLIES

INSECTICIDES, PESTICIDES & FUNGICIDES

H484. HOLOGRAPHIC SCARE TAPE - 3/4" X 100' ROLL - $7.95
What a nuisance birds can be around freshly planted seeds, fruit trees, grapevines, and ripe berries! This foil reflective tape with moving circular hologram patterns will flash dramatically in the sunlight and vibrate in the wind, frightening thieving birds and keeping them at bay. An inexpensive solution to ward off scavenging birds and used by many commercial growers. Made in USA.

H551. POP-NET - $23.95
Use this mesh netting to protect plants from insects, birds, and small animals. Pop-up structure for quick and easy set-up. Allows sunlight, water, and air to move through to plants. Corner loops anchor net to the ground with stakes included. Mesh is 1/8" and overall unit measures 40" x 40" x 20". Four 6" stakes included.

H480. TIP-TRAP® MOUSE TRAP $2.95 EACH
Live capture, no kill mouse trap. This unit is safe, simple, and effective. Easy to bait, set, and release. Put bait (not included) on the inside of the removable end cap. Place trap near a wall with trap door open. The smell of the bait will flow out the trap door to attract mice. When a mouse enters the Tip-Trap® it will cause the unit to tip, capturing the mouse inside. To release, simply position the trap over desired area, pull back on closed trap door and let mouse slide out. Designed for residential or commercial use. Measures approximately 7" l x 1 1/2" w x 1 1/2" h.

ANIMAL DETERRENTS

H481. MOUSE MAGIC MOUSE REPELLENT (4 PACK) - $8.95
A humane way to repel mice using natural essential oils conveniently packaged and easy to use. Try placing them in areas where mice feed and congregate such as: garages, storage sheds, barns, basements, wood piles, attics, campers, stored boats, behind appliances, stored pet food, and other areas where there may be a problem. One pack treats an average size room and you can increase the number of packs as needed until the desired results are achieved. The packs are comprised of peppermint oil, spearmint oil, and crushed corn cobs. Each biodegradable pack measures 3 1/2" x 3" and can repel mice up to 30 days. Made in USA.

H480. TIP-TRAP® MOUSE TRAP $2.95 EACH
Live capture, no kill mouse trap. This unit is safe, simple, and effective. Easy to bait, set, and release. Put bait (not included) on the inside of the removable end cap. Place trap near a wall with trap door open. The smell of the bait will flow out the trap door to attract mice. When a mouse enters the Tip-Trap® it will cause the unit to tip, capturing the mouse inside. To release, simply position the trap over desired area, pull back on closed trap door and let mouse slide out. Designed for residential or commercial use. Measures approximately 7" l x 1 1/2" w x 1 1/2" h.

ANIMAL DETERRENTS

H465. GOPHER SCRAM (3.5 LB.) - $26.95
You have invested a lot of time, money and hard work to create a beautiful lawn and garden. You may have even taken measures, like putting up a fence, to protect your property from foraging critters. But what about burrowing animals that do their damage from below? Gophers can injure or kill plants and flowers in your garden, as well as damage your lawn. Gophers often dig several holes a day, leaving mounds of dirt around each new entry. This repellent contains only natural and organic products and is biodegradable. It is a blend of castor and other oils in granular form, which is sprinkled on the ground and then watered to activate the repellent. Unique in its two-pronged approach, it drives gophers away quickly, using bad taste and strong smell. 3.5 lb. shaker container protects up to 2100 sq. ft.

H467. SKUNK SCRAM (5.5 LB.) - $39.95
Are you smelling the powerful pungent odor from a skunk? Are you finding damage to your lawn or garden? Use this ready to use Skunk Scram to keep them away! Skunks typically feed on grubs, insects, snakes, bird & pet food, fruits & berries, and garbage. This granular repellent is an all natural product that contains no chemicals. Unpleasant to a skunk’s taste and smell senses, it deters them from treated areas. Simply sprinkle the highly effective and long lasting repellent and let it work. The 5.5 lb. shaker protects up to 3500 sq. ft.

ORGANIC ANIMAL REPELLENTS

Discourage gophers and moles from making tunnels in your lawn and keep the deer, elk, and rabbits from browsing on your trees, shrubs and flowers. 3" - 3 1/4" probes are fully organic with active repelling ingredients of concentrated garlic and soybean oil that has proven 85-90% effective for up to 6-8 months on trees and shrubs and up to 10-12 months in tunnels. Probe is activated by puncturing a barrier to release the garlic, and then the units are attached to the plant by a clip. Use 1-4 clips per shurb depending on the browse history. For moles and gophers just remove the rubber stopper and drop into the hole or tunnel. Long lasting garlic odor will be evident in the tunnel for 10-12 months and plastic tube will biodegrade in about 24 months. Made in USA.

H615. DEER-X NETTING 7" x 100' - $25.95
Protect against thieving deer safely and humanely. 3/4" polypropylene mesh, with UV protection guards your prized trees, shrubs, flowers and vegetable gardens as a temporary fencing from destructive deer. An affordable alternative to metal fencing, it is strong and durable. Lightweight and easy to install, we suggest staking every 4 feet for good stability. Mesh opening squares are 5/8" and overall weight is less than 1 lb. Made in USA.

H617. BIRD-X NET - 1' x 1' - $9.95 Protects fruits and berries from pruning birds & other garden pests. We find this perfect on strawberry beds. Made of durable 3/4" polypropylene mesh with UV inhibitors, the net can be used for various fencing applications as well. Made in USA.

H464. DEER SCRAM (2.5 LB.) - $25.95
One of the most effective deer repellents we’ve used! This organic granular repellent stops deer (and rabbits too) from browsing on flowers, trees, lawns and vegetables. Apply as a perimeter strip around the entire group of plants to be protected. Use every 30-45 days depending on the weather. Environmentally safe, it is made of dried blood, garlic, white pepper, cloves and meat meal, and will not harm animals. Protects up to 1,600 sq. ft. Made in USA.

H466. MOLE SCRAM (4.5 LB.) - $26.95
This organic granular repellent has proven to be the best remedy to deter and eliminate mole activity. Comprised of peanut hulls, castor oil, citronella oil and garlic oil, it works in many ways. The granules require no mixing or spraying, effective for all seasons, won’t harm animals, and 100% biodegradable. Watering or rainfall is the key to activating as it draws the active oils from the granules into the soil, so application is 1 lb. per 750 sq. ft. or this 4.5 lb. shaker container will protect approximately 3,375 sq. ft. Made in USA.

H464. DEER SCRAM (2.5 LB.) - $25.95
One of the most effective deer repellents we’ve used! This organic granular repellent stops deer (and rabbits too) from browsing on flowers, trees, lawns and vegetables. Apply as a perimeter strip around the entire group of plants to be protected. Use every 30-45 days depending on the weather. Environmentally safe, it is made of dried blood, garlic, white pepper, cloves and meat meal, and will not harm animals. Protects up to 1,600 sq. ft. Made in USA.

H482. DEER-X® REPELLENT (12 PACK) $11.95
Contains only natural and organic products and is biodegradable. It is a blend of castor and other oils in granular form, which is sprinkled on the ground and then watered to activate the repellent. Unique in its two-pronged approach, it drives gophers away quickly, using bad taste and strong smell. 3.5 lb. shaker container protects up to 2100 sq. ft.
H460A. ANIMAL STOPPER
(32 OZ.) - $17.95
Developed by the Messina Wildlife Management, this ready-to-use spray repels groundhogs, gophers, raccoons, skunks, woodchucks, beavers, rabbits, and armadillos. Active ingredients include putrescent whole egg solids, mint oil, rosemary oil, and cinnamon oil. Due to food allergies, it should not be applied directly to fruits and vegetables. For edible crops, you may spray around the perimeters. The product can be applied in any temperature, dry clear, and may be reapplied as needed usually every 30 days. The bottle will cover approximately 1,000 sq. ft. Made in USA.

H485. PROTECTIVE WINDOW DECALS
(4 PACK) - $7.95
Reduce bird strikes on windows and glass doors! These static cling decals are printed with a coating that reflects ultraviolet sunlight, so the birds avoid flying into the glass. Clings to windows – no adhesive required. Easily apply, remove, and reposition. Set of 4 leaf designs. Each decal measures 5” x 5”. Made in USA.

H51. EZ- DIGGER GARDEN TOOL
$17.95
One of our favorites! This gardening tool’s blade is 7” long and convex like that of a plow with a sharp point broadening to a width of 3”. Terrific for digging and planting bulbs. The point cuts deep and the blade gently pushes the soil to the surface to trench rows. Hand-forged and designed for right-handed gardeners.

H670. HUMMINGBIRD FEEDER MINI 3D FLOWER - $11.95
Unique design creates an easy-to-use feeder combined with a one-of-a-kind look that will be a favorite for your hummingbirds! Attractive floral feeder with additional hook on the underside allows for multiple feeders to be connected separately to reveal a 5 ½” wide opening – making it one of the easiest to fill! An addition hook on the underside allows for multiple feeders to be connected vertically. Built-in ant moat and bee resistant. Feeder measures 2.5” h x 7” w x 7” d; with hanger 10” h x 7” w x 7” d. Capacity up to 10 oz.

H682. Mason Bee Nest Kit (Standard) - $15.95
Take the sting out of bee keeping with this biodegradable mason bee nest kit (bees not included). Native Orchard Mason Bees are widespread throughout North America. They are superb early season pollinators of fruit trees, strawberries, raspberries and blueberries even better than honeybees. They are active in colder temperatures and their hairy bodies carry more of the pollen that fertilizes your blossoms. Each female Orchard Bee makes her own nest in a series of tubes, sealed with mud. These bees are useful, small and docile. They hardly ever sting unless severely provoked. In nature, female mason bees lay their eggs in hollow plant stems, insect holes, dead trees, even under house shingles. Finding such places is hard work! By putting up a nest kit, you are providing an easy, ideal, “ready-made” home for the bees until they “hatch” out the following spring. They will repay your kindness by pollinating your early spring fruits and berries. The tubes provide exactly the right size holes the Orchard Bees are seeking in early Spring, in which to lay their eggs. Place the nest kit in a sheltered, sunny spot facing East or South to catch the morning sun. Under the eaves of a shed or garage is an ideal location. We recommend replacing “used” tubes as soon as they’re empty in early Spring. Newly hatched females prefer to use new empty tubes, but they’ll use the old ones if they must. 50 tubes included each measuring 6” long x 5/16” in diameter.

H682A. MASON BEE NEST REPLACEMENT TUBES (50 PACK) - $10.95
Each year, it is best to provide fresh nesting tubes for the mason bees. Ideally replace “used” tubes as soon as they’re empty in early Spring. Newly hatched females prefer to use new empty tubes, but they’ll use the old ones if they must. 50 tubes included each measuring 6” long x 5/16” in diameter.

H151. LEONARD CAPE COD WEAVER - $24.95
Functional and extremely effective quality tool from A.M. Leonard for cutting weeds below the surface. The proper angle of the 2 ¾” blade allows for easy access into the soil to capture the majority of the root system. Its narrow tip comes in handy when weeding between stones and pavers, and also makes a great companion for planting small annuals too. The forged steel construction includes additional heat treatment of the cutting blade to keep a good edge, even in tough soil conditions. The comfortable 7 ¾” contoured handle is finished for weather resistance. Overall length 13”.

H152. LEONARD CAPE COD WEEDER - $24.95
Durable pruners with pre-sharpened steel blades. Cut smoothly for all purpose pruning, such as removing dead branches from shrubs and deadheading woody perennials. The handle has a red coated comfortable grip with a finger-flick catch lock to close for safety. Overall length is 8 1/2”.

H158. GARDEN NINJA LOOP WEEDER - $19.95
An awesome tool for weeding in tight places! Designed for use around plants to avoid damaging roots. It cuts into emerging weeds just below the soil surface effortlessly in any motion or direction while allowing the soil to flow through the blade, reducing soil displacement. Try it out in gardens, window boxes, raised beds, wherever weeds are growing. Stainless blade with a plastic handle. Length 12”.

GARDEN TOOLS - $2.95 EACH
Remarkably lightweight, strong and affordable garden tools by Fiskars. Made from rustproof nylon/fiberglass composite. 1-piece construction means no loose handles and hanging hole for easy storage. Perfect for everyday gardening.

(A) H171. TROWEL
(B) H172. CULTIVATOR
(C) H173. TRANSPLANTER

H165. FLIP-IT GARDEN KNIFE - $3.95
A handy little device to have around the yard. The amazingly sharp 2” blade retracts easily in and out of the 3” plastic handle and easily fits into any pocket. You’ll wonder how you ever got along without one. Available in assorted colors imprinted with the Pinetree logo. We’ll select a color for you. Made in USA.
H159. RING WEEDER - $3.95
The Ring Weeder is a handy garden gadget that makes hand weeding easy! Just slip it over your glove and onto your index finger—weed away! Great for weeding in those densely planted areas where larger tools won’t fit. This little tool is designed to help extract the entire root of the weed. Weeds are tricky, and if you do not get the whole root, the weed will grow back. The Ring Weeder will save you time and effort in the long run. Better weeding, fewer weeds, so more time to enjoy the fruits of your labor. One size fits most. Made from ABS plastic. Measures 3” x 1” and fits in your pocket.

SM304. OVAL NAIL BRUSH - $2.95
Made of natural bristle and hard wood, it has bristles on the side for cleaning under nails. Each piece is 3 3/4” l. x 2” w. x 1 1/4” h.

SM309. CAST IRON SOAP DISH - $11.95
This practical soap dish has a traditional design and is handcrafted in cast iron. Rubber feet on the bottom prevent marring on surfaces when used inside the home. We also find it handy for outdoor use after gardening. Mount the dish through the decorative scroll backing placing it near the water faucet for a quick scrub. The soap inset measures 4” x 2 1/2” enough to hold a generous size bar of soap. The dish also features a cut in flower design for drainage. Overall the dish measures 6” l. x 4 1/4” w. x 5 1/2” h.

