# KILN FIRING SERVICE

### TERMS AND CONDITIONS

Please read all of the information contained in this document carefully.

You must fill out and sign our firing agreement on Page 2-3 before your first firing service.

### SERVICES OFFERED

#### **General Firing Service**

Our firing service is available to the community at a rate of \$10 per kilo per firing. All ceramic pieces must undergo a bisque firing and then a separate glaze firing- no single firings are offered.

Turnover varies from an estimated 7-14 days, depending on how much work you and others bring in. It is fired in an electric kiln. You will be contacted when your work is available for pickup and invoiced upon pick up.

Drop off your pieces during our regular opening hours - your pieces will then be placed in the next available firing of that type. Please bring your own boxes and packing materials.

Firing Services offered:

Bisque-Cone 06

Midfire Glaze- Cone 5/6 (occasionally)

Stoneware Glaze-Cone 9

Earthenware firings can be arranged by organising a whole kiln hire. No small quantities.

#### Whole Kiln Hire

You may also arrange the rental of the entire kiln for \$160 per firing. Our experienced kiln operator will load the kiln for you. You can choose from our standard firings (as above), or we can discuss a different firing schedule to suit your needs.

Internal dimensions:

762mm wide x 508mm deep x 508mm high

Volume = 161L

Contact us on 0450 418 120 or email nichola@handmakersfactory.com.au if you have any questions.

# TERMS AND AGREEMENT OF USE

First Name:		Last Name:			
Conta	act Mobile:				
Cont	act Email:				
		Please read and agree to the following:			
	All pieces dropped off must be in a sturdy box/container with packaging protecting them (eg. bubblewrap, newspaper etc.), and clearly labelled with specific firing request. If pieces require different firing temperatures, they must be packaged in seperate boxes with a note.				
	All pieces must	be made with 100% clay			
	No solid pieces of clay (more than 5cm thick) or hollow, sealed pieces may be fired. Any hollow items must have a hole included to allow air to escape during firing				
	All work must be 100% dry (A.K.A bone dry) and no longer cool to the touch before being dropped off				
	Pieces with cracks or hairline fractures will not be fired and returned to you at collection				
	Your name or n	naker's mark must be clearly engraved on your work			
	Your Makers M	lark:			
		Raku Trachyte) clay, you must have a setter for your pieces to sit on d inform us at drop off.	n		
	For Bisque, piece earthenware gl	ces are allowed underglaze but must not have midfire, stoneware of aze on them.	or		
	firing (mid-fire	on your pieces must match the firing temperature of your chosen or stoneware). Glaze must be wiped entirely off the bottom of you sides to a minimum of 5mm above the base	ır		

## TERMS AND AGREEMENT OF USE

### You understand and agree:

	Your pieces will be returned to you how they were dropped off, if there is no packaging to protect them we cannot prevent them getting damaged.
	If you do not package different firings separately they may get mixed up in the kiln or put into the wrong firing.
	Your pieces may get lost or mixed up in the kiln if they are not marked.
	You may incur a repair fee if your pieces explode and damage the kiln itself or other peoples work. Explosions may occur due to: pieces not being bone dry, being solid, having cracks, being fired at the wrong temperature.
	You may incur a repair fee if your pieces stick to the kiln shelf. Sticking may occur due to: glaze not being wiped off the bottom of your pieces, firing BRT without a setter.
	You may incur a repair fee if your pieces melt in the kiln. Melting may occur due to: using mid-fire or earthenware clay and firing it at a stoneware.
	You may be liable for the damage of other peoples work if you do not adhere to these requirements.
have	read and understand the above terms of use, and am aware that failure to meet these requirements may incur a fee to cover repair costs.
