The very versatile **Sightmark SS280 Triple Duty Flashlight** can be used for any tactical, hunting, shooting, home defense and personal security situation, and is a vital accessory for any serious shooter's arsenal. To light the darkest of nights, this flashlight features a high intensity 280 Cree

LED. Equipped with a selector switch that cycles through three distinct settings; strobe, 280 lumen or 100 lumen, the Sightmark SS280 makes a great additional to any tactical or hunting kit. The unique strobe mode feature of the Sightmark SS280 extends the applications to emergency situations as an alert, or as a decoy, to distract and disorient specific targets. Sightmark-Make Your Mark!
