POTERIE RENAULT

*True vintage culinary and home ceramics from
France*

FOUND POTTERY

In the fall of 2018 we discovered Poterie Renault by chance on a trip to the Loire Valley in France. Urban legend told of the unfortunate collapse of Poterie Renault, once the largest maker of restaurant-grade culinary ceramics.

Finding this old warehouse behind the Renault family chateau full of hundreds of references will always be one of our greatest discoveries.

Working with the heir, Jean Renault, we purchased the remaining stock and began to tell the amazing Poterie Renault story.

We are thrilled to be sharing this amazing legacy with our American customers and hope you enjoy owning a piece of French history as much as we do.
