

BUNNY EGG COSY TEMPLATES

Bunny Ears - Felt - 2 x pieces

Bunny insides - COTTON - 2 x pieces

Bunny body - FELT - 2 x pieces

What You Need

- FELT (I used pink but you can use any colour!)
- Small piece of PRINTED COTTON
- THREAD & NEEDLE - I used embroidery thread and had a plastic needle.
- 2 x GOOGLE EYES
- 2 x TINY POMPOMS
- 2 x 10cm pieces of white wool or thread
- scissors, craft glue, craft hole punch with very small circle setting

Instructions

1. Print this paper at actual size. Cut around each shape to use as a paper template. Bunny should be 10cm x 10cm
 2. Lay onto your fabric of choice and cut out as advised as LEFT here ←
 3. Glue the bunny insides onto the bunny felt ears using craft glue.
 4. Lightly glue the bunny ears inside the two bunny body parts. Wait to dry.
 5. Adults - punch holes around the edge of the body for younger children to sew (I left about a 5mm - 1 cm gap. For older children who could use a normal needle, you could make a dot using a pen for them to follow and stitch.
 6. Sew together using a simple running stitch. I went all the way around and then back the other way. Tie at the ends to secure.
 8. GLUE ON THE FACE & TAIL.
 - tie the two pieces of wool together, 1 x pompom on top and glue all to centre top of body front. Glue google eyes (adults use glue gun or STRONG glue or if you can add a stitch to secure. NOTE - please ensure google eyes are well stuck especially if for small children).
 - glue on the second fluffy pompom to the back, centre bottom for a bunny tail.
- Wait until dry then use over a boiled egg or gift to someone with a chocolate egg inside!

*Please use adult supervision with scissors and needles **