H181. FAUCET GRIP - $10.95
The ideal tool for easy turning of outdoor faucets. Round outdoor faucets can be extremely difficult to grasp and turn when wet, slippery or cold. Faucet grip is the simple solution that gives you a good grip with extra leverage to easily turn and loosen even the tightest outdoor faucet. Additionally, it will help to save water by providing a stronger grip to firmly tighten the faucet and prevent dripping. Mount it over your existing faucet handle using the included hardware. Quick to attach and fits most round or oval outdoor faucets. Measures 4 1/2” x 2”.

H264. GLOVES IN A BOTTLE SHIELDING LOTION (3.4 OZ.) - $8.95
Suffering from dry, cracked, or calloused hands from hours in the garden? Do you get nail damage or hands so dirty they’re never the same again? Gloves In A Bottle works like an invisible glove. It protects from the elements which harm, irritate and dry out the skin while retaining your own natural moisture and oils to allow healing from the inside. Non-greasy and bonds with the outer layer of skin cells to create an “invisible shield”. Perfect for gardeners, parents, nurses, teachers, painters, construction workers, and more. Beneficial for eczema and psoriasis relief too.

PC251. GRAMP LYFORD’S COUNTRY SALVE™ (3.4 OZ.) - $8.95
Popular moisturizing salve developed by pharmacists David and Rich Rochefort and named for David’s grandfather, George Lyford, a Vermont dairy farmer. George often experienced rough, dry, and cracked hands. They were inspired to create this unique formula: light, greaseless, and soothing. 100% fragrance free, paraben free, and dye free. Contains urea and allantoin to better penetrate and promote healing of the skin. Not tested on animals. Apply sparingly to soften and hydrate, dry, rough skin. Made in the USA.

H246. THE ROO APRON - $40.95
Perfect for harvesting your vegetables from the garden, pulling weeds or collecting anything that needs to be put away even the children’s toys. No more need to use your shirt. Simply put on the Roo, fill the pouch and the cylinder chute allows you to deposit your collection without messy fallout. Adjustable cotton straps are designed to fit over the shoulders rather than the neck to provide all day comfort. Made from industrial strength cotton with a water-resistant nylon storage pouch. Plastic hooks allow for easy release of the pouch. Self-adjusting straps provide a comfortable fit for most. Machine washable, line dry. Apron measures approximately 18” wide x 29 1/2” in length.

H248. BUG BAFFLER® HEADNET - $8.95
Enjoy the freedom of being outdoors during bug season. A comfortable headnet is essential for face and head protection from mosquitoes, blackflies, no-see-ums, ticks, deerflies, bees and even the tiniest bugs. This fine, tight, black mesh is soft, allowing plenty of room to wear a hat and is seamless for unobstructed vision. Sturdy elastic bands slip easily under arms to hold in place. Made in the USA. One size fits all.

WONDER GRIP NEARLY NAKED GARDEN GLOVES - $8.95
An extremely comfortable pair of gloves that you’ll love to wear! Made from a breathable nitrile coating combined with a nylon liner, these gloves provide a snug fit shaping nicely to the hand. The superb comfort allows for great dexterity ideal for delicate tasks like planting seeds and transplanting. Available colors pink, lavender, and light blue. We will select color for you unless you specify. Sizes Small, Medium, and Large.

H263A. SIZE SMALL
H263B. SIZE MEDIUM
H263C. SIZE LARGE

H283. BOSNEELEZE LUXURY KNEE PADS - $27.95
Protect your knees and clothing while gardening, weeding, and planting. Waterproof with a durable quick dry outer neoprene skin and memory foam for ultimate comfort. Easy to put on with adjustable hook and loop straps and very light weight. Wipe them clean with a damp sponge. Available in red, green or blue. We’ll choose for you. Measures 6” x 9” with a 6” strap on each side.

Pinetree Garden Seeds
**H733. BASH ‘N CHOP - $7.95**

This handy tool can chop, slice, mince, bash and scoop a variety of vegetables including garlic. The 5" stainless steel blade features etched measurements. Measures 5 ¼" x 4 ¼". Dishwasher safe. Also great for cutting bars of soap!

**H722. NATURAL FIBER VEGETABLE BRUSH - $4.95**

Traditional 4" vegetable brush fits comfortably in the palm of your hand and is made of natural coir fibers for durability. Ideal for scrubbing vegetables. Will last for years.

**H722A. NATURAL FIBER MINI BRUSH**

The durable coir fibers of this mini brush with a 2 ½" wooden handle will provide comfort while scrubbing vegetables, nails, and more. The brush measures 5.75" in total length.

**BEE’S WRAP – REUSABLE FOOD STORAGE**

A natural alternative to plastic wrap. Easy to use and reduces plastic waste. Store everything from fruit and vegetables to baked goods and leftovers. Use the warmth of your hands to form the wraps around your food or over a bowl. As the wrap cools, the seal will hold its shape. Just wrap, rinse, and repeat. Wash with cool water and hang to dry. Bag measures 17" w x 15" h and Pouch 3" w x 4" h.

**SM310. STAINLESS STEEL FUNNELS (3 PIECE SET) - $11.95**

These stainless steel funnels are indispensable when trying to fill small neck bottles, jars and cosmetic tubes. Great for the kitchen or for crafts as well. Funnel sizes are 1.75", 2.25" and 3" in diameter with the stem having an opening of .20", .4" and .5". All held together on a 1 1/2" clamp style ring.

**H780. BLUE H780G. GREEN H780R. RED BEE’S WRAP® Honeycomb Assorted 3 Pack $17.95**

Includes: 1 small 7"x8", 1 medium 10"x11", 1 large 13"x14"

**H790. Bee’s Wrap® Honeycomb Bread - $14.95**

Includes: 1 wrap measuring 17"x23"
**H737. PREPWORKS® MIX N' CLEAN**
$6.95
Mix your own cleaning solutions to replace harsh chemicals, reduce plastic waste, and save money! The 14 oz. plastic bottle includes 5 non-toxic DIY recipes for home use with a comfortable sprayer handle and an indicator that marks which recipe is in use. The recipes, listed on the bottle with filling lines, make it simple to create these 5 cleaners: multi-purpose, granite/stone, fruit/vegetable, glass, and disinfectant. Made from PET plastic. BPA free and dishwasher safe. Measuring 8.5" x 3.75".

**H757. SPROUTING LID - $4.95**
Give your salad a power boost with nutrient-dense and flavor packed sprouts! It is easy and inexpensive. Soak seed in water for 8-10 hours, rinse seed twice a day, and invert jar to drain water. Most sprouts are ready in 3-4 days. Durable food-grade BPA-free plastic lid has mesh holes to rinse and drain the most common sprouting seeds. Fits standard wide mouth canning jar, is dishwasher safe, won’t rust or tarnish. Diameter is 3”.

**H758. 4-TIER KITCHEN SPROUTER**
$17.95
Grow fresh, nutritious sprouts year round in just 2-4 days! No need to soak your seeds, simply place the seeds in 1, 2, 3, or all 4 clear trays and add the base tray to collect excess water. Rinse twice daily and soon they’ll be ready to add to salads, sandwiches, and even soups. Simple, fun, and best of all, nutritious. A package of alfalfa sprouts is included to get you started. Overall height is 8” and trays are 6” in diameter. Made in USA. BPA free Polypropylene.

**H773. BERRY BLISS**
assorted berries and fruits circled with a magenta colored border

**H774. SWEET PRESERVES**
assorted berries with a blue border

**H775. PICKLE IT ALL**
assorted vegetables highlighted with a green border

**H777. REVERSIBLE CANNING RACK**
$15.95
The unique design of the Progressive® Reversible Canning Rack provides options for all your canning needs - quart jars, pints and half pints. One side holds four quart jars. Flip it over and the other holds seven pints or seven half pints. Use 2 racks to facilitate your canning process. The stackable stainless steel canning racks won’t rust and fit in most ½ quart or larger stockpots. The flower petal design allows the water to circulate evenly while boiling and keeps the glassware from touching. Its compact size is convenient for storage. Dishwasher safe. Measures 10.25" in diameter x 2" high.

**H746. MINI CANNING RACK - $7.95**
Turn any stockpot into a canner. Ideal for small batches, this rack holds 2 quarts, 4 half pints, or 8 pint canning jars. The purpose is to elevate the jars off the direct heat, so the hot water circulates freely around the jars. Contoured comfort grip handles can rest on the pot rims. Measures 8.25” in diameter.

**H748. JAR LIFTER - $5.95**
The jar lifter easily clamps to the top of virtually all canning jars and aids in removing hot jars from boiling water safely. Rubber coated to improve the grip and reduce breakage. 8 ¾” L x 3 ¼” w.

**H749. CANNING FUNNEL - $2.95**
Wide funnel fits both regular and wide mouth jars. Minimize waste and a mess by using the funnel to keep your preserves in the jar and not on the counter. 4 ¼” top diameter x 3” bottom diameter x 3” tall.

**H750. COMBO LID LIFTER & BUBBLE REMOVER - $2.95**
Two tools in one! Lift hot sterilized lid with the magnetic end and release bubbles from the jar with the flat end. 10” L x 3/4” w.

**H759. PREPWORKS® CANNING FUNNEL - $7.95**
This funnel was designed to keep jar rims and counters mess-free. The double-walled funnel fits securely over both regular and wide-mouth canning jars. Outer wall keeps the funnel off the work surface preventing contamination, the inner wall is shorter and is placed on the jar keeping the rim clean. It features headroom measurements in inches and millimeters for accurate filling. Allows the necessary air gap for proper sealing. Made of high heat polypropylene and dishwasher safe. Measuring 5” in diameter x 3” in height.

**H752. CANNING SCOOP - $7.95**
An innovative tool from Progressive®. The curved front and sides of this canning scoop make it better than a ladle, allowing for easy access into tight spaces like corners of stockpots. It also features a large capacity bowl capable of filling an entire half pint jar in a single scoop. The double pour spout allows for left or right handed pouring. The built-in clip permits the canning scoop to rest on the pot rim. Heat resistant plastic to 400°F (204°C) and dishwasher safe. Measures 11.75” long by 3.75” wide.

**PRESERVE LABELS (18 PACK) - $3.95**
Attractive labels in bright colors, they add a personal touch to your home canned products. The self-adhesive labels have more room for names, dates, and ingredients. The package contains 18 total labels with three different shapes (6 of each). The round label is 2.5” in diameter, the oval is 2.25” x 1.3” and the rectangular label measures 2.3” x 1.3”. Available in three offerings.

**NEW!**
**H751. MINI CANNING RACK - $6.95**

**H756. PREPWORKS® CANNING JAR CLEANER - $5.95**
This bottle with filling lines, make it simple to create these 5 cleaners: multi-purpose, granite/stone, fruit/vegetable, glass, and disinfectant. Made from PET plastic. BPA free and dishwasher safe. Measuring 8.5" x 3.75".

**NEW!**

**H755. COMBO LID LIFTER & BUBBLE REMOVER - $2.95**

LOOSE TEAS - 3 OZ. BAG - $5.95 EACH

**SP201. EARL GREY**
The pleasant aroma has made this popular for years. Delicate citrus flavor is processed by spraying natural bergamot oil upon the tea leaves.

**SP205. IRISH BREAKFAST**
Rich, velvety smooth malty brew. A bold and full-bodied tea that is enjoyed with milk and sweetener.

**SP202. CHINA BLACK**
Robust, flavorful, good as a breakfast tea or as a base for making your own flavored tea. Spicy, slightly citrus, and medium bodied.

**SP203. ASSAM (FLOWERING ORANGE PEKOE)**
A black Indian tea that is rich and robust with strong aroma. Citrusy, medium bodied flavor.

**TG102. ENGLISH BREAKFAST**
Very popular blends of black teas, this tea has a full, robust, malty (and slight citrus) flavor. It's a good choice for those who prefer to add milk or a sweetener to their tea.

**TE100. DARJEELING**
Regarded as the champagne of black teas, this tea is light bodied, smooth, elegantly dry, flavorful, and aromatic. Makes a wonderful afternoon tea.

**SP209. CHAI GREEN TEA**
One of our best selling teas! It has a spicy, sweet, and unique combination of green tea, cardamom, ginger, fennel and cinnamon. This tea is best appreciated on its own, although it is also enjoyed with simple desserts or baked goods like butter cookies.

**SP211. GUNPOWDER TEA**
This tea has a very strong rich flavor, with a hint of sweet smokiness. An added interest is that the leaves are rolled into tiny pellets, which unfurl and “bloom” open in your cup. Fair Trade Certified.

**SP204. CHINA GREEN**
A clean and refreshing taste. Aids with sweetening your breath and with digestion.

**SP213. JASMINE GREEN TEA**
Our best seller! Jasmine tea has many health benefits including antioxidant properties, reducing threats of heart disease, helping to reverse negative effects of diabetes, assisting with gastrointestinal disorders, and improving the immune system. Dried green tea leaves are layered with jasmine flowers allowing the tea to absorb the exotic fragrance.

**SP233. ROOIBOS**
Another very popular tea to be enjoyed any time! This is a mild reddish-brown tea which is naturally caffeine-free and rich with antioxidants. It has a slightly sweet and nutty flavor.

**SP239. YERBA MATE LEAF**
Extremely nutritious and beneficial! Yerba mate is said to have the strength of coffee, the health benefits of tea, and the euphoria of chocolate all in one. The chemical components found in yerba mate make it more nutritious than green tea. Of the 6 commonly used stimulants in the world, it triumphs as the most balanced, delivering both energy and nutrition.

**TG103. RED RASPBERRY LEAF TEA**
You may know red raspberry for its distinctive flavorful and colorful fruit, but that's not all it has to offer! Leaves make an herbal tea with various potential therapeutic uses. Its biggest claim to fame is the ability to aid in pregnancy, particularly stimulating labor and easing childbirth. With its antioxidant content, the tea is known to help manage inflammation of the digestive system. Additional benefits may include soothing irritated lungs and throat, supporting menstrual and uterine health, calming irritated skin, and boosting heart health, as well as fertility in both women and men by balancing hormones. A flavorful, tangy tea often combined with other tea herbs to give the beverage a more robust flavor.

