## MOJO Oil Filter Cover:

**\*\*IMPORTANT NOTE:** You must use a special o-ring with this part. We have included one extra with the part for your convenience. We have found that you can generally get 4-5 oil changes using one o-ring before you should replace it.

If you need further o-rings, we are happy to supply them for you at no charge. Just send us an email at: [customerservice@mojomotosport.com](mailto:customerservice@mojomotosport.com) and we will mail them out.

If you want to replace them yourself, the o-ring is a SAE 222/640 - 39.4 ID, 45.6 OD, 3.1 Section. Harbor freight carries them in a kit.
