Information about compliance evaluation (risk assessment), test methods and results:

The clothing meant to protect from UV and should have certain marks on it, like the EN 13758-2 standard number and UPF 40+, but we didn't include them permanently. We have a pamphlet with all the details, but we admit we missed this requirement. We'll make sure to add this info to the care label for the next batch.

Reference Style: LW18718

Reference Test Report: (5223)221-0396, (5223)221-0397, (5223)221-0399, (5223)221-0400

Place and date of issue
d.14/12/23
