Equipped with a powerful Cree® T6 LED bulb, this high-intensity 600 lumen flashlight projects a concentrated beam bright enough to assist users with the most difficult shots in pitch black darkness. The Sightmark® T6 600 Flashlight features an aircraft-grade aluminum construction and type II mil-spec anodizing for incredible durability and endurance against corrosion. With a weather resistance rating of IP67, the unit is dustproof and waterproof, ready for the harshest climates and tactical situations.

Built for heavy recoil, the T6 600 Lumen Flashlight is designed with a 3-prong, glass-breaking bezel, equipping operators with a powerful self-defense tool to escape out of windows when desperately needed. Along with the included offset weapons mount and tactical pressure pad, the T6 600 Lumen Flashlight Kit also includes a lanyard, push button cap and belt clip.