**TG100. HIBISCUS FLOWERS**
These cut & sifted flowers are popular as an herbal tea or often used in body care products to purify complexion. Associated with lowering blood pressure and cholesterol while enhancing energy levels, hibiscus is rich in vitamin C, brews to a bright red color, and has a slightly tart flavor. To use as a tea, pour 1 cup of boiling water over 1 tsp. of herb, cover, and steep 3-5 minutes. (Hibiscus may be intercropped with peanuts. May contain peanuts or shell fragments.)

**TG101. GERMAN CHAMOMILE FLOWERS**
German whole organic chamomile flowers are great for making potpourris, fruity teas, and body care products. Chamomile is well known for its calming, anti-inflammatory properties, and has helped resolve skin disorders such as acne, rashes, psoriasis, and eczema. To prepare as an herbal tea, pour 1 cup of boiling water over 1 tsp. of herb, cover, and steep 3-5 minutes. (Hibiscus may be intercropped with peanuts. May contain peanuts or shell fragments.)

**TG104. RED RASPBERRY LEAF TEA**
You may know red raspberry for its distinctive flavorful and colorful fruit, but that's not all it has to offer! Leaves make an herbal tea with various potential therapeutic uses. Its biggest claim to fame is the ability to aid in pregnancy, particularly stimulating labor and easing childbirth. With its antioxidant content, the tea is known to help manage inflammation of the digestive system. Additional benefits may include soothing irritated lungs and throat, supporting menstrual and uterine health, calming irritated skin, and boosting heart health, as well as fertility in both women and men by balancing hormones. A flavorful, tangy tea often combined with other tea herbs to give the beverage a more robust flavor.

**TG105. HIBISCUS FLOWERS**
These cut & sifted flowers are popular as an herbal tea or often used in body care products to purify complexion. Associated with lowering blood pressure and cholesterol while enhancing energy levels, hibiscus is rich in vitamin C, brews to a bright red color, and has a slightly tart flavor. To use as a tea, pour 1 cup of boiling water over 1 tsp. of herb, cover, and steep 3-5 minutes. (Hibiscus may be intercropped with peanuts. May contain peanuts or shell fragments.)

**TG106. GERMAN CHAMOMILE FLOWERS**
German whole organic chamomile flowers are great for making potpourris, fruity teas, and body care products. Chamomile is well known for its calming, anti-inflammatory properties, and has helped resolve skin disorders such as acne, rashes, psoriasis, and eczema. To prepare as an herbal tea, pour 1 cup of boiling water over 1 tsp. of herb, cover, and steep 3-5 minutes. (Hibiscus may be intercropped with peanuts. May contain peanuts or shell fragments.)

**SP215. MINT CHAMOMILE**
A wonderful after dinner tea with a refreshing taste. Aids with sweetening your breath and with digestion.

**SP215. PEPPERMINT**
A wonderful after dinner tea with a refreshing taste. Aids with sweetening your breath and with digestion.

**SP215. LEMON GINGER**
One of our top sellers! This tea is a blend of roasted chicory root, ginger root, lemongrass, orange peel, lemon essential oil, hibiscus, coriander seed and cinnamon. A spritz of 100% pure lemon oil provides a sweet, fruity aroma and flavor.

**SP215. TEA BALL**
A ball shaped stainless steel infuser for use with loose teas or herbs. The spring loaded mechanism allows the ball to separate into halves. The mesh ball measures 1⅝” in diameter. Perfect to use with our selection of loose teas.

**H742. MESH BALL TEA INFUSER - $4.95**
A ball shaped stainless steel infuser for use with loose teas or herbs. The spring loaded mechanism allows the ball to separate into halves. The mesh ball measures 1⅝” in diameter. Perfect to use with our selection of loose teas.

### A. B. C. D. E. F. G. H. I.

| SP169. MAINE SEA SALT (FINE CRYSTALS) | 8 OZ. | $6.95 |

A pure, natural sea salt harvested from the Gulf of Maine, not mined underground. Texture and flavor is far superior to ordinary table salt.

| SP177. ALDER SMOKED SALT (COARSE GRIND) | 3 OZ. | $3.95 |

Sea salt smoked over natural alder wood providing a sweet, true smokehouse flavor.

| SP135. BLACK PEPPERCORNS WHOLE | 1 OZ. | $2.95 |

| SP165. STEVIA POWDER GREEN (ORGANIC, FTC) | 1 OZ. | $2.49 |

A great natural alternative to sugar! Why? Because it’s 100% natural, 40-300% sweeter, has zero calories, and most importantly does not cause an increase in blood sugar levels. Native to South America, it has been used for hundreds of years. Valued most for its sweet leaves and its ability to replace sugar in a diet, but also contains a wealth of antioxidant compounds. Health benefits of stevia include diabetes management, weight loss, lowering of blood pressure, treatment of eczema and dermatitis, assisting in prevention of cancer, cavities, and gingivitis. Generally, 3–4 teaspoons replaces a cup of refined sugar, but the conversion rate varies depending on the recipe. Add to coffee and tea, or cold drinks such as fresh-made lemonade and sun tea. Use a little to sweeten smoothies and fruit salads.

| SP190G. BAOBAB FRUIT POWDER (ORGANIC) | 3 OZ. | $7.95 |

Although the majestic profile of the baobab tree—Africa’s iconic “Tree of Life”—has long overshadowed its more humble fruit, the rest of the world is now catching on to the benefits of the baobab fruit. This rediscovered “superfood” is the only fruit in the world that dries naturally on the branch. After baking in the sun for six months, the hard shells of the pods are cracked to reveal its edible dry white-ish pulp. Minimal processing produces a 100% natural and organic fruit powder that is remarkably nutrient-rich. With its high levels of calcium, vitamin C (10 times more than oranges!), and fiber, baobab powder is a great addition for those looking to improve digestive health and manage blood sugar. Its delicious, citrus-y sweet and tangy flavor is perfect for adding to smoothies and juices, or sprinkling on your breakfast. We like ours stirred into oatmeal in the morning!

| SP169. MAINE SEA SALT (FINE CRYSTALS) | 8 OZ. | $6.95 |

A pure, natural sea salt harvested from the Gulf of Maine, not mined underground. Texture and flavor is far superior to ordinary table salt.

| SP177. ALDER SMOKED SALT (COARSE GRIND) | 3 OZ. | $3.95 |

### ACCESSORIES

| H783. MORTAR & PESTLE 3.5” | $7.95 |

This ceramic set facilitates grinding and crushing of spices, herbs, nuts, and other items. Useful for food preparation, soapmaking, and other projects requiring finer pieces. The mortar measures 3.5” wide x 1.75” high. Pestle measures 3.75” in length.

| SP103. TURMERIC (ORGANIC, FTC) | 1 OZ. | $2.49 |

We love turmeric – the super spice of life! Used in Ayurvedic medicine for thousands of years, turmeric is full of health boosting benefits. Contains the powerful medicinal compound curcumin as well as high amounts of manganese, iron, fiber, vitamin B6, potassium, vitamin C, and magnesium. Alleviates inflammation, believed to be involved in chronic disease, and contains antioxidants to help destroy harmful free radicals. The curcumin in turmeric is thought to help in preventing and battling several types of cancer, obesity, heart disease, atherosclerosis, degenerative disorders, Alzheimer’s and other conditions. Consuming turmeric with black pepper increases the absorption of curcumin by up to 2000%! Our turmeric has a curcumin content ranging from 1% to 4%. It is golden-yellow in color, with a pungent, earthy, distinctive aroma. Its flavor resembles both ginger and pepper. Add it to food, smoothies, coffee, and juices.

| SP169. MAINE SEA SALT (FINE CRYSTALS) | 8 OZ. | $6.95 |

A great natural alternative to sugar! Why? Because it’s 100% natural, 40-300% sweeter, has zero calories, and most importantly does not cause an increase in blood sugar levels. Native to South America, it has been used for hundreds of years. Valued most for its sweet leaves and its ability to replace sugar in a diet, but also contains a wealth of antioxidant compounds. Health benefits of stevia include diabetes management, weight loss, lowering of blood pressure, treatment of eczema and dermatitis, assisting in prevention of cancer, cavities, and gingivitis. Generally, 3–4 teaspoons replaces a cup of refined sugar, but the conversion rate varies depending on the recipe. Add to coffee and tea, or cold drinks such as fresh-made lemonade and sun tea. Use a little to sweeten smoothies and fruit salads.

| SP190G. BAOBAB FRUIT POWDER (ORGANIC) | 3 OZ. | $7.95 |

Although the majestic profile of the baobab tree—Africa’s iconic “Tree of Life”—has long overshadowed its more humble fruit, the rest of the world is now catching on to the benefits of the baobab fruit. This rediscovered “superfood” is the only fruit in the world that dries naturally on the branch. After baking in the sun for six months, the hard shells of the pods are cracked to reveal its edible dry white-ish pulp. Minimal processing produces a 100% natural and organic fruit powder that is remarkably nutrient-rich. With its high levels of calcium, vitamin C (10 times more than oranges!), and fiber, baobab powder is a great addition for those looking to improve digestive health and manage blood sugar. Its delicious, citrus-y sweet and tangy flavor is perfect for adding to smoothies and juices, or sprinkling on your breakfast. We like ours stirred into oatmeal in the morning!

| SP169. MAINE SEA SALT (FINE CRYSTALS) | 8 OZ. | $6.95 |

A pure, natural sea salt harvested from the Gulf of Maine, not mined underground. Texture and flavor is far superior to ordinary table salt.

| SP177. ALDER SMOKED SALT (COARSE GRIND) | 3 OZ. | $3.95 |

Sea salt smoked over natural alder wood providing a sweet, true smokehouse flavor.

| SP135. BLACK PEPPERCORNS WHOLE | 1 OZ. | $2.95 |

| SP165. STEVIA POWDER GREEN (ORGANIC, FTC) | 1 OZ. | $2.49 |

A great natural alternative to sugar! Why? Because it’s 100% natural, 40-300% sweeter, has zero calories, and most importantly does not cause an increase in blood sugar levels. Native to South America, it has been used for hundreds of years. Valued most for its sweet leaves and its ability to replace sugar in a diet, but also contains a wealth of antioxidant compounds. Soapmaking

Create your own soaps, lotions, cosmetics, and cleaning supplies. It’s simple, typically costs less, healthier, and you have control of the ingredients. We offer many natural products including soap bases, molds, lotions, essential oils, fragrant oils, cold pressed oils, herbs and pigments for coloring, and other supplies. The aromatic scents of the essential oils and natural herbs will provide freshness to your homemade cleaning supplies, pest repellents, skin, bath and hair care products and perfumes. To guide you, an informational sheet with recipes and tips is included with each purchase. Full ingredients lists can be found on our website, superseeds.com.

These melt and pour soap bases are 2 lb. trays and will make approximately eight 4 oz. size bars. See our selection of soap molds, essentials oils, and additives for creating your own bars.

ALOE & OLIVE OIL
A lightly tinted green bar that contains real aloe vera and pure olive oil. The aloe vera moisturizes and softens the skin while the olive oil provides the skin with vitamins and antioxidants. Excellent for sensitive skin. Detergent free and low sweat.

SM4A. ONE BAR - $9.95
SM4B. TWO BARS - $16.95

CLEAR
A translucent bar that is easy to unmold and holds fragrances well. The finished soap performs like cold processed soap. Detergent free and low sweat.

SM72A. ONE BAR - $9.95
SM72B. TWO BARS - $16.95

COCONUT MILK
Opaque white bar that contains coconut milk thought to be high in antioxidants and triglycerides making it a natural moisturizer. It boosts lather and cleaning properties without harsh detergents. Detergent free and low sweat.

SM70A. ONE BAR - $9.95
SM70B. TWO BARS - $16.95

GOAT MILK
Another popular soap base! Ivory white bar, containing real goat’s milk, which hydrates, moisturizes and nourishes skin. This gentle base makes an extra special homemade product. Detergent free and low sweat.

SM9A. ONE BAR - $9.95
SM9B. TWO BARS - $16.95

HONEY
Slightly tinted amber bar that contains real honey; known for soothing and softening, healing burns, sores, and skin irritations. It has natural germ-killing antioxidants and anti-microbial benefits that help prevent infection. Detergent free and low sweat.

SM6A. ONE BAR - $9.95
SM6B. TWO BARS - $16.95

OATMEAL
Light tan bar that contains real oatmeal to help moisturize and soothe irritated skin, relieve itching, exfoliate gently, and scrub away dirt. This is a low-sweat bar that is easy to unmold.

SM5A. ONE BAR - $9.95
SM5B. TWO BARS - $16.95

THREE BUTTER
One of our best selling soap bases! Opaque white bar that combines shea, cocoa, and mango butters into one. Moisturizes, improves skin elasticity, soothes and protects skin against weather and aging. Helps condition and provides a soft, silky feel to the lather in your soap. Detergent free and low sweat.

SM3A. ONE BAR - $9.95
SM3B. TWO BARS - $16.95

SM131. CASTILE MELT & POUR BASE - UNSCENTED - 16 OZ. - $9.95
Natural melt and pour soap base made with 25%-30% kosher grade A extra virgin olive oil. Provides a great lather, moisturizes the skin. Just as easy to use as the other melt-and-pour bases. Select a mold, add essential oils, colors or other ingredients to make your own soap.

SM79. 2LB Bar $12.95

STEPHENSON SHEA BUTTER MELT AND POUR SOAP BASE
Receive the nourishing benefits of shea butter all in this bar. Derived from a naturally occurring plant-based substance, shea butter moisturizes, soothes, and protects skin. It’s also been shown to reduce inflammation. Add a touch of luxury to your soap products with this top-notch soap base. Produces opaque soap bars. No surfactants or mono propylene glycol.

SM78. 2LB Bar $12.95

STEPHENSON NATURAL HF MELT AND POUR SOAP BASE
Packed with 100% natural ingredients and free of surfactants and irritants, this high foaming melt and pour soap base is tailored to those with sensitive skin. The base has excellent moisturizing properties, neutral odor, and perfect for molding or slicing. A superior quality base for crafting an all-natural soap that contains no parabens, phenoxyethanol, sulfates, or propylene glycol.

