

QUILTON SOFA NEW MODULES

Design by Doshi Levien

HAY

Quilton sofa | New modules

Designed by London-based design studio, Doshi Levien, Quilton is a multi-functional sofa with the flexibility of a modular system. Aptly described by the two designers as a 'quilted landscape sofa system', Quilton combines Nipa Doshi's inherent visual understanding and Jonathan Levien's industrial precision to create a central platform for living, working, socialising and relaxing. The collection has now been extended with a 2-seater model, corner modules and free standing modules in different sizes to offer even greater flexibility and possibilities for users to design their own customised sofa.

Quilton Sofa Design by Doshi Levien

Doshi Levien is a London based design studio founded in 2000 by Nipa Doshi and Jonathan Levien. Nipa grew up in India and studied at the National Institute of Design, while Jonathan, who is from Scotland, trained in fine cabinet making followed by industrial design. Together they create design that is both technically advanced and imbued with cultural resonance.

Both designers each bring their individual skills to the projects they work on: Doshi being primarily concerned with visual culture and the materiality of things, while Levien is more focused on industrial precision and technique. They have worked on projects in the fields of furniture, fashion, homewares, technology and lighting. For HAY, they have created Uchiwa Lounge Chair, Dapper Lounge Chair and Quilton Sofa.

The two designers described their multi-functional sofa as a 'quilted landscape sofa system'.

The wide assortment of different modules enables users to create personalised expressions.

The designer duo have a tactile design process, using colour and sculpting to create their products.

Doshi Levien's design studio in London, where Quilton's soft sculpted forms and voluminous size take centre stage.
