

LED GIMBAL POT LIGHT 9W

C&C Lighting Inc. Technical Data Sheet

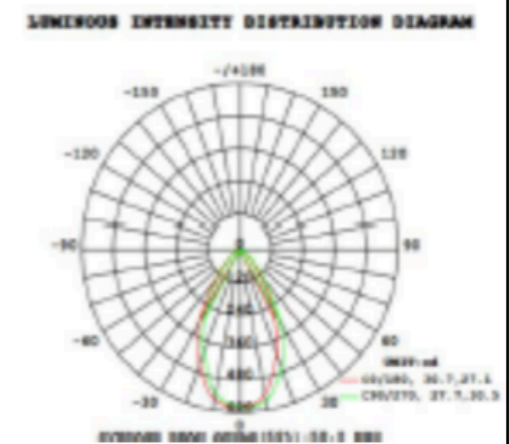

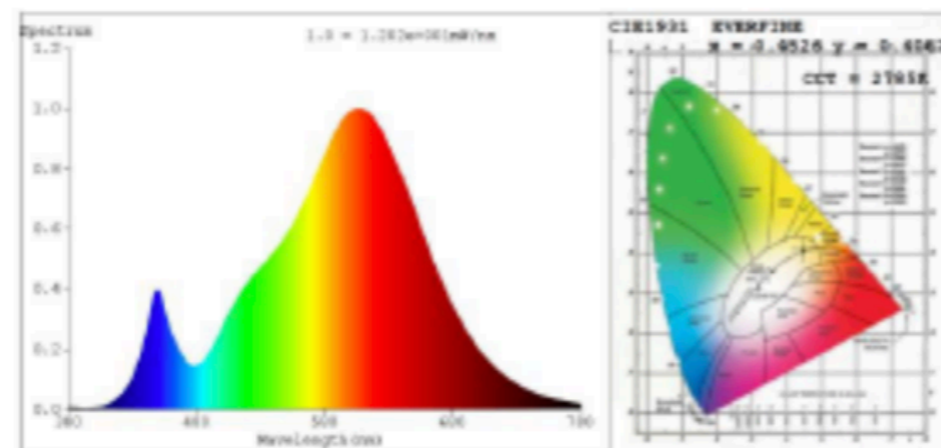

DESCRIPTION

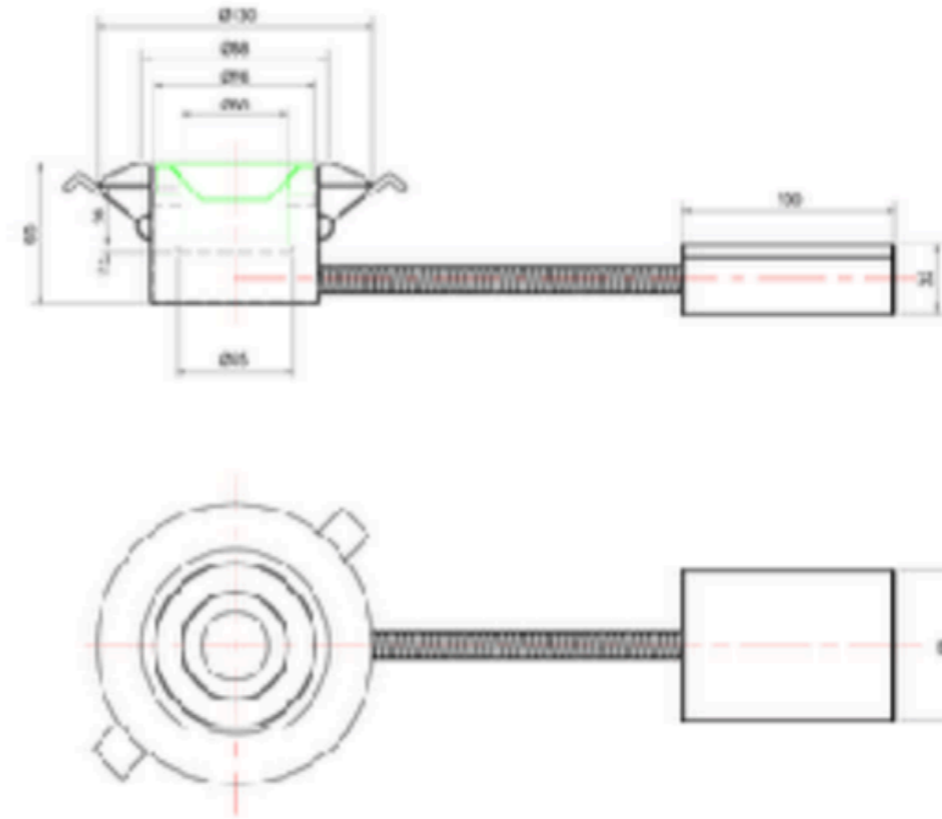

- This patented 4" LED downlight is ideal for both commercial and residential applications. Its anti-glare design provides uniformed and soft lighting effect. The quality construction includes an aluminum body which provides excellent thermal performance, lower light decline and longer life, including easy accessible junction box, allowing quick installation. No need for the traditional junction box any more. Save time and money during installation.
- Trim colour : White Gloss Enamel(WH)
- Optional trim colour : Oil-Rubbed Bronze(RB) / Satin Nickel(SN)
- Installation can only be done by a qualified electrician. Make sure the product is undamaged before installing
- Turn off the power before cleaning the lights. Do not use any chemicals or corrosive materials to clean the light. Keep far away from children's reach.
- Warranty will be voided if damage is caused by personal mistake