SM132. CASTILE LIQUID SOAP UNSCENTED - 16 OZ. - $12.95
Safe, nontoxic, multi-purpose, multi-surface concentrate made with organic plant oils. Cleans all water-safe surfaces including your! Can be used for hand and body washes, shampoo, and general purpose cleaning. A good soap to use with your favorite essential oils. Made in USA. Ingredients: Saponified organic coconut, olive and jojoba oils, aloe vera, and rosemary extract.
SOAPMAKING

SM130A. LIQUID GLYCERIN
4 OZ. - $2.95
Glycerin has the ability to absorb moisture from the air and, when diluted with water, can soften dry skin. Add this all-natural product to your homemade soaps and lotions. Clear and soluble in oil and water. Products that will not dissolve in water will dissolve in glycerin. Blend with powdered colors prior to adding the powder directly into your homemade soap. Consider making your own foaming soap using our dispenser SM187 with 3 Tbsp. of liquid glycerin and water. Add some essential oils for fragrance. For external use only. Ingredients: glycerin (vegetable source).

SM135. BASIC LOTION BASE
UNSCENTED - 16 OZ. - $5.95
A ready-to-use base containing sunflower oil rich in Vitamin E that helps moisturize and rejuvenate the skin, as well as, allantoin, a skin softener, anti-irritant, and thought to heal wounds and sores. When adding essential oils, color, or other ingredients, use 2-4 Tbsp. per 16 oz. of base and warm on low heat or until it becomes liquid, then stir in your other ingredients.

SM136. PARABEN-FREE BODY LOTION - 16 OZ. - $9.95
Thick, non-greasy, vegan quality lotion which is very moisturizing. Use directly or add an essential oil to provide an aromatic scent. For thinning, try adding other oils like jojoba or sweet almond. Gently heat the lotion using a microwave for approximately 2 minutes to add other oils or fragrances. Do not overheat (keep temperature less than 139° F.) Overheating may destroy the natural preservatives.

Our soap mold offering provides a variety of choices from traditional shapes to decorative bars. The plastic molds assist with easy release after approximately an hour of hardening time. Allow the soap to cool completely before removal. One 2 lb. block of glycerin will yield about eight 4 oz. bars. Great soaps to use in the guest bathroom and to make a special gift for family and friends.

SM26. HONEYBEE/COMB MOLD - $1.95
Makes two rectangular bars with raised honeycomb and bees (4” x 2 1/2” x 15/16”) and two circular bars with a raised bee (2 1/2” x 1”).

SM27. WOODLAND ANIMAL FACES MOLD - $1.95
A soap mold with four adorable woodland animal faces: Deer (2 3/4” x 3 1/2” x 7/8”), Owl (2 1/8” x 2 1/2” x 1”), Fox (2 1/2” x 3” x 7/8”), Squirrel (2 1/2” x 2 1/2” x 15/16”). Average weight of the bars is 2.4 - 2.8 oz.

SM28. CELTIC SOAP BAR MOLD - $1.95
Makes three circular bars at one time with two unique Celtic designs. Two molds create a Celtic knot bar and the third produces a Celtic design including 4 horseshoes - a symbol for good luck. The bars measure approximately 2 ¾” x 7/8”.

SM14. SNOWFLAKE MOLD - $1.95
Four round forms with a different raised snowflake on top. Each form makes a 2.5 oz. bar (2¾” x 3¼”).

SM15. HANDMADE/NATURAL MOLD
Four rectangle 4 oz. (3¾” x 2 1/2” x 1”) bars. All four have a raised, beveled edge with two of them plain, one with raised letters “Natural” and the other with raised letters “Handmade”.

SM16. OVAL/CIRCLE MOLD - $1.95
2 oval forms that make a 4 oz. bar (3 5/8” x 2 1/4” x 1 1/2”) and 2 circle forms that make a 2 oz. bar (2 5/8” x 1”).

SM13. OVAL ROSE MOLD - $1.95
2 oval and 2 elongated octagons with a raised rose on top. Oval makes a 2.2 oz. bar (3¼” x 2 1/2” x ¾”) and octagon makes a 3.2 oz. bar (2¾” x 3¼” x ¾”).

SM37. RECTANGLE/ROUND MOLD - $1.95
This mold will make 2 simple rectangular molds measuring 3 3/8” x 2 1/2” x 3/4” deep and 2 circular soaps measuring 2 ¾” in diameter x 3/4” deep. The bars will weigh between 3 and 5 oz.

SM11. FELTED WOOL SOAP BAR PROJECT - $7.95
Fun to do, suitable for all ages and makes a beautiful, unique gift! It’s basically a built in washcloth for your soap that creates a nice lather, gently exfoliates your skin while extending the life of your soap. Each package contains six beautiful assorted colors of 100% Romney wool roving from a USA mill that has been producing quality wools since the 1880’s. The fastest fiber for wet felting that compacts easily and quickly with soap and water. Each color is approximately 18” in length enough to felt 6-8 bars of soap with step by step instructions.

Our favorite herbal additives are great for aromatic, hand blended potpourri, bath teas and embellishing soap. Can be infused in oil for use in creams, lotions and other cosmetics.

SM80. ROSE PETALS - 1 OZ. - $3.95
Softening and toning for dry, sensitive skin.

SM64. LAVENDER FLOWERS - 1 OZ.
$3.95
Relaxing, soothing qualities, gives a light green tint.

SM60. CALENDULA FLOWERS - 1 OZ.
$3.95
Soothing to sensitive, dry skin, gives an ochre or yellow color.

SM85. STRING FELTED WOOL SOAP BAR PROJECT - $18.95
Fun to do, suitable for all ages and makes a beautiful, unique gift! A great way to get more of the USA grown wools into your soaps and lotions. Each package contains 100% Romney wool roving from a USA mill that has been producing quality wools since the 1880’s. The fastest fiber for wet felting that compacts easily and quickly with soap and water. Each color is approximately 18” in length enough to felt 6-8 bars of soap with step by step instructions. The package contains 4 different colors. Each color is approximately 18” in length enough to felt 6-8 bars of soap with step by step instructions.

ESSENTIAL OILS
Our essential oils are 100% pure and are derived directly from the actual plant’s flower, leaf, root or stem by steam distillation. They are high quality oils and perform consistently for making handmade products such as skin care, body care, cosmetics, insect repellents, and cleaning supplies. These oils should be used diluted and never ingested. The bottle design features an orifice reducer to allow a drop of oil to be dispensed one at a time.

ESSENTIAL OILS & FRAGRANCES
PINETREE GARDEN SEEDS & ACCESSORIES – WWW.SUPERSEEDS.COM – 207-926-3400
FRAGRANT OILS

The fragrant oils are created synthetically to simulate the true scent of that flower, fruit or plant. Ingredients may vary blending pure oils with synthetics. We have no detailed ingredients list since the manufacturer under the FDA “trade secret” law is not required to disclose the information. We offer fragrant oils to provide you with a larger selection of options at affordable prices. These oils should be used diluted and never ingested. The bottle design features an orifice reducer to allow a drop of oil to be dispensed one at a time.

CHRISTMAS TREE – Brisk, outdoorsy blend of blue spruce and balsam fir.
SM462. 5 ML - $5.95

CUPCAKE - Rich, creamy aroma of vanilla cupcakes with hints of rum and lots of buttery icing. A realistic fragrance ideal for soap cupcakes. Vanilla content 14%. Does not contain nut oil, but there may be exposure during packaging.
SM509. 5 ML - $5.95

FAIRY DUST - A sprinkling of frozen mango, pink sugar and raspberry sorbet with champagne bubbles, freesia and cashmere musk. Light and refreshing scent. Vanilla content 0.70%.
SM510. 5 ML - $5.95

GARDENIA - Lovely, romantic, gardenia blossoms mingled with dewy freesia, heliotrope and jasmine.
SM476. 5 ML - $5.95

HONEYSUCKLE - Blooming honeysuckle, budding lilacs, and captivating rose intermingle in the heart of this floral beauty.
SM478. 5 ML - $5.95

JASMINE - The alluring scent of the beautiful and mysterious jasmine flower.
SM480. 5 ML - $5.95

LILAC - Lavishing lilac blossoms blended with beautiful buds of sweet rose and delicate lily of the valley.
SM482. 5 ML - $5.95

LILY OF THE VALLEY - Airy lily of the valley dominates this gorgeous floral aroma. Delicate notes of jasmine and ylang ylang are exquisitely arranged in this truly fragrant affair.
SM484. 5 ML - $5.95

ROSE - Blossoms of rose, violet, and gardenia intertwine in this delightful rose garden bouquet.
SM494A. 5 ML - $5.95

SANDALWOOD - Fragrant grains of sandalwood are polished with the sweetness of balsamic richness.
SM496. 5 ML - $5.95

VANILLA - The rich and smooth aroma of fresh vanilla beans.
SM500. 5 ML - $5.95

SM137. PARABEN-FREE BODY BUTTER (4 OZ.) - $6.95
A paraben-free total body butter that is used to hydrate the skin. Helps with relieving eczema and psoriasis. Super thick, vegan quality, and does not contain any mineral oil or petroleum. Apply on dry elbows, knees, hands, and feet. Made from gentle fixed oils including rice bran oil which is loaded with vitamin E, shea butter, beeswax, castor oil, cocoa butter, avocado oil, and soy oil.

SM146. HORSETAIL BUTTER (4 OZ.) - $6.95
This light green butter contains sweet almond oil and horsetail extract which helps rebuild and regenerate damaged skin. It is also used for improving cuticles and nails.

SM148. MANGO BUTTER (4 OZ.) - $6.95
A great moisturizer, mango butter gives a soft, smooth feeling to your skin. It is well known for treating damaged or dry skin, rashes and also for protecting your skin. 100% refined mango butter.

SM151. SHEA BUTTER (4 OZ.) - $5.95
Also known as Karite, this expeller pressed butter is a rich and creamy oil extracted from the fruit of an African tree. Makes a soap that is highly emollient and soothing for all types of skin or used directly on dry skin. 100% refined shea butter.
SM155. COCOA BUTTER WAFERS (ORGANIC) (8 OZ.) - $11.95
We offer these light yellow Organic & Fair Trade Certified wafers. Each measures ½" x ¼" in diameter for ease of melting. Pressed from the roasted seeds of the Cacao Tree, they still have that wonderful creamy chocolate scent. Softens skin while reducing dryness and adding a rich quality to your lip balms and lotions. A soothing ingredient commonly found in many cosmetic recipes, it will soften at body temperature and add a rich, creamy and thick consistency to lotions, soaps, creams, and lip products.

SM160. KAOLIN WHITE CLAY (8 OZ.) - $4.95
This fine white clay that has natural absorbency properties is also called China clay or White Cosmetic clay. As one of the mildest of all clays, it is suitable for people with sensitive skin. It stimulates circulation to the skin while gently exfoliating and cleansing it. Acting as a thickening agent, it’s added to cosmetics, creams, facial masks, and bath fizzies. Useful in soaps to provide texture and to fix the scents for longer lasting fragrances. Use 50-75% in masks, 3% in soaps, 1-3% in bath fizzes and also helpful as an additive in cleaning products.

SM15301. ARROWROOT POWDER (4 OZ.) - $2.95
Arrowroot, a lightweight white powder, is a natural powdered root starch commonly used in talcum powders and moisturizers as a thickening agent. In body powders, it provides silker and smoother skin and acts as a deodorizer. Arrowroot powder will dry skin blemishes and rashes too. In cosmetics, it helps powders adhere to the skin. 100% arrowroot powder.

SM165. ZINC OXIDE (1 OZ.) - $3.95
This zinc oxide is non-nano which means the particles are large enough to sit on the skin and not be absorbed into the blood stream. The best broad spectrum UV A and UV B reflector approved for use as a sunscreen by the FDA. Add it to your lotions for sun protection. In cosmetics, use it to thicken lotions, bath soaps, nail products, foot powders, and baby balms. An anti-oxidant that soothes, protects, and relieves itchy skin, rashes and burns. Typically used 10-15% in creams, 3-5% in soaps and 2% or higher in sunscreen depending on the strength desired. 100% zinc oxide.

SM150. BEESWAX GRANULES (16 OZ.) - $10.95
A natural, filtered, cleaned, high quality wax used as the key ingredient in many creams, lotions, soaps and lip balms. Adding beeswax to hand-milled soap recipes makes the bars soft to the touch and adds a slight honey scent. An excellent addition for home-cleaning products and candle making. The yellow granules provide ease in melting. Use 2% for lip products and up to 5% for lotion bars. 100% beeswax.

SM167. EMULSIFYING WAX (1/2 CUP) - $2.95
One of the essential ingredients in making lotions and creams, without it your lotions will separate back into their oil and water components. Use 3-5% for lotions and 10-15% for creams. Ingredients: cetearyl alcohol and polysorbate 60.

SM170. CITRIC ACID (1/2 CUP) - $2.95
Citric acid is used in many skin care and soap recipes. In soaps, it adds texture and is a gentle exfoliant for your skin. In cosmetic formulas, it is useful to balance pH levels. Combine with baking soda to create a fizzy bath salt. Recommended levels are: 2 parts baking soda to 1 part citric acid in bath fizzes. 100% citric acid.

SM171. STEARIC ACID (1/2 CUP) - $2.95
Stearic acid is a white, waxy, natural acid found in animal and vegetable fats. These white pastilles are ideal as an emulsifying agent in creams, lotions, deodorants, and most natural body care recipes. Stearic acid is best known for its pearly or waxy feel that it adds to your body care products. When applied to the skin, it generates a cooling effect. The pastilles will melt easily with your glycerin soap base hardening the soap for longer lasting bars. (It may cause some clouding in clear glycerin soaps.) Recommended use: 3% for melt and pour soaps, and 1-2.5% in lotions. 100% stearic acid.

