

SAFE WORK METHOD STATEMENT WORKING AT HEIGHT

PO Box 1234 Safety Sands North NSW 0001

Mobile: 111 555 505 ABN: 11 123 456 788

| | 3XY |
|--|----------|
| Site: 5 Safety North Place NSW Date Prepared: 3 rd Ma | rch 2015 |

1. RESPONSIBILITIES

XY Constructions Pty Ltd will conduct inductions for all workers (inclusive of employees and subcontractors) prior to commencing site work. A record of site inductions and toolbox meetings will be kept at the XY Constructions Pty Ltd office for future reference.

The Principal Contractor or Client will provide adequate amenities (toilets, wash rooms, dining facilities etc) as defined for this work type and in accordance with Safe Work Australia Code of Practice Managing the Work Environment and Facilities.

All XY Constructions Pty Ltd workers engaged in site work are required to wear the necessary Personal Protective Equipment (PPE) as noted in this document. No glass containers will be allowed on site (except in meal rooms). The consumption of illegal drugs and alcohol is prohibited.

2. DESCRIPTION OF WORK

This brief, step by step work summary is to be completed by the Person Conducting Business or Undertaking (PCBU) or Site Supervisor on site prior to work commencing to assist in the identification of possible hazards:

| in the identification of possible hazards: | |
|---|--|
| Loading and unloading equipment and tools | |
| Accessing rooftop for removal of existing roof sheeting | |
| 3. Accessing rooftop for the replacement of new sheeting | |
| 4. Use of mobile crane for lifting existing and new roof sheeting | |
| 5. | |
| 6. | |
| 7. | |
| 8. | |
| 9. | |

| Date and Time Printed: | Reference: | Version: | v1.1 | |
|------------------------|--------------------------------------|----------|-----------|----------------------|

XY Constructions Pty Lt

3. RISK ASSESSMENT

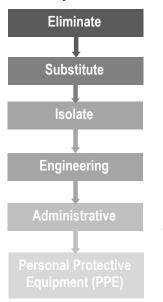

Risk Assessment Table

| | Consequence or Impact of Hazard | Level of harm | A | P | U | Likelihood/Probability | Risk Rating |
|---|---|------------------|---|---|---|-------------------------------|-----------------------|
| | H-Potential death, permanent or long | H -High | 1 | 1 | 2 | A-Almost certain could | 1-Immediate |
| | term disability or illness, significant | | | | | happen at any time | action is |
| Į | detrimental environmental impact | | | | | | required |
| | M- Potential temporary disability or illness | M- Medium | 1 | 2 | 3 | P -Possible risk could | 2- Control the |
| | requiring medical attention, short term | | | | | happen occasionally | risks/ hazards |
| ١ | environmental impact | | | | | | a.s.a.p. |
| ĺ | L-Potential minor injury requiring first aid | L -Low | 2 | 3 | 3 | U -Unlikely may happen | 3-Control risks |
| | or minimal environmental impact | | | | | rarely | with routine |
| | | | | | | | procedures |

When assessing the risk of a particular hazard remember:

- The rating you use should indicate the importance of the action required to minimise the Risk posed by the Hazard.
- The more Hazards you identify the greater the overall Risk on the site.
- Overall Risk increases as the number of people exposed to a Hazard increases.
- The more serious the potential impact to a person's health from a Hazard the greater the Risk.
- The frequency of exposure to a Hazard will increase the Risk

Hierarchy of Controls

Most Effective

Eliminate – 'Design out' the hazard when new materials, equipment and work systems are being purchased for the workplace.

Substitute - Substitute less hazardous materials, equipment or substances and use smaller sized containers.

Isolate – Separate the workers from hazards using barriers, enclosing noisy equipment and providing exhaust or ventilation systems.

Engineering – Use engineering controls to reduce the risks such as guards on equipment, hoists or other lifting and moving equipment.

Administrative – Minimise the risk by adopting safe working practices or providing appropriate training, instruction or information.

Personal Protective Equipment – Make sure that appropriate PPE is available and used correctly.

Least Effective

4. RESOURCES, QUALIFICATIONS AND PERMITS REQUIRED

| Minimum number of workers required to complete this work | 2 or more |
|---|---|
| Trade licence required to | Plumbing Licence: ABC 123456789 |
| complete this work | Held By: Tom Black |
| Additional qualifications, permits and/or experience required to complete this work | Scaffolding Licence: ABC 123456789 |
| Additional training required to complete this work | Site Specific Induction and SWMS reviewed required for all workers. |

5. SAFETY RESPONSIBILITIES

The **Officer** for this project is **Tom Black** he can be contacted on 0555 555 555.

