

SIGHT MARK

SPECIFICATIONS

Laser wavelength (nm)	635
Laser type	class IIIA
Laser power output (mW)	<5
Visibility-day (yd/m)	20/18
Visibility-night (yd/m)	300/274
Battery type	2x AG13
Battery life (hours)	Constant:7 Pulsing:10
Adjustment value	continuous
Elevation adjustment range, MOA	approximately 300
Windage adjustment range, MOA	approximately 300
Operating temp (°C/°F)	-17 to 48 / 0 to 120
Dimensions (in/mm)	2.4 x 1.4 x 1.2/62 x 35x 31
Weight (oz)	2.5

ReadyFire R5 Red Pistol Laser

FEATURES

- ◆ Ambidextrous digital switch activation
- ◆ Visible red laser
- ◆ Continuous and pulsing operation modes
- ◆ Fits full size and compact pistols

INCLUDED

- ◆ Batteries
- ◆ Adjustment tool

The Sightmark® ReadyFire R5 Pistol Laser is a compact, lightweight sighting system that's designed to fit any compact pistol with a weaver or picatinny mount. Its 5mW laser output is activated by an ambidextrous digital switch for instant on and off action, ideal for right- or left-handed users. The visible red laser on the R5 has built-in windage and elevation adjustments to easily zero the laser sight into the firearm.

Constructed from durable aircraft-grade aluminum, the ReadyFire R5 Pistol Laser is water-resistant and shock proof, offering extreme durability. Energized by two AG13 batteries, it features a continuous and pulsing operation mode to increase battery life up to 10 hours. The device provides up to 300 yards of visibility at night and up to 20 yards in daylight, making it the perfect laser sight for those seeking an advantage against their adversary.