SM166. FRACTIONATED COCONUT OIL (8 OZ.) $7.95
Non-greasy, odorless coconut oil that remains a liquid and is easily absorbed into the skin. Makes a great carrier oil for essential oils and excellent base for massage oils. Provides a smooth and silky feel to lotions, scrubs, soaps and lip products. All natural coconut oil that is expeller pressed, then hydrogenated to produce the fractional component. No traces of hexane. Recommended usage: cold & hot process soaps: 3-10%, lip products: 2-10%, lotions & creams: 2.5%-25%, massage oils: 25-100%.

SM153B. SWEET ALMOND COSMETIC OIL (8 OZ.) - $6.95
A high quality, light almond oil cosmetic blend that spreads well and is easily absorbed by the skin. Does not clog pores and is an excellent substitute for petroleum based oils. Ideal for making massage, skin care oils and creams. Blend of refined almond oil and other refined vegetable oils.

SM145. ARGAN OIL (8 OZ.) - $12.95
Expeller pressed, refined argan oil does it all! Moisturizes, heals skin irritations, nourishes split ends, softens cuticles or cracked heels, controls hair frizz, and more. Easily absorbs into the skin and gentle enough for all skin types. Rich in vitamin E and essential fatty acids, it has amazing healing, conditioning and anti-aging properties that keep skin and hair nourished and revitalized. 100% argan oil.

SM158A. JOJOBA OIL (4 OZ.) - $7.95
Jojoba oil is actually a liquid wax that is cold-pressed and filtered from the jojoba nut. The carrier oil is very therapeutic for a variety of skin conditions. Use it to make massage blends, natural perfumes, and skin care products. Jojoba oil won't plug pores since it's similar to the natural oil in your skin and works well for any product used on the face or body. Wonderful for shampoos and treating dry hair as well and gives a soft, silky feel to skin improving elasticity. 100% jojoba.

SM140. LANOLIN (4 OZ.) - $5.95
A honey-like liquid from sheep’s wool with a faint characteristic odor. Lanolin is easily absorbed, soothing, and creates a natural barrier that increases moisture in your skin. Hypo-allergenic, it inhibits bacterial growth. When lanolin is added to soap or lotion, it creates a very moisturizing bar and an exceptional creamy lotion. 100% lanolin.
**NATURAL & HERBAL COLORING - 1/2 oz. - $2.50 EACH**

Use earth’s natural ingredients to color your soap and cosmetics. One tablespoon (1/2 oz.) of dried herbal powder will color an average of 10-12 bars of soap. Experiment and enjoy! Colors may vary as these are natural products. Safe for soap and cosmetic purposes. Not tested on animals.

**(A) SM81. ACTIVATED CHARCOAL POWDER**

Use this all natural powder as a cleanser and detoxifier. Add to soap for gentle exfoliating and to mascara & eyeliner recipes for a rich black color. Use as a scalp treatment or combine with shampoo to assist with dandruff, redness, oily, and itchy scalps. For minor skin ailments including insect bites, stings, cuts, scrapes and minor infections, apply a paste topically to reduce swelling.

**(B) SM84. ALKANET ROOT POWDER**

Obtained from the base of the plant, herbalists believe this part of the plant helps with skin itching. Gives a pink to purple burgundy color depending on the amount used in soaps and lip balms.

**(C) SM59. BEET ROOT POWDER**

Beet Root is a dark red vegetable that is high in potassium, magnesium, iron, folic acid, Vitamins A, B6, C, and antioxidants. Commonly used in natural cosmetics. Gives a pink to dark cherry color.

**(D) SM63. CARROT POWDER**

Popular in soap and skincare products, contains high levels of carotenoids, potassium, Vitamin C, essential nutrients, and amino acids. Thought to increase the skin’s overall tone, health, and appearance from sun damage. Provides a cream to beige color in soaps and cosmetics.

**(E) SM52. LEMON POWDER**

Lemon is a natural astringent, antiseptic, and bactericide. Clears the complexion and smooths out broken capillaries, while clearing greasy and oily skin. Produces a natural orange to yellow color.

**(F) SM61. MADDER ROOT POWDER**

Used for thousands of years to produce a red color that ranges from pink to scarlet. An astringent in soaps, but used primarily as a dye.

**POWDER PIGMENTS (1/2 OZ.) - $3.50**

We are offering these matte pigment powders for more color variety in your soaps and cosmetics. They have been filtered of all harmful impurities and are non-bleeding, non-fading, bright and water soluble.

**(G) SM53. PUMPKIN POWDER**

Rich source of gently exfoliating enzymes, antioxidants, beta carotene, and many other vitamins & minerals beneficial to skin care. Popular choice for naturally exfoliating facial masks, body polishes, and decadent soaps. Gives a natural gold to orange color.

**(H) SM51. ROSE HIP POWDER**

Believed to have amazingly high levels of linoleic and linolenic fatty acids. Helps the skin heal and regenerate, thus possibly assisting with burns, scars and stretch marks. Provides a light to dark cinnamon color.

**(I) SM66. SPINACH POWDER**

**(J) SM55. SPIRULINA POWDER**

Oceanic algae contains large concentrations of vitamins and minerals, including the B complex vitamins. High in a rare type of fatty acid called gamma linolenic acid that is found in very few substances on Earth. Produces a beautiful blue green color in soap.

**(K) SM57. ROSE PINK KAOLIN CLAY**

Useful on normal, dry and sensitive skin. Very mild clay that is good as a thickening agent. Does not draw oils from the skin. Hardens Bath Fizzies. Provides a soft pink color.

113 PINETREE GARDEN SEEDS & ACCESSORIES – WWW.SUPERSEEDS.COM – 207-926-3400
ALLERGY RELIEF ROLL-ON RECIPE

**Ingredients:**
- 10 drops lavender essential oil
- 10 drops lemon essential oil
- 10 drops peppermint essential oil
- Fractionated coconut oil

**Instructions:**
Place the number of drops into the bottle and fill to the neck with fractionated coconut oil. Apply to bottoms of feet or back of neck up to 3 times a day.

**Addition:**

**SM180. LIP BALM TUBES**
0.15 OZ. (SET OF 6) - $2.25
Six natural polypropylene lip balm tubes with natural caps are offered in the standard 0.15 oz. size. The turning wheel mechanism on the lip balm tube allows the product to be cleanly and evenly dispensed. The tubes fit perfectly into our SM182 Lip Tube Filling Tray for convenience.

**SM182. ROUND SILICONE LIP TUBE FILLING TRAY - $11.95**
This tool makes it super easy to fill up to 48 standard round lip tubes (0.15 oz.) at once! Flip lip balm filling tray upside down onto a clean surface. It should be text side down. Insert top of lip tubes (solid separately) into tray. Once all lip tubes are placed, carefully flip the tray and tubes over and set down on counter. Ensure the tubes remain tightly pushed into the tray. Pour melted lip balm into tubes. Allow to harden. The silicone is durable and easy to clean. Measures 10” x 4 ½” with 48 holes approximately ½” dia. For use with our SM180 Lip Balm Tubes.

**SM310. STAINLESS STEEL FUNNELS**
SET OF 3 FOR $11.95
These stainless steel funnels are indispensable when trying to fill small neck bottles, jars and cosmetic tubes. Great for the kitchen or for crafts as well. Funnel sizes are 1.75”, 2.25” and 3” in diameter with the stem having an opening of .20”, .4” and .5”. All held together on a 1 ½” clamp style ring.

**SM600. MINI FROSTED SPATULA**
WITH SLANT TIP - $0.49
Ideal size spatula for mixing cosmetic ingredients or pastes with colored powder and essential oils for soapmaking projects. Slanted tip provides a sleek edge for scraping. Made of polypropylene. Measures 2 7/8” l. x 5/8” w.

**GLASS ROLL-ON BOTTLES**
$2.50 EACH
Glass roll-on bottles are fantastic for applying essential oils, fragrance oils, perfumes or other liquid products to the skin – simply roll on as needed. Each comes with the empty bottle, roller ball, housing, and cap. After putting the liquids in the bottle, insert the plastic housing into the opening, pop the roller ball into the housing, and screw on the cap. Each bottle capacity is 0.35 oz. and measures approximately 2 3/4” x 3/4”.

**SM184. COBALT BLUE FROSTED BOTTLE WITH BLACK CAP**
**SM186. GREEN FROSTED BOTTLE WITH BLACK CAP**

**AMBER GLASS FINE MISTER**
- 1 OZ. - $1.95
A petite amber plastic Boston round bottle with a black ribbed fine mist sprayer and clear over-cap. Great for any DIY products that are applied by misting. The compact size and plastic material make this bottle a perfect item for handbags, totes, and backpacks. No need to worry about glass breaking. The amber color provides a safe choice for liquids containing essential oils like insect repellents and body spritzers. The unit is 3.9” h. and 1.2” in dia.

**SM189. AMBER PLASTIC FINE MISTER**
- 2 OZ. - $2.25
- 4 OZ. - $2.50
- 8 OZ. - $3.95
Set of 3 white polypropylene double wall plastic jars with lined dome caps are ideal to store a variety of lotions and body care products. Also, useful for storing various other small items like paper clips, crafting beads, push pins, and more. Measures: 2” h x 2.3” dia.

**SM190. CLEAR FOAMING PUMP BOTTLE**
- 8.5 OZ. - $3.95
Perfect for bath and body products such as homemade hand soap. Clear PET bottle with white polypropylene foamer. For best results, mix 8 oz. water to 3 Tbsp. liquid soap. Measures 3” l. x 2” w. x 6 ½” h.

**SM194. WHITE COLD CREAM JARS**
2 OZ. - 3 FOR $2.95
Set of 3 white polypropylene double wall plastic jars with lined dome caps are ideal to store a variety of lotions and body care products. Also, useful for storing various other small items like paper clips, crafting beads, push pins, and more. Measures: 2” h x 2.3” dia.

**L506. THE NATURALLY CLEAN HOME**
3RD EDITION By Karyn Siegel-Maier
In this updated edition of her best-selling book, The Naturally Clean Home, Karyn Siegel-Maier brings together the formulas for home cleaning solutions that readers have trusted for years with new information and updated ingredients. Recipes eliminate Borax from ingredient lists, replacing it with safe substitutes that include citric acid powder, hydrogen peroxide, diatomaceous earth, cornstarch, washing soda, and baking soda. New recipes show readers how to make easy, nontoxic, environmentally friendly substitutes for popular cleaning products. Some of the 150 nontoxic recipes include laundry and dishwasher tablets, mold and mildew prevention, scouring powders, disinfectants, floor cleaners, room spitzers, and more. Cleaning will be so refreshing the whole family will pitch in!

**L173. NATIVE HARVESTS**  
By E. Barrie Kavasch  
First published in 1979, this is one of a few books on American Indian wild and cultivated foods and delicious recipes. Kavasch researched hundreds of tribes across the country for their use of nuts, berries, fruits, tree sap, wild herbs, cultivated vegetables, ferns, lichens, mosses, mushrooms, wild game, and salt and freshwater harvests for sustenance, medicine, cosmetics, and ceremony. The recipes she collected reflect native uses of harvests in soups, entrees, breads, beverages, smoking mixtures, chewing gums, and as seasonings. Kavasch’s drawings illustrate this field guide, cookbook, and ethnobotany study.

Softcover - 238 pp - $16.95

**L250. EASY HOMEMADE CRACKERS USING HERBS - NOW INCLUDES GLUTEN FREE RECIPES**  
By Jim Long  
Why make your own crackers? With all the variety offered in stores today, there is still nothing tastier or easier than these fresh, flavorful recipes. By Jim Long  
It’s simple to make your own salsas, tastier and healthier with no additives. Just chop and mix. 55 recipes to charge up your salads, barbeque or main dishes! Some of the ingredients (besides tomatoes and peppers) in Long’s salsas are melons, bananas, blueberries, papayas, black beans, pineapple, mango, mint, tequila, cucumber, peaches, raspberries, and more!

Softcover - 40 pp - $5.95

**L268. THE COMPLETE GUIDE TO MAKING CHEESE, BUTTER, AND YOGURT AT HOME (REVISED 2ND EDITION)**  
By Richard Helweg  
Provides every prospective cheese, butter, or yogurt maker with the tools they need to prepare, create, and enjoy their favorite dairy products from the comfort of their home. Learn everything you need to know about the various dairy products to start creating your own at-home goods. Topics covered include: the basics of making queso blanco, fromage blanc, ricotta, feta, cheddar, gouda, Monterey jack, muenster, and many other cheeses in addition to sour cream, yogurt, and butter. For anyone with a desire to start experimenting with dairy products at home, this book is the ideal starting point.

Softcover - 288 pp - $19.95

**L281. GROWING AND USING STEVIA**  
By Jeffrey Coetemoesker & Karen Lucke  
A sugar substitute derived from plant leaves. About 100-300 times sweeter than sugar, with no carbohydrates, calories, or artificial ingredients. This complete guide answers questions from garden to table. Include propagating, growing, and harvesting. Enjoy 35 delicious recipes developed in the authors’ kitchens.

Softcover - 89 pp - $9.95

**L366. THE KNITTING ANSWER BOOK**  
By Margaret Radcliffe  
This 2nd edition now incorporates additional techniques (like Magic Loop), expanded sections (cast ons, bind offs, etc.), and new information (choosing and working with colors) making this bigger and better than ever. Radcliffe wrote this book with all levels of knitters in mind. Topics include: reading patterns, stitches, circular knitting, shaping, fitting, finishing, and embellishments with beads, pom poms, fringe, etc. With more than 2000 ready to use knitting tips and techniques, this book is a must have for knitter or just beginning - this answer book has a solution for your knitting problems!

Paperback - 439 pp - $14.95

**L367. THE CROCHET ANSWER BOOK 2ND EDITION**  
By Edie Eckman  
Edie Eckman’s classic Q&A reference book has been updated with helpful answers to even more of your burning crochet questions. From beginning basics like yarn styles, stitch tools to detailed outlines of more advanced techniques, you can trust Eckman to deliver straightforward guidance and plenty of encouragement. With illustrations for left-handed crocheters and tips for broken-stitch lace, linked stitches, crochet cables, and more, full of expert advice on every page.

