

SIGHT MARK

ReadyFire G5 Green Pistol Laser

SPECIFICATIONS

Laser wavelength (nm)	532
Laser type	class IIIA
Laser power output (mW)	<5
Visibility-day (yd/m)	50
Visibility-night (yd/m)	600/550
Battery type	CR2
Battery life (hours)	Constant: 10 Pulsing: 15
Adjustment value	continuous
Elevation adjustment range, MOA	approximately 420
Windage adjustment range, MOA	approximately 140
Operating temp (°C/°F)	-17 to 48 / 0 to 120
Dimensions (in/mm)	2.5 x 1.4 x 1.3/65x 37 x 35
Weight (oz)	6.2

FEATURES

- ✦ Ambidextrous digital switch activation
- ✦ Visible green laser
- ✦ Continuous and pulsing operation modes
- ✦ Optional pressure pad operation
- ✦ Fits full size and compact pistols

INCLUDED

- ✦ Pressure pad
- ✦ CR2 battery
- ✦ Adjustment tool

When seconds count, you don't have time to find your sights in the dark. Featuring a compact design to easily and securely fit pistols, the Sightmark® ReadyFire G5 Pistol Laser pin-points targets faster than lightning. The lightweight, streamlined laser mounts between the trigger guard and muzzle of any railed handgun, decreasing snag points and refraining from adding unnecessary weight to the Firearm. Visibility extends to 50 yards during the day and an impressive 600 yards at night. The ReadyFire G5 is energized by a CR2 battery and features two modes, continuous and pulsing, to increase battery life up to 15 hours. With ambidextrous digital on/off switches, the 5 mW laser can be activated by the right- or left-handed shooter. The included pressure pad allows the unit to conveniently mount on the quad rail of various AR platforms. Designed with a weaver/picatinny mount, the ReadyFire G5 has an operating temperature range of 0°F to 120°F, making it the laser of your choice for almost every shooting scenario.
