Ocean Signal Rescue ME MOB1

Introducing the world's smallest AIS MOB Personal Locator Beacon with integrated DSC – the RescueMe MOB1 from Ocean Signal.

The best chance of rapid rescue if you fall overboard comes from your own vessel. Your crew needs to be immediately aware of the incident and keep track of your position whilst recovery is carried out. Even in the most moderate of seas it is alarming how quickly a visual sighting of a man overboard can be lost.

The RescueMe MOB1 is compatible with most inflatable lifejackets, simply clipping onto the oral inflation tube and activated by a wrap-around pull lanyard that triggers the arming cover and releases the antenna as soon as your lifejacket inflates, sending the first alert within 15 seconds.

\$2,950

GILL KB1 RACER JACKET

High performance racing demands high performance kit. Kit that helps you move. Helps you breathe. Helps you deliver. The KB1 is engineered to perform. Tough. Versatile. Lightweight. Waterproof. Everything you need to win – not just compete.

NEW KRU ELITE 195: Ocean Safety reveals advanced cutting-edge lifejacket

Ocean Safety Kru Elite 195 is pushing back the boundaries of performance and comfort by breaking away from traditional lifejacket styles. The Kru Elite 195's tailored shape means there's no unfolding or arranging to do in the heat of the moment. The tailored '3D' profile is formed to instantly fit, and there is a quick burst zip to make inflation extra-fast when needed. The Elite 195 features an easy donning front zip, pocket and viewing window for the Pro Sensor firing head, sprayhood, twin harness loops for line attachment and an integral crotch strap and simple waist belt adjustment.

The sprung airmesh comfort collar and foam-lined base layer add to the comfortable and minimalist experience. Yet once it is inflated the Elite turns into an exceptionally high performing lifesaver with 195N of buoyancy giving rugged support.

Handle Delrin Ball Top, Arm Length 10.0" Standard (254 mm), Weight 1.0 lb. (0.45 kg)

\$848

TimeStick

TimeStick will be your favourite timer. Hang it from your neck, slip it in a pocket or mount it to a magnetic surface. Directly set your time, with one hand, on the Splash-proof numeric keypad. Operation has been made as simple as can be. After your first use, throw away the instructions. The count-down bar graph gives you a quick indicator of remaining time. When a count-down alarm sounds, the count-up timer starts so you will see how much time elapses after your alarm. The clock is settable in 12-hour or 24-hour formats. After one minute of sounding an alarm TimeStick will then go silent for 30 seconds, then sound again for 5 seconds. It will repeat this until the unit is silenced by a button push.

\$225

WICHARD Softlink Soft Shackle 3-5mm

SoftLink is a soft shackle developed by Wichard for recreational sailors looking for performance and ease of use. Thanks to its stainless steel connector, SoftLink can be used without any particular knowledge of ropework. It can be fitted and removed with ease, even under tension. SoftLink easily replaces all types of shackles and snap hooks while offering lightness, strength and, therefore, great performance. Even if the loop has to be changed, the stainless steel connector can be re-used.