Paperback - 408 pp - $14.95

**L766. SAVING VEGETABLE SEEDS**  
By Fern Marshall Bradley  
Become more self-sufficient by saving your own seed from one year to the next. Bradley clarifies how to select the best plants, make seed saving a part of your garden plan, save both wet and dry seed, overwinter biennial crops like carrots, store seed, and test viability before planting. A crop-by-crop guide explains the details of saving the seeds of beets, carrots, corn, cucumbers, lettuce, melons and watermelons, onions and leeks, peas, peppers, radishes, squash, and tomatoes.

Softcover - 96 pp - $8.95
L201. HOME GROWN HERBS

Enjoy a thriving, fragrant herb garden and use your harvest to bring beauty, flavor, and health to your everyday life. Tammi Hartung provides in-depth profiles of 101 popular herbs including basil, catnip, chamomile, echinacea, lavender, nettle, peppermint, and rosemary. Information on seed selection, planting, maintenance, harvesting, and drying are just some of the topics covered. She also shows you how to use herbs in a variety of foods, home remedies, body care products, and crafts. Several recipes are shared to encourage use of your home grown herbs in salads, main dishes, side dishes, soups/stews, breads, breakfast foods, desserts, and beverages. Whether you’re a seasoned herbalist or planting your first garden, this well-organized book with colorful photographs will inspire you to get the most out of your herbs.

Paperback – 256 pp - $19.95

L301. WEEDLESS GARDENING

By Lee Reich

The phrase “weedless gardening” seems like an oxymoron, but Lee Reich claims it’s possible. Reich, who has worked in soil and plant research for the USDA and Cornell University, spent 20 years refining his system of gardening from the top down. He shows how to garden like Mother Nature, offering a system that’s good for plants and people. Protects biodiversity, eliminates heavy work and reduces water needs. No tilling of the soil. Say good-bye to backaches and weed problems. Read all the details in this book.

Softcover – 200 pp - $19.95

L801. SEED TO SEED

By Suzanne Ashworth

Complete vegetable growing guide that describes specific techniques for saving the seeds of 160 different vegetables. Detailed information about each vegetable, including its botanical classification, low-cost methods of pollination, required population size, isolation distance, techniques for caging or hand-pollination, and also the proper methods for harvesting, drying, cleaning, and storing the seeds. Seed to Seed is widely acknowledged as the best guide available for home gardeners to learn effective ways to produce and store seeds on a small scale.

Paperback 228 pp – $24.95

L822. HOW TO START A WORM BIN

By Henry Owen

Do you want to learn to turn food scraps into valuable compost? Do you believe in taking responsibility for the waste we create? Do you want to learn to turn food scraps into valuable compost? Dwell on over the world are turning their food scraps into nutrient-rich worm compost by starting their own worm bin. This book one of the best books to get started on worm composting in one easy-to-read book. Included Worm Bin Troubleshooting and FAQ sections cover the rest.

Paperback – 95 pp – $9.95
L914. THE NO-TILL ORGANIC VEGETABLE FARM
By Daniel Mays
No-till is a method of growing crops and providing pasture without disturbing the soil. It has become an important alternative to standard farming practices. In this comprehensive guide to successful no-till vegetable farming for aspiring and beginning farmers, author Daniel Mays, owner and manager of an organic no-till farm in Maine, shares his personal and proven strategies. Learn how to: maximize production and efficiency through soil health and biodiversity, maintain a weed-free farm, integrate cover crops and livestock, increase resilience through interplanting, hedgerows, and beneficial insect habitat, build community and a vibrant customer base, and make a good living from farming. Learn how you can use this approach while maintaining a human-scale operation with fields, tools, and methods sized for people rather than tractors or machinery.
Paperback – 240 pp - $24.95

L800. THE COMPLETE GUIDE TO COMPANION PLANTING
(Revised 2nd Edition)
By Dale Mayer
Revised edition includes a new insert with color images, facts, and tips. Learn how to work with natural conditions in your garden and which pairings will provide the best produce and the most vibrant flowers. Do you know that basil planted with your tomatoes will improve the fruit’s growth and flavor? Basil also can be helpful in repelling thrips, flies, and mosquitoes. Many similar tips are mentioned throughout while offering the best (and worst) companions for vegetables, annuals, perennials, fruits, shrubs, and vines.
Paperback – 288pp – $19.95

L918. THE YEAR-ROUND VEGETABLE GARDENER
By Niki Jabbour
Proven techniques will provide you with delicious vegetables every single month. Using affordable and easy-to-assemble protective structures like row covers, cold frames, and mini hoop tunnels, you can harvest the most cold-tolerant vegetables even in the dead of winter. Niki Jabbour gardens in Nova Scotia where short summers and low levels of winter sunlight create the ultimate challenge. A comprehensive guide to extending the growing season with beautiful photos detailing her results.
Softcover - Spiral Bound 200 pp – $18.95

L915. GROWING UNDER COVER
By Niki Jabbour
Learn techniques for a more productive, weather-resistant, pest-free vegetable garden. Increasingly unpredictable weather patterns and pest infestations are challenging today's vegetable gardeners. But best-selling author Niki Jabbour has a solution: Growing Under Cover. In this in-depth guide, Jabbour shows how to use small solutions like cloches, row covers, shade cloth, cold frames, and hoop houses, as well as larger protective structures like greenhouses and polytunnels, to create controlled growing spaces for vegetables to thrive. Photographed in her own super-productive garden, Jabbour highlights the many benefits of using protective covers to plant earlier, eliminate pests, and harvest a healthier, heartier bounty year-round. With enthusiasm, inventive techniques, and proven, firsthand knowledge, this colorful book provides invaluable advice from a popular and widely respected gardening authority.
Paperback – 216 pp - $24.95

L620. 100% NATURAL ORGANIC PEST CONTROL FOR HOME AND GARDEN
By Tom Roberts
A handy tool for pest identification that can be taken into the garden, this text includes colour pictures and descriptions of each pest and their life cycle to help make identification easy.
Paperback- 96 pp – $12.95

L304. NO-TILL INTENSIVE VEGETABLE CULTURE: PESTICIDE-FREE METHODS FOR RESTORING SOIL AND GROWING NUTRIENT-RICH, HIGH-YIELDING CROPS
By Bryan O’Hara
Renowned organic grower O’Hara perfected the technique during the multi-year transition of his Connecticut vegetable farm to a no-till system. His vibrantly healthy, resilient plants are testaments to the value of allowing the inherent biological functions in soil to do their work. Describes the methods he has developed, which are completely free of herbicides or other pesticides and require only a few acres of land and minimal capital investment. He asserts that this flexible, ecological methodology is as important for soil fertility as it is for his economic success. This comprehensive manual delves into all facets of a dynamic, holistic growing system.
Paperback–263 pp – $29.95

L909. A BEGINNER’S GUIDE TO GROWING GREAT VEGETABLES
By Lorene Edwards Forkner
You can grow beautiful, healthy, delicious veggies and herbs right from the start—just follow the trustworthy advice found in this straightforward book. The author shares all the information you need to create a thriving garden, from facts about soil and sun to tips on fertilizing, mulching, and watering. Regional planting charts show what to plant when, and a month-by-month planner takes you from January through December.
Profiles of popular edibles explain exactly how to plant, care for, and harvest your bounty. Whether your garden grows in the ground, on a balcony, or in containers on a sunny patio, this is your guide to grow-your-own success. Your backyard bounty awaits!
Paperback – 224 pp - $19.95

L343. WEEK-BY-WEEK VEGETABLE GARDENER’S HANDBOOK
By Ron Kujawski and Jennifer Kujawski
Timing is everything, and whether you start your garden planning as a new year’s resolution or grab some seeds with the first warm days of spring this garden planner can help everyone improve their season. Ron and Jennifer, a father and daughter team, will help you take the guesswork out of gardening with weekly-to-do lists that break gardening down into easily managed tasks. They offer easy instructions for setting up a personalized schedule based on your last frost date that will help you know when to start seeds indoors, what day to transplant them into the ground, when to pinch off blossoms and when to pick for peak flavor.
Softcover – Spiral Bound 200 pp – $18.95

L900. PLANT PARTNERS
By Jessica Walliser
Foreword by Jeff Gillman
2021 American Horticultural Society Book Award Winner
Do you know that Nasturtiums deter squash bugs and winter rye suppresses weeds around asparagus? Companion planting has a long history of use by gardeners, but the explanation of why it works has been filled with folklore and conjecture. Plant Partners delivers a research-based rationale for this ever-popular growing technique, offering dozens of ways you can use scientifically tested plant partnerships to benefit your whole garden. Through an enhanced understanding of how plants interact with and influence each other, this guide suggests specific plant combinations that improve soil health and weed control, decrease pest damage, and increase biodiversity, resulting in real and measurable impacts in the garden, rather than tractors or machinery.
Paperback – 224 pp - $24.95
L167. THE LIFELONG GARDENER  By Toni Gattone
You can keep gardening for life, you just need to adjust as you age. In The Lifelong Gardener, adaptive gardening expert Toni Gattone shares her proven methods for making your favorite hobby easier on your aging body—techniques that will help you garden smarter, not harder. This helpful guide includes dozens tried-and-true methods that help eliminate the physical strain of gardening, like buying ergonomic tools, using raised beds, and moving tools around in bins on wheels. The book celebrates the joy of gardening, and Gattone’s message of empowerment will stir you to find joy in your garden for years to come.
Hardcover – 216 pp - $19.95

L611. 100 PLANTS TO FEED THE BEES  By The Xerces Society
Let’s provide a healthy habitat for pollinators to thrive! The international bee crisis is threatening our global food supply, but this user-friendly field guide shows what you can do to help protect our pollinators. The Xerces Society offers browsable profiles of 100 common flowers, herbs, shrubs, and trees that support bees, butterflies, moths, and hummingbirds. The recommendations are simple: pick the right plants for pollinators, protect them from pesticides, and provide abundant blooms throughout the growing season by mixing perennials with herbs and annuals! This book will empower homeowners, landscapers, apartment dwellers — anyone with a scrap of yard or a window box — to protect our pollinators.
Paperback – 240 pp - $16.95

L508. STEPHANIE TOURLES’S ESSENTIAL OILS - A BEGINNER’S GUIDE  By Stephanie Tourles
Restore your body, boost your mood, relax your senses, and invigorate your mind! Best-selling author and herbalist Tourles provides reliable guidance on using essential oils effectively and safely. Includes an introduction to the 25 most versatile oils for health and wellness. Key characteristics of lavender, chamomile, eucalyptus, lemon, peppermint, rosemary, tea tree, and other popular oils are highlighted. Learn how to blend and apply these highly concentrated aromatherapy oils for use from head to toe. 100 recipes including Resin, Rind, & Root “Start Your Day” Spray, Sunshine-in-a-Bottle Mist, Super Herbal Antibacterial Drops, and Sore Muscle Bath Salts.
Paperback - 239 pp - $16.95

L210. ROSEMARY GLADSTAR’S MEDICINAL HERBS: A BEGINNER’S GUIDE  By Rosemary Gladstar
Craft a soothing aloe lotion after an encounter with poison ivy, make a dandelion-burdock tincture to fix sluggish digestion, and brew up some lavender-lemon balm tea to ease a stressful day. In this introductory guide, Rosemary Gladstar shows you how easy it can be to make your own herbal remedies for life’s common ailments. Gladstar profiles 33 common healing plants and includes advice on growing, harvesting, preparing, and using herbs in healing tinctures, oils, and creams. Stock your medicine cabinet full of all-natural, low-cost herbal preparations.
Paperback - 224 pp - $14.95

L506. THE NATURALLY CLEAN HOME 3RD EDITION  By Karyn Siegel-Maier
In this updated edition of her best-selling book, The Naturally Clean Home, Karyn Siegel-Maier brings together the formulas for home cleaning solutions that readers have trusted for years with new information and updated ingredients. Recipes eliminate Borax from ingredient lists, replacing it with safe substitutes that include citric acid powder, hydrogen peroxide, diatomaceous earth, cornstarch, washing soda, and baking soda. New recipes show readers how to make easy, nontoxic, environmentally friendly substitutes for popular cleaning products. Some of the 150 non-toxic recipes include laundry and dishwasher tablets, mold and mildew prevention, scouring powders, disinfectants, floor cleaners, room spitzers, and more. Cleaning will be so refreshing the whole family will pitch in!
Paperback – 224 pp - $12.95

PZ100. ALL GOOD THINGS ARE WILD & FREE PUZZLE  Illustrated by Valesca van Waveren
This puzzle from Flow, featuring an exclusive illustration by Dutch artist Valesca van Waveren, is inspired by the words “All good things are wild and free,” written by Henry David Thoreau in Walking. As you complete the puzzle, piece by piece, you may be reminded of the simple joys of being in nature: tiny toadstools, a traveling snail, a fruiting tree, the crackling of a campfire, sparkling constellations, and soaring birds, just to name a few. 1,000 full-color interlocking pieces, art print with puzzle image, finished puzzle measures 26 3/8” x 18 7/8”. Not suitable for children under 3 years of age.
1,000 pieces (26 3/8” x 18 7/8”) - $19.95

PZ101. MY BIG WIMMELPUZZLE - ANIMALS AROUND THE WORLD  By Stefan Lohr
From the My Big Wimmelbook® series, this action-packed floor puzzle will keep little ones captivated as they seek out the characters hidden in each scene, each one busy doing something. Can you spot Amir and John? What are they doing? Which animals do they see? Who are Pip and Pat the Puffins talking to? Just like their oversize board-book counterparts, My Big Wimmelpuzzles encourage kids to be storytellers and use their imagination to describe what’s happening in every scene. 48 easy-clean, easy-grasp pieces, finished puzzle measures 48” x 24”, meets CPSIA and ASTM F963 safety requirements, printed with non-toxic ink. Not suitable for children under 3 years of age.
48 pieces (3 feet x 2 feet) - $16.95

**KNITTING**

**PEACE FLEECE WORSTED WEIGHT WOOL YARNS**

200 YARDS/4 OZ. SKEIN - $12.95

**Peace Fleece** – a small New England fiber company with a mission.

“We work to support pastoral communities that have been historically in conflict with the US. Currently we are working with the Navajo to offer fair market prices for the Rambouillet sheep wool raised by families on the Reservation. Our yarn is made of this wool blended with a domestic fine wool and mohair for strength. We love what we do, and we hope you will too.”