The **Site Supervisor** for this project is **Tom Black** he can be contacted on 0444 444.

The **Health and Safety Representative (HSR)** for this project is **Peter Smith**, he can be contacted on 0666 666 666.

All XY Constructions Pty Ltd workers:

- → **WILL** be required to have relevant trade experience.
- → WILL be required to attend regular site inductions, project and task specific induction training and possess the current General Construction Induction Training card (where required).

PO Box 1234 Safety Sands North NSW 0001 Mobile: 111 555 505 ABN: 11 123 456 788

Work Health and Safety - Responsibilities

- a) Tom Black will be responsible for identifying and assessing the hazards associated with the works, and documenting the hazard control measures to be taken.
- b) Tom Black will be responsible for compliance with Work Health and Safety (WHS) legislation, regulations, standards, codes, and the site-specific Sites Safety Rules.
- c) Tom Black will be responsible for assessing and monitoring your subcontractors' capabilities, and for making sure they meet WHS requirements.
- d) Tom Black will be responsible for managing the acquisition and communication of WHS information to managers, supervisors and people working on site.
- e) Joe Black will be responsible for preparing, maintaining and making accessible the register of hazardous substances.
- f) Joe Black will be responsible for maintaining first-aid stocks.
- g) Peter Smith will be responsible for managing accident and emergency procedures.
- h) Tom Black will be responsible for keeping WHS records.
- i) Tom Black will be responsible for making sure that the Site Safety Rules are available and provided to people who may work on or visit the Site.
- j) Tom Black will be responsible for workplace injury management and rehabilitation.
- k) Peter Smith will be responsible for managing communication between Health and Safety Committees (where applicable).
- I) Peter Smith will be responsible for displaying the Site Safety Rules on noticeboards and other suitable locations on site.

| 6/04/2023 2:05 pm | OSS SWMS - Site Specific Example.doc | Date: | 3/03/2015 | Page : 6 of 8 | |

6. TRAINING RESPONSIBILITIES

The HSR will:

- a) identify the WHS training needs of management, supervisors and workers on site:
- b) make sure that appropriate training is carried out internally and/or by Safe Work Australia accredited trainers:
- c) make sure that all personnel attend general construction WHS induction training before starting work;
- d) make sure that all personnel attend adequate site-specific induction, work activity and refresher safety training:
- e) conduct induction training, task training and refresher safety training for everyone working on site; and
- keep appropriate records of WHS training at the XY Constructions Pty Ltd office.

7. INCIDENT MANAGEMENT

The HSR will:

- a) be available (both during and outside normal working hours) to prevent, prepare for, respond to and recover from incidents; and
- b) make sure that the procedures for contacting the relevant person(s) are communicated and clearly displayed on the sites.

8. PLANT AND EQUIPMENT

Plant and Equipment used on site includes but is not limited to:

| Plant and/or Equipment | Inspection and maintenance checks required | | |
|---------------------------------|--|--|--|
| Elevated work platforms | Visual inspection prior to use and as per manufacturer's recommendations | | |
| Scaffold (mobile or fixed) | Visual inspection prior to use and as per installers recommendations | | |
| Ladders (portable and platform) | Visual inspection prior to use and check monthly | | |

| Date and Time Printed: | Reference: | Version: | v1.1 | |

ABN: 11 123 456 788

9. PERSONAL PROTECTIVE EQUIPMENT (PPE)

PPE for this task includes but is not limited to:

| 1 | Hard hats / sun hats | 6 | High visibility clothing / vests |
|---|-----------------------------|----|----------------------------------|
| 2 | Safety boots | 7 | Safety harness / fall arrest |
| 3 | Sunglasses / safety glasses | 8 | Sun protection |
| 4 | Hearing protection | 9 | |
| 5 | Protective gloves | 10 | |

10. ACCESS

No access shall be permitted by other trades into the work area whilst work is in progress. If necessary, appropriate signage and/or hoarding will be set up around the work area to prevent access. Such signs and hoarding will be removed and area made-good on completion of work.

11. LEGISLATION, REGULATIONS, CODES AND STANDARDS

The following reference documents have been identified as relevant to this project and a copy is kept at the XY Constructions Pty Ltd office. This list is a guide only and is not necessarily all the relevant documentation:

- a) Work Health and Safety Act 2011
- b) Work Health and Safety Regulations 2014
- COP Managing Risks in Construction Work
- COP First Aid
- COP How to Prevent Falls at Workplaces
- **COP Hazardous Manual Tasks**
- g) COP How to Manage Work Health and Safety Risks
- h) COP Managing the Risk of Falls at Workplaces
- AS 1576 Scaffolding
- AS 6001 Working Platforms for Domestic Construction
