The Sightmark® ReadyFire CR5 Pistol Laser is a compact, lightweight rail-mounted red laser used for target acquisition on compact and subcompact pistols. Designed with an integral weaver mount, the CR5 Pistol Laser is the ideal laser sighting system for any shooting scenario. With its ambidextrous digital on and off switch activation, the 5mW laser output can be activated by the right- or left-handed shooter.

This pistol laser features a continuous and pulsing operation mode, delivering up to 10 hours of bright illumination. Equipped with a built-in windage and elevation adjustments, the laser easily zero into the laser sight of the firearm. Constructed of aircraft-grade aluminum, the pistol laser is weatherproof, shockproof and features a matte black finish for tactical applications.