Our selection of Peace Fleece worsted weight wool yarn is offered in a variety of beautiful colors and is blended with mohair and Rambouillet sheep wool from native and non-native American ranchers making it incredibly warm. With washing and use, the yarns will dramatically soften and fluff up. Gauge: 4 stitches per inch on US #8 (5 mm).

(A) K101. ANTARCTICA WHITE (ivory)
(B) K103. CHICKIE MASLA (deep butter)
(C) K106. BLUE JAY (teal)

PGK04.  CHEF’S HERB GARDEN KIT
$44.95
Entice those that harbor a passion for cooking to grow a garden. This kit contains the finest culinary herbs, along with a couple of uncommon ones. Jef, the Co-owner of Pinetree, is the Chef of a well-known restaurant in the food-loving waterfront city of Portland, Maine, and is the inspiration in creating the Chef’s Garden Kit. Included are twelve packets of herb seeds for starting a chef’s herb garden, herb shears to help process fresh herbs and a herb recipe book. If you have an affection for cooking or know someone who does this kit will deliver an abundance of flavors to the plates forged from any kitchen.

- Sage
- Rosemary
- Thyme
- Cilantro
- Italian Large Leaf Basil
- Lemon Grass
- Parsley
- Greek Oregano
- Marjoram
- Fern Leaf Dill
- Winter Savory
- Chives

Book- Homegrown Herbs
Herb Shears

PGK01.  EASY TO GROW GARDEN KIT
$49.95
Start your first garden adventure or help a friend start one with this Easy to Grow Garden Kit! Includes some of our most popular seed packets, two gardening books, peat pellets, and wood labels. The seed packets offer something for everyone’s palette, a few to try starting indoors and the others for sowing directly into the garden. Peat pellets provide a quick and simple way to start seedlings indoors and wood labels for easy plant identification. The book-Starting Seeds will help in learning the process of sowing seeds indoors and outdoors, and The Veggie Gardener’s Answer Book discusses growing an organic vegetable garden successfully. Includes our very own “Guide to Seed Starting” as well as our “Pinetree Garden Planner” to help you plan and get the most out of your garden.

- French Breakfast Radish
- Bunching Onion
- Howden Pumpkin
- Early Prolific Straightneck Summer Squash
- Sungold Tomato
- Marketmore Cucumber
- Di Cicco Broccoli
- Tendersweet Carrot
- Pinetree Lettuce Mix
- Marsi Bush Bean
- Super Sugar Snap Pea

Book- Starting Seeds
Book- Grow Your Own Food
50 Wood Labels
50 Peat Pellets

PGK03.  HEALING HERBS GARDEN KIT
$44.95
We put this Healing Herb Kit together so you can plant a healing herb garden and learn about how herbs can assist in natural healing. Herbs have been used for thousands of years as the primary way to treat ailments and for healing our bodies. In the past, they were harvested from the wild then processed into teas, tinctures, poultices, tonics, lotions, and creams. In our modern world, we can grow many of these herbs in our gardens and continue the traditions of using herbal remedies. Included are nine hardy perennial herb seeds and two self-seeding annuals, copper plant markers which provide long-lasting identification, and the book-Medicinal Herbs: A Beginner’s Guide will help in creating home-grown herbal remedies. This kit is the beginning of growing a herbal medicinal garden that one can build upon over time, introducing other healing herbs in future seasons. Another benefit to this kit is many of these plants will also attract pollinators to your garden.

- Narrow Leaf Echinacea
- St John’s Wort
- Resina Calendula
- White Pompon Feverfew
- Marshmallow
- Lemon Balm
- Mint
- Elecampane
- German Chamomile
- Yarrow

Book- Medicinal Herbs: A Beginner’s Guide
10 Copper Plant Markers
KT200. BROOKLYN BREW SHOP
HARD CIDER KIT - $47.95
This Hard Cider Kit has everything you need (other than some fresh cider) for 3 batches of tart, dry and bubbly hard cider. Making hard cider is even easier than making beer and making beer is pretty easy! Find any cider that is pasteurized (UV pasteurized is great) and preservative free (you don’t want to use any cider that has potassium sorbate or sulfur benzoate in it). Let it ferment, bottle it, and enjoy. Included in the kit: yeast (3 packets), glass fermentation jug, screw cap stopper, airlock, sanitizer (3 packets). (Not included: apple cider, strainer, funnel, kettle and bottles.) 7% alcohol by volume. Review instructions online and how-to videos at: brooklynbrewshop.com/instructions. (Written instructions are not included.) Made in USA.

KT300. BROOKLYN BREW SHOP
BEER MAKING KIT – AMERICAN PALE ALE - $44.95
What better way to get started with beer making than with a classic all-American pale ale! Less hoppy than an IPA this medium bodied beer has just the right amount of toasted maltiness to make it enjoyable no matter the occasion. Bursting with hop flavor, backed by a smooth malt body & made with 100% American malted barley and American hops. Included: American pale ale 1 gallon all-grain mix, Nugget hops, beer making yeast, glass fermentation jug, thermometer, grommeted plastic lid, and kosher salt. (Not included: strainer, funnel, pot and bottles.) 5% alcohol by volume. Review instructions online and how-to videos at: brooklynbrewshop.com/instructions. (Written instructions are not included.) Made in USA.

 KT301. BROOKLYN BREW SHOP
BEER MAKING KIT – EVERYDAY IPA® - $47.95
This well-balanced citrusy IPA gets its bitterness from Columbus hops and its fragrant citrus aroma from super aromatic hops. And at 6.8%, it will make every day a good one. Included: Everyday IPA 1 gallon all-grain mix, Cascade hops, Columbus hops, beer making yeast, glass fermentation jug, thermometer, grommeted plastic lid, and kosher salt. (Not included: strainer, funnel, pot and bottles.) All the equipment in the beer making kit is reusable. All you need for your next batch is another beer making mix and packet of no-rinse sanitizer. 6.8% alcohol by volume. Review instructions online and how-to videos at: brooklynbrewshop.com/instructions. (Written instructions are not included.) Made in USA.

KT100. FARM STEADY FERMENTED HOT SAUCE KIT - $39.95
The best hot sauces are fermented. Whether your favorite is mild, refreshing and green, or smoky, blazing hot and red, there’s no limit on all the different ways to customize homemade hot sauce. Fermenting your hot sauces gives them an umami depth, knocks a bit of the edge off the chiles, and marries all the flavors for complex hot sauces you’ll want to put on everything. Experiment with different combinations for endless spicy possibilities. From jalapeños, to habaneros fermented with fruit, to poblanos and hatch chiles there’s no wrong way to get your high-heat fix. Kit includes: ½ gallon glass fermenting jar, airlock, glass fermentation weight, grommeted plastic lid, and kosher salt. (Not included peppers.) Prep time 15-30 minutes. Ready in 1-2 weeks. Makes 2 quarts. Review instructions online and how-to videos at: farmsteady.com/instructions. (Written instructions are not included.) Made in USA.

KT101. FARM STEADY FERMENTED VEGETABLE KIT - $39.95
Discover the joys of fermenting your own food! It’s easy, it’s fun, and it’s amazingly healthy. This kit is perfect for both beginners and well-experienced fermenters. The fermentation weight is a heavy glass weight that keeps your vegetables fully submerged during fermentation. A hole in the weight allows ease when putting it in the jar and removing it. Using an airlock means that you don’t have to worry about “burping” your ferment. The equipment is all reusable so you can keep experimenting with different items. Great for lacto-pickles, kraut, kimchi and more! Kit includes: ½ gallon glass fermenting jar, airlock, glass fermentation weight, grommeted plastic lid, and kosher salt. (Not included fresh vegetables.) Prep time 15-30 minutes. Ready in 1 week. Review instructions online and how-to videos at: farmsteady.com/instructions. (Written instructions are not included.) Made in USA.

H682. Mason Bee Nest Kit (Standard) - $15.95
Take the sting out of bee keeping with this biodegradable mason bee nest kit (bees not included). Native Orchard Mason Bees are widespread throughout North America. They are superb early season pollinators of fruit trees, strawberries, raspberries and blueberries even better than honeybees. In nature, female mason bees lay their eggs in hollow plant stems, insect holes, dead trees, even under house shingles. Finding such places is hard work! By putting up a nest kit, you are providing an easy, ideal, “ready-made” home for the bees until they “hatch out” the following spring. The housing unit is made from 100% recycled polypropylene and contains 52 tubes. It is 6 1/2” deep, with a 3” diameter. The 6” cardboard nesting tubes are made from Kraft paper, clear wrapped for moisture resistance. An informative leaflet about Orchard Mason Bees is included. Replacement tubes may be purchased separately item # H682A

L611. 100 PLANTS TO FEED THE BEES
By The Xerces Society
Let’s provide a healthy habitat for pollinators to thrive! The international bee crisis is threatening our global food supply, but this user-friendly field guide shows what you can do to help protect our pollinators. The Xerces Society offers browsable profiles of 100 common flowers, herbs, shrubs, and trees that support bees, butterflies, moths, and hummingbirds. The recommendations are simple: pick the right plants for pollinators, protect them from pesticides, and provide abundant blooms throughout the growing season by mixing perennials with herbs and annuals! This book will empower homeowners, landscapers, apartment dwellers — anyone with a scrap of yard or a window box — to protect our pollinators.
Paperback – 240 pp - $16.95

515. BORAGE
ANNUAL (Borago officinalis)
3’ tall with a spreading habit. Continuous sky blue blooms attract lots of bees. Tough and drought resistant, it reseeds itself vigorously. Grown as an ornamental as well as for the fuzzy, cucumber-tasting leaves in the spring. Soothing to skin inflammations, bites, stings, bruises, and as a tea for colds.
100 SEEDS - $1.95

551. CHIVES
PERENNIAL (Allium schoenoprasum)
Onion-like flavor comes from the tops which are generally chopped fine. Used in sour cream, cream cheese, soups, etc. The light lavender flowers can be added to your favorite salad, just break the head apart. Zones 4-9.
100 SEEDS - $1.95

58502. MOUNTAIN MINT
PERENNIAL (Pycnanthemum pilosum)
Native to eastern North America this rustic mint is valued for its nectar rich flowers, attracting beneficials into the garden space. Grows to 3-4 feet, forming multiple tiers of small white flowers speckled with lavender. Leaves can be used for tea and when crushed have a spicy mint flavor, also said to help repel insects. Place this pollinator attractor along the edges of a woodland or back border of the garden. Full to part shade. Zones 4-8.
100 SEEDS - $1.95

575. OREGANO
PERENNIAL (Origanum vulgare)
This perennial herb can grow to a height in excess of 2 ft. The leaves are used fresh or dried. Zones 4-8.
300 SEEDS - $1.95

589. COMMON THYME
PERENNIAL (Thymus vulgaris)
Forms a low-growing mound of dark green for a beautiful ornamental effect. Tiny leaves are fragrant and pungent with a tangy flavor that enhances a variety of dishes. Covered with tiny white flowers in the summer. Zones 5-9.
100 SEEDS - $1.95

## Flower Seeds

### 602. CARPET OF SNOW (Coreopsis) **ORGANIC**
**ANNUAL (Lobularia maritima)**
Tiny white flowers blanket these 6” plants very quickly. Phenomenal spreader, one plant can grow a foot wide. Hardy annual, plant seedlings out a few weeks before frost for very early blooms. Keeps blooming through many frosts in fall too.

80 SEEDS - $1.75

### 71303. HELLO YELLOW MILKWEED (Gailardia)
**PERENNIAL (Tuberosa)**
Golden yellow flowers are displayed in a flat-topped arrangement. Provides a nectar-rich feast for a variety of pollinators, especially the monarch butterfly. Easy to maintain, long-lived perennial likes full sun in well-drained, even gritty soil, and tolerates dry conditions. For long lasting cut flowers tear the ends of the stem with a flame. Stimulate a second bloom cycle by deadheading. Grows to 20”. Zones 3-8.

40 SEEDS - $4.25

### 728. BABY SUN (Monarda)
**PERENNIAL (Grandiflora)**
One of the most carefree perennials you can grow, Baby Sun is covered with an abundance of 1-1/2” golden yellow blooms for much of the summer. You will harvest armfuls of golden flowers that are touched by a dark maroon center. Grows 2’ tall and enjoys a sunny spot in the garden. Zones 3-9.

100 SEEDS - $2.25

### 621. SENSATION MIX (Zinnias)
**ANNUAL (Bipinnatas)**
Mix of white, pinks and reds. Classic summer flowers have large single blooms 4-6” across on plants 4-5’ tall. Foliage is finely cut, and the plants branch out and bloom profusely and continually.

100 SEEDS - $1.75

### 62203. SHOWPIECE MIXTURE (Zinnias) **ORGANIC**
**ANNUAL (Varibalis)**
Rivals plants started from rhizomes. Showpiece is appropriately named, winning numerous awards in the US, UK, and Australia. Double blooms are 3-4” across on 3-4 1/2” plants. Very sturdy stems carry blooms in bright shades of gold, crimson, purple, apricot, and numerous variations in the pink-red spectrum. Blooms the first season.

10 SEEDS - $1.95

---

### 737. PURPLE CONEFLOWER (Echinacea)
**PERENNIAL (Purpurea)**
GERM 10-21 DAYS
This hardy perennial makes a spectacular display when established. Plants are 40-45” and produce an abundance of bluish purple flowers, 4” across, from July to September. Give them plenty of room as they will spread to create a very striking plant. Zones 3-8.

100 SEEDS - $1.75

### 70810. MESA RED (Gailardia x Grandiflora)
**PERENNIAL**
Ruby red daisy-like flowers give way to attractive globe-shaped seed heads on compact plants. Easy to grow, holds up well in dry conditions and flowers the first-year when started indoors. Once established it requires little care while putting out non fading color all season.

