FX1301 Folding Table with Resin Assembly Instructions

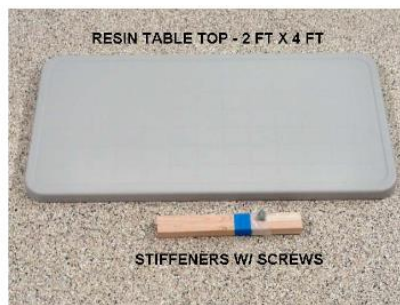

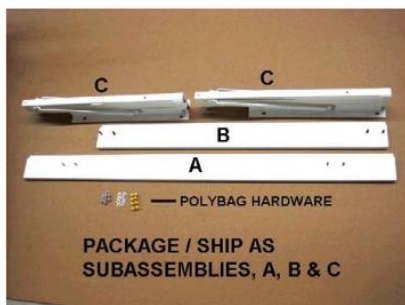

Package Contents:
- 1 x Top Bracket
- 1 x Bottom Bracket
- 2 x Folding Arm Assemblies
- 8 x Nuts, washers, yellow caps
- 1 x Table Top 61x61cm
- 2 x Stiffeners
- 8 x Screws

Tools Required:
- Phillips screwdriver
- Pliers

Step 1: Check contents of package and make sure you have everything you need

Step 2: Place the top bracket (A) at the desired distance from the floor. Mount the two folding arm assemblies (C) on the top bracket and fasten with the supplied nuts, washers and yellow end caps as shown. Hand tighten the nuts.

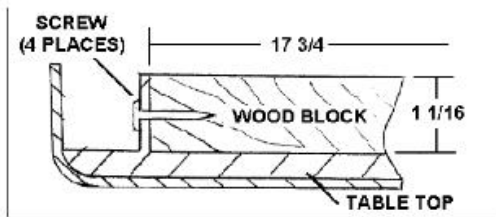

27" TO 33" FROM FLOOR FOR TABLE TOP TO BE 30" TO 36" FROM FLOOR

Step 3: Mount the bottom bracket on the FlexiPanel (B) and fasten with the supplied nuts, washers and yellow caps. Wrench tighten the top nuts.

CL 7" EACH SIDE

Step 4: Place the 2 stiffeners on the underside of the table top as shown above.

If you have any questions or need some advice, please do call us on 01491 579975 or email us at info@garageflex.co.uk and we will do our best to help.

Step 5: Fasten the stiffener ends with the supplied screws as shown in 4 places. The top of the stiffeners should be flush with the ribs at each end.

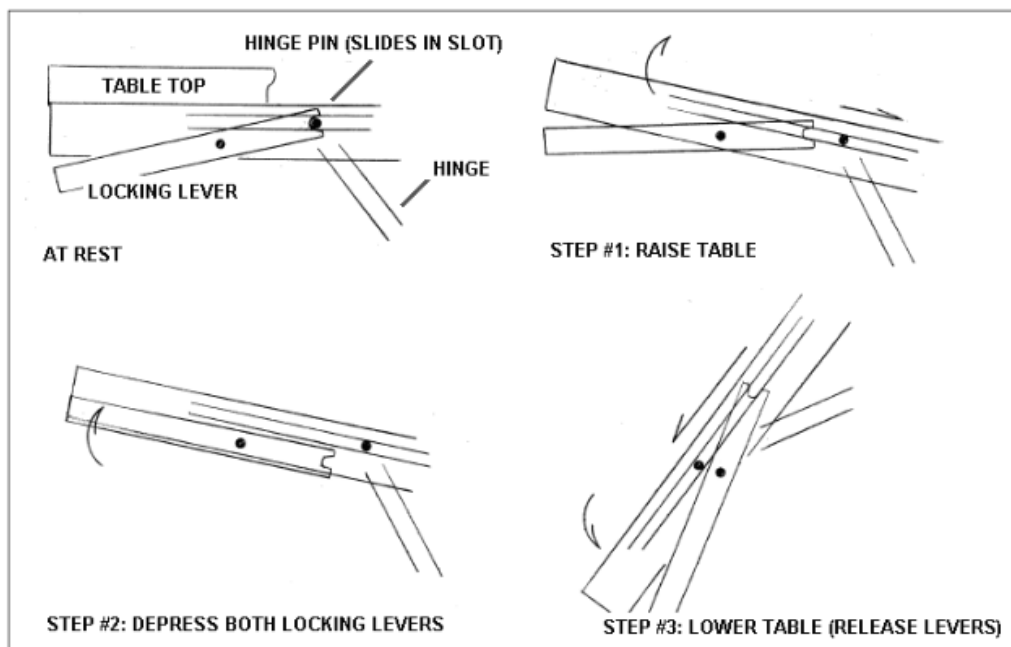

Step 6: Place the table top back edge in line with the folding bracket assembly.

Step 7: With the supplied 1" screw, fasten through the rear 2 holes on each bracket into the stiffener previously installed on the table top.

If you have any questions or need some advice, please do call us on 01491 579975 or email us at info@garageflex.co.uk and we will do our best to help.
