

PEBBLE BEACH MOLD 0.5x225

PBM 0.5mL x 225: Makes 225 suppositories per batch

Cavity Capacity: 0.5mL

Total Cavities: 225

Material Specifications:

Food-grade high-density silicone offers improved performance and surface quality advantages compared to standard, labor intensive molds in the compounding industry.

Constructed to withstand harsh lab environments, this bendable, yet firm thermoplastic resin is easily movable, and it has a maximum continuous-use temperature of 302°F (150 °C).

Features:

- Flip-to-Auto-Eject Technology
- Push-Eject Buttons for Removal of Individual Suppositories
- Incorporated run-off trough to collect any excess material
- Fatty-Acid Base Compatible Mold
- Bendable mold, durable, designed for high productivity
- High and low temperature resistance
- Packaging options: Blister-packs, Bubble-packs, Rx vials
- Fits into Medi-Cup® Oval Blisters (MD445)
(Medi-Cup® is a trademark of Medi-Dose, Inc)

**This mold is ideal for compounding:
Mini-Suppositories, Troches, Treats, Tab-Triturates**

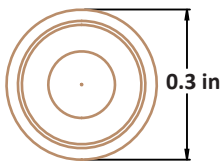

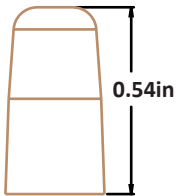

SKU : SPBM225-050

BENEFITS

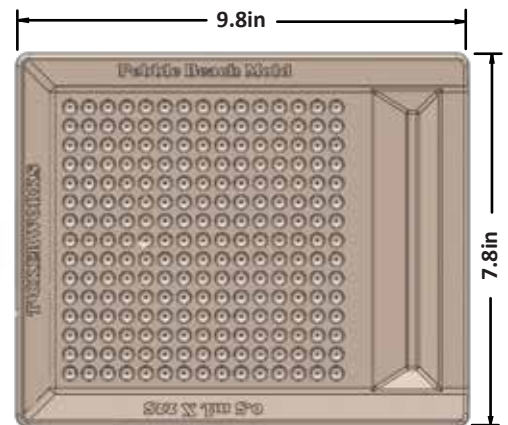

- HIGHEST PRODUCTIVITY
- EASY TO USE
- MAXIMUM PATIENT COMFORT

FEATURES

- Dishwasher safe
- Heat & Chemical Resistant
- BPA & Latex Free
- Run-off Trough for excess collection
- Flip-to-Auto-Eject Technology
- Autoclavable

POUR & DISPERSE METHODOLOGY

Suppository Dimensions

Volume	0.50 mL
Length	0.54 in
Max Diameter	0.3 in

Weight of Each Suppository or Troche may vary depending on the base material used.

Mold Dimensions

L x W x HT 9.8 X 7.8 X 0.8 in
Wt. 833 g

US PATENT (Pending 2024)