Grows to 16” by 20”.

20 SEEDS - $3.75

### 70808. HELEN’S FLOWER (Helenium)
**PERENNIAL (Helenium autumnale)**
A late-season blooming native perennial with upright, clump-forming, branching plants that are abundantly covered in showy yellow disc-shaped flowers. Drawing in native pollinators, its natural habitats include meadows, open moist woodlands, marshes, and wet fields. Also known as autumn sneezeweed, even though the name implies this, it does not make you sneeze. It was used in the past to make a snuff that promoted sneezing. Low maintenance and adaptable, able to grow in full to part sun from average to wet soil. Deer resistant. Grows to 48”. Zones 3-9.

500 SEEDS - $1.95

### 75702. PANORAMA MIX (Monarda Didyma)
**PERENNIAL**
The most true-to-type monarda to grow from seed. Sturdy 36-48” plants carry blooms in many shades of scarlet, bright red, pink, salmon, and crimson. Makes a good cut flower. Near legendary for its ability to attract bees and hummingbirds. Leaves and flowers also make a nice tea. Zones 4-9.

100 SEEDS - $2.95

### 62501. CALIFORNIA BLUEBELLS (Phacelia Campanularia)
**ANNUAL**
Alluring cobalt blue bell-shaped flowers are a lively addition to the garden space. This native wildflower of the Californian desert is easy to grow, drought-tolerant, and adaptable to other types of climates and soil. Grow this charming flower in the vegetable garden nestled between the veggies where it lures in the pollinators. Self-seeds. Grows to 10-18”.

300 SEEDS - $1.95

### 67729. LEMON QUEEN (Helium)
Pastel lemon yellow flowers on multi-branching stalks that grow 6-7’. Heads are 6” across with chocolate colored centers and make a beautiful back drop to vegetable, flower and herb gardens.

20 SEEDS - $1.75

### 69801. STATE FAIR MIX (Coreopsis)
**ANNUAL (Elegans)**
A fine cut flower reaching 5-6” across in shades of lavender, pink, orange, purple and scarlet. Grows to 36”.

50 SEEDS - $1.50

Container Varieties

ROOT POUCHES
Root Pouches are degradable pots made of a mixture of recycled natural fibers and recycled bottles otherwise destined for landfills. The lightweight breathable fabric begins to break down once planted into the ground. Benefits include: allows air and water to freely pass, decreases the risk of transplant shock, prevents roots from circling, will withstand UV rays, provides insulation from winter cold, allows roots to cool in summer heat, and produces quicker growing times. Offered in 4 sizes.

H717A. ROOT POUCH (3 GALLON)
(No Handles) - $3.95
Color grey, measures 10” wide x 8.5” high, longevity 3-4 years

H717B. ROOT POUCH (5 GALLON)
(With Handles) - $4.95
Color grey, measures 11” wide x 10.25” high, longevity 3-4 years

H717C. ROOT POUCH (10 GALLON)
(With Handles) - $6.95
Color grey, measures 16” wide x 12” high, longevity 3-4 years

H717D. ROOT POUCH (15 GALLON)
(With Handles) - $8.95
Color black, measures 17” wide x 15” high, longevity 4-5 years (Not Pictured)

CONTAINER ITEMS

19101G. ASTRO (32 DAYS)
Quick growth for clipping smooth leaf baby greens in 3 weeks, slightly mild flavor than other varieties, then maturing into a strapped leaf with deep lobes for bunching. Slower bolting and strong ability to grow in colder temperatures for year round harvest.
500 SEEDS - $2.50

1201. MASAI (47 DAYS)
GERM 4-10 DAYS
Small 1’ plants produce huge yields of thin, smooth, flavorful 4” beans. Several plants will provide a meal for two and due to the growth habit the harvest is quick and easy. One of the best beans for container growing. Wonderful late summer harvest. Reportedly Masai is now “the standard” bean in Europe.
1OZ (APPROX. 180-200 SEEDS) - $1.95

3402. BABYBEAT (40 DAYS)
GERM 5-10 DAYS
Perfectly round mini beet with the earliest harvest of all our beets. Easy to squeeze into small spaces. Deep red interior has elevated sweetness with crunchy texture and subtle, earthy, beet flavor. Reliable and consistent, holding baby size of 1” - 1 ½”, for weeks in the garden.
300 SEEDS - $2.25

4401. ASPABROC (F1 HYBRID 50 DAYS)
GERM 3-10 DAYS
Capture the savory taste of broccoli and asparagus in one plant. Entire plant is edible with extremely tender, long slender stems with asparagus like texture and florets that have a sweet, milder flavor with a slight peppery undertone. Performs well with little space in a spring or fall planting. Harvest the small 3-4” main stalk head first, smaller florets will continue for over a month.
30 SEEDS - $2.75

6104. KATARINA (F1 HYBRID 45 DAYS)
GERM 7-12 DAYS
Early season, 4-5” compact heads are ideal for tight spaces. Katrina will grow well in the ground, raised beds, or containers. Excellent eating quality, tender and crunchy, perfect for fresh salads. An award-winning replacement for the popular but discontinued Mini Gonzales variety. AAS winner.
30 SEEDS - $2.50

826. BAMBINO (61 DAYS)
The petite and tender gourmet carrots grow perfectly in containers. Harvest the slender carrots starting at 4” and sow a few plantings throughout the season for an extended harvest.
150 SEEDS - $1.95

8107. BABY (F1 HYBRID 40 DAYS)
GERM 6-14 DAYS
Novelty mini cauliflower producing 3-4” baby-sized heads. Entire plant is usable in meals, both curd and leaves are tender raw or cooked. Developed to grow in small containers or in high-density plantings, needing less than a square foot of space per plant. Quick to mature, easy and fun to grow.
30 SEEDS - $4.25

18806. CUTTING (45 DAYS)
GERM 14-21 DAYS
This hardy annual can be used in place of celery and is easier to grow. The fine green leaves and thin hollow stems are especially good to flavor soups and stews. Both stocks and leaves are cut at a younger, more tender stage than regular celery. Grows to 18”.
50 SEEDS - $1.95

82507. MUNCHER (60 DAYS)
GERM 6-10 DAYS
While the vines are compact they are also very strong, making Muncher a fine choice for container growing. It is a Middle Eastern Beit-Alpha type so the skin is very smooth and practically spineless. Delicious, burpless, and never bitter. The heavy yields of Muncher also pickle well at about the 4” size. It will reach 9” at full maturity.
20 SEEDS - $1.95

15501. PATIO BABY
(F1 HYBRID 45 DAYS)
GERM 5-14 DAYS
Baby sized fruits arrive extra early on compact plants; perfectly suited for containers, patio gardens, or in the ground. A continuous setting of 2-3" deep purple spineless fruits that are deliciously mild and less bitter than other varieties. All-American selection winner.
10 SEEDS - $2.95

191. DWARF BLUE CURLED SCOTCH (55 DAYS)
GERM 3-10 DAYS Heirloom 1863
Kale is so attractive it can be grown for its appearance alone. Finely curled blue-green leaves are carried on compact, 1’ plants. Great fresh or cooked, either before or after a frost. Plant four plants per square foot.
30 SEEDS - $3.95

20104. RALLY (F1 HYBRID 85 DAYS)
GERM 5-10 DAYS
Vigorous hybrid leek for early production. Earlier than the others, producing high-quality, long uniform shanks. Cleans easily and holds strong against thrips and rust.
50 SEEDS - $3.95

PINETREE LETTUCE MIX
(CORNER HARVESTING IN 40 DAYS)
Our lettuce mix includes over a half dozen varieties that we offer. A couple of each loose Leaf, butterhead, and romaine types with a variety of colors, textures, tastes, and maturation times. We like to grow this mix not just for full-sized heads but for baby greens as well, just sow seeds closely together in rows (50-60 seeds per foot) and harvest at 3-4”. Sow every 14 days for a continuous supply of greens all season. This has become our best selling item.
203. 500 SEEDS - $2.95
20301. 1/2OZ PACKAGE (~15,000 SEEDS) - $6.25

22202. LILLIPUT
(F1 HYBRID 80 DAYS)
GERM 4-10 DAYS
A mini, personal size melon just the right size for one serving. Luscious, sweet orange flesh has a high sugar content and is easy to harvest, it just slips from the stem when fully ripe. The fruit weighs up to 2 lbs and is 4-5” in diameter. Resistant to Fusarium Wilt and Powdery Mildew.
20 SEEDS - $2.50

W467. HESHIKO (65 DAYS)
GERM 5-10 DAYS Heirloom
Produces no bulbs and also divides and thus can be considered sort of a perennial. Can be sown thickly (20 seeds per square foot) either in the spring for a fall crop or in the fall for a crop the following year. Use like scallions, each plant will have half a dozen narrow divisions in the fall.
400 SEEDS - $1.95

82909. BABY (50 DAYS)
GERM 7-12 DAYS
A tiny pak choi perfect for dense or container planting. You should be able to grow a half a dozen of these compact plants in a good sized pot and begin cutting within 45 days and continue to harvest the delicious leaves for another four weeks after.
50 SEEDS - $1.95

26803. LITTLE SNOWPEA PURPLE
(50-54 DAYS) GERM 7-14 DAYS
Early maturing petite vines produce beautiful bi-colored purple flowers and green, flat crunchy pods. Compact and productive in any garden space, an excellent choice for growing in containers or the ground. We loved the flowers just as much as we enjoyed eating the peas. Grows up to 24”.
1OZ (APPROX. 110-125 SEEDS) - $2.95

27304. MINI BELLE BLEND (60 DAYS)
GERM 10-14 DAYS
The wee little peppers in this blend are such a blast of fun to grow either in the garden or on the patio. Peppers are tiny, some only being an inch long and wide. Compact plants grow to 15” in height. Absolutely cute and robustly sweet tasting added to salads, vegetable platters or for mini stuffed pepper hour d’oeuvres.
20 SEEDS - $1.95

295. JACK BE LITTLE (85 DAYS)
GERM 7-10 DAYS / Cucurbita pepo
You will love these tiny pumpkins! 3-5” in diameter, flattened, heavily grooved, with a bright orange color and very prolific. Can be grown on a fence to save space. Kids love them and they make great decorations.
15 SEEDS - $2.25

303. FRENCH BREAKFAST (25 DAYS)
GERM 5-7 DAYS Heirloom 1879
An elongated radish, scarlet on top and white on the bottom. Tender and mild in flavor. Suitable for hot, dry conditions.
300 SEEDS - $1.95

33701. SEASIDE (F1 HYBRID 30 DAYS)
GERM 7-14 DAYS
Resistant to heat induced bolting. Smooth, thick spade-shaped dark green leaves. Seaside is ideal for an early harvest of baby leaves offering a moderate growth rate and a uniform upright habit. Let some of those baby leaves keep growing for tasty mature leaves. High resistance to downy mildew.
75 SEEDS - $1.95 / 1000 SEEDS - $3.95

W28901. COCOZELLE (58 DAYS)
GERM 7-10 DAYS / Italian Heirloom (Cucurbita pepo)
Bush type heirloom zucchini decorated with dark and light green stripes. Tender, flavorful, and firm greenish white flesh is best picked under 12”. In Italy, it is eaten when only 1-2” long. Great for the small garden or container planting and also good for freezing and canning.
20 SEEDS - $2.25

38601. ALEXANDRIA
GERM 14-30 DAYS
Alpine strawberries are a treat when you are working away in the garden and their flavor is so much more delectable than standard strawberries. This variety doesn’t take up much space with compact sized plants that produce few runners. We have ours growing as a border in the herb garden or tuck a few plants into the corners and edges of the vegetable or flower garden. They will grow successfully in containers if ground space is hard to find. Day Neutral. Zones 5-8.
20 SEEDS - $1.95

40202. TUMBLER (F1 HYBRID 50 DAYS)
GERM 7-14 DAYS / DETERMINATE
A superior variety for hanging baskets and containers. Cascading vines are prolific, offering extra early cherry-sized tomatoes, the first tomato to ripen for us this season. Replaces the Tumbling Tom series.
10 SEEDS - $2.95

CONTAINER VARIETIES

NEW FOR 2022
ORGANIC
BEE-FRIENDLY
EASY TO GROW
IDEAL FOR CONTAINERS

Required Sales Tax: (See below)

Sales Tax Information: We are now required to collect applicable sales tax in certain states, on all taxable items in accordance with applicable state and local ordinances. Certain states have differing regulations regarding tax rates; such as what items are taxable, the destination of the order, and whether any county/municipal taxes are also collected. Please remit the appropriate amount of sales tax with your order. Failure to do so will result in delayed order processing. To ensure accurate sales tax is calculated, we strongly encourage you to place your order online at superseeds.com, or call us at (207) 926-3400. Additional questions can be sent via email to help@superseeds.com. Maine residents add 5.5% sales tax.

Dear Gardening Friends,

Well, 2021 wasn’t quite what we expected.

At the beginning it looked like covid was going to be a thing of the past. That didn’t work out the way we thought it would. Shipping delays and supply chain issues continue to be problems across the world while we’re also facing a nationwide labor shortage. That said, the good news is that the gardening and seed industry has remained strong and here at Pinetree we’ve spent the year improving and streamlining our packing and shipping processes to be able to provide you with better and faster service.

We’ve worked hard alongside our growers to source the seeds you want to grow and to ensure that our inventory is accurate. We’ve been very busy behind the scenes to make this the best season yet for our customers.

We’ve been lucky enough to have a great selection of seeds available but, as always, to be sure you can get the seeds you want, order early.

To all of our loyal customers who have been with us for countless years, we want to thank you for your continued support and sticking by us through these difficult times.

To the new customers who have found us through the pandemic, welcome to the Pinetree family. We’re glad you’re here. If you’re new to gardening, whether it be a new hobby you picked up to keep yourself busy or to provide food for your friends, family, and neighbors, we’re here to help and support you along the way. Please feel free to reach out with any questions, comments, or concerns you may have.

We’re a phone call (or email) away
