

APPLICATION & BENEFITS

- US built welded press frame to prevent excessive flexing under maximum load and reinforced head bolster for added strength
- Used for various shop applications including straightening, bending, and removing/installing gears, bearings and bushings
- Dual pump pistons provide quicker ram extension to the work load and easier pumping under load
- Winch with non-slip safety clutch and steel cable rollers for easy raising and lowering of press bed
- Pump includes overload valve to prevent against overloading
- 4" Diameter gauge reads US tons and corresponding metric tons
- Heavy duty internal return springs for fast ram retraction
- Pair of bed plates and ram head included

Specifications:

Capacity	40 Ton
Height	76.25"
Throat Width	32"
Vertical Stroke Opening	1"-40"
Cylinder Bore	3.5"
Ram Stroke	4.5"
Ram Diameter	2"
Weight	470 lbs
